SUBJECT: LICENSING ACT 2003
VARIATION OF PREMISES LICENCE – PUNCH TAVERNS PLC
BOLD PRIVATEER HOTEL, 69 WROSE ROAD, SHIPLEY

Melanie,

I refer to the application to extend the performance of live music from 2300 hrs to midnight on Friday and Saturday and the provision of recorded music to be extended from 2300 hrs until 0100 hrs on Friday and Saturday.

I can confirm that this Dept is currently investigating an ongoing complaint about excessive noise breakout from the premises affecting residents in Oakdale Drive, Wrose, during the provision of live music. Reports suggest that this is particularly problematic after 2300 hrs when people are trying to sleep, often with windows partially open during the summer months.

I note that, historically, this issue has been brought in front of the Review Panel, and as well as a restriction of hours, further noise control conditions were imposed to protect the amenity of residents (see Annex 3 of licence) in pursuit of the licensing objective---
Prevention of Public Nuisance.

This being the case, I would request that the restriction to 2300 hrs for live music, remains in place.

There is also the associated issue of noise from patrons leaving the premises, many of whom are on motorcycles.

In respect of recorded music, I would request that this be restricted to midnight (an increase of one hour) for the similar reasons of protecting the amenity of neighbouring residents and the prevention of public nuisance.

City of Bradford
Metropolitan District Council

.In any case, its is imperative that the additional condition stipulated in Annex 3, attached after the hearing by the Licensing Authority, be adhered to; in particular;

All external doors and windows of the licensed premises shall remain closed after 2200 hrs, other than for normal access and egress.

and additionally,

The consumption of alcohol or food or any other drinks in the external areas of the premises shall not be allowed after 2300 hours with prominent appropriate signage displayed encouraging patrons to co-operate with this requirement.

Regards,

Ian Farmer
Environmental Health.
