

Appendix 5 - Results from the revised questionnaire

This report was generated on 19 August 2016. Overall 639 respondents completed this questionnaire.

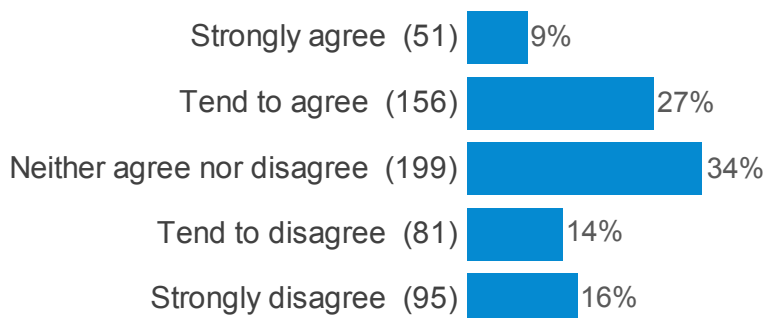

The Council's policy is different to the rest of the country do you think it should be changed and made the same? ()

Do you think the standard policy is fair? If not please tell us why in the comments box ()

Is the STANDARD ALTERNATIVE as described above easier for you to understand than the current policy? ()

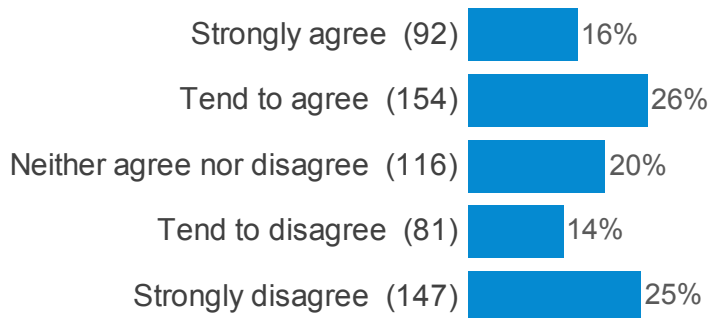

Charging for cost of service - Double ups

Currently in Bradford the cost of care visits which require two workers to be present at the same time are calculated and charged for one worker only.

We are proposing that the actual cost of two carers should be charged for and if a person can afford to pay for the full cost of that they should do so.

Please tick one box for each statement

(The cost of two workers should be charged for those who can afford to meet the cost.)

Charging for care in Supported Living Service

If a service user is living in a Supported Living Accommodation, the support that they receive in that accommodation is not currently charged for. The proposal is that these services come under the Contributions Policy and are charged for.

Please tick one box for each statement

(The support that service users receive in supported living accommodation should be charged for.)
