Members are requested to consider how they wish to deal with referrals.

Any additional referrals that have been made to this Committee up to and including the date of publication of this agenda will be reported at the meeting.

The following referral has been made:

Council – 11 July 2023

At the meeting of full Council on 11 July 2023 the following motion was considered and referred to the Health and Social Care Overview and Scrutiny Committee:

COUNCIL (AND SCHOOLS) PROVISION OF PLANT-BASED FOOD

Bradford Council, together with our partners, is taking a comprehensive range of actions to tackle the climate emergency, reduce our carbon footprint, improve our environment and deliver clean growth.

As reported to the Regeneration and Environment Overview & Scrutiny Committee on 15 November 2022, we have almost halved the Council's total emissions from 42,000 tonnes of CO₂e to 22,000 tonnes between 2014-15 and 2021-22 and we are continuing to make progress.

This year the Council has adopted a Good Food Strategy to improve access to healthy food and make it more affordable for people across the District to make informed choices about what they eat. The Strategy recommends encouraging residents to choose a more balanced, more plant-based diet.

Through our Facilities Management service to schools we enshrine choice in the offer which includes plant-based options for students and a full vegan diet for anyone who requests it. National nutritional guidance still recommends a balanced diet is most easily accessible to all children if it includes fish, poultry, meat and dairy products so we continue to offer those choices too.

An increasing number of our Council-run events – such as the recent Culture and Climate Symposium and the Culture Is Our Plan showcase – are already offering fully plant-based catering, and there is a commitment for future events to satisfy a percentage of plant-based options.

All relevant UN and UK Climate Change Committee reports emphasise the need to significantly reduce our use of animal products in response to the climate crisis. In the UK, for example, approximately 10% of greenhouse gas emissions are estimated to be linked to agriculture, most of which is the methane produced by livestock.

The agriculture sector has reduced greenhouse gas emissions by around 16% between 1990 and 2020, according to Defra data. Whilst this is heading in the right direction there is clearly much more to do if we are to meet our Net Zero target.

The 2022 Farm Practices Survey indicated that 64% of farmers thought it important to consider greenhouse gases when making farm business decisions.

The 2021 National Food Strategy, led by Henry Dimbleby, set a ten-year goal of a 30% reduction in meat consumption in the UK.

The West Yorkshire Combined Authority's 2020 Emission Reduction Pathway Report estimates that a 32% reduction in red meat and dairy consumption is needed across the region if our goal of net zero carbon is to be met by 2038.

Our district is two-thirds rural and our farmers and food producers make an important contribution to the local economy and the local environment by providing good quality local food.

Council therefore:

Requests that the Director of Public Health provides a report to Health and Social Care Overview & Scrutiny setting out the Council's progress on delivering our food strategy including how it can support residents in the cost of living crisis, local businesses in a changing world and reducing our carbon footprint including any options for extending plant-based catering across all Council-run external sites (leisure centres etc.) whilst retaining freedom of choice for individual dietary preferences or requirements.

B. OVERVIEW AND SCRUTINY ACTIVITIES

6. KEIGHLEY COMMUNITY HEALTH AND WELLBEING CENTRE UPDATE

1 - 6

The report of the Bradford District and Craven Health & Care Partnership (**Document "E"**) provides an update to develop a Community Health and Wellbeing Centre from which a wide range of services is provided and will improve the health and wellbeing of the

local population by addressing not only the medical needs, but also the wider determinants of health.

Recommended –

To note the update on the Keighley Community Health and Wellbeing Development.

7. THE BEST 1001 DAYS PROGRAMME - PILLAR ONE OF THE CHILDREN, YOUNG PEOPLE & FAMILIES PRIORITY FOR BRADFORD DISTRICT & CRAVEN HEALTH & CARE PARTNERSHIP

7 - 22

The Best 1001 Days (formerly Better Births) programme is pillar one of the Healthy Children and Families priority area for Bradford District & Craven. We work collaboratively across sectors and organisations, to achieve our vision: “Working together to improve experiences & outcomes for pregnancy, birth & beyond across Bradford District & Craven”. This is reflective of the Bradford District and Craven Health and Care Partnership Act as One way of working.

This report of the Bradford District and Craven Health and Care Partnership Act (**Document “F”**) highlights some of the key achievements of the past year and outlines our future plans to improve the outcomes for maternity care across our place and reduce disparities in experiences by working as a whole system.

Recommended –

- (1) That members support the sharing of information on initiatives to help reduce inequalities and help ensure the best possible start for life for babies born locally. This includes supporting campaigns on perinatal mental health, encouraging women to book with their midwife within 10 weeks of pregnancy, raising awareness of the maternity and neonatal voices partnership so we can diversify the membership and attendance at meetings and sharing key public health information such as quitting smoking, safe sleep, health and nutrition and more.**
- (2) Note that the Best 1001 Days programme will continue to prioritise the reducing health inequalities agenda, responding to national policy documents such as NHS England’s Core20Plus5 model for tackling inequalities. We will use data as well as lived experience to do so, members are asked for their support in sharing any issues raised by their constituents so that we hear the experiences of all our communities and act on this.**

- (3) That members support our efforts to find a solution to the concerning impact of disadvantaged families in our district missing vital care due to the inability to afford transport costs.
- (4) That members recognise the lack of service provision for the most acutely unwell perinatal mental health patients due to the limited funding available for SMABS.
- (5) Note that the programme will continue to support the two NHS Foundation trusts following the recent CQC inspections, using our place-based 'Act as One' approach. We recognise the wider national challenges which impact upon maternity services, most notably workforce challenges which we will continue to work together on to address with a multi-organisation approach.

8. DRAFT HEALTH AND SOCIAL CARE OVERVIEW AND SCRUTINY COMMITTEE WORK PROGRAMME 2023/24 23 - 28

The report of the Director or Legal and Governance (**Document "G"**) presents a draft work programme 2023/24 for adoption by the Committee.

Recommended –

- (1) That the Committee notes the information in Appendix A and that it, along with any amendments or additions is adopted as the Committee's Work Programme 2022/23.
- (2) That the Work Programme 2023/24 continues to be regularly reviewed during the year.
