City of Bradford MDC

Agenda for a meeting of the Executive to be held on Tuesday, 19 July 2016 at 10.30 am in Committee Room 1 - City Hall, Bradford

Members of the Executive – Councillors

| LABOUR |
|---------------------|
| Hinchcliffe (Chair) |
| V Slater |
| I Khan |
| Ross-Shaw |
| Ferriby |
| Jabar |

Notes:

- This agenda can be made available in Braille, large print or tape format on request by contacting the Agenda contact shown below.
- The taking of photographs, filming and sound recording of the meeting is allowed except if Councillors vote to exclude the public to discuss confidential matters covered by Schedule 12A of the Local Government Act 1972. Recording activity should be respectful to the conduct of the meeting and behaviour that disrupts the meeting (such as oral commentary) will not be permitted. Anyone attending the meeting who wishes to record or film the meeting's proceedings is advised to liaise with the Agenda Contact who will provide guidance and ensure that any necessary arrangements are in place. Those present who are invited to make spoken contributions to the meeting should be aware that they may be filmed or sound recorded.
- If any further information is required about any item on this agenda, please contact the officer named at the foot of that agenda item.

From: To: Parveen Akhtar City Solicitor Agenda Contact: Jill Bell / Yusuf Patel Phone: 01274 434580/4579 E-Mail: jill.bell@bradford.gov.uk / yusuf.patel@bradford.gov.uk

A. PROCEDURAL ITEMS

1. DISCLOSURES OF INTEREST

(Members Code of Conduct - Part 4A of the Constitution)

To receive disclosures of interests from members and co-opted members on matters to be considered at the meeting. The disclosure must include the nature of the interest.

An interest must also be disclosed in the meeting when it becomes apparent to the member during the meeting.

Notes:

- (1) Members may remain in the meeting and take part fully in discussion and voting unless the interest is a disclosable pecuniary interest or an interest which the Member feels would call into question their compliance with the wider principles set out in the Code of Conduct. Disclosable pecuniary interests relate to the Member concerned or their spouse/partner.
- (2) Members in arrears of Council Tax by more than two months must not vote in decisions on, or which might affect, budget calculations, and must disclose at the meeting that this restriction applies to them. A failure to comply with these requirements is a criminal offence under section 106 of the Local Government Finance Act 1992.
- (3) Members are also welcome to disclose interests which are not disclosable pecuniary interests but which they consider should be made in the interest of clarity.
- (4) Officers must disclose interests in accordance with Council Standing Order 44.

2. MINUTES

Recommended –

That the minutes of the meeting held on 14 June 2016 be signed as a correct record (previously circulated).

(Jill Bell / Yusuf Patel - 01274 434580 434579)

3. INSPECTION OF REPORTS AND BACKGROUND PAPERS

(Access to Information Procedure Rules - Part 3B of the Constitution)

Reports and background papers for agenda items may be inspected by contacting the person shown after each agenda item. Certain reports and background papers may be restricted.

Any request to remove the restriction on a report or background paper should be made to the relevant Strategic Director or Assistant Director whose name is shown on the front page of the report.

If that request is refused, there is a right of appeal to this meeting.

Please contact the officer shown below in advance of the meeting if you wish to appeal.

(Jill Bell / Yusuf Patel - 01274 434580 434579)

4. **RECOMMENDATIONS TO THE EXECUTIVE**

To note any recommendations to the Executive that may be the subject of report to a future meeting. (Schedule to be tabled at the meeting).

(Jill Bell / Yusuf Patel - 01274 434580 434579)

B. STRATEGIC ITEMS

LEADER OF COUNCIL & CORPORATE

(Councillor Hinchcliffe)

5. ANNUAL FINANCE AND PERFORMANCE OUTTURN REPORT 1 - 110 2015-16

The primary purpose of the report of the Director of Finance and the Assistant Director of Policy, Programmes & Change (**Document "G"**) is to give Members insight into the Council's overall position at the end of the 2015-16 financial year by integrating finance and performance information. It provides a detailed statement of the final financial position of the Council at the 31 March 2016 as well as the annual outturn for the Corporate Indicator Set. The report specifically details how Services are performing within the context of the Council's stewardship of its revenue resources.

Recommended -

That the Executive:-

- (1) Note the financial position of the Council reported for the year ended 31 March 2016.
- (2) Approve the £1.259m of additional requests to carry forward funds to 2016-17 outlined in section 2.1 of Appendix 1 to Document "G".
- (3) Note the performance position and endorse the actions to address the identified areas of underperformance in Appendix 1, Section 1 of Document "G".

(Samantha Plum/Andrew Cross – 01274 432682/436823)

6.MEDIUM TERM FINANCIAL STRATEGY 2017-18 TO 2019/20 AND111 -BEYOND INCORPORATING THE EFFICIENCY PLAN154

The Director of finance will present **Document** "H" on the Medium Term Financial Strategy which focuses on how the Council intends to respond to the forecasted public sector funding reductions as a result of the on-going austerity measures imposed by the Government's spending plans. It sets out the approaches and principles the Council will follow to ensure the Council remains financially viable and delivers on its priorities.

The Plan also forms the basis of the Council's Efficiency Plan for the next four financial years.

The next four years already contained a series of potentially significant changes to the structure of the Council and the services it will be responsible for and what it can provide. Many of these changes are still at consultation stage which brings additional complexity when predicting the future. However, the result of the EU referendum has added a further layer of uncertainty to prospects of stability in local government finances.

The forecast identifies further savings of $\pounds 11.5m$ in 2017/18 in addition to the $\pounds 24.2m$ agreed in February 2016. In the following year the gap increases to $\pounds 32m$ in 2018/19 and then up to $\pounds 109.5m$ by 2022/23.

Recommended -

(1) That Executive consider the Medium Term Financial Strategy as an assessment of the Council's financial outlook to 2019/20 and beyond, and a framework for it to remain financially viable and deliver sustainable public

services in line with its priorities using the principles contained in the Efficiency Plan (Annex D) of Document "H".

- (2) That Executive recommends the updated and revised Medium Term Financial Strategy at Appendix 1 of Document "H" be forwarded to Council for approval.
- (3) That Executive recommends, subject to Council approval, to delegate to the Chief Executive, in consultation with the Leader, to apply to take up the multi-year settlement supported by the Efficiency Plan at Annex D to Document "H" based on their assessment of whether this will be in the best interests of the Council.

(Tom Caselton - 01274 434472)

FIRST QUARTER FINANCIAL POSITION STATEMENT FOR 2016-17

The report of the Director of Finance (**Document "I"**) provides Members with an overview of the forecast financial position of the Council for 2016-17.

It examines the latest spend against revenue and capital budgets and forecasts the financial position at the year end. It states the Council's current balances and reserves and forecasts school balances for the year.

Recommended -

That the Executive

- (1) Note the contents of this report and the actions taken to manage the forecast overspend.
- (2) Approve the addition of the £0.7m land acquisition for Station Gateways Programme to the Capital Investment Plan as set out in paragraphs 2 and 5 of Document "I". The scheme to be funded by £0.275m from the Strategic Acquisition scheme and temporary borrowing.

(Andrew Cross – 01274 436823)

155 -

184

C. PORTFOLIO ITEMS

HEALTH & WELLBEING PORTFOLIO & DEPUTY LEADER

(Councillor Val Slater)

8. **REGIONALISATION OF ADOPTION SERVICES**

185 -194

The purpose of the report of the Strategic Director of Children's Services (**Document "J**") is to provide information to the Council's Executive about the proposals for adoption reform contained within the government's Education and Adoption Act 2016. It sets out the Yorkshire and Humber regional plan for adoption and requests delegated authority for the Director of Children's Services to form a Yorkshire and Humber central adoption hub and develop a West Yorkshire Regional Adoption Agency which is to be hosted by Leeds City Council.

Recommended -

- (1) That Executive approve the formation of a Yorkshire and Humber adoption service as set out in this report.
- (2) That authority be delegated to the Director of Children's Services, in consultation with the Education, Employment and Skills Portfolio Holder to progress the development of the Yorkshire and Humber Hub and the West Yorkshire Adoption Agency and to proceed with the revised structure leading to the transfer of staff to Leeds City Council as the host of the West Yorkshire Agency with the new arrangements being in place for April 2017.
- (3) That a further report be presented to the Executive prior to the implementation of the new arrangements, including details of proposed governance arrangements.

(Jim Hopkinson - 01274 432904)

EDUCATION, EMPLOYMENT & SKILLS PORTFOLIO

(Councillor I Khan)

9. PROPOSED EDUCATIONAL PSYCHOLOGY TEAM SPIN-OUT FROM THE LOCAL AUTHORITY

The Director of Children's Services will present a progress report on the proposal to spin out the Educational Psychology Team as an Employee Owned Mutual (**Document "K**").

Recommended -

The Executive is requested to approve final sign off of the proposal that the EPT spins out of the LA as an Employee owned Mutual, in the form of a Community Interest Company, from 1st November 2016.

(Ruth Dennis - 01274 439444)

ENVIRONMENT, SPORT & CULTURE PORTFOLIO

(Councillor Ferriby)

10. UNAUTHORISED DEPOSIT OF WASTE (FIXED PENALTIES) REGULATIONS 2016

The Strategic Director Environment & Sport will submit a report (**Document "L"**) in which the Executive is asked to agree to the use of Fixed Penalty Notices for fly-tipping offences as provided for in the Unauthorised Deposit of Waste (Fixed Penalties) Regulations 2016.

Recommended -

- (1) That the Strategic Director Environment and Sport be given delegated authority in consultation with the Portfolio Holder to implement the provisions within the Unauthorised Deposit of Waste (Fixed Penalties) Regulations 2016.
- (2) That the Strategic Director Environment and Sport authorise in writing designated Council officers to issue Fixed Penalty Notices for fly- tipping and such officers will receive appropriate training.

203 -208

195 -202 (3) That the fixed penalty be set at £400 which will be reduced to £300 if the penalty is paid in full before the end of the period of 10 days following the date of the notice.

(Amjad Ishaq - 01274 433682)

MINUTES OF THE WEST YORKSHIRE COMBINED AUTHORITY 31 11. **MARCH 2016**

209 -220

To receive the minutes of the following meetings of the West Yorkshire Combined Authority (Document "..." attached):

EXCLUSION OF THE PUBLIC 12.

Recommended –

That the public be excluded from the meeting during consideration of the item relating to the allocation of Basic Need Funding for a new primary school in Silsden (Not for publication Document "N") on the grounds that it is likely in view of the nature of the business to be transacted or the nature of the proceedings, that if they were present, exempt information within Paragraph 3 (financial or business affairs) of Schedule 12A of the Local Government Act 1972 (as amended), would be disclosed and it is considered that, in all the circumstances, the public interest in excluding public access to the relevant part of the proceedings outweighs the interest in publication of the report.

13. ALLOCATION OF BASIC NEED FUNDING FOR A NEW PRIMARY 221 -SCHOOL IN SILSDEN

227

The report of the Strategic Director Children's Services (Not For Publication Document "N") provides an overview of the various arrangements put in place to enable the replacement of Aireview Infants and Hothfield Junior schools with a new school building.

Recommended

That the Executive approve the allocation of basic need funding and other incomes towards the cost of the new school building.

(Terry Davis - 01274 434333)

Overview & Scrutiny Area: Corporate

1. SUMMARY

The primary purpose of this report is to give Members insight into the Council's overall position at the end of the 2015-16 financial year by integrating finance and performance information. It provides a detailed statement of the final financial position of the Council at the 31 March 2016 and the annual outturn for the Corporate Indicator Set. The report specifically details how Services are performing within the context of the Council's revenue resources.

2. BACKGROUND

In accordance with the Accounts and Audit Regulations 2011, the Director of Finance is required to sign and issue the Statement of Accounts by 30 June 2016. Members' approval of the accounts is sought after the completion of the Audit on or before 30 September 2016.

This report, and the regular reporting of spend and performance to Members, is a key element of the Council's corporate performance framework, which provides assurance that the Council has control over its finances, and its investments are driving the delivery of improvements to our corporate priority objectives.

This report sets out both the financial position at 31 March 2016 and how the Council has performed in 2015-16 in the context of on-going reductions in Government funding and inflationary and demographic pressures. Focusing on how performance has affected the final financial result and likewise whether the financial result has had an impact on service delivery.

3. MAIN MESSAGES

3.1 Overall Performance

- 3.1.1 On 14 June 2016, the Council's Executive approved a new District Plan which identifies the priority outcomes that the Council, its partners and local communities are working together to achieve for the District:-
 - Better skills, more good jobs and a growing economy,
 - A great start and good schools for all our children
 - Better health, better lives
 - Decent homes that people can afford to live in
 - Safe clean and active communities

The District Plan provides a focus and accountability for delivering investment and activities that secure positive progress towards achieving these priorities.

A Council Plan is currently being developed which will identify the Council's contributions, its responsibilities for direct delivering and a new set of key performance indicators.

These indicators will help us to measure progress towards achieving organisational and District wide objectives, to understand the local context in which we are operating, identify areas that require improvement and guide decisions about the allocation of resources. They will also provide an indication of organisational performance in relation to sickness and productivity.

No single organisation can secure the positive results that collectively we are seeking to achieve so we must recognise the need to work together to maximise the impact of all the District's assets and resources.

Often the performance of other organisations will have greater direct impact than that of the Council. Nevertheless the Council retains a key role as the democratically accountable leadership of the District, as its advocate and in influencing its communities, organisations, businesses and public services. Monitoring progress towards priorities therefore offers opportunities to assess the impact of Council leadership, advocacy and influence as well as its direct delivery and commissioning of services.

- 3.1.2 While the Council Plan will provide the framework for future performance monitoring and reporting the Council currently uses 45 headline indicators to measure its performance and productivity. This report summarises performance against those indicators up to March 2016.
- 3.1.3 The indicators tell us that performance in many key areas is improving and remains on target reflecting the positive impact of previous investment and policy decisions. However there continue to be areas where the District faces significant challenges and where performance is either deteriorating or not improving quickly enough.
- 3.1.4 The Council has made significant investments to support young and disadvantaged people who are furthest from the labour market into work and these have delivered positive benefits for a great many people. Working with business, Leeds City Region and others we have secured new apprenticeships, jobs and investment. Nevertheless, despite showing improvements employment rates continue to remain too low and the proportion of the population without qualifications too high, and therefore a continued focus on ways of securing inclusive growth that benefits everyone is necessary.
- 3.1.5 Good progress is being made on supporting children and families in the early years of life, effective child protection processes and in reducing the numbers of young people who are not in education, employment or training. However key indicators of school standards such as Key Stage 2 achievement and good GCSE's and of school leadership are not improving fast enough.

Educational attainment continues to be a priority area for improvement with performance being closely monitored and managed by the Education School Improvement Board as part of the Ofsted Inspection Improvement Plan. The District is moving to a school led approach to improvement but the Council has made resources available to support the recruitment, development and retention of outstanding school leaders, secured significant new resources for additional school places and is promoting an Education Covenant which makes clear the role that everyone can play in improving education.

3.1.6 The Council's increasing focus on preventative care, support to help people get back to independent living after an illness or hospital stay and on-going additional investment to address demographic changes means that many social care services are performing well. For example, Bradford is a top performer in terms of its rate of admissions to residential and nursing homes. Working with health services to use resources effectively is delivering good results in terms of reducing the numbers of delayed hospital discharges that are down to a lack of social care capacity.

Demographic changes leading to rising demand for care mean that the Council will need to continue to work closely with health partners, keep promoting self care and invest more in early interventions in order to sustain good performance.

Health and health inequalities continue to present significant challenges but the difference in life expectancy between the most and least deprived parts of the District is falling.

3.1.7 The Council is performing well in its efforts to increase affordable housing supply by investing to bring empty homes back into use although the numbers of private housing conditions improved through Council interventions is below target. This is primarily due to an increasing demand for initial inspections of private sector housing conditions which is leading to less resource being available to actually make the improvements. The Council continues to provide support to vulnerable home owners.

- 3.1.8 Perceptions of anti-social behaviour and community relations are deteriorating. The Council works closely with local communities to identify, monitor and address tensions and promotes active citizenship. The People Can campaign encourages people from all backgrounds to work individually and together to improve things for themselves and others. Activities encourage a sense of pride in community and locality.
- 3.1.9 The Council's Management team is still undertaking targeted work to improve the organisations sickness targets and whilst there has been a slight improvement, performance is still below target.
- 3.1.10 In summary, of the 43 indicators that have targets, 17 are on target, 9 are within acceptable variance and 17 are below target. In addition to service specific issues the change could reflect the challenges of improving performance or maintaining high performance at a time of reducing financial resources and increasing demand which require shifts in investment and focus to deliver transformational change.
- 3.1.11 A detailed summary and commentary of those areas of good and improving performance as well as those areas of underperformance is included in section 1 of the appendix to this report.

3.2 Headline Financial Result

Net revenue spending was £0.8m (0.2%) less than the approved budget of £400.8m, similar to the position reported at the Third and Fourth Quarters.

The table below shows individual departmental results, with services to the public and businesses as a group outturning $\pounds 3.1m$ (0.8%) below planned spend, and support and non-service functions $\pounds 3.2m$ (7.2%) below plan. Central budgets and reserve movements are $\pounds 5.5m$ more than planned, reflecting provision being made for future non-recurrent liabilities and movements to reserves including deferred expenditure ($\pounds 2.8m$). Detailed commentary on each Department is found in Appendix 1.

| | Gros | s expen | diture | | Income | | Ne | t expend | iture |

| Total Council Spend | 1,342.5 | 1,352.7 | 10.1 | 941.8 | 952.7 | -10.9 | 400.8 | 400.0 | -0.8 |

*Includes £2.8m of deferred expenditure

Service budgets and actuals include year end accounting adjustments for depreciation, impairment and pensions. They also include Facilities Management costs and budgets (utilities and repairs) which during the year are managed and controlled within Regeneration. These affect Service's budgets and actual spend but have nil impact on the final service variances.

Source: The Council's ledger (SAP) as at 31 March 2016

3.3 Deferred Spending

£2.8m of funding is being carried forward to 2016/17, to finance uncompleted priority activities (detail in Appendix 1 Section 2.1).

3.4 Implementation of Budget Savings

The 2015-16 budget included \pounds 37.7m of specific savings across all parts of the Council. \pounds 4.9m were not delivered as planned. As previously reported, the main variances include:

- £3m reduction in transport assistance reform was underachieved by £1.8m; making sure the approach to reassessing entitlement is right and properly resourced has taken longer than anticipated. £0.6m of investment over 2 years in Travel Training has been agreed as part of the 2016-17 budget to support the reform.
- £3m saving from Children's Centres was underachieved by £0.2m due to delays in establishing the final external clusters, now expected by August 2016.
- £1.6m saving in Adults Residential Care was underachieved by £0.65m as numbers of external placements have not reduced as planned and an In House home that was planned to be de-commissioned remains open.
- £1.0m saving linked to reductions in High Cost Adult Services placements was underachieved by £0.5m due to lower than planned net reductions in placements.

3.5 Capital Investment

Total capital investment was 270.6m across the district, 24.3m less than the forecast budget of 274.9m.

| Services | Budget £m | Outturn £m | Variance £m |
|---|--------------|---------------|----------------|
| Adult & Community Services | 0.6 | 0.7 | 0.1 |
| Children's Services | 24.7 | 24.0 | -0.7 |
| Public Health | 0.4 | 0.4 | 0.0 |
| Environment & Sports | 3.6 | 3.0 | -0.6 |
| Property & Economic Development | 17.9 | 17.5 | -0.4 |
| Regen - Climate, Housing, Employment & Skills | 11.5 | 10.9 | -0.6 |
| Regen - Planning | 1.1 | 0.7 | -0.4 |
| Total - Regen - Highways & Transport | 15.1 | 13.4 | -1.7 |
| | 74.9 | 70.6 | -4.3 |

- The capital investment included the completion of Margaret Macmillan Tower, three new affordable schemes, the new Forster Academy school and the redevelopment of Clergy House to provide temporary accommodation for homeless families amongst others. In addition £6.6m was provided for regeneration through the City Centre Growth Zone and the former Tyrls site cleared to enable regeneration.
- Materially all of the £24m of capital expenditure within Children's services is funded by grant income and not Council resources.

3.6 Contingencies and Provisions

- The budget included contingencies which were utilised during the year to offset the risks which emerged, from unexpected liabilities and timing differences in the implementation of change. In closing the year, funds have been set aside to deal with established and emerging risks arising from the continued and complex series of changes being implemented, future restructuring costs, the academisation agenda, uncertainties about future income flows, and doubtful debts.
- At the 31st March 2016, the Council set aside £22.7m, of which £9.4m is expected to be used in 2016-17 with the remainder in subsequent years. Provisions are £2.7m higher than at the 2014-15 year end.

The main provisions include:

£8.4m Termination Provision to fund the cost of future redundancies

£6.0m Business Rates appeal provision

- £4.0m Outstanding legal claims
- £3.9m Damage Compensation

3.7 Reserves

The Council's reserves at the end of the year include:

| | Opening Balance £ms | Movement in 15-16 £ms | Closing Balance £ms |
|---|---------------------------|-----------------------------|---------------------------|
| Unallocated reserves available to support the annual revenue budget | 33.7 | -13.7 | 19.9 |
| Corporate Earmarked Reserves | 47.7 | -8.9 | 38.9 |
| Reserves to support capital investment | 13.9 | -0.7 | 13.1 |
| Service Earmarked Reserves | 30.6 | 12.2 | 42.8 |
| Revenue Grant Reserves | 9.1 | -0.7 | 8.4 |
| General Fund Reserves | 10.8 | 0.0 | 10.8 |
| Schools Delegated budget | 38.4 | -4.6 | 33.8 |
| Total | 184.2 | -16.4 | 167.8 |

- At 31st March 2016 unallocated reserves stand at £19.9m inclusive of the £0.8m Council underspend. The 2016-17 budget assumes £6.2m will be used to leave a forecasted unallocated balance of just £13.8m at 31 March 2017 (1.5% of the Council's gross budget excluding schools) as a contingency reserve.
- The balance continues to be seen as potentially inadequate by both the Director of Finance and the Council's External Auditors given Governments fiscal policies that will reduce Council net spending from £400m in 2015-16 to £300m by 2021.
- Of the £12.2m increase in Service Earmarked reserves; £4.9m relates to the creation of an ICT Programmes Reserve to fund refresh of equipment and software following the end of the IBM contract. A further £4.9m has been set aside to cover future costs associated with the implementation of the Care Act that has been deferred by the Government.

3.8 Council Tax and Business Rates

Council Tax

- The Council Tax element of the Collection Fund ended the year £3.1m in surplus, of which 85% (£2.6m) belongs to the Council.
- The overachievement of Council tax income compared to the budgeted figure is due to a higher number of new properties being billed and a lower than forecast cost in the current year of providing Council Tax Reduction support.
- The total amount collected and in year collection rates are as outlined.

| | 2014-15 | 2015-16 | 2016-17 |
|---|---------|---------|---------|
| Council Tax (incl surplus/ deficit) £ms | -146.56 | -152.10 | -161.95 |
| In year collection rates* | 94.18% | 94.24% | |

Business rates

- The Business Rates retention scheme provides for Business Rates collected by Bradford Council to be shared between itself, central government and the West Yorkshire Integrated Fire Authority. Any difference between what the Council forecast it would raise in Business Rates in 2015-16 (£68.513m) and what it has actually raised results in either a surplus or deficit on the Collection Fund,
- A deficit of £21.2m was outturned, in line with the forecast in January 2016. Bradford's share (49%) of this deficit was £10.4m.
- A reason for the deficit was the impact of appeals. Successful appeals require the Council to refund business in 2015-16 and in many cases prior years. There was a high cost of refunds because:
 - Refunds due to rateable value reductions on GP surgeries backdated to prior years
 - Refunds on other rateable value reductions
- This deficit on the Business Rates Collection Fund was fully forecast when the 2016-17 budget was set. As a result, the deficit has already been budgeted for.
- The total amount collected and in year collection rates are as outlined.

| | 2014-15 | 2015-16 | 2016-17 |
|---|---------|---------|---------|
| Business Rates (incl surplus/deficit) £ms | -64.3 | -68.72 | -63.69 |
| In year collection rate | 97.94% | 96.94% | |

3.9 Conclusion

- Performance against the 45 key indicators showed a spectrum of improvement and deterioration, reflecting external factors beyond the direct control of the Council, and the complexity of issues being tackled, alongside tangible better outcomes.
- The financial result, in a continuing adverse fiscal environment, showed once again a significant reduction in the net cost of operations, in line with the Council's Medium Term Financial Strategy.

4. RISK MANAGEMENT AND GOVERNANCE ISSUES

This is a detailed retrospective report. The financial data is subject to the current yearend audit, with the external auditors not signalling any material issues to date. The significant performance and financial issues reported were identified earlier in the year and where appropriate, were factored into the 2016-17 budget. Risk management processes are in place in support of day to day operations and change activity, and will continue to identify what mitigating action reduces risk to an acceptable level.

5. LEGAL APPRAISAL

There are no significant legal issues arising from this report. The proposed arrangements for reporting performance are in line with the Government's expectations regarding self-regulation which the Council will continue to monitor.

6. OTHER IMPLICATIONS

7. EQUALITY & DIVERSITY

Equality Impact Assessment is undertaken as part of the annual budget setting decision process.

8. **RECOMMENDATIONS**

The Executive is recommended to:-

- 8.1 Note the financial position of the Council reported for the year ended 31 March 2016.
- 8.2 Approve the £1.259m of additional requests to carry forward funds to 2016-17 outlined in section 2.1 of Appendix 1.
- 8.3 Note the performance position and endorse the actions to address the identified areas of underperformance in Appendix 1, Section 1.

1. PERFORMANCE SUMMARY

45 headline indicators are used to measure the Council's performance against its identified priorities and the effectiveness of its internal operations.

Depending on their data source, indicators can be reported monthly, quarterly, termly, half yearly or annually. In some cases where validation is required the information may be for a historic period. The performance report needs to be viewed in the context of the current resource climate and looking ahead, future performance may be at risk from a range of adverse factors that vary from service to service and which are covered in more detail in the report.

A new, more detailed, set of corporate indicators is being currently being developed as part of the work to develop District and Council Plans and this headline set of indicators is supplemented by a range of departmental operational indicators linked directly to service delivery and reviewed by Strategic Directors on a regular basis.

In terms of this indicator set, the overall performance position has deteriorated since last year with more indicators failing to meet targets. However, some below target indicators were set higher, more challenging targets for 2015/16.

Of the 43 indicators that have targets 17 (39.5%) are on target (\checkmark), 9 (21%) are within an acceptable variance (\land) and 17 (39.5%) are below target (\bigcirc).

As opposed to a simple analysis of those indicators which are on target and those which are not, a trend analysis which shows whether performance is better or worse compared with the same period last year is available for 42 of the indicators. Of these indicators, 22 demonstrate improving performance, 3 have no change and 17 demonstrate decreasing performance.

There are a number of areas of where performance is above the target including;

- Delayed transfers of care from hospital which are attributable to Adults social care which is now down to 0.128 from 0.62 as a result of work to improve the various pathways and enhance patient flows whilst ensuring patients are moved safely
- Percentage of 16 to 18 year olds who are not in education, employment or training which is now down to 3.5% from 5.4%, a record low for Bradford and well below the National average of 4.2%
- Percentage of children achieving a good level of development in Early Years Foundation Stage which is up to 62% from 55% due to intensive modernisation work with schools and a programme of targeted support.
- Initial child protection conferences (ICPCC) held within 15 working days of the start of the section 47 enquiries were up to 93.39% from 74.26% as a result of work undertaken with the Children's Integrated Assessment Team to refresh their knowledge of the information required to set up an ICPCC which will hopefully improve performance further.
- Difference in life expectancy for females at birth between the most and least deprived parts of the District where the gap is now narrower than at any time since 2004/6. The work of the Public Health teams working in partnership with other Departments and Partners helps contribute to this. The rate for males has stayed the same.
- Empty homes bought back in to use where the total is now 5,651 compared to 2,167 last year. This is a positive direction of travel and will reflect a range of factors including an increase in activity in the housing market as well as more targeted activity, such as the operation of Council Tax discounts and the activities of the Empty Homes and Loans team to encourage empty properties back in to use.
- Percentage of third party spend that is through pre-established and market tested contract arrangements which is up to 87.06% from 72% as a result of a more detailed analysis of the contract and grant register which is now reconciled on a monthly basis to ensure compliance with Council standing orders.

There are also a number of areas where although performance is still below the agreed target, there is improvement on the previous year's performance including;

- Permanent admissions to residential and nursing homes 18-64 per 100,000 population this indicator is showing as under achieving against a very challenging internal target. The outturn was 6.05 which is above the target of 5.73 although there was an improvement on last years performance of 6.9. This still leaves Bradford as a top performer and compares very favourably with regional (11.5) and national (14.2) averages.
- Percentage of pupils gaining level 4 in reading, writing and maths combined (Key Stage 2) -The outturn was 76% which is below the target of 80% but an improvement on last years performance of 73%. Targeted work is continuing with priority 3 and 4 schools (schools causing concern) with named Achievement Officers and school to school support arrangements being put in place.
- Percentage of pupils gaining 5 A*-C grades at GCSE or equivalent including English and Maths (key stage 4). The outturn was 45.5%, compared to 44% last years which although still below the target of 60% is an improvement on last year. In an effort to continue to tackle this issue and the indicator below, school improvement partnerships have been established and formalised between Bradford secondary schools and academies that are good or outstanding and those that require improvement.
- Percentage of pupils attending a secondary school judged good or outstanding The outturn was 45% which is below the target of 73% although this is an improvement on 39% last year.
- Greenhouse gas emissions from Council operations The outturn was 83,387 tonnes which is below last years performance of 84,789 tonnes but still above the target of 70,641 tonnes. Whilst a number of small initiatives have been delivered across the organisation further action needs to be undertaken by Senior Management to reduce corporate energy consumption in both its facilities and transport arrangements.
- The Average Number of Working Days Lost per Employee due to Sickness Absence in Bradford Council (including Schools) - Although performance improved from 9.99 days in 2014/15 to 9.59 days in 2015/16 this indicator missed the target of 9.03 days. Management is continuing to deliver the range of initiatives which saw sickness rates reduce last year by the highest level over the last three years in order to deliver further improvements. These include identifying hotspots, interventions and inactions in DMT meetings, closer management working with the Employee Health and Wellbeing Service and targeted work with long term sickness cases.

However, there are also a number of areas of under performance against agreed targets and performance on the previous year is down

- Percentage of schools where leadership is judged to be good or better The outturn is slightly down on the 72% last year to 71% and is below the target of 85%. Action is being taken to improve performance on this indicator with the Council employing a strategic manager to monitor and challenge current leadership structures in some schools and implement more rigorous monitoring arrangements reporting underperformance to Governing Bodies for action.
- Percentage of pupils attending a primary school judged good or outstanding Actual is down to 67% from 73% last year and below the target of 83%. Amongst other initiatives school to school support is being used to ensure leaders in primary schools are using appropriate strategies to improve their school performance and share best practice in teaching core subjects.
- Percentage of people who agree that their local area is the place where people live together harmoniously which is down to 62.6% and slightly below the target of 64%.

Initiatives as part of the People Can campaign which encourages people from all backgrounds to work together separately to improve things for themselves and others encourage a sense of pride in community and locality which should see an improvement in this indicator.

- Percentage of household waste sent for reuse, recycling and composting down to 48% and below the target of 55%. The service is aiming to improve performance by increasing the levels of recycling at kerbside in 2016/17 through the introduction of bin policy and waste program initiative
- Percentage of residents with high negative perceptions of anti-social behaviour (ASB) up to 24.5% and above the target of 22%. The ASB Improvement Plan has been reviewed and local arrangements have been coordinated in relation to enforcement and recording processes, training and information sharing to improve response and efficiency and reduce negative perceptions.
- Overall employment rate for the whole working age population outturn was 65.4%, very slightly better than last year but still below the target of 68.5%. In order to support improvement in this indicator, ongoing initiatives such as the Council led Programme 'Get Bradford Working' which has already supported over 1500 individuals into employment and the City Centre Growth Zone are continuing to have an impact.
- The number of private sector homes where, through the intervention of the Climate, Housing, Employment & Skills Service, housing conditions have been improved has reduced down to 1,330 (2,167 in 2014/15) which is below the target of 1,750. The Service has had to focus on an exceptional increase in initial inspections (which are critical in initiating enforcement activity) rather than follow up inspections which confirm that necessary improvements have been made and which are counted for this indicator. It is likely that the number of follow up inspections will increase shortly as the exceptional demand over the last 2 quarters work through.
- Proportion of working age population qualified to at least NVQ Level 3 which is down to 46.1% from 47.6% the previous year and below the target of 50%. Raising Educational attainment in schools remains a key priority in the District Plan with a key action being to provide real opportunity for skills development when young people leave school.
- The Average Number of Working Days Lost per Employee due to Sickness Absence in Bradford Council (Excluding Schools) – out-turn was down to 11.29 and above the target of 9.76. Management is continuing to deliver the range of initiatives which saw sickness rates reduce last year by the highest level over the last three years in order to deliver further improvements. These include identifying hotspots, interventions and inactions in DMT meetings, closer management working with the Employee Health and Wellbeing Service and targeted work with long term sickness cases.
- Percentage of land and highways that is assessed as having deposits of litter, detritus, graffiti and fly-posting that fall below an acceptable level is up to 12% from 8% the previous year. The service is working to address this by filling vacancies, introducing new technology, raising awareness about litter and better joint working within neighbourhoods.

Table 1.2 below provides a detailed commentary on each of the 17 underperforming indicators and includes an explanation as to why the indicator is underperforming and what actions Departments are taking to address the matter.

Table 1.1 Corporate indicators – 2015-16 annual outturn

| Code | Description | PI | Last Update | Good | | 2015/16 | | 2014/15 | DoT | Comments |
|-----------------|--|-----------|-------------|--------------------|--------|---------|----------|---------|------------------|--|
| | | Frequency | | performance is | Value | Target | Status | Value | | |
| ASCOF 2A pt1 | Permanent admissions to residential and nursing homes 18-64 per 100,000 population | Months | March 2016 | Aim to minimise | 6.05 | 5.73 | • | 7 | Improving | See underperforming report |
| ASCOF 2A pt2 | Permanent admissions to residential and nursing homes 65+ per 100,000 population | Months | March 2016 | Aim to minimise | 733.33 | 750 | S | 731.28 | Getting worse | All placements go through the placement group which consists of team managers, local authority residential managers and nurses. These are scrutinised to ensure all possible options have been looked at. Where a placement is not agreed it is deferred and further information is asked for. |
| COF 2C 14 | Delayed transfers of care from hospital which are attributable to Adults social care | Months | March 2016 | Aim to minimise | 0.128 | 2.3 | S | 0.62 | Improving | Staff at hospitals work to two processes. They work through all delays on the wards across the hospitals to ensure patients are moved safely. 7 day working operates on these sites so there is a patient flow. Bed meetings are attended to look at difficult discharges. Various pathways are worked on and improved to enhance patient flow. |
| ASC STS 010 | The effectiveness of reablement - the percentage of service users who are able to manage on their own or require reduced hours following re-ablement services | Months | March 2016 | Aim to maximise | 56.72% | 51% | 0 | 60.34% | Getting worse | The long and short term target has exceeded by 5%. Re-configuration in April 2016 of the service should reduce the disparity between highest and lowest performers. |

| Code | Description | PI | Last Update | | | 2015/16 | | 2014/15 | DoT | Comments |
| | | Frequency | | performance is | Value | Target | Status | Value | | |
| CIS_03 (NI116) Page 15 | Proportion of children and young people living in poverty | Years | 2013/14 | Aim to minimise | 23.6% 2013/14 value | 23.0% 2013/14 target | | 23.6% 2012/13 value | Same | The proportion of Bradford's children living in poverty has dropped almost 8 percentage points - from 31.4% in 2007. Over the same period there has been only a 3.6% percentage point decline in the England rate. However, until recently, two factors indicated that local child poverty rates would start to rise from 201. through to 2020. First: the Institute for Fiscal Studies projected a national upswing in child poverty rates from 2012-2020 on current economic models; and second, in Bradford District the child population growth is higher than average, driven by high birth rates, and is concentrated in the most deprived areas of the District. In 2013, 57% of the 33,565 children and young people living in poverty lived in nine of the District's 30 wards. In order of the highest number of children in poverty per ward these were: Little Horton (2,560); Bowling and Barkerend (2,480); Bradford Moor (2,450); Tong (2,285); Manningham (2,280); Great Horton (1,885); Toller (1,810); Eccleshill (1,635) and City (1,630) wards. |
| CIS_010 (NI 73) | Percentage of pupils gaining level 4 in reading, writing and maths combined (Key Stage 2) | Years | 2015/16 | Aim to maximise | 76.0% | 80.0% | | 73.0% | Improving | See underperforming report |
| CIS_011 (NI 75) | Percentage of pupils gaining 5 A*- C grades at GCSE or equivalent including English and maths (key stage 4) | Years | 2015/16 | Aim to maximise | 45.50% | 60.00% | | 44.00% | Improving | See underperforming report |

| Code | Description | PI | Last Update | Good | | 2015/16 | | 2014/15 | DoT | Comments |
|---------------------|--|-----------|-------------|--------------------|-------|---------|--------|---------|------------------|---|
| | | Frequency | | performance is | Value | Target | Status | Value | | |
| CIS_013 (NI 117) | Percentage of 16 to 18 year olds who are not in education, employment or training (NEET) (calculated annually on the basis of the average NEET rate across the three months between November and January) | Years | 2015/16 | Aim to minimise | 3.5% | 5.2% | 8 | 5.4% | Improving | The target is measured on the average of the 3 months of November, December & January. The academic ages 16 to 18 adjusted NEET rates for November 2015 and December 2015 were, at 3.5% for each, joint record lows for Bradford district. The rate for January 2016 was 3.6%. The average for the 3 months was therefore 3.5% and the 2015/16 target was achieved. The equivalent figure for England was 0.7 percentage points higher at 4.2%. Out of 152 English local authorities Bradford's NEET rate was joint 47th lowest. |
| CIS_014 (Nage 16 | Percentage achieving a Level 3 qualification by the age of 19 | Years | 2015/16 | Aim to maximise | 50.6% | 53.0% | | 50.7% | Getting worse | Although at Level 2 and Level 2 with English and maths Bradford improved and closed the gap on the national figure, for the second year in succession attainment of Level 3 fell marginally (-0.1 percentage point). As the national figure increased slightly the gap is 0.5pp higher than in 2014 and 131st of 152 local authorities nationally (130th in 2014). The review of post-16 that has been conducted this year has led to an action plan for both rapid and longer term improvements in attainment. |
| CIS_052 | Percentage of schools where leadership is judged to be good or better | Years | 2015/16 | Aim to maximise | 71% | 85% | | 72% | Getting worse | See underperforming report |
| CIS_053 | Percentage of children achieving a good level of development in Early Years Foundation Stage | Years | 2015/16 | Aim to maximise | 62% | 61% | | 55% | Improving | Continued to be an upward trend and closing of the gap to national averages due to intensive moderation work with schools and programme of targeted support. |

|----------------------------|--|-----------|-------------|--------------------|--------|---------|--------|---------|------------------|--|
| | | Frequency | | performance is | Value | Target | Status | Value | | |
| CIS_054 | Raising of the participation age (post 16) | Years | 2015/16 | Aim to maximise | 95% | 96% | | 95.3% | Getting worse | The target is measured at the end of December. Raising of the participation age figures for December 2015 for residents of Bradford district showed that the vast majority of academic age 16 and 17 young people were meeting the duty to participate in learning: 95% at 16, 88.6% at 17. The 95% figure was 1% below target. However, it was 0.1% above the England average of 94.9%. |
| CS_ESI03 | Percentage of pupils attending a primary school judged good or outstanding | Years | 2015/16 | Aim to maximise | 67.0% | 83.0% | | 73.0% | Getting worse | See underperforming report |
| CS_ESI04 Page &_N15a | Percentage of pupils attending a secondary school judged good or outstanding | Years | 2015/16 | Aim to maximise | 45.0% | 73.0% | | 39.0% | Improving | See underperforming report |
| €_N15a 17 | Initial child protection conferences held within 15 working days of the start of the s.47 enquiries | Months | March 2016 | Aim to maximise | 93.39% | 80% | | 74.26% | Improving | There are challenges to maintaining the current level of performance given a consistent rise in overall numbers of children subject to a child protection plan. This places a stress on fitting in Initial conferences into a diary that will have a higher number of reviews already entered. There has been recent contact with the front end Integrated assessment team to refresh their knowledge of the information required to set up an ICPCC which will assist them to do this task more efficiently and hopefully improve their performance further. |

| Code | Description | PI | Last Update | | | 2015/16 | | 2014/15 | DoT | Comments |
|--------------------------------|--|-----------|-------------|--------------------|--------|---------|--------|---------|------------------|--|
| | | Frequency | | performance is | Value | Target | Status | Value | | |

| CIS_026 (NI 192) | Percentage of household waste sent for reuse, recycling and composting | Months | March 2016 | Aim to maximise | 48.00% | 55.00% | | 51.82% | Getting worse | See underperforming report |
| CIS_027 (NI195a) Page 18 | Level of street and environmental cleanliness : (litter) | Termly | March 2016 | Aim to minimise | 12% | 11% | | 8% | Getting worse | The service is reviewing this indicator over the next couple of months; with the possible intention of replacing it with a district wide survey that would be more meaningful and carried out more frequently. In order to hopefully improve cleanliness levels across the district, the service is looking at the following: conducting trials in new ways of recruiting and deploying staff introducing aspects of technology such as routing and phone applications run a media campaign with Marketing that raises awareness about littering and fly tipping improving the connectivity between Ward Clean Teams, Community Wardens, Enforcement Officers and the Marketing team to try strengthen prevention of littering and fly-tipping by successfully securing and highlight more prosecutions for these activities |
| CIS_051 | Percentage of residents with high negative perceptions of anti-social behaviour | Years | 2015/16 | Aim to minimise | 24.5% | 22% | | 22.5% | Getting worse | See underperforming report |

| Code | Description | PI | Last Update | | | 2015/16 | | 2014/15 | DoT | Comments | |
|-----------|---|-----------|-------------|--------------------|---------------------------------|---------------------------|--------|---------------------------|------------------|---|--|
| | | Frequency | | performance is | Value | Target | Status | Value | | | |
| PHOF4.01 | Infant mortality - The number of deaths under the age of 1 per 1,000 live births | Years | 2014/15 | Aim to minimise | 5.6 2011/13 Value | 6.8 | 0 | 5.6 | Same | Figure nationally verified on the 16 May 2016. The figure of 5.6 relates to the period of three calendar years 2011, 2012 and 2013. | |
| PHOF0.1ia | Healthy life expectancy at birth (Female) | Years | 2014/15 | Aim to maximise | 61.0 2012/14 Value | 61.2 2012/14 Target | | 59.0 Previous Value | Improving | Figure nationally verified on the 16 May 2016. The figure of 61.0 relates to the period of three calendar years 2012, 2013 and 2014. The target here is to increase female "Healthy life expectancy at birth", such that it matches the rate for males - as this is seen in national figures. In Bradford, healthy life expectancy at birth remains lower for women than for men, but the absolute figure for women is at its highest rate yet, and the gap between female and male Healthy Life expectancy is narrower than ever before. | |
| CF0.1ib | Healthy life expectancy at birth (Male) | Years | 2014/15 | Aim to maximise | 61.5 2012/14 Value | 61.2 2012/14 Target | | 61.9 Previous value | Getting worse | Figure nationally verified on the 16 May 2016. The figure of 61.5 relates to the period of thre calendar years 2012, 2013 and 2014. The target here is to maintain male "Healthy life expectancy at birth" at a level which exceeds England's figures. In fact, Bradford's level has not exceeded the England rate. The rate is, however, higher than the Yorkshire an Humber rate. The Public Health department continues to work with other departments and other organisations to identify means of extending life expectancy, implementing initiatives and making commissioning decision accordingly. | |

| | | Frequency | | performance is | Value | Target | Status | Value | | | |
| CIS_02_1 (NI151) | Overall employment rate for the whole working age population | Quarters | Q4 2015/16 | Aim to maximise | 65.4% | 68.5% | | 65.3% | Improving | See underperforming report | |
| CIS_02_2 | Overall employment rate broken down for 16-24 year olds | Quarters | Q4 2015/16 | Aim to maximise | 40.9% | 39.3% | 0 | 37% | Improving | The employment rate for 16-24 year olds fell over the year to December 2015 compared to an increase across Leeds City Region and the UK. Bradford's youth employment rate of 40.9% remains significantly below Leeds City Region (53.0) and the UK (53.5%). | |
| CIS_05 (NI 154) Page 21 | Net number of additional homes provided | Years | 2014/15 | Aim for target | 1,134 2014/15 Value | 900 2014/15 Target | | 874 2013/14 Value | Improving | Next audited figure available August 2016. Outturn updated following Housing Flows Reconciliation submission to CLG. The official net additional homes figure of 1,134 for 2014/15 is significantly lower than the original estimate of 1,320, primarily because: There were some data processing issues when producing the final outturn There were 96 additions and 2 deletions that are included in Council Tax but do not fall under the definition of a self-contained dwelling (two large student complexes where the Valuation Office has recorded individual rooms instead of self-contained clusters). This does, however, still reflect a significant improvement and is the highest figure for 5 years. The final outturn was also still ahead of target. | |

| CIS_07 Page 22 | Total number of long term empty homes in the District | Years | 2015/16 | Aim to minimise | 4,154 | 4,073 | | 3,942 | Getting Worse | The data for this annual indicator comes from the CTB1 return which is made in October. The number of long term empty homes has increased in the last year which is probably explained by the following reasons - (i) there are 1,550 additional properties in the District which means that there is likely to be a proportionate increase in the number of empty homes; (ii) a number of new housing developments are showing as vacant at the moment; and, (iii) there has been a slight change in the way some empty properties, such as flats are counted - since this also includes student flats there is the added factor that many properties would be empty at the time of the report being run from the Council Tax system (5th October) but will now be occupied. The outturn still shows that there has been a significant reduction (3,419) in the number of long term empty homes compared with the baseline year in 2008/09. As a response to the fact that this indicator is effectively a net measure which is affected both by increases in the number of properties and empty homes bought back into use, an additional measure is now being collected which shows that in the year up to March 2016, 5651 formerly long term empty properties ceased to be classed as empty. |

Commentary

Why is this indicator underperforming?

Actual performance since 2014/15 has improved and is very close to the very challenging target set by the service. The numbers living in care homes in this age group are very low, and steady, despite local demographic pressures. The baseline for 2013/14 is not directly comparable as the Adult Social Care Outcome Framework (ASCOF) measure definition was revised by the Department of Health; subsequent figures include people not publicly funded.

The outturn was 6.05 which is above the target of 5.73 although there was an improvement on last years performance of 6.9. This still leaves Bradford as a top performer and compares very favourably with regional (11.5) and national (14.2) averages.

How does performance compare to other Councils/organisation?

Initial data submitted to Health and Social Care Information Centre via the annual Short and Long Term (SALT) data collection is representative of only 19 admissions to permanent care for adults aged 18-64 during 2015/16 giving an ASCOF value of 6 when divided by the 18-64 local population.

In 2014-15 we were in the top 3 performing councils in the Yorkshire and Humber Region and initial feedback via Association of Directors of Adult Social Services Sector Led Improvement suggests we will be a top performer on this measure yet again in 2015-16. The regional average for this measure in 2014-15 was 11.5 and the England average 14.2.

What actions are being taken to improve performance?

Developing community based alternatives, transformational programme in learning disability, new initiative to scrutinise unplanned admissions to the Assessment & Treatment Unit, review of contract for outreach and crisis intervention in learning disability, senior management oversight of placement panels.

Commentary

Why is this indicator underperforming?

The underperformance is due to the fact that 74 schools had at least 10% of their 2015 Year 6 cohort not achieving L4+ Reading Writing and Maths.

How does performance compare to other Councils/organisation?

In 2015 Bradford was ranked in 142nd position out of 152 local authorities nationally for the percentage of pupils gaining level 4 in reading, writing and maths combined (Key Stage 2). Bradford was ranked 9th when compared to our 10 statistical neighbours (Blackburn with Darwen, Bolton, Derby, Kirklees, Oldham, Peterborough, Rochdale, Sheffield, Telford and Wrekin and Walsall) and was ranked in 14th position within the Yorkshire and the Humber region that comprises of 15 LAs, with Doncaster the only local authorities with a lower percentage of pupils gaining level 4 in reading, writing and maths combined (Key Stage 2).

Bradford's achievement for the percentage of pupils gaining level 4 in reading, writing and maths combined (Key Stage 2) was 4 percentage points lower (76%) than the national average of 80% in 2015.

What actions are being taken to improve performance?

- More rigorous scrutiny of data undertaken from September 2015 and underperforming schools were categorised accordingly and a named Achievement Officer allocated to monitor and evaluate progress of the school.
- The majority of priority 3 and priority 4 schools (schools causing concern) were offered a good or better school to
 provide school to school support.
- Autumn visits by the School Improvement Service focused on the solutions and actions taken by underperforming schools in order to achieve better results in 2016. However it is important to note that the new assessment measures have not helped in schools being able to set realistic targets.
- Named Area Headteacher Leads were directed to visit the priority 1 and priority 2 schools which did not meet their level 4+ reading, writing and maths targets.
- All schools were sent their actual 2012 key stage1 attainment in level 2b+ in reading, writing and mathematics and were encouraged to set end of key stage 2016 targets based on previous attainment, that is, their pupils starting point at the start of key stage2 (i.e. level 2b+ in 2012).

Commentary

Why is this indicator underperforming?

This indicator is underperforming because not enough students make good progress relative to their starting points to attain good GCSE passes in five subjects including English and mathematics. This is, in part, due to pupils' below average attainment on entry to secondary school following Key Stage 2 tests. In addition, a higher than average inward mobility of students, particularly during Year 10 and 11 increases the challenge to secure the high standards expected by age 16. A significant number of schools face challenging circumstances that can act as a barrier to improvement; for example, the recruitment and retention of highly effective leaders and teachers leaders in key subjects including English and mathematics. This has a limiting effect on the capacity in some schools to improve student performance at the necessary pace. Leaders are also not always able to respond quickly enough to the needs of different groups of students to improve outcomes, including those who are disadvantaged or who have arrived at times other than the start of an academic year.

How does performance compare to other Councils/organisation?

In 2015 Bradford was ranked in 148th position out of 151 local authorities nationally for the percentage of pupils achieving 5 A*- C grades at GCSE or equivalent including English and maths. Bradford achieved the lowest result when compared to our 10 statistical neighbours (Blackburn with Darwen, Bolton, Derby, Kirklees, Oldham, Peterborough, Rochdale, Sheffield, Telford and Wrekin and Walsall) and was ranked in 15th position within the Yorkshire and the Humber region that comprises of 15 local authorities.

Bradford's achievement for the percentage of pupils achieving 5 A*- C grades at GCSE or equivalent including English and maths was 8.3 percentage points lower (45.5%) than the national average of 53.8% in 2015.

What actions are being taken to improve performance?

Senior officers have liaised with the Regional Schools Commissioner and the DfE to explore ways in which additional capacity can be generated through the introduction of external academy sponsors in the district. As a result, four schools that were judged to be a cause for concern are now receiving support that is tailored to remove barriers to progress and improve student outcomes. Secondary school leaders have a good understanding of the reasons for underperformance as a result of regular reviews undertaken by the Bradford Partnership. As an outcome of reviews, school improvement partnerships have been established and formalised between Bradford secondary schools and academies that are good or outstanding and those that require improvement. As of 2016, this will no longer be the main measure of school performance. Instead, progress and attainment measures will be based on students' performance across eight subjects. Consequently, leaders are currently working together to ensure that improvement strategies are tackling the changes in curriculum and assessment requirements to ensure that students achieve as well as they can.

As at 31st March 2016, 71% of schools in Bradford were judged good or outstanding leadership, compared to 88.2% nationally. Bradford achieved the lowest result when compared to our 10 statistical neighbours (Blackburn with Darwen, Bolton, Derby, Kirklees, Oldham, Peterborough, Rochdale, Sheffield, Telford and Wrekin and Walsall) and was ranked in 15th position within the Yorkshire and the Humber region that comprises of 15 local authorities.

What actions are being taken to improve performance?

- The Council has sent warning notices to schools with weak leadership and governance.
- The Council has employed a strategic manager for recruitment and retention to monitor and challenge the current leadership structures in place in some of our schools.
- The strategic manager has been promoting the model of Executive Headship where head-teacher vacancies have arisen.
- Weak leaders have been more rigorously scrutinised and monitored and their performance reported to governing bodies for them to take appropriate action.
- Underperforming schools have been advised or instructed to become sponsored academies by the Regional Schools Commissioner.
- School to school support has been used to improve the leadership of some of our schools by weak leaders learning from best practice from good and stronger leaders.

| | | | | | | | | | |

Why is this indicator underperforming?

- The underperformance is due to an increasing number of both local authority maintained and primary academies securing a requiring Improvement judgement under the new framework.
- The underperformance is also due to some of the requiring Improvement schools who are likely to secure a good Ofsted outcome not yet being inspected.

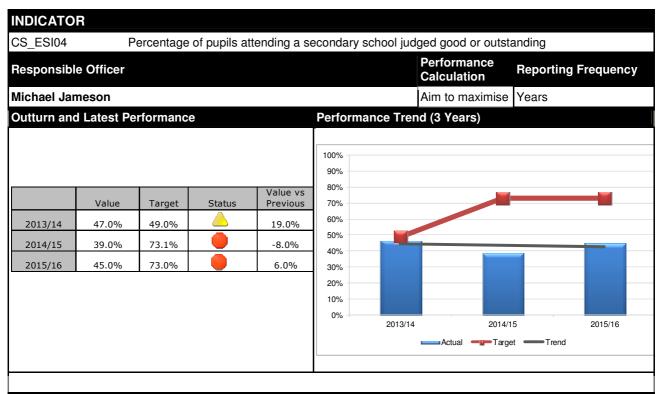

How does performance compare to other Councils/organisation?

As at 31st March 2016, 67% of pupils attended a primary school in Bradford that was judged good or outstanding, compared to 86% nationally. Bradford achieved the lowest result when compared to our 10 Statistical Neighbours (Blackburn with Darwen, Bolton, Derby, Kirklees, Oldham, Peterborough, Rochdale, Sheffield, Telford and Wrekin and Walsall) and was ranked in 13th position within the Yorkshire and the Humber region that comprises of 15 local authorities with North East Lincolnshire and Doncaster the only councils with a lower percentage of pupils attending a primary school that was judged good or outstanding.

However, in May 2016 the percentage of pupils attending a primary school judged good or outstanding has increased to 69% due to some recent inspections judging requiring Improvement schools to have made good progress since their last inspections and awarding them a good overall judgement.

What actions are being taken to improve performance?

- The outcomes of primary reviews, desk top analysis and local intelligence gathered through school visits have been used to risk assess and to allocate priority levels to primary schools. Resources have been deployed according to the needs of the primary schools.
- School to school support is being used to ensure leaders in primary schools are using appropriate strategies to improve their school performance.
- A national leader of education from outside of Bradford was deployed to provide a training package for a group of RI schools in order to get them to secure a good outcome at their next inspection.
- Schools with best practice in reading, writing and mathematics have been encouraged to offer support to schools
 with weak performance in those subjects as well as to host open sessions for practitioners to come and learn from
 their best practice.
- A more rigorous school review was introduced in September 2015. This involved the use of an external lead consultant (lead inspector status), a Council School Improvement Officer and a Peer Headteacher to review an identified school and record the strengths and weaknesses observed during the visit. The review report is shared with governors in order to ensure they have information that can enable them to hold school leaders to firm account.

Commentary

Why is this indicator underperforming?

This indicator is underperforming because standards in secondary schools are too low and not enough students make good progress relative to their starting points. A significant number of schools face challenging circumstances that can act as a barrier to improvement; for example, the recruitment and retention of highly effective leaders and teachers leaders in key subjects including English and mathematics. This has a limiting effect on the capacity in some schools to improve student performance at the necessary pace. Leaders are also not always able to respond quickly enough to the needs of different groups of students to improve outcomes, including those who are disadvantaged or who have arrived at times other than the start of an academic year. Consequently, the proportion of secondary schools in Bradford judged to be good or better by Ofsted is well below the average.

How does performance compare to other Councils/organisation?

As at 31st March 2016 45% of pupils attended a secondary school in Bradford that was judged good or outstanding, compared to 79% nationally. Bradford achieved the lowest result when compared to our 10 statistical neighbours (Blackburn with Darwen, Bolton, Derby, Kirklees, Oldham, Peterborough, Rochdale, Sheffield, Telford and Wrekin and Walsall) and was ranked in 15th position within the Yorkshire and the Humber region that comprises of 15 local authorities.

What actions are being taken to improve performance?

Senior Council officers have liaised with the Regional Schools Commissioner and the DfE to explore ways in which additional capacity can be generated through the introduction of external academy sponsors in the district. As a result, four schools that were judged to be a cause for concern are now receiving support that is tailored to remove barriers to progress and improve student outcomes. Secondary school leaders have a good understanding of the reasons for underperformance as a result of regular reviews undertaken by the Bradford Partnership. As an outcome of reviews, school improvement partnerships have been established and formalised between Bradford secondary schools and academies that are good or outstanding and those that require improvement. Strategies have been implemented to tackle gaps in student performance and to raise standards more rapidly.

Status

Performance on this indicator has fallen by 1.4 percentage points between 2014/15 and 2015/16, from 64% to 62.6%. Bradford East has the lowest proportion of survey respondents who believe people live together harmoniously (59.9%) whilst Shipley has the highest (69.8%). The performance for West Yorkshire as a whole has fallen by 0.5 percentage points from 65.1% to 64.6%.

As a District with both high levels of inequality and deprivation and an ethnically and culturally diverse population, Bradford faces challenges to its aspirations to be a District where people from different communities get on well together and respect and celebrate their differences.

Although there were no major incidents, the EDL demonstration in November 2015 and the unannounced visit by the farright group Britain First in February 2016 may also have impacted on this indicator.

How does performance compare to other Councils/organisation

For quarter 4 2015/16 (January - March 2016) Bradford was ranked 3rd best performing out of the 5 West Yorkshire Police Districts - 62.6% for Bradford compared to 64.6% for West Yorkshire.

What actions are being taken to improve performance?

The Safer Communities and Stronger Communities Partnerships have merged. This will bring further opportunities to develop mitigating action on the issue of community relations. The new Safer and Stronger Communities partnership Plan has been developed and within this Stronger Communities is a key priority.

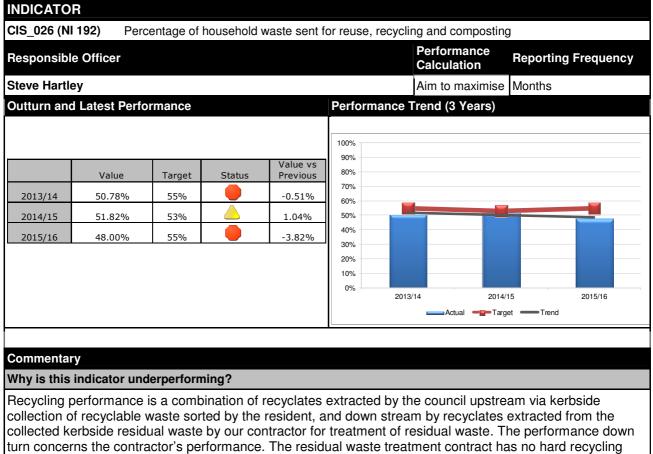

The Partnership's, Equalities and Community relations delivery group will lead on this agenda for the District. The soon to be developed Council's local perception survey will be used to establish a local baseline. Current activities within the delivery plan include responding to emerging issues such as the community relations impact of the EU referendum and increase in Hate Crime.

A new Hate Crime project co-ordinator is to be recruited and will co-ordinator activities around community relations, hate crime and Prevent.

The Partnership's Active Communities group has developed the People Can campaign, with a supporting web and media social media presence. This encourages people from all backgrounds to work together to improve things for themselves and others. Collective social action encourages a sense of pride in community and locality.

The annual Community Stars awards will soon be seeking nominations in a range of categories. The Awards are run in Partnership with the Lord Mayors office and the Telegraph and Argus. The awards recognise and reward community activists from across the District and from different backgrounds.

There are various activities at ward levels planned over the summer including community clean ups, Queen's Birthday celebrations activities and festivals and galas. There are also a variety of events taking place over the summer including Bradford Festival, Bradford Literature festival, World Curry Festival, Love Bradford World record attempt in September (Future leaders programme).

turn concerns the contractor's performance. The residual waste treatment contract has no hard recycling targets, thus the level of recyclates extracted is down to commercial drivers. 2015/16 has seen a down turn in commodity prices for recyclates, resulting in less recyclates being extracted by the contractor because it is not economically viable for them to do so. However this has not adversely affected the Council's landfill diversion performance, as those recyclates previously extracted have gone into the Refuse Derived Fuel, and thus been combusted to create energy.

With regard to performance at the kerbside, this shows an improving picture with an 8% increase in tonnages collected in 15/16. From January to May this year, the service has delivered 18,914 recycling bins to residents requesting them, following the introduction of the Domestic Waste and Recycling Policy (the Bin Policy). The outcome of this is that recycling tonnes are increasing and correspondingly residual tonnes reducing.

How does performance compare to other Councils/organisation?

Whilst overall performance has dropped for the above reasons, down from 51.6% in 2014/15 to48% (provisional figure), this still represents a high performance, and with the exception of Calderdale, is still significantly higher than neighbouring authorities when compared to the last published data in 2014/15 (Leeds 42.9%, Wakefield 38.8%, Kirklees 27.6%). Those Councils who are at the very top of recycling performance, such as Calderdale (60.4%) are undertaking waste food collections, and even adopting 3 weekly collections for residual waste (latest and nearest to do so is Bury).

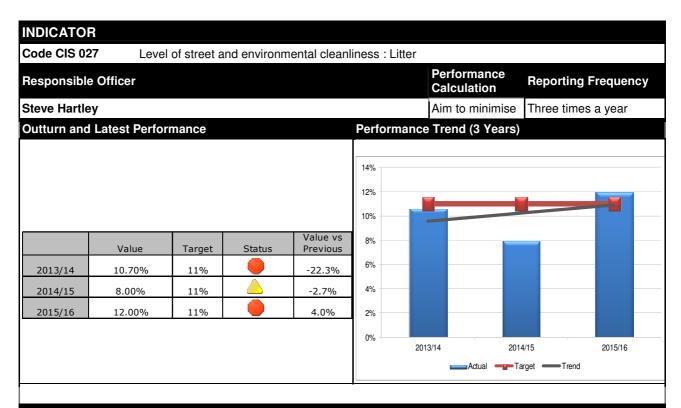

We continue to achieve a high level of landfill diversion, currently estimated @ 88% for the year 2015/16, compared to 81% in 2014/15.

What actions are being taken to improve performance?

Through the delivery of the Domestic Waste and Recycling Policy (one general waste bin and no side waste) we aim to deliver an increase in kerbside recycling tonnages and reduce the residual (domestic) waste collected.

Through a structured, resourced programme, we are seeking to educate, inform and raise levels of awareness regarding the disposal of domestic waste enabling households to increase their levels of recycling. In addition to using a graduated approach to encouraging this behaviour change brought about by restricting the opportunity to maintain current levels of domestic waste, following persuasion and support, enforcement is being used as a last resort.

Supported work with community groups is also taking place to raise awareness and increase recycling participation in addition to the introduction of an incentivised community reward recycling scheme that actively encourages recycling in communities with limited space for a separate recycling bin. We have implemented new refuse collection rounds to make them more efficient and shortly, via the introduction of in cab technology into the refuse collection vehicle fleet, we will further improve our ability to manage and record waste collection issues in real time to further improve efficiency and performance. Finally the Council has approved the introduction of alternate weekly collection of residual waste. This is currently being scoped and planned for 2017 and will see a weekly collection to all households of residual one week and recyclables the next. Such a move will promote a further drive towards greater recycling levels across the district

Commentary

Why is this indicator underperforming?

The indicator measures an expectation of how many streets will be found to be failing on litter across the district despite the best efforts of Cleansing services. It is not a direct productivity measure of the service.

It is not a process that will ever be operating in a controlled environment but is the sum product of various inputs resident behaviour, weather, staff availability, time of day, staff productivity, traffic and road works, adequate waste containment on both vehicles and bins and behaviour of other Council services operating on the street. When all these factors are then spread across 10,000 streets, 2,100 linear kilometres and with an average of 1 FTE cleaning up after 6,300 residents assuming 100% attendance.

The service has been operating with 30 vacancies which equates to 26% of its manual resources missing from the street even before holidays, training and sickness are taken in to account.

Finally it must be recognised that most of the wards across the district are operating at much better levels (lower) than the district score. It is a handful of inner city wards where the problems are significant enough to drag the district average up significantly.

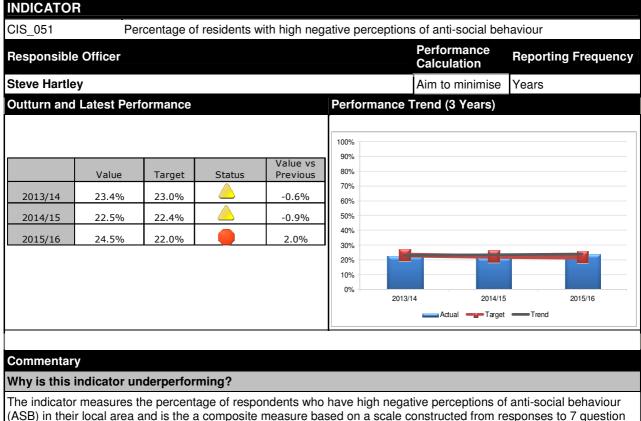

How does performance compare to other Councils/organisation?

No meaningful benchmarking information is available following the removal of the statutory indicator. Prior to this the information was easily accessible via Audit Commission. Recent APSE reports from responding Authorities (60) who still use this indicator give an average of 7.1% fail rate

What actions are being taken to improve performance?

Currently the service is trying to fill 18 of the vacancies with apprentices or full time drivers, with a further desire to fill the remaining 12 posts later this year. Recruitment is being done on 30 hour per week contracts to still allow savings to be made, but still delivering the requisite numbers out on to the street to augment the depleted existing workforce.

There is also a re-routing program for the mechanical sweeping operation to try and extract any possible further efficiency from the fleet, whilst their main focus is on detritus, they do contribute to the fight against litter on the districts streets

(ASB) in their local area and is the a composite measure based on a scale constructed from responses to 7 question areas: % in the local area who perceive the following to be a problem: drunk / rowdy behaviour, traffic Issues, vandalism, graffiti and other damage, teenagers hanging around the streets, noisy neighbours, rubbish and abandoned cars.

Performance has declined from 22.5% in 2014/15 to 24.5% in 2015/16. Within the 7 individual areas of ASB the only one that hasn't seen a deteriorating perception from the public is noisy neighbours/loud parties. There has been a 2.7 percentage point increase in the proportion of respondents who think there is a problem with traffic issues and a 2.6 percentage point increase in those who think there is a problem with rubbish and litter lying around.

In line with this indicator there has also been a slight increase in the proportion of people who believe that the level of ASB has increased in their area over the last 12 months (from 16.7% in 2014/15 to 18% in 2015/16).

How does performance compare to other Councils/organisation?

Within five of the seven areas of ASB Bradford has the highest level of negative perceptions out of the five West Yorkshire Districts (traffic issues, vandalism, teenagers hanging around, rubbish and litter lying around and abandoned/burn out cars). For the areas of drunk and rowdy behaviour and noisy neighbours Bradford has the second highest level of negative perceptions (behind Leeds) but is still worse than the West Yorkshire average.

What actions are being taken to improve performance?

The ASB Strategic Group has reviewed performance data and how this supports the group to determine priorities and deploy/share resources. The data measures performance against the actions in the ASB Improvement Plan which allows the group to identify strengths and weakness and strategically respond to gaps in service delivery. The Improvement Plan has been reviewed and captures ASB priorities, including City Centre ASB.

A six week public consultation commenced on the 9th May 2016 for the Public Space Protection Order (PSPO) for Bradford City Centre. The Regulatory & Appeal Committee approved the consultation process and the final report will be presented back to the Committee in July. Local arrangements have been coordinated in relation to enforcement and recording processes, training and sharing information. The PSPO could specify an area where activities are taking place that are or may likely be detrimental to the local community's quality of life. The PSPO can impose conditions or restrictions on people using that area and can support the enforcement activity within the City Centre.

A District wide Begging Strategy has been introduced to provide anyone sleeping rough or begging in Bradford with access to appropriate partnership support and wrap around care in order to address their personal circumstances. A strong communication strategy will run alongside the operational response including an educational campaign aimed at members of the public and responsible giving.

The district's ASB bike team continue to have a huge impact on nuisance vehicle use across Bradford. When the team are not out responding to live incidents they are conducting intelligence research, following up on reports of ASB vehicle use and also searching "hot spot" areas to monitor activity. This pro-active approach has helped put a stop to

ASB use before it has even happened on occasions. The team work in partnership with Bradford Council and housing associations in order to deal with residents who cause harassment and noise nuisance to their neighbours. The regular exchange of information enables action to be taken against these problem neighbours and will continue to form a part of the teams approach to anti-social behaviour.

The team continues to patrol Bradford District on a regular basis and will deal with the anti-social use of vehicles in a positive manner.

Bradford Safer and Stronger Partnership have allocated funding for a Project Officer to work with businesses across Bradford City Centre to support an 'Employer Supported Policing' scheme which would give the City Centre a dedicated uniformed presence.

"Reach out Bradford" aims to highlight the support offered to vulnerable people who are affected by housing, drug and alcohol issues in the City Centre and provides an outreach service every Wednesday afternoon. Partners include Neighbourhood Policing Team, Bradford Council ASB Team, Horton Housing, Change Agents, Bradford Day Shelter, ARCH futures, West Yorkshire Finding Independence and Council Wardens. Work has been done to identify problematic cohort in and around Rawson Square and liaise with both Fountains Hall and Bridge to determine if this cohort are their service users and to develop positive messages for SMS (Substance Misuse Services) to reinforce with service users in relation to anti-social behaviour in that location

- Routes into Work (RIW) targets those furthest away from the labour market such as individuals with a disability, mental ill-health and drug and alcohol dependency. To date over 400 individuals have been supported into employment through RIW programmes.
- Bradford Apprenticeship Training Agency (ATA) & Apprenticeship Hub. Part of the Cities Deal "Skills Ask", the ATA acts as a recruitment agency allowing organisations to employ apprentices on an agency basis, minimising the risk associated with employing staff more permanently. To date the ATA and Hub have engaged

301 SME employers and have supported 332 apprenticeships into vacancies.

• Industrial Centres of Excellence (ICE) are discrete vocationally based centres within existing schools or colleges with a strong business management. Each ICE aims to address the future strategic workforce needs of local businesses through learning, training and work experience. Ultimately, the target is that each centre will have at least 300 14-19 year olds accessing their provision.

Bradford's City Centre Growth Zone continues to gather momentum with businesses signing up to the programme, creating jobs and occupying vacant units. To date more than 190 companies have been supported to create 341 new jobs stimulating £15 million of capital investment in the city and bringing 47 vacant properties into use.

Bradford has recently secured JRF funding to trial employer led practical projects that will improve access to employment for those most disadvantaged in the labour market as a way of addressing poverty. Bradford is also involved with city region and national initiatives looking at how to promote inclusive growth.

Commentary

Why is this indicator underperforming?

This indicator reflects performance across a range of activities that improve housing conditions in the private sector. Against a general background of significantly increasing demand and key outputs, there are several reasons why performance on this indicator is below the anticipated level that was reflected in this year's target.

- 1. When the target was set it was assumed that 264 properties would be improved through the installation of energy efficiency measures as part of the Better Homes Yorkshire programme (this figure being the proportion of the programme target for Bradford). However, changes in Government policy have led to significant reductions in funding and only 140 properties have been improved through this route. Targets have had to be revised downwards for the next year and will be reviewed once the new national domestic energy efficiency funding policy for 2017 onwards is known. It should also be noted that in 2014/15 there were 655 completed energy schemes included in the outturn for this indicator which accounts for a large part of the exceptionally high level of performance in that year.
- 2. A significant proportion of the target relates to the work of the Housing Standards team who carry out enforcement activity on landlords where there are health and safety risks in rented properties. The second half of the year has seen an exceptional increase in demand (up by 11.8% from the same period last year and 16.8% on 2013/14) while overall there has been a year on year increase of 2.9% since 2013/14. This unexpected increase in demand may have a bearing on this performance indicator because the team has had to focus on initial inspections (which are critical in initiating enforcement activity) rather than follow up inspections which confirm that necessary improvements have been made and which are counted for this indicator. It is likely that the number of follow up inspections will increase shortly as the exceptional demand over the last 2 quarters work through.
- 3. In addition to the general increase in requests for assistance, the Housing Standards team carried out a major proactive exercise in the last quarter of the year focussing on high risk premises. This exercise involved carrying out a large number of proactive inspections and again is likely to have reduced the number of follow up inspections that could take place in the same period.
- 4. The longer term increase in demand has also led the Housing Standards team to review its operational practices so that resources can be prioritised on the most significant issues this includes encouraging tenants to take remedial action in the first instance (although support is provided if these approaches are not effective). In particular, in the last year if someone contacts the service about damp and mould problems, an initial assessment has been carried out to establish whether condensation is the likely cause and if so to provide appropriate information and guidance to the tenant on ways to address this. This has happened in around 60 cases in the last year, whereas previously these cases would have probably resulted in an initial and then a follow up inspection that would have counted to this indicator.
- 5. The Housing service provides assistance to vulnerable owner occupiers either as an equity loan or grant to address critical housing defects. In the last year there has been a managed reduction in the number of cases being processed because of uncertainty about continued funding the amount of loans and grants completed in the last year reduced by more than half (-67%) to 43. However, the capital allocation for this support has now been renewed.

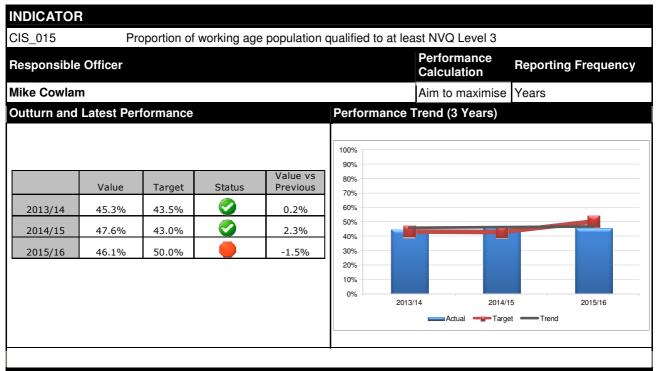

6. The number of empty homes bought back in to use in the last year has reduced from the previous year. This reflects the fact that as the Empty Homes Programme continues, there are fewer properties that can be easily bought back in to use and conversely the remaining empty properties are increasingly difficult to address. This said, success in bringing the more problematic properties back in to use generally has an increased impact, because not only does this increase housing stock overall, but often there are wider neighbourhood and social benefits (for instance by removing a neighbourhood blight).

How does performance compare to other Councils/organisation?

It is not possible to benchmark this indicator. However the service has regular informal contacts with other West Yorkshire authorities, who also report increased demand and difficulty in responding to new legislation. This regular contact allows the exchange of best practice between authorities and has also resulted in the development of shared responses to enforcing new legislation (such as the requirement for lettings agents to belong to redress schemes and the installation of smoke and CO alarms).

What actions are being taken to improve performance?

- 1. The element of the target relating to energy efficiency measures will need to be revised downwards in 2016/17 to reflect the Yorkshire wide targets and availability of funding this will still be vulnerable to national policy changes.
- 2. It is anticipated that the number of properties improved through intervention of the Housing Standards team in particular, will increase in line with the increased demand for service. Measures will be put in place to ensure that these are recorded and also adjustments made for any operational changes that will not be picked up by the existing data collection arrangements.
- 3. Following the fresh capital allocation to support equity loans and health and safety assistance to vulnerable homeowners, a new marketing campaign is being developed.
- 4. The service will seek to carry out more proactive work using recently completed stock modelling to target resources on the highest priority areas.

Commentary

Why is this indicator underperforming?

Skills levels in Bradford have been low historically. Reasons for persistent low skills include weak educational attainment levels in our schools, low levels of employer training and migration patterns that typically see skilled people migrating to other parts of the region whilst migrants coming to Bradford have lower skills. Bradford's industrial sector profile is characterised by lower than average levels of high skill, knowledge based jobs which mean that Bradford struggles to retain skilled workers in parts of the district. Poor graduate retention levels is another reason for low skills and again is partly a reflection of the industrial profile of the district.

Census data shows that higher skilled jobs in businesses and public sector employers are disproportionately taken by people living outside the district which brings average skills levels down. Bradford also has higher levels of working age people with no qualifications which makes progression to NVQ level 3 harder to achieve.

International migration patterns into Bradford mean that many people coming into the district have low skills levels which again impacts in the average across the whole population. Bradford has higher than average levels of residents with poor English language skills which again impacts on progression to higher skills attainment.

How does performance compare to other Councils/organisation?

- Bradford ranks 339th out of 380 local authorities across England, Scotland and Wales.
- Bradford has the second lowest NVQ3 attainment of any authority in the Leeds City Region and in Yorkshire and the Humber. Only Barnsley has a lower rate.
- Bradford's NVQ 3 level attainment rate is lower than the majority of cities and towns across the UK.
- Wolverhampton, Peterborough, Stoke and Ipswich are some of the places with lower NVQ 3 skills levels.

What actions are being taken to improve performance?

Raising educational attainment in schools remains a key priority and is reflected in the Council Plan priority outcome "A great start and good schools" for all our children. A key action over the next four years is to provide real opportunities for skills development and jobs when young people leave school.

The Producer City Board is leading on action to develop an employer-led education and skills system to match local people to jobs. SkillsHouse is a partnership venture based in Bradford offering a one stop shop designed to boost retail, hospitality and visitor economy businesses and help local people find jobs in Bradford.

Making parts of the district more attractive to higher skilled workers will also help to raise average skills levels as will tackling poor language skills for migrant communities.

Commentary

Why is this indicator underperforming?

Whilst the target may not have been achieved the overall sickness out-turn has reduced by the highest level of the 3 years measured above. Whilst much of this reduction is on the schools side sickness has also reduced in some areas of the Council such as Chief Executive' Office, Human Resources, City Solicitor, Finance, Public Health and Environment & Sport. This improvement has been masked by an increase in sickness absence in some of our larger Departments (Adult & CS, Regeneration and Children's Services)

Age could be a contributing factor to the sickness performance. Adults & CS and Regeneration have higher levels of staff aged 45 and over together with greater numbers of frontline and former manual staff. Their number one sickness reason is fractures/sprain/muscular which typically can be a long term condition particularly in older workers. In contrast the average age in schools is 41 with only 40% of staff aged 45 and over and the number one sickness reason is cold/flu/viral a typically short term condition.

How does performance compare to other Councils/organisation?

Currently there is little comparative data available for the last financial year. Using the CIPFA benchmarking data for 2014/15 the average figure including schools was 9.4 days for the metropolitan councils involved (Rotherham 9.3, Dudley 10.3, Doncaster 9.7).

The CIPD absence management report for 2015 also states that public sector sickness increased by almost a day in 2015, whilst we have managed to continue our downward trend.

What actions are being taken to improve performance?

There have been a number of Corporate and Departmental actions taken to improve performance.

- Attendance management forms part of the Council's overall performance framework and is monitored through Productivity Clinics /CMT.
- HRPlus ensure managers receive advice and support in managing their people issues. Management information from the system is currently being used at DMT meetings to look at hotspots, interventions and inaction.
- The Council and HRPlus have run a targeted campaign to help reduce long term sickness. The campaign activity focused on a maximum of 120 long term sickness cases and resulted in a reduction in absence. The HR service now follows up on cases where sickness has been recorded on SAP and a trigger point has been reached but no case has been opened with HRPlus. This aims to ensure that managers with sickness cases are getting the advice they need.
- The Employee Heath and Wellbeing Service (EHWB) continue to provide support for managers in dealing with both sickness absence management and preventative actions.
- Attendance management continues to be overseen by the DAC Group (Departmental Attendance Champions) who meet monthly.
- Departments continue to monitor sickness absence triggers, where triggers have been hit improvement targets are set and agreed between the employee and line managers.
- Departments also have specific interventions related to their specific service areas.

Commentary

Why is this indicator underperforming?

The sickness out-turn has levelled out across the Council and whilst there has been no overall improvement there have been areas where sickness has reduced such as Chief Executive's Office, Human Resources, City Solicitor, Finance, Public Health and Environment & Sport. This improvement has been masked by an increase in sickness absence in some of our larger Departments (Adult & CS, Regeneration and Childrens Services)

Age could be a contributing factor to the sickness performance. Adults & CS and Regeneration have higher levels of staff aged 45 and over together with greater numbers of frontline & former manual staff. Their number one sickness reason is fractures/sprain/muscular which typically can be a long term condition particularly in older workers. In contrast the average age in schools is 41 with only 40% of staff aged 45 and over and the number one sickness reason is cold/flu/viral a typically short term condition.

How does performance compare to other Councils/organisation?

Currently there is little comparative data available for the last financial year. Using the CIPFA benchmarking data for 2014/15 the average figure excluding schools was 10 days for the metropolitan councils involved (Rotherham 11, Dudley 12, Doncaster 10)

The CIPD absence management report for 2015 also states that public sector sickness increased by almost a day in 2015, whilst we have managed to maintain our sickness levels.

What actions are being taken to improve performance?

There have been a number of Corporate and Departmental actions taken to improve performance.

- Attendance management forms part of the Council's overall performance framework and is monitored through Productivity Clinics /CMT.
- HRPlus ensure managers receive advice and support in managing their people issues. Management
 information from the system is currently being used at DMT meetings to look at hotspots, interventions and
 inaction.
- The Council and HRPlus have run a targeted campaign to help reduce long term sickness. The campaign activity focused on a maximum of 120 long term sickness cases and resulted in a reduction in absence. The HR service now follows up on cases where sickness has been recorded on SAP and a trigger point has been reached but no case has been opened with HRPlus. This aims to ensure that managers with sickness cases are getting the advice they need.
- The Employee Heath and Wellbeing Service (EHWB) continue to provide support for managers in dealing with both sickness absence management and preventative actions.
- Attendance management continues to be overseen by the DAC Group (Departmental Attendance Champions) who meet monthly.
- Departments continue to monitor sickness absence triggers, where triggers have been hit improvement targets are set and agreed between the employee and line managers.
- Departments also have specific interventions related to their specific service areas.

2. REVENUE OUTTURN

The Council's approved net revenue budget for 2015-16 is \pounds 400.8m. The budget is after \pounds 37.7m of service and non service budget savings. The table below outlines the performance against budget of Council departments.

2015-16 Revenue spend

| | Gros | ss expen | diture | | Income | • | Ne | t expend | iture |

| Total support services and non service | 52.3 | 49.8 | -2.6 | 7.6 | 8.3 | -0.7 | 44.7 | 41.5 | -3.2 |
| Central Budgets & Net Transfers To Reserves* | 6.7 | 19.3 | 12.6 | 42.1 | 49.2 | -8.4 | -35.3 | -29.8 | 5.5 |
| Total Council Spend | 1,342.5 | 1,352.7 | 10.1 | 941.8 | 952.7 | -10.9 | 400.8 | 400.0 | -0.8 |

*Includes £2.8m of deferred expenditure carried forward via reserves to 2016-17.

Service budgets and actuals include year end accounting adjustments for depreciation, impairment and pensions. They also include Facilities Management costs and budgets (utilities and repairs) which during the year are managed and controlled within Regeneration. These affect Service's budgets and actual spend but have nil impact on the final service variances.

Source: The Council's ledger (SAP) as at 31 March 2016

2.1 Better use of Budget requests to carry forward funds

The table below outlines requests from Departments to carry forward funds to finance uncompleted priority activities.

Table 2.1 – Expenditure to take place in 2016-17

2.2 Delivery of Budgeted Savings proposals

The combined budget savings of \pounds 37.7m in 2015-16 (\pounds 35.1m approved by Council in February 2015, and a \pounds 2.6m Government in year cut to the Public Health Grant) brings the total savings the Council has had to find in the five years following the 2010 Comprehensive Spending Review (CSR) to \pounds 172.6m.

Table 2.2- Year on Year savings since 2010CSR

| £m |
|-------|
| 48.7 |
| 28.5 |
| 26.1 |
| 31.8 |
| 37.7 |
| 172.6 |
| |

In tracking progress made against each individual saving proposal, \pounds 32.8m (87%) of the \pounds 37.7m were delivered, leaving \pounds 4.9m that was not delivered as planned.

Saving Tracker

| Service | Budgeted Savings | Revised* Savings | Variance |
|---------------------------------------|---------------------|---------------------|----------|
| Adult & Community Services | 8.6 | 8.3 | 1.2 |
| Children's Services | 9.5 | 9.1 | 0.6 |
| Environment & Sport | 2.9 | 4.5 | 0.5 |
| Regeneration | 4.7 | 4.2 | 0.2 |
| Public Health | 0.9 | 3.5 | 0.1 |
| Director of Finance | 1.9 | 1.9 | 0.1 |
| City Solicitor | 0.3 | 0.3 | 0.0 |
| Chief Executives Office | 1.1 | 1.1 | 0.0 |
| Director of Human Resources | 0.9 | 0.4 | 0.0 |
| Non Service Budgets and cross cutting | 1.3 | 1.1 | 0.2 |
| Travel assistance | 3.0 | 3.0 | 2.0 |
| Total | 35.1 | 37.7 | 4.9 |

*Revised savings vary from the originally budgeted savings as a result of planned structure changes including Culture services and Youth services moving to Environment & Sport and the decentralisation of Transactional Services from Human Resources. Additionally there has been a £2.6m in year government cut to the Public Health grant requiring additional offsetting savings.

As reported previously, the main planned savings that were not to delivered in full include:

Transport Assistance

 Informed by extensive public consultation, the Executive in June 2015 approved a revised Travel Assistance Policy based on principles and guidance contained in a joint framework between Children's and Adults. The £3m reduction in transport assistance was underachieved by £1.8m. Making sure that the approach to reassessing is right and properly resourced has taken longer than anticipated. £0.6m of investment over 2 years in Travel Training has been agreed as part of the 2016-17 budget to help travel assistance reform.

Children's Centres

• Of the £3m saving that was planned to be delivered from clustering Children's Centre provision across the district, £0.2m was not achieved in 2015-16. The shortfall relates to a delay in the reconfiguration of the 3 remaining external Children Centre clusters. The new arrangements should be in-place by August 2016, and the issue should not recur.

Reduction in Adults Residential Care provision

• A £1.6m saving was planned to be delivered by decommissioning an In-House Home and reducing external purchased residential care placements by 80 to 900. Of the £1.6m, £0.65m was not delivered as the In-house home remains open and average external residential placements have reduced by 37 to 943.

Renegotiation of high cost placements in Adults

• £1m of savings was planned to be delivered by renegotiating high cost placements. To date savings of £1.2m have been achieved through reviews and sharing costs with health, however there have been new high cost placements costing £0.7m reducing the overall amount saved to £0.5m. There are a number of service users currently awaiting decisions surrounding Continuing Health Care funding from the NHS which could have a positive impact on the high cost placement budget in the future.

3. SERVICE COMMENTARIES

The Annual Finance and Performance Outturn Report details the specific financial results by department for 2015-16 as well as key performance achievements of each department and service. The commentaries link the opportunity costs and impacts on service delivery with budget variations departments experienced in 2015-16 and, lastly, outline the key challenges they anticipate in 2016-17.

| | FTE | Sickness Rate (days lost per employee) | Overtime spend £000 (cumulative) | True manager cost as % Total salary cost | Vacancy Rate |
|------------------|-------|--|--|--|-----------------|
| Year end 2013-14 | 999 | 15.22 (Mar 14) | £997 | 15.2% (June 14) | 10% |
| Year end 2014-15 | 1042 | 12.74 (Mar 15) | £947 | 14.9% | 11.9% |
| Year end 2015-16 | 1,056 | 13.83 (Mar 16) | £942 | 13.7% | 9.6% |

Adults Services - £182.5m gross budget / £128.5m net budget, £0.8m underspend

In addition to under spending the budget, there are many positive indicators showing that services are transforming in line with the strategy of providing more enabling; preventative; self directed and community based care, and less Residential and Nursing Care. There were however a number of significant variances to budget. These include;

- £0.9m overspend on the £6.1m Learning Disability Residential Fees budget due to rising average costs of placements caused by an increasing complexity of care requirements.
- £0.7m overspend on the £7m Learning Disability Home Support budget due to increased demand resulting from a larger client base.
- To mitigate the above overspends, the department is reviewing clients to identify appropriate care settings to reduce the cost of these placements. The department continues to work with the NHS to share the costs of high cost placements where appropriate.
- £0.5m overspend on the BACES equipment service pooled budget, due to more specialist equipment and record high numbers of items loaned in line with the strategy of keeping service users independent in their own homes for longer. The service has identified a number of mitigations to reduce the pressure in 2016/17. These include a practitioner's panel for the approval of specialist equipment and invest to save measures amongst others.
- £0.5m overspend on the £0.4m No Recourse to Public Funds budget resulting from additional demand. The Council has allocated £0.4m of additional budget for 2016-17.

The overspending areas highlighted above were however more than offset by underspends elsewhere in the department in 2015-16, most notably in Housing Related Support (£0.9m) and staffing savings in advance of further planned savings in 2016-17.

Adult and Community Services

Adult Services underspent the $\pounds128.5m$ net expenditure budget by $\pounds0.8m$, with Operational Services overspending by $\pounds0.4m$, offset by a $\pounds1.2m$ underspend in Integration and Transition and Directors Office.

Operational Services

Despite the £0.4m overspend, many Operational services are performing well with
positive evidence of transformation of services to focus more on preventative care;
enablement services; self directed care including Direct Payments, and Community
Care (Home Care and Extra Care amongst others) that collectively help service
users remain independent, and less on Residential and Nursing Care. This relates
particularly to Older People and Learning Disability Services which together make up
the vast majority of expenditure on Adults Services.

Older People Services

• The table below shows that Older People services are providing higher levels of Community Care (Home Care, Direct Payments), and less Residential and Nursing Care in line with the strategy.

| | 2013-14 | 2014-15 | 2015-16 |
|--|---------|---------|---------|
| Av Older People Residential Population | 1,000 | 980 | 943 |
| Avg Older People Nursing Population | 403 | 488 | 346 |
| Avg Older People in receipt of Homecare | 1,378 | 1,425 | 1,426 |
| Avg Older People in receipt of Direct Payments | 88 | 96 | 104 |
| Total | 2,869 | 2,989 | 2,819 |
| OP Residential Fees £ms | 16.4 | 16.2 | 15.9 |
| OP Nursing Fees £ms | 7.0 | 7.2 | 7.1 |
| OP Purchased Home Care Gross Cost £ms | 8.4 | 8.8 | 8.8 |
| OP Direct Payments Gross costs £ms | 0.9 | 1.1 | 1.2 |
| Total | 32.7 | 33.3 | 33.0 |

- Additionally, higher numbers of clients are being supported through the BACES equipment service, and are in receipt of Disabled Facilities Grants (see Housing Operations in Regeneration) than ever before. This helps Older People remain independent in their own homes for longer, reducing the need for Residential and Nursing Care.
- Other areas of note include the Enablement services which are providing more hours of care to an increased client base compared to 2014-15 and delivering good outcomes.

| B.E.S.T |
|---------|
|---------|

| D.L.O.1 | | | |
|---|---------|---------|---------|
| | 2013-14 | 2014-15 | 2015-16 |
| Gross Costs £000s | 4,570 | 4,458 | 5,045 |
| Income £000s | -2,295 | -3,441 | -4,903 |
| Net Costs £000s | 2,275 | 1,017 | 142 |
| | | | |
| Average Population | 573 | 469 | 481 |
| No of hours of home care provided weekly | 4,562 | 3,929 | 4,852 |
| Average hours of homecare per person per week | 7.96 | 8.38 | 8.79 |
| Average cost per hour | £19.26 | £21.82 | £19.99 |

- 56.7% of service users are able to manage on their own, or require reduced hours of care following the 6 weeks of enablement services.
- Additionally, Bradford's Enablement model includes intermediate care that is funded by the NHS and provided in partnership with Council Residential Homes. This is also delivering excellent outcomes relating to the avoidance of delayed transfers of care from hospital (see KPI table). This outcome compares very favourably with other areas of the country where bed blocking (delayed transfers of care) is a major issue for the NHS.

Learning Disability Services

- Adult Services are also managing additional demand for Learning Disability services resulting from significant demographic growth.
- The table below shows the increase in the number of LD clients being cared for in the main service areas, and also shows that demand is being managed by providing more Home Care, Day Care and Direct Payments, and less Residential and Nursing Care in line with the strategy.

| | 2013-14 | 2014-15 | 2015-16 |
|---|---------|---------|---------|
| Avg LD People Residential Population | 134 | 136 | 128 |
| Avg LD People Nursing Population | 53 | 53 | 50 |
| Avg LD People in receipt of Homecare | 416 | 445 | 501 |
| Avg LD People attending Day Care | 266 | 280 | 352 |
| Avg LD people in receipt of Direct Payments | 209 | 251 | 308 |
| Total | 1,078 | 1,165 | 1,339 |
| LD Residential Fees £ms | 7.1 | 7.6 | 8.1 |
| LD Nursing Fees £ms | 1.3 | 1.1 | 1.1 |
| LD Purchased Home Care Gross Cost £ms | 4.1 | 5.8 | 6.5 |
| LD Day Care £ms | 1.1 | 1.8 | 1.8 |
| LD Direct Payments Gross costs £ms | 3.1 | 3.0 | 4.4 |
| Total £ms | 16.7 | 19.3 | 21.9 |

Access, Assessment and Support

- The service underspent the £11.8m net budget by £0.3m mainly due to delays in recruitment and also as a result of management reviewing the structure.
- The regular reviewing of clients to ensure that they are receiving the appropriate level of care is key to the transformation of Adult Services and the delivery of savings
- The table below shows an increase in the number of reassessments carried out and also a proportionate reduction on reassessments leading to permanent care.

| Reassessments – existing clients with adult care and support assessments | 2014-15 | 2015-16 |
|---|---------|---------|
| Number of existing clients reassessed in period | 1,734 | 2,028 |
| Number of existing clients reassessed where outcome was support plan | 813 | 985 |
| Number of existing clients reassessed where outcome was permanent care | 609 | 656 |
| % of reassessments leading to permanent care | 35% | 32% |

- When coupled with BEST enablement activity information outlined previously, the data indicates a positive transition towards short term enablement that improves service user independence and reduces the need for costly long term care.
- The service also delivered a significant increase in the number of Mental Capacity and Deprivation of Liberty assessments for which a £250k grant was received in 2015-16

Despite the positive direction of travel regarding the transformation of Older People and Learning Disability services, there were however a number of significant budget variances within Operational Services that are outlined below.

Learning Disabilities Purchased Care - Residential Fees

• The service overspent the £6.1m net expenditure budget by £0.9m. The overspend resulted from the rising unit cost of care caused by the full year effect of 2014-15 high cost placements and the part year effect of 2015-16 new high cost placements. The cost of these new contracts rather than the quantity of care weeks provided is increasing the cost base.

| | 2013-14 | 2014-15 | 2015/-6 |
|--|---------|---------|---------|
| Gross Costs £000s | 7,091 | 7,548 | 8,071 |
| Income (Client Contributions) £000s | -100 | -117 | -140 |
| Direct Net Costs £000s | 6,991 | 7,431 | 7,931 |
| | | | |
| Learning Disabilities Average Population | 134 | 136 | 128 |
| Learning Disabilities Weeks of Care | 6,947 | 7,093 | 6,703 |
| Average Cost per person per week | £1,003 | £1,050 | £1,191 |
| | | | |

*The Council also receives £0.8m of Health income making the net budget £6.1m

- Consequently, the service did not fully meet its proportion (£0.5m) of the 2015-16 High Cost Placements budget saving target of £1m. To date, savings of £0.6m have been achieved on high cost placements through reviews and sharing costs with health, however there has been additional high cost placement expenditure as a result of new entrants of £0.6m negating the overall saving.
- The service also has a further £0.5m savings target on high cost placements to achieve in 2016-17.
- To mitigate the overspend in 2016-17 the department's dedicated LD reviewing team will continue to review client's packages of care and negotiate costs with providers. The department also works closely with the NHS to share the cost of high cost placements where a client has both health and social care needs. Demographic growth money provided as part of the 2016-17 budget setting process will be allocated to this budget as required to fund new entrants.

Learning Disabilities Purchased Care - Home Care

Learning Disabilities Home Care overspent the £7.0m net expenditure budget by £0.7m. This is primarily due to an increase of 56 clients compared to 2014-15, resulting in an additional 1,046 hours of care delivered per week compared to 2014-15. It is positive to report that the number of hours each client is receiving has remained static compared to 2014-15, indicating that the overspend is linked to increased people in the system as opposed to increases to current packages of care.

| | 2013-14 | 2014-15 | 2015-16 |
|--|---------|---------|---------|
| Gross Costs (relating to activity below) £000s | 4,146 | 5,829 | 6,552 |
| Gross Costs including other £000s | 5,032 | 6,452 | 7,761 |
| Net Costs £000s | 5,032 | 6,452 | 7,761 |
| LD Home Care Average Population | 416 | 445 | 501 |
| No of weeks of home care provided per year | 21,632 | 23,140 | 26,052 |
| No of hours of home care provided per week | 5,758 | 8,150 | 9,196 |
| Average hours of homecare per person per week | 13.84 | 18.31 | 18.36 |
| Average cost per hour | 13.85 | 13.76 | 13.70 |

- An increase in activity is expected due to higher demand in this area and the strategy of maintaining clients in the community as opposed to typically more costly residential or nursing placements.
- This overspend risk will recur in 2016-17 and will potentially increase due to demographic pressures; however an element of demographic growth money provided as part of the 2016-17 budget will be allocated to fund new entrants. Additionally the service will continually review packages of care to ensure they are appropriate and cost effective.

B.A.C.E.S (Equipment Lending Service)

• The BACES pooled budget with the NHS overspent the £2.8m gross expenditure budget by £1m, of which £0.5m was funded by health. The over spend is linked to increasing demand for equipment,

| | 2013-14 | 2014-15 | 2015-16 |
|---|---------|---------|---------|
| Gross Costs | 2,888 | 3,327 | 3,714 |
| Income | 2,170 | 2,182 | 2,191 |
| Net Costs | 718 | 1,145 | 1,005 |
| | | | |
| Actual Number of Clients | 10,146 | 10,259 | 10,392 |
| Number of NHS Items lent | | 24,905 | 25,186 |
| Number of Local Authority Items Lent | | 9,038 | 11,081 |
| Total Number of Items Lent | 33,191 | 33,943 | 36,267 |
| Deliveries within 7 days (target 93.5%) | 93.2% | 94% | 94% |

• In particular requests for 'special equipment' (equipment which is not kept in stock at BACES) have seen a significant increase over the last two years:

| | 2013-14 | 2014-15 | 2015-16 |
|---------------------------------|---------|---------|---------|
| Special Order Expenditure £000s | 500 | 686 | 755 |

- Expenditure has also increased from 2014-15 on mattress and bed hire, despite purchasing additional mattresses through an invest to save scheme. This is due to the service not being able to meet the short timescale demand from the hospitals.
- The overall performance for items delivered within 7 days is however on target.
- Despite the overspend, the increased use of community equipment is a positive direction of travel as the equipment is used to help people remain independent and in their own homes for longer, potentially reducing the need for more costly Residential and Nursing Care.
- To mitigate the overspend issues in 2016-17, the service has formulated a number of plans. These include;
 - Introducing a practitioner's panel (both Council and Health) for special orders to ensure value for money.
 - Identifying further invest to save initiatives
 - Reviewing the current provision of equipment to Care homes protocol

No Recourse to Public Funds

- The service overspent the £0.4m net expenditure budget by £0.5m due to an increase in the number of families seeking support.
- In 2014-15 a budget reduction of £0.3m was approved on the basis of reducing numbers requiring support; this budget is now reporting an increase in demand and the current migrant crisis could increase this further.
- Additional funding of £0.4m has been allocated through the Council's 2016-17 budget setting process.

Mental Health Purchased Care

- The service overspent the £5.7m net expenditure budget by £0.3m mainly due to additional homecare costs as a result of the de-commissioning of the Mental Health Housing Related Support contract.
- The full year effect on the MH Home Care budget of those clients assessed as Care Act eligible will be apparent in 2016-17 and additional budget has been identified to address this.

Non Residential Charges

• The service has under achieved the £5.7m net income budget by £0.2m due to fewer service users being charged for services and a reduction in the average charge per service user.

| | 2014-15 | 2015-16 |
|------------------------------------|---------|---------|
| Number of service users charged | 2,966 | 2,793 |
| Average charge per client per year | £1,997 | £1,577 |

- The Contributions Policy for Adult Social Care will seek to increase contributions from clients with higher levels of income from 2016-17.
- £0.5m of additional income is planned to result from the new contributions policy, and a further £0.3m of additional income is planned to result from reviewing the charging arrangements for Mental Health clients.
- The above overspends/under achievement of income in 2015-16 were partially mitigated by underspends on staffing budgets and contract savings.
- All other Operational Services performed broadly as planned and to budget.

Integration and Transitions

- Integration and Transitions underspent the £17.6m net expenditure budget by £1.2m. The main service variances include;
- The Mental Capacity and Deprivation of Liberty Safeguards service overspent the £0.1m net expenditure budget by £0.2m; this is after a grant of £0.2m from the Department of Health to assist Councils with the additional budget pressure has been applied.
- This overspend is due to the costs of increased Mental Capacity Act assessments and also the associated costs of medical assessments carried out by doctors.

- The service has submitted a Better use of Budget request of £0.1m to purchase external support to carry out assessments. This will help reduce the current backlog.
- The **Housing Related Support** contract underspent the £6.1m net expenditure budget by £0.9m, this is in addition to the £1.5m 2015-16 saving which has also been achieved.
- Accelerated savings on contracts have been made in preparation for 2016-17 saving of £4.1m.
- All other services are performing broadly as planned and to budget.

2016-17 and beyond

In 2016-17, the department has a number of significant challenges to face including;

- Delivering further savings of £12.5m
- Continuing to manage the impact of demographic growth
- Pursuing with the NHS the best way of integrating Health and Social Care
- The implications of the National Living Wage on providers

3.2 Children's Services

2015-16 Financial Outturn

| | Gros | Gross expenditure | | Income | | | Net expenditure | | |

| Year end 2014-15 | 1628 | 11.69 (Mar 15) | £871 | 17.2% | 11.3% |
| Year end 2015-16 | 1,491 | 11.8 (Mar 16) | £1,245 | 17.4% | 13.0% |

Children's Service - £638.0m gross budget/ £123.9m net budget, £1.7m overspend

The main variances in Children's services include:

- Children's Services are successful in caring for a relatively lower number of children in care compared to other Local Authorities through timely assessment, support and interventions. The cost of caring for these children, as in the case for Local Authorities, is challenging and there is a £3m overspend in the £5.6m purchased placements. This is due to increasingly complex care arrangements and statutory requirements which over a period of time has led to a higher number of non in-house residential care placements and reduction in lower cost Independent Fostering Agency placements.
- There is a £0.4m overspend on the £10.3m Allowances budget paid to carers (Special Guardians, Foster carers, Adoption carers); £0.1m of this results from ongoing consultation on Fostering Allowances that should not recur in 2016-17. The remaining £0.3m is an on-going pressure resulting from the increasing numbers of children receiving support. This spend reflects the priority in monitoring children in family based settings wherever possible.
- The Council has allocated an additional £1.5m as part of the 2016/17 budget to help mitigate the pressure on Purchased Placements and Allowances.
- There are clear strategies and plans being delivered to sustain the healthy balance between care and prevention and a more bespoke placement strategy. This includes Children's Services mitigating the remaining pressure by reviewing the sufficiency and commissioning strategy; re-commissioning block contracts for residential and fostering provision; reviewing the care plans of all young people in purchased placements who can return to internal provision or to an Independent Foster Agency placement, and increasing the capacity of the In-House Fostering Service through training and recruitment.

The overspends highlighted above were partly offset by underspends elsewhere in the department in 2015-16

Children's Services

The department overspent the £123.9m net expenditure budget (£638.1m gross budget) by \pounds 1.7m. In arriving at this position the service has delivered \pounds 8.5m of the \pounds 9.1m of approved service budget savings within the financial year. There is \pounds 428.7m of gross expenditure in relation to schools included within the service expenditure which is primarily funded from the Dedicated Schools Grant (DSG) and delegated to individual schools.

Specialist Services

Specialist Services overspent the £62.5m net expenditure budget by £2.6m after using £0.8m of one off reserves. The main variances within Specialist Services include:

Looked After Children – Purchased Placements

- A purchased placement is either an independent fostering placement, an external residential placement, a leaving care placement, or secure residential provision.
- The Council (in line with other Local Authorities) is seeing an increased trend of Looked After Children requiring more complex purchased placements.

There are several issues contributing to the increased cost of purchasing external placements:

- A shortage of in house options including in-house foster carers; appropriate vacancies within in-house residential units; lack of in-house leaving care provision and no local secure provision.
- An increase in the number of teenagers requiring placements and the reduction in the number of very young children being accommodated has led to a mismatch with current in-house foster carer approval level, skills and/or experience.
- Some risks attract a higher cost package of care (e.g. Child Sexual Exploitation (CSE), Children going missing, violent aggressive behaviour and self harm amongst others.

The overall impact of the above has resulted in a £3.0m overspend on the £5.6m purchased placement budget (Inclusive of Residential, Fostering, Leaving Care and Secure Placements).

PURCHASED PLACEMENTS 2013-14 2014-15 2015-16 Gross Costs £000s 6,686 6,320 9.150 Income £000s (592) (104) 6,320 8,558 Net Costs £000s 6,582 Fostercare Purchased Nights 16.775 12,941 12.320 Secure Residential Care Nights 443 289 770 **Residential Nights Purchased** 14,125 13,156 17,829 3,204 Leaving Care Supported Nights 3.899 1,641 Total 32,984 29,590 34,818 792 791 813 Cost per Purchased Fostercare Week £s Cost per Secure Residential Week £s 4,215 5.152 3.381 2.037 Cost per Purchased Residential Care Week £s 2,226 2,421 Cost per Leaving Care Supported Week £s 1.003 1,076 827

The table below provides a history on the overall number of placements and associated costs.

Allowances

 The Allowances budget of £10.3m paid to carers (Special Guardians, Foster carers, Adoption carers) overspent by £0.4m; £0.1m of this results from on-going consultation on Fostering Allowances that should not recur in 2016-17, the remaining £0.3m is an on-going pressure resulting from the increasing numbers of children receiving support (see table below).

~ /

| Type of Placement | 2012-13 | 2013-14 | 2014-15 | 2015-16 | % Increase from 2012-13 |
|--|---------|---------|---------|---------|----------------------------------|
| Placed with Parents | 90 | 82 | 84 | 86 | -4% |
| Placed for Adoption | 39 | 53 | 63 | 38 | -3% |
| Friends and Families | 201 | 189 | 218 | 206 | 2% |
| Foster Parents | 386 | 383 | 349 | 365 | -5% |
| Fostering Agencies | 39 | 37 | 32 | 32 | -18% |
| Residential Care | 60 | 70 | 68 | 63 | 5% |
| Residential Care (Ext) | 40 | 41 | 46 | 50 | 25% |
| Other * | 34 | 32 | 37 | 34 | 0% |
| Sub Total (Number of Looked After Children) | 889 | 886 | 897 | 874 | -2% |
| Residence Orders | 78 | 81 | 65 | 69 | -12% |
| Adoption Orders | 213 | 224 | 270 | 271 | 27% |
| Special Guardianship Orders | 122 | 157 | 240 | 277 | 127% |
| Sub Total (Chd in Permanent Arrangements) | 413 | 462 | 575 | 617 | 49% |
| Total Children Receiving Support | 1,302 | 1,348 | 1,472 | 1,491 | 15% |

*Independent Living, Hospital, Mother and Baby and Youth Offending

- The number of Looked After Children has reduced by 2% but the number of children receiving support has increased by 15% over the same period. There has been a reduction in the use of low cost fostering (both in-house and agency) and an increase in the use of high cost residential care (both in-house and purchased) due in part to the complexity of Care packages.
- The Council has allocated an additional £1.5m as part of the 2016/17 budget to help mitigate the pressure on Purchased Placements and Allowances.
- To mitigate the remaining pressure on Purchased Placements and Allowances the service plan to review the sufficiency and commissioning strategy; Re-commission block contracts for residential and fostering provision; review the care plans of all young people in purchased placements who can return internally or to an Independent Foster Agency placement, and increase the capacity of the In-House Fostering Service through training and recruitment.

Care Management

• The service overspent the £20.5m net expenditure budget by £0.2m as a result of agency staff required to cover vacancies; transport of Looked After Children and the cost of Leaving Care services.

- These additional demands on the service reflect an on-going pressure.
- Use of agency staff has however helped ensure that a high % of Single Assessments have being undertaken within 45 days of referral.

| ASSESSMENTS | 2015-16 |
|--|---------|
| Number of Single Assessments | 8,411 |
| Number of completed S47 investigations | 2,354 |
| Avg no of work days to complete single assessment | 21 |
| % of Single Assessments within 45 days of referral | 95% |

- Separately the legal/court fees budget of £1.0m within Assessment and Care Management underspent by £0.3m mainly due to reductions in court fees payable by the Council. Court fees are reviewed annually so it is currently unclear if the saving will recur.
- The **Child Protection service** overspent the £1.1m net expenditure budget by £0.1m due to an increase in staffing costs.
- **Children's Residential Units** overspent the £8.5m net expenditure budget by £0.3m on staffing cost £0.2m and premises cost £0.1m.
- Children Shared Care service underspent the £1.0m net budget by £0.2m on staffing cost £0.1m and payments to carers £0.1m. The Youth Offending Team underspent the £1.3m net budget by £0.2m.
- **Direct payments** for children with disabilities were £0.1m below the £1.1m net expenditure budget as a result of reduction in carers entitled to Direct Payments. The new Personal Budgets framework was considered by the Executive in April 2016.
- The **Prevention and Support service** underspent the £2.9m net expenditure budget by £0.3m mainly on the commissioning budget.

<u>Client Services (Building Schools for the Future - Private Finance Initiative plus</u> <u>Employment and Skills Service)</u>

- Client services underspent the £78.8m gross expenditure budget (including £52m of capital charges relating to school buildings) by £0.4m. The main variances to plan within Client Services include:
- The Education, Employment and Training team overspent the £2.4m net expenditure budget by £0.1m due to shortfall in generating income from projects/contracts. The reconfiguration of the Skills for Work service should ensure that the shortfall does not recur in 2016-17.
- The **Employment and Skills** service underspent the £1.3m net expenditure budget by £0.3m due to vacancies held in preparation for 2016-17 budget savings.
- In June 2012 the Council's Executive approved an Employment Investment Programme "Get Bradford Working" which represented £13.5m of investment from the Council and partners to provide employment opportunities by creating jobs, apprenticeship places, transformational curriculum for 14-19 year olds and a range of measures to support employers. The programme has incurred £12.3m to date and supported 2,146 individuals into employment. The programme consists of seven strands (Skills House – Bradford's Retail Academy, Employment Opportunity Fund, Apprenticeship hub, Routes into Work, Industrial Centres of Excellence, Advanced Skills Fund and Step up to Business).

- Strategic Commissioning team underspent the £1.6m net expenditure budget by £0.1m due to staffing vacancies and a reduction in commissioning with the Early Help budget.
- The **Assistant Directors office** underspent the £0.6m net expenditure budget by £0.1m due to one off savings on ICT software license costs and staffing budgets.

Access and Inclusion

- Access and Inclusion underspent the £11m net expenditure budget (£27.3m gross expenditure budget) by £0.1m. The main variances within Access and Inclusion include:
- The **Diversity and Cohesion** service overspent the £0.2m net expenditure budget (£1.2m gross budget) by £0.1m due to shortfall in income generation and a shortfall in achieving cross cutting savings in combining equalities functions across the Council. The reconfiguration of Children's Services is planned to address the overspend.
- The **Health and Well Being Team** overspent the £0.2m net expenditure budget by £0.1m due to the under achievement of traded income. The service will cease in 2016-17 except for services funded via Public Health grant mitigating the overspend.
- The **Education Psychology service** underspent the £0.9m net expenditure budget by £0.1m due to higher levels of school income than budgeted. Plans to transfer the service to an employee owned mutual in 2016-17 are being considered by the Executive.
- The **Special Education Needs (SEN)** and **Behaviour Support Services** underspent by £0.2m due to staffing vacancies held in preparation for 2016-17 budget savings.

Education and School Improvement

- Education and School improvement underspent the £36m gross expenditure budget by £0.5m. The main variances within Education and School Improvement include:
- **Children's Centres** overspent the £8.6m net expenditure budget by £0.2m due to delays in the implementation of the new Children Centre clusters. It is now expected that the final three external clusters will be established by August 2016.
- The **Curriculum ICT** traded service is facing a £0.1m shortfall in income generation against the £0.1m net income budget. The service also utilised £0.2m of "one off" reserves. Plans are being drawn up to ensure that the base budget pressure is addressed in 2016-17
- Bradford Achievement Service (BAS) underspent the £1.8m net expenditure budget by £0.5m as a result of staffing underspends and deferred expenditure in preparation for 2016-17 savings. The BAS will move to a school led school improvement service in 2016-17. The service is requesting to carry forward £0.1m of the underspend into 2016-17 to cover deferred school improvement expenditure.
- The Bradford Education and School Improvement Commissioning Board (BEICB) was established in September 2015 to provide a forum to ensure effective collaboration and joint accountability between the Local Authority, formal School

Partnerships, the School Forum and Teaching School Alliances within a selfimproving school led system. The board reflects the changing roles of schools and local authorities, providing a vehicle for the commissioning and accountability of effective support. It plays a key role in ensuring that the following principles are achieved:

- Bradford is a school-led system
- All schools need to be good or better
- All schools need to belong to a formal partnership
- The board has been allocated £1.246m Joint investment Fund from the Schools Forum plus £0.220m from the Local Authority for development of leadership and management. In 2015-16 funds have been allocated to:
 - leadership developments for projects such as Newly Qualified Teachers induction funding;
 - 'Centres of Good Practice for New Arrivals' 6 schools have been designated as Centres of Good Practice to provide a programme of support across the district
 – each school has received an initial allocation of £20,000 to commence this work;
 - Transition projects from Key Stage 2 to 3
 - Improving boys' writing at KS1 and 2
- **Early Childhood Services** underspent the £1.7m net expenditure budget by £0.3m due to vacancies held in advance of service reconfiguration in 2016-17.
- The **Pension Payment** budget for former teachers and lecturers of £5.7m underspent by £0.1m in 2015-16 due to a reduction in claimants.

Transport Assistance

 Informed by extensive public consultation, the Executive in June 2015 approved a revised Travel Assistance Policy based on principles and guidance contained in a joint framework between Children's and Adult's services. There was £3.0m allocated as budget saving in 2015-16. Children's and Adults services have been able to generate £1.2m of savings in 2015-16 hence there has been a £1.8m saving shortfall in 2015-16. The savings have been delivered by reducing the use of internal Passenger Transport Service (PTS) buses and savings on the contract for mainstream pupil bus contract.

Directors Office

• The Directors Office overspent the £0.2m net expenditure budget by £0.1m due to the budget saving of £0.15m linked to management efficiencies across the service not being delivered. New management arrangements from April 2016 will ensure that the saving is delivered in 2016-17.

3.3 Environment and Sport

2015-16 Financial Outturn

| | Gros | Gross expenditure | | | Income | | Net expenditure | | iture |
|----------------------------------|--------|-------------------|----------|--------|---------|----------|-----------------|---------|----------|
| | Budget | Outturn | Variance | Budget | Outturn | Variance | Budget | Outturn | Variance |
| | £m | £m | £m | £m | £m | £m | £m | £m | £m |
| Directors Office | 0.3 | 0.2 | - | - | - | - | 0.3 | 0.2 | - |
| Environmental Health & Transport | 16.0 | 14.8 | -1.2 | 14.5 | 14.0 | 0.5 | 1.5 | 0.8 | -0.7 |
| Waste Collection & Disposal | 32.8 | 32.7 | -0.1 | 5.0 | 5.0 | - | 27.8 | 27.7 | -0.1 |
| Neighbourhoods & Street Scene | 21.5 | 21.2 | -0.3 | 5.9 | 7.4 | -1.5 | 15.6 | 13.8 | -1.8 |
| Leisure & Culture Services | 42.9 | 44.4 | 1.5 | 21.7 | 23.2 | -1.5 | 21.2 | 21.2 | - |
| Environment & Sport | 113.4 | 113.3 | -0.1 | 47.0 | 49.6 | -2.5 | 66.4 | 63.8 | -2.7 |

People employed

| | FTE | Sickness Rate (days lost per employee) | Overtime spend £000 (cumulative) | True manager cost as % Total salary cost | Vacancy Rate |
|------------------|-------|--|--|--|-----------------|
| Year end 2013-14 | 1430 | 11.44 (Mar 14) | £2,959 | 11.1% (Jun 14) | 8% |
| Year end 2014-15 | 1477 | 11.36 (Mar 15) | £3,028 | 11.9% | 9% |
| Year end 2015-16 | 1,679 | 11.16 (Mar 16) | £3,214 | 13.4% | 9.8% |

Environment and Sport - $\pounds113.4m$ gross budget / $\pounds66.4m$ net budget, $\pounds2.7m$ underspend.

The main variances in Environment and Sport include:

- A £0.8m overspend on the £16.3m Waste Disposal net budget as a result of residual tonnes not reducing as planned, and the underachievement of recyclate sales income due to contaminated batches reducing the value of paper sales.
- The overspend in 2015-16 has been mitigated by underspends on kerbside Refuse and Recycling collection services (£0.5m) and higher levels of business in Trade Waste (£0.3m). The service is also implementing the Waste Minimisation Strategy to reduce tonnes of residual waste, and purchasing equipment to solve the issue of contaminated batches.
- Sports Facilities overspent by £0.6m due to staffing cost overspends and income budget underachievement partly resulting from the continued trend of falling visitor numbers.

The overspending areas highlighted above were however more that offset by underspends elsewhere in the department. Most notably £1.4m of higher than expected income for parking tickets and fines, and staffing underspends in Uniformed Services.

Environment and Sport

The department underspent the \pounds 66.4m net expenditure budget (\pounds 113.4m gross budget) by \pounds 2.7m, and delivered \pounds 4.0m of the \pounds 4.5m budget savings as planned.

Waste Services

• Waste services underspent the £27.8m net expenditure budget (£32.8m gross budget), by £0.1m. The underspend comprised of a £0.9m underspend on waste collection (inclusive of refuse, recycling, garden and trade waste collection) offset by a £0.8m overspend on waste disposal.

Waste Disposal.

- The service overspent the £16.3m net expenditure budget by £0.8m following an income shortfall against budget of £0.3m due to contaminated batches of saleable recyclates, and an overspend of £0.4m on disposal costs.
- The budget provided for 145,000 tonnes of residual domestic waste, but final tonnage was 148,400, resulting in an overspend of £0.3m. Costs for the disposal of green waste, sweepings & wood also exceeded budget by £0.1m.

| | 2013-14 | 2014-15 | 2015-16 |
|--|---------|---------|---------|
| Gross Costs £000s | 17,313 | 17,326 | 17,429 |
| Income £000s | (1,614) | (1,652) | (1,469) |
| Direct Net Costs £000s | 15,698 | 15,674 | 15,960 |
| Direct Non controllable costs* | 434 | 2,315 | 1,079 |
| | | | |
| Waste Collected as Recycling (Tonnes) 000s | 60.7 | 61.2 | 64.8 |
| Waste to Landfill or Alternative Treatment (Tonnes) 000s | 146.0 | 145.4 | 148.4 |
| Total before Trade Waste | 206.7 | 206.6 | 213.2 |
| Trade Waste tonnes 000s (funded by Trade Waste) | 19.3 | 19.6 | 20.1 |
| Total Municipal Waste Disposed of (Tonnes) | 226.0 | 226.2 | 233.3 |

* Non controllable costs include capital charges and pension adjustments that are typically outside of the control of the service and are non cash

- The £0.4m budget saving for 2015-16 was therefore not delivered as planned. It was however mitigated by underspends elsewhere in Waste Services in year.
- The issue of contaminated paper batches should be rectified by the end August 2016 following the procurement of specialist equipment. The service has requested a better use of budget carry forward of £0.1m to cover the cost of equipment hire and employee costs.
- Going forward, the overspend on disposal charges is planned to be mitigated by increased recycling resulting from the Waste Minimisation Programme. Most of the work to deliver bins, education & awareness in the Keighley area has been completed and efforts are now being concentrated on the Bradford area.
- In addition to this adverse variance against budget, the 2016-17 disposal budget will be reduced by a further £0.3m (savings ref 3E1).
- Indicatively, in order to meet the 2016-17 savings targets, tonnes of waste will need to reduce by approximately 3,800 tonnes in comparison to 2015-16 at current tonnage prices at a time when the population and number of households is increasing.
- A new 12 year Waste Disposal Contract is currently in procurement with an expected commencement date of October 2017.

Refuse Collection

- The Domestic Refuse Collection Service underspent the net expenditure budget of £5.9m (£6.0m gross) by £0.4m due to lower transport/fuel costs of £0.26m and staffing costs of £0.17m due to vacancies held.
- The tonnes of domestic waste collected were marginally less in 2015-16 and the net costs approximately £350k higher resulting in a higher cost per tonne. Costs were higher partly due to staff costs previously funded by a government grant being moved to refuse collection.

| | 2013-14 | 2014-15 | 2015-16 |
|--------------------------------------|---------|---------|---------|
| Gross Costs £000s | 5,016 | 4,567 | 4,878 |
| Income £000s | (55) | (177) | (129) |
| Direct Net Costs £000s | 4,961 | 4,390 | 4,749 |
| Direct Non controllable costs £000s* | 246 | 425 | 787 |
| Tonnes collected | 130,070 | 130,072 | 129,702 |
| Gross Cost per Tonne collected | £38.57 | £35.11 | £37.61 |

*Non controllable costs include capital charges and pension adjustments that are typically outside of the control of the service and are non cash.

- Benchmarking data indicates that the Waste Collection service remains comparatively very low cost when compared to other Councils.
- The service is continuing with weekly domestic refuse collections in 2016-17, but will change to fortnightly from April 2017, when significant savings are expected.

Recycling Collection

- Dry Recycling Collections underspent the net budget of £3.2m by £0.2m, largely due to lower than budgeted transport costs, particularly on fuel.
- The service cost less and collected more in 2015-16 than in previous years delivering improved value for money.

| | 2013-14 | 2014-15 | 2015-16 |
|---|---------|---------|---------|
| Gross Costs £000s | 2,512 | 3,116 | 2,320 |
| Income £000s | (1) | (485) | 3 |
| Direct Net Costs £000s | 2,511 | 2,631 | 2,322 |
| Direct Non controllable costs £000s* | 131 | 481 | 646 |
| Tonnes collected | 15,982 | 17,291 | 17,977 |
| Gross Cost per Tonne incl DCLG grant £s | 157 | 180 | 129 |

*Non controllable costs include capital charges and pension adjustments that are typically outside of the control of the service and are non cash.

• The Waste minimisation project is aiming to increase recycling tonnes collected by a further 3,000 tonnes in 2016/17.

Garden Waste Collection

• The Garden Waste Collections Service balanced the net budget of £0.7m and cost approximately the same as in 14-15. The service collected 10,900 tonnes (15% more), delivering improved value for money.

Trade Waste

- Trade Waste over achieved the net income budget of £0.1m (£2.7m gross) by £0.3m, as income received from collection contracts exceeded budget by £0.2m. The number of contracts has remained fairly stable over the last three years and income received to date in 2016-17 suggests that the client base has been maintained.
- There were also more modest underspends on employees and disposal, resulting in an additional £0.1m.
- Tonnes collected, total income, and net income was significantly improved in 2015/16 indicating improved performance and value for money.

| | 2013-14 | 2014-15 | 2015-16 |
|-------------------------------------|---------|---------|---------|
| Gross Costs £000s | 2,552 | 2,827 | 2,630 |
| Income £000s | (2,929) | (2,872) | (3,158) |
| Direct Net Costs £000s | (377) | (46) | (528) |
| Direct Non controllable costs £000s | 92 | 179 | 171 |
| Tonnes collected | 19,284 | 19,589 | 20,106 |
| Net income per tonne | -20 | -2 | -26 |

*Non controllable costs include capital charges and pension adjustments that are typically outside of the control of the service and are non cash.

• Other areas of Waste Services (Bulks, Depots, and Waste Minimisation project) balanced their budgets.

Neighbourhoods and Customer Services

• Neighbourhoods & Customer Services underspent the £15.6m net expenditure budget (£21.5m gross budget) by £1.8m after delivering £2.4m of planned savings. The following services constitute Neighbourhoods and Customer Services.

Uniformed Services

• Uniformed Services receipted higher levels of penalty charge notices (PCNs) and parking charges than expected (£1.2m) and had £0.2m of staffing underspends. This resulted in a £1.4m positive variance.

| | 2013-14 | 2014-15 | 2015-16 |
|--------------------------------------|---------|---------|---------|
| Gross Costs £000s | 3,890 | 3,720 | 3,487 |
| Income £000s | (4,614) | (5,058) | (5,861) |
| Direct Net Costs £000s | (724) | (1,338) | (2,374) |
| Direct non controllable costs £000s* | 772 | 761 | 1,067 |
| Income Breakdown £000s | | | |
| Parking Tickets | 1,828 | 1,848 | 1,948 |
| Contract Parking | 115 | 117 | 142 |
| Fix Penalty Fines | 1,267 | 1,866 | 2,429 |
| Parking Fines | 1,359 | 1,182 | 1,271 |
| Other Income | 45 | 45 | 71 |
| TOTAL Income | 4,614 | 5,058 | 5,861 |

* Non controllable costs include capital charges and pension adjustments that are typically outside of the control of the service and are non cash.

• Expected income for parking increased from £4.08m to £4.6m to match 2013-14 levels of income received. Income has however increased by £1.2m between 2013-14 and 2015-16 which explains the year end variance in 2015-16.

| Income | 2013-14 | 2014-15 | 2015-16 |
|--------------------------------|-----------------------------------|-----------------|-------------|
| Expected | (4.1) | (4.1) | (4.6) |
| Outturn | (4,6) | (5.1) | (5.9) |
| Variance | (0.5) | (1.0) | (1.3) |
| * It chould be noted that more | w received from parking and bug l | anaa ia hiahluu | ariable and |

* It should be noted that money received from parking and bus lanes is highly variable and subject to behaviour change (bus lanes) and city and town centre prosperity.

Youth Services

• The service underspent the £3m net expenditure budget (£3.1m gross budget) by £0.1m. The two main areas of underspend relate to higher than budgeted income, from premises lets, salary recharges and grants, and savings from vacancies.

| | 2013-14 | 2014-15 | 2015-16 |
|-------------------------------------|---------|---------|---------|
| Gross Costs £000s | 5,248 | 3,522 | 3,137 |
| Income £000s | (298) | (244) | (237) |
| Direct Net Costs £000s | 4,950 | 3,278 | 2,900 |
| Direct non controllable costs £000s | 354 | 1,030 | 256 |
| Attendees | 6,120 | 5,706 | 4,644 |
| Attendances | 75,222 | 58,087 | 56,595 |
| Gross Cost per attendance | £69.77 | £60.63 | £55.43 |

- The decrease in attendance numbers from 2014-15 to 2015-16 was due to service reductions.
- However, proportionately, gross costs have reduced more than attendance numbers (-10.93% for gross costs as compared with -2.57% for attendance), so gross costs per attendance have reduced.

Customer Services – Face to Face

- The service underspent the £1.5m net expenditure budget (£1.5m gross budget) by £0.2m, as a result of planned staffing savings, in advance of agreed budget reductions in 2016-17.
- These savings are predicated on a continued realignment of service provision towards telephony and automated self serve methods, and away from face to face contacts that typically require a higher level of staffing intervention.

| | 2013-14 | 2014-15 | 2015-16 |
|----------------------------------|---------|---------|---------|
| Gross Costs £000s | 1,727 | 1,805 | 1,258 |
| Income £000s | 0 | 0 | 0 |
| Direct Net Costs £000s | 1,727 | 1,805 | 1,258 |
| Total Face to Face contacts 000s | 229 | 175 | 128 |
| Gross cost per contact | £7.54 | £10.32 | £9.83 |

Customer Services – Telephony

- The service underspent the £1.8m net expenditure budget by £0.1m, again, as a result of savings on employee costs.
- Gross costs have increased from 2014-15 to 2015-16 due to the staff realignments from Face to Face. The increase in calls answered further confirms the shift from Face to Face contact to a more automated, remote service provision, evidencing the success of the Customer & Citizen strategy approach.

| | 2013-14 | 2014-15 | 2015-16 |
|---------------------------------------|---------|---------|---------|
| Gross Costs £000s | 1,595 | 1,330 | 1,717 |
| Income £000s | 0 | (40) | 0 |
| Direct Net Costs £000s | 1,595 | 1,290 | 1,724 |
| Calls Answered 000s | 504 | 555 | 601 |
| Calls Offered 000s | 672 | 726 | 799 |
| % Answered | 75% | 76% | 75% |
| Gross Cost per Call answered | £3.16 | £2.39 | £2.86 |
| Number of Self Service Enquiries 000s | - | 27 | 74 |

Safer & Stronger

• The Safer & Stronger service underspent the £1.9m net expenditure budget (£3.0m gross budget) by £0.1m due to held vacancies and higher than budgeted income, particularly from grant received from West Yorkshire Police.

| | 2013-14 | 2014-15 | 2015-16 |
|------------------------|---------|---------|---------|
| Gross Costs £000s | 1,815 | 2,743 | 2,888 |
| Income £000s | (342) | (442) | (1,102) |
| Direct Net Costs £000s | 1,472 | 2,301 | 1,786 |
| Population 000s | 525 | 527 | 528 |
| Spend per population | £3.46 | £5.20 | £5.47 |

Neighbourhood Services

• Neighbourhood Services balanced the net budget of £1.4m.

| | 2013-14 | 2014-15 | 2015-16 |
|------------------------------------|---------|---------|---------|
| Gross Costs £000s | 1,218 | 1,424 | 1,387 |
| Income £000s | (2) | (4) | (4) |
| Direct Net Costs £000s | 1,216 | 1,419 | 1,383 |
| Population 000s | 525 | 527 | 528 |
| Gross Spend Per Head of Population | 2.32 | 2.70 | 2.63 |

Street Cleaning

- The service overspent the £4.2m net expenditure budget (£4.4m gross budget) by £0.1m. due to the purchase of 47 solar, waste compacting litter bins that were trialled in the Shipley area. The purchase will result in bins requiring less emptying, allowing Operatives to be deployed to more areas of need.
- This is of particular relevance as resources are stretched; there are currently 30 vacancies in Street Cleansing. Thirteen of these vacancies are on hold pending decisions regarding the 2015-16 savings proposal (ref E4) to reduce working hours, which has not yet been implemented due to on-going consultation.

| | 2013-14 | 2014-15 | 2015-16 |
|--|---------|---------|---------|
| Gross Costs £000s | 5,416 | 5,050 | 4,489 |
| Income £000s | (214) | (240) | (162) |
| Direct Net Costs £000s | 5,202 | 4,810 | 4,327 |
| Spend per population | £10.32 | £9.58 | £8.50 |
| Level of street cleanliness (Street failing) | 10.7% | 8.0% | 12.0% |

Sports & Leisure Services and Culture

- Sports&Leisure Services & Culture overspent the £15.1m net expenditure budget by £0.1m after delivering £1.4m of planned savings. This is a movement of £0.3m from the £0.2m underspend reported at the end of the 3rd quarter.
- The service has received a rates rebate for Sports Facilities and Museums totalling £0.3m and a request has been submitted to transfer to reserves to provide funding to help cover the cost of replacing sports facilities equipment and museum site development in future years.

Sports Facilities

• The service overspent the £2.6m net expenditure budget by £0.6m (gross budget £7.6m). Total attendances have steadily dropped from 1,986k in 2010-11.

| | 2013-14 | 2014-15 | 2015-16 |
|--------------------------------------|---------|---------|---------|
| Gross Costs £000s | 8,086 | 7,767 | 7,759 |
| Income £000s | (4,341) | (4,435) | (4,555) |
| Direct Net Costs £000s | 3,745 | 3,332 | 3,204 |
| Direct non controllable costs* £000s | 1,986 | 3,205 | 4,722 |
| Total Attendances 000s | 1,907 | 1,893 | 1,822 |
| Gross Managed Cost per attendance | £4.24 | £4.10 | £4.26 |
| Income Per Attendance | -£2.28 | -£2.34 | -£2.50 |

*Non controllable costs include capital charges and pension adjustments that are typically outside of the control of the service and are non cash.

• £0.5m of the overspend was due to Staff costs being higher than the budget as outlined in table below

| Employee Cost £000s | 2013-14 | 2014-15 | 2015-16 | 2015-16 Outturn Budget Variance | 2016-17 Baseline Budget | 15-16 Outturn 16-17 Budget Variance |
|---------------------|---------|---------|---------|--|-------------------------------|---|
| Total | 4,713 | 4,631 | 4,766 | 466 | 4,267 | 421 |

- The Service saw a reduction in employee costs of £0.1m in 2014-15 with costs then rising by a comparable amount in 2015/16. The introduction of the Integrated Working Project has resulted in the cost of permanent staff increasing by £0.3m offset by a £0.2m reduction in the use of casual staff.
- Additionally, the service underachieved the £4.8m income budget by £0.2m partly resulting from reduced visitor numbers.

| Visitor Numbers at Facilities Showing Significant Movement | 2013-14 | 2014-15 | 2015-16 | Change over period |
|---|---------|---------|---------|--------------------------|
| Marley & Other Sport P | 118 | 97 | 88 | -30 |
| Eccleshill Pool | 197 | 171 | 170 | -27 |
| Ilkley Pool | 164 | 149 | 140 | -25 |
| Bingley Pool | 102 | 89 | 84 | -17 |
| Nab Wood Sports Centre | 66 | 62 | 53 | -13 |
| Tong Sports Centre | 81 | 81 | 71 | -10 |
| Keighley Leisure Centre | 262 | 264 | 253 | -9 |
| Other | 917 | 980 | 963 | 46 |
| Total | 1,907 | 1,893 | 1,822 | -85 |

- Although income levels did increase by £120k to £4,555k in comparison to 2014-15, this
 was due to grant income received for Tour de France and Nab Wood Sports Centre.
 When this is adjusted for, the level of income dropped by £46k compared to the previous
 year impacted by falling attendances.
- The underachievement of income could result in a financial pressure in 2016-17.
- The Sports Facilities Investment plan is progressing and design consultants have been appointed. The site for the City Pool has been acquired, and demolition of the existing building on the site has been completed.

Bereavement Services

- The service over achieved the net income budget by £0.2m and administered 143 more burials & cremations than in 2014-15.
- The majority of the overachievement has been achieved through the managed reduction of the bad debt provision and efficiency's achieved in grounds maintenance and equipment purchase.

• The Cremators are however nearing the end of their useful lives, and will require replacement in the near term at significant capital cost.

| | 2013-14 | 2014-15 | 2015-16 |
|-------------------------------------|---------|---------|---------|
| Gross Costs £000s | 1,706 | 1,832 | 1,808 |
| Income £000s | (2,839) | (2,961) | (3,008) |
| Direct Net Costs £000s | (1,133) | (1,129) | (1,201) |
| Direct non controllable costs £000s | 72 | (24) | 95 |
| Burials | 1,221 | 1,183 | 1,205 |
| Cremations | 2,820 | 2,871 | 2,992 |
| Burials and Cremations administered | 4,041 | 4,054 | 4,197 |

Libraries Service

- Libraries underspent the net expenditure budget of £3.8m (£3.8m gross) by £0.1m. This was largely due to a 2014-15 bad debt provision not being required.
- The service cost less in 2015-16 than in previous years and catered for fewer visitors than 2014-15. Visitor numbers were however impacted by the closure of the Shipley Library (one of our busiest libraries with 284,000 visits per year) for 8 months in 2015-16 for major refurbishment.

| | 2013-14 | 2014-15 | 2015-16 |
|-------------------------------------|---------|---------|---------|
| Gross Costs £000s | 4,773 | 4,298 | 3,804 |
| Income £000s | (362) | (251) | (144) |
| Direct Net Costs £000s | 4,410 | 4,047 | 3,660 |
| Direct non controllable costs £000s | 1,519 | (80) | (95) |
| Books and Media Loans 000s | 1,284 | 1,171 | 1,078 |
| Number of New Borrowers 000s | 17 | 16 | 13 |
| Number of Visits 000s | 1,393 | 1,485 | 1,394 |

*Non controllable costs include capital charges and pension adjustments that are typically outside of the control of the service and are non cash.

- 2015-16 budgets were reduced by £0.35m but off-set by £0.15m transitional funding. Transitional funding will also be applied to 2016-17 budgets, to ease with the progression and delivery of changes to service provision.
- During 2016-17, the service will continue to transfer some libraries to community management.

Museums

- Museums & Galleries underspent the £2.2m net expenditure budget (£2.6m gross) by £0.1m. This was due to staffing and supplies and services underspends and an overachievement of income.
- The service continues to attract external funding, primarily from Arts Council England Museums Resilience Fund, which aims to enable museums to become more resilient & sustainable businesses.
- The service delivered several exhibitions & events during 2015-16, including World War 1 commemorations (on-going), the Rothenstein art exhibition and Christmas market. Visitor numbers are however lower due in part to the closure of Manor House

| | 2013-14 | 2014-15 | 2015-16 |
|-------------------------------------|---------|---------|---------|
| Gross Costs £000s | 2,533 | 2,664 | 2,507 |
| Income £000s | (281) | (383) | (320) |
| Direct Net Costs £000s | 2,253 | 2,280 | 2,187 |

| TOTAL incl Art in the Park | 238 | 257 | 213 |
| Direct net cost per visit | £9.47 | £8.87 | £10.27 |

*Relocated to Cartwright Hall in 13/14

Theatres

- Theatres balanced the £1.1m net expenditure budget (£8.1m gross) including meeting targeted savings of £16k.
- The service delivered a number of successful shows & productions including Dirty Dancing, Shrek, and the pantomime, Jack & the Beanstalk.

| | 2013-14 | 2014-15 | 2015-16 |
|-------------------------------------|---------|----------|---------|
| Gross Costs £000s | 8,499 | 11,407 | 10,805 |
| Income £000s | (7,709) | (10,555) | (9,741) |
| Direct Net Costs £000s | 789 | 852 | 1,064 |
| Direct non controllable costs £000s | 346 | 355 | (1,558) |
| | | | |
| Alhambra Ticket Sales 000s | 236 | 290 | 269 |
| St Georges Hall Ticket Sales | 75 | 85 | 77 |
| Total Ticket Sales | 314 | 378 | 350 |
| Gross Managed Cost per ticket | £27.09 | £30.15 | £30.86 |
| Income per ticket | -£24.57 | -£27.90 | -£27.82 |
| Net Managed subsidy per ticket | £2.52 | £2.25 | £3.04 |

*Non controllable costs include capital charges and pension adjustments that are typically outside of the control of the service and are non cash.

- Although attendances were not as high as the previous year which had a number of blockbuster shows, efforts were made to maximise income through programme deals and auxiliary sales.
- In 2016-17 St Georges Hall will be closed for a major refurbishment following a successful bid to the Heritage Lottery fund.
- The Alhambra will host a number of shows including Billy Elliot, Wicked and Mary Poppins amongst others in 2016-17.

Markets

- The Markets Service continues to perform well regarding unit occupancy levels and quality of service; the service won the award for best wholesale market in the UK in 2015. There are however pressures resulting from a national trend of changing shopping habits and increased choice for consumers.
- In addition, the closure of the Morrisons store on Westgate (that is adjacent to the Oastler Centre) at the beginning of April 2016 is starting to impact on footfall and trader confidence. This has resulted in traders submitting a petition for the Council to reduce current rental levels.

| | 2013-14 | 2014-15 | 2015-16 |
|-------------------------------------|---------|---------|---------|
| Gross Costs £000s | 1,985 | 1,788 | 1,799 |
| Income £000s | (2,870) | (2,806) | (2,838) |
| Direct Net Costs £000s | (885) | (1,018) | (1,039) |

| Visitor Numbers 000s | 6,693 | 5,788 | 5,829 |
| Website visits 000s | 146 | 87 | 68 |

Strategic Support and Projects

- The service underspent the £0.9m net expenditure budget (£1.1m gross) by £0.2m, due to spend that was deferred to 2016-17. A better use of budget request to carry the budget forward to 2016-17 to fund grants to the National Media Museum, Impressions Gallery and Bradford Carnival has been submitted (see section 2.1).
- The service is managing a number of projects attached to external funding including a Creative Employment Scheme for apprenticeships/interns and an Arts in Communities programme. Both of these received funding from the Creative & Culture Skills Council, Arts Council England and Dept for Communities and Local Government (DCLG).
- The Arts in Communities programme was hindered through a delay from DCLG with regards to confirmation of funding for year two and will complete this year.

Environmental Health and Fleet Services

 Environmental Health and Fleet Services underspent the £1.5m net expenditure budget (£16.0m gross budget) by £0.7m. The following services constitute Environmental Health and Fleet.

Environmental Health

- Environmental health underspent the £0.9m net expenditure budget by £0.3m due to £0.2m of staff cost due to vacancies, and dog warden veterinary fees, kennel costs and Gypsy site facility costs (£0.1m).
- Volumes in requests and interventions have reduced following the transfer of Pest Control and Environmental Enforcement to Neighbourhoods and Customer Services at Q4. The budget will transfer from 1st April 2016.

| | 2013-14 | 2014-15 | 2015-16 |
|---|---------|---------|---------|
| Gross Costs incl Public Health recharge £000s | 2,162 | 2,127 | 2,089 |
| Income £000s* | (409) | (1,449) | (1,411) |

| Direct non controllable costs £000s | 117 | 290 | 192 |
| EH Service requests | 21,370 | 22,146 | 19,787 |
| EH proactive interventions | 4,943 | 5,640 | 4,389 |
| Number of Interventions | 26,313 | 27,786 | 24,176 |
| % satisfied with service | 88% | 82% | 78% |
| % business inspections satisfied | 95% | 97% | 96% |

*Includes recharge to Public Health of £1,037k in each of 14/15 and 15/16

- There was a reduction in satisfaction with service delivery expressed by persons making complaints to the Service across the year, but this had improved to 84% for the last quarter of the year.
- Satisfaction with proactive services, such as food hygiene, animal health and health and safety premises inspections was 96%, despite many inspections resulting in enforcement activity by inspecting officers.
- The Food Team, supported by the Food Standards Agency, investigated a significant case of food fraud, attracting national recognition for their efforts in its cessation and subsequent legal proceedings.
- Most of the service will transfer to Public Health in 2016-17, with Pest Control and Environmental Enforcement transferring to Neighbourhood & Customer Services.

Fleet Services

- Fleet services underspent the net income budget of £0.6m (gross budget £8m) by £0.2m. Further reductions in the cost of petrol combined with a reducing fleet explain the main underspends and trend analysis with the Fleet Service.
- The number of Fleet jobs created has decreased as a result of a reduction in the size of the Council fleet and new vehicles requiring less work, and the service is performing well against benchmarks

| | 2013-14 | 2014-15 | 2015-16 |
|---|---------|---------|---------|
| Gross Costs £000s | 8,167 | 7,526 | 6,671 |
| Income £000s | (8,784) | (8,454) | (7,498) |

Adult Social Care Transport – Contracted Taxis

 The Adult Social Care Taxi Transport Service has balanced the £0.2m net budget (gross budget £1m). • The number of client journeys has reduced as a result of reductions in demand following review and re-routing.

| | 2013-14 | 2014-15 | 2015-16 |
|---|---------|---------|---------|
| Gross Costs £000s | 1,140 | 975 | 998 |
| Income £000s | (1,053) | (822) | (814) |
| Net Costs £000s | 87 | 152 | 184 |
| Direct non controllable costs | 90 | 87 | 79 |
| Adult - Number of client journeys | 0 | 107,944 | 89,609 |
| Avg number of clients transported per day | 0 | 212 | 178 |
| Avg gross cost per journey | 0 | 12.1 | 14.2 |

SEN Children & Adults Core In House Minibus Transport Service

• The service balanced the £0.1m net income budget. All costs are transferred to Children's and Adults; therefore a nil variance is expected. Gross costs have reduced by £1m from 2014-15 to 2015-16.

| | 2013-14 | 2014-15 | 2015-16 |
|--|---------|---------|---------|
| Gross Costs adding back Children's charge | 4,509 | 4,170 | 3,170 |
| Income including charge to Childrens £000s | (2,194) | (2,219) | (1,918) |
| Net Costs £000s | 340 | 9 | (148) |
| Direct non controllable costs £000s | 241 | 527 | 383 |
| Children - client journeys per qtr. | - | 194,834 | 153,874 |
| Children - Client numbers | - | 474 | 397 |
| Adult - client journeys per qtr. | - | 221,640 | 215,576 |
| Adult - Client numbers | - | 440 | 421 |
| Total Client journeys | | 416,474 | 369,450 |
| Total Client numbers | | 914 | 818 |
| Avg gross cost per journey | | 9.74 | 9.77 |

• Whilst savings have been achieved by moving clients between Core and contracted transport (outsourced), cost is only one consideration, client location, needs and vehicle occupancy are also factored into the final decision.

SEN Children's Taxi Transport - Contracted

• The SEN Children's transport service balanced the £0.1m net income budget. All taxi charges are transferred to Children's via a recharge.

| | 2013-14 | 2014-15 | 2015-16 |
|--|---------|---------|---------|

| Climate, Housing & Property | 73.2 | 72.8 | -0.3 | 41.6 | 41.8 | -0.3 | 31.6 | 31.0 | -0.6 |
| Planning, Transportation & Highways | 33.9 | 34.6 | 0.8 | 6.3 | 6.8 | -0.5 | 27.6 | 27.9 | 0.3 |
| Regeneration | 116.4 | 115.7 | -0.7 | 49.4 | 50.1 | -0.7 | 67.0 | 65.6 | -1.4 |

People employed

| | FTE | Sickness Rate (days lost per employee) | Overtime spend £000 (cumulative) | True manager cost as % Total salary cost | Vacancy Rate |
|------------------|-------|--|--|--|-----------------|
| Year end 2013-14 | 1810 | 10.39 (Mar 14) | £1,536 | 13.8% (Jun 14) | 9% |
| Year end 2014-15 | 1790 | 10.8 (Mar 15) | £1,594 | 14.0% | 5.6% |
| Year end 2015-16 | 1,517 | 11.61 (Mar 16) | £1,459 | 13.3% | 12.2% |

Regeneration - £116.4m gross budget / £67.0m net budget, £1.4m underspend.

The main variances in Regeneration include:

- £0.8m unused funds in 2015-16 on Economic Development Services resulting from the timing of high value projects including Perseverance Mill, the Tyrls and Odeon plus European grant funded enterprise activity. Budget is planned to be carried forward to 2016-17.
- £0.4m net overspend resulting from the underachievement of trading income in Industrial Services Group due to loss of contracts.
- £0.3m underachievement of Building Control fee income due to reducing numbers of inspections, partly offset by a £0.1m underspend on the cost base. The service is planning to mitigate the net overspend through cost reduction and shared services

The outturn represents a £0.3m improvement since quarter 3, after less spend than expected materialised on the Local Plan and winter maintenance after a mild winter.

Regeneration

The department underspent the $\pounds67m$ net expenditure budget ($\pounds116.4m$ gross budget) by $\pounds1.4m$, and delivered $\pounds4.0m$ of the $\pounds4.2m$ budget savings as planned.

Economic Development

Economic Development Services underspent the £7.6m net expenditure budget (£9.1m gross budget) by £1.2m. Some Projects (see below) with a longer lead in time require £0.6m of spend to be deferred. Of the £0.9m savings EDS were targeted to achieve all were delivered, however transitional funding (£0.2m) means that reform is taking place across 2015-16 into 2016-17.

Economic Development Services - Programmes

- EDS are responsible for large scale initiatives supporting the local economy. Among these are the City Centre Growth Zone and participation in business growth schemes supported by European Structural Investment Funds. £17.6 million of Regional Growth Fund money was secured to deliver the City Centre Growth Zone matched with £17.5million of Council resource. Investment over the last three years has brought about significant physical improvements to the City Centre and has incentivised private sector investment.
- To date outputs include 518 new jobs created (435 FTEs), 217 businesses supported, and over 70 vacant City Centre properties brought back in to use. 2015-16 saw the completion of the two major European Regional Development Fund funded programmes delivering Enterprise Support to businesses across the District. The final outputs delivered cumulatively by the two programmes included the creation of 660 new jobs and assistance to 550 Small and Medium Enterprises (SMEs).
- Deferred spend for European Structural Investment Funding (ESIF) is requested to cover local projects which are following Central Government and Leeds City Region calls for projects. Schemes proposed for Economic Development within Bradford will concentrate on Enterprise Support for high Growth Businesses.
- In 2015-16 EDS received an additional budget of £250k for City Park events bringing the total cost of planned events to £625k. The service is leading on development of a sponsorship strategy, and the feasibility of promoting City Park as a commercial space. Plans are also underway to develop an on-line booking system, which will save on officer time. In addition a brochure/portfolio promoting the space will be developed.

Economic Development Services – Delivery

- The year saw the completion of the Broadway Shopping Centre. This £260m investment is now 93% let and has been the catalyst for other investment in the City Centre including the adjoining Xchange and the proposed cinema and leisure scheme by Meyer Bergman. Other developments led by the service have also progressed including One City Park where the demolition of the former Tyrls Police Station and construction of a temporary garden was completed and a funding agreement for an initial allocation of funds for One City Park from the Combined Authority signed in February 2016.
- Elsewhere in the District the first units on the Baildon Technology Park were completed and occupied with advanced engineering companies such as Produmax, and Anetic Aid relocating from Leeds.
- In addition to businesses supported through the City Growth Zone outlined above, the Service worked with a further 752 businesses. This led to the creation of 360 jobs, safeguarded 94 jobs and over £19 million investment in the District. A successful yes vote for the establishment of a Business Improvement District in Keighley was achieved.

An upcoming task for the EDS Delivery team is to prepare projects for inclusion in the third round of Regional Local Growth Fund investments.

• EDS have submitted better use of budget requests linked to Superfast Broadband, European Regional Development Funds and Events outlined in previously in Table 2.

Climate Housing and Property

Climate Housing and Property Services underspent the £30.9m net expenditure budget (£73.2m gross budget) by £0.6m. The following services constitute Climate, Housing and Property.

Housing Operations

- The service underspent the £1.3m net expenditure budget by £0.1m due to increased demand for the Council's agency service for the delivery of adaptations for disabled people. There was also a small underspend on staffing costs from one vacancy.
- The second half of the year has seen an exceptional increase in requests for service from the Housing Standards team which deals with the enforcement of housing standards in the private rented sector (PRS) (up by 11.8% from the same period last year and 16.8% on 2013/14). This increase in demand is likely to reflect the increasing size of the PRS and the high incidence of poor standards in the sector.
- Demand for major adaptations (Disabled Facilities Grants) to enable disabled people to continue to live independently resulted in the highest level of completions (276).

| | 2013-14 | 2014-15 | 2015-16 |
|--|---------|---------|---------|
| No of Long Term Empty Homes in the district | 3,953 | 3,942 | 4,154 |
| Number of service requests - Empty Homes | 645 | 486 | 303 |
| Number of service requests - Housing Standards | 1,324 | 1,320 | 1,491 |
| No of Housing Standards inspections | 857 | 849 | 1,161 |
| Disabled Facilities Grants Cumulative £000s | 2,468 | 2,746 | 3,288 |
| Number of Disabled Facilities Grants enquiries | 357 | 489 | 602 |
| Number of Disabled Facilities Grants completed | 186 | 236 | 276 |

Housing Development

- The service balanced the net £3.6m revenue budget. The work of both the Empty Homes and Housing Development and Enabling teams contributes towards the Council's New Homes Bonus (NHB) which will result in a NHB payment of £11.1m in for 2016-17.
- During 2015-16, the detailed designs for the Council's next affordable housing schemes have been in development. Subject to the required consents, these will result in a further 139 affordable homes to rent in addition to the existing 176 homes.
- The Clergy House/Jermyn Court scheme to deliver additional temporary accommodation for homeless people is on site with a completion date of Autumn 2016. The Housing service was successful in attracting in excess of £2m Homes and Communities Agency through the Care and Support and Platform for Change programmes.
- The Housing service is responsible for delivering financial assistance with flood resilience measures to residents affected by the recent floods. 780 homes were affected and the team are working closely with those affected, other Council departments and other agencies to provide assistance through grants of up to £5,000 per property.

Utilities/Energy Unit.

• The overall energy account underspent the £5.4m net expenditure budget by £0.3m and the service continues to focus on reducing energy consumption.

| | 2013-14 | 2014-15 | 2015-16 |
|---|---------|---------|---------|
| Electric 000 KwH- (Non Street Lighting) | 19 | 22 | 17 |
| Gas 000 KwH | 50 | 45 | 48 |
| Total Gas & electric 000 KwH | 69 | 67 | 65 |

• The Energy Unit requests a better use of budget (section 2.1) to invest in continuing water billing & efficiency work which yielded circa £50k water cost rebate at year end

Industrial Services Group,

- The service overspent the £0.3m net expenditure budget by £0.4m as a result of underachieved sales.
- The impact of the loss of a major customer following competitive tender, combined with another large customer having financial difficulties, led to a sharp reduction in sales and a resulting pressure.
- The second half of the year has been characterised by improvements in sales within both businesses. The window and door business has now partnered with a new construction customer, and having recently successfully completed a contract in Luton, a contract with the same customer has been secured in Leeming Bar to be completed in the 2016-17.
- In addition, Festival Lights have secured three new contracts in Calderdale, Coventry, and Scarborough in 2015 and these will be retained in 2016, increasing sales levels.
- The forward order book in windows and doors for 2016-17 is 20% higher than in the previous year at £1.1m almost to the total level of sales in 2015-16 and includes a larger proportion of higher margin refurbishment works.

Facilities Management (including School Catering, Architects, Building and Technical Services, Admin Buildings, School Cleaning, Building Cleaning, Residential Home Catering and Other Catering) final outturn improved since Q4 by £0.1m to 0.6m.

• School Catering was £0.4m over its targeted surplus with meal numbers up 400,000 year on year with resulting income increases. This was linked to the full year effect of universal infant free school meals.

| | 2013-14 | 2014-15 | 2015-16 |
|--|----------|----------|----------|
| Gross Costs £000s | 13,599 | 14,911 | 16,654 |
| Income £000s | (14,381) | (16,095) | (17,568) |
| Direct Net Costs £000s | (782) | (1,184) | (914) |
| Direct Non Controllable Costs £000s* | 352 | 395 | 642 |
| Number of Meals 000s | 5,282 | 6,093 | 6,476 |
| Other activity - e.g. Breakfast clubs meals 000s | 138 | 161 | 179 |
| Take up of school lunches | 58% | 67% | 69% |
| Primary school children's satisfaction with school | | | |
| meals | 73% | 74% | 72% |
| Direct Gross cost per meal YTD | £2.51 | £2.38 | £2.50 |
| Income per meal | -£2.65 | -£2.57 | -£2.64 |
| Direct profit per meal | -£0.14 | -£0.19 | -£0.14 |

*Non controllable costs include capital charges and pension adjustments that are typically outside of the control of the service and are non cash

- Admin Buildings underspent the £13.2m net expenditure budget by £0.2m primarily due to one off net savings from adjustments in rateable values.
- In 2015-16 Margaret Macmillan Tower (former Central Library) became operational, enabling the co-location of Children's Services and the vacation of the leased Future house (see also Property Programme 4.10)
- The number of occupants was lower; the size of the admin estate was bigger and the cost per occupant was higher in 2015-16. This however was planned and results from a limited period of dual running of Future House and the new Margaret Macmillan Tower.

| | 13/14 | 14/15 | 15/16 |
|------------------------------|--------|--------|--------|
| Occupants | 3,509 | 3,468 | 3,221 |
| Workstations | 3,419 | 3,419 | 3,919 |
| GIA m2 of Admin Buildings | 68,312 | 67,557 | 77,219 |
| Cost per Occupant per year £ | 1,270 | 1,269 | 1,430 |
| Occupancy rate | 100% | 101% | 82% |

- 2016-17 will see the decommissioning of Future House and Jacobs Well reducing the size of the Admin Building estate from 77,000m2 to approximately 55,000m2 gross internal area. The decommissioning will result in higher occupancy rates and a financial saving of approximately £2.0m per year from 2017-18 onwards.
- Other Facilities Management services including Building Cleaning, School Cleaning and Residential Home Catering and Other Catering, saw relatively minor differences compared to budget although Other Catering, despite reporting an improved position as the year progressed, was over budget by £0.1m linked to an overall downturn in trade in recent years.
- **Building & Technical Services & Architects** succeeded in both achieving planned savings and meeting their combined revenue budget with the value of capital work at £11m out of £15m representing approximately 70% of the workload.
- The Council's Estate is both significantly smaller and in a significantly better state of repair than previous years as a result of the work undertaken by Building and Technical Services and the Property Programme.

| Backlog Maintenance | 2010-11 | 2011-12 | 2012-13 | 2013-14 | 2014-15 | 2015-16 |

| Excludes ochools and investment Estate. | | | | | | |

Page 84

- The increase in the Non operational estate size and backlog maintenance requirement in 2015-16 is due to reclassification of asset and is not a cause for concern. The direction of travel remains a reducing estate with lower backlog maintenance
- Estates Management The service underspent the £4.0m net expenditure budget by £0.2m. Rents paid via Public Health for occupation of Shipley Town Hall, together with salaries from vacant posts, increased the overall favourable balance. Due to the retendering of the service based at the Town Hall there is no guarantee that we will continue to receive rent from Public Health; as such this income should be regarded as a windfall for 2015/16. Similarly, it is intended that vacant posts will be filled during 2016/17 to help with a review of commercial and non-commercial leases, and the transition to a smaller estate.

Planning Transportation and Highways

Planning Transport and Highways overspent the £27.6m net expenditure budget by £0.3m mainly due to shortfalls in fee income for Building Control and Planning Fees. PTH Outturn results represent a further improvement since Q3 (from £0.6m to £0.3m), as fee income wasn't as low as forecast, and less expenditure was incurred on the Local Plan and winter maintenance after a mild winter. Despite this the costs of maintaining the road network overran by £0.6m, this was however alleviated by higher permit receipts (£0.3m).

- **Policy/Local Development Framework**; Policy/LDF leads on the delivery of the Local Plan for the District and underspent by £0.3m in 15-16 due to delays in the examination process, however this will be completed in 16-17
- Significant progress has been made with submission of three other documents for examination (Area Action Plans for Bradford City centre and Shipley and canal Road Corridor, and Waste plan). Progress towards adoption of these documents in 16-17 will need on-going financial support with major progress anticipated on Allocations in order to put in place a Draft plan for 2017 ready for submission.
- **Building Control Services** underachieved the £1.3m Building Control Fees budget by £0.3m; this represented an improvement to 14-15 and it is expected to further improve in 16-17. Additional income streams will be sought when the joint service with Kirklees is established in the 3rd Quarter. Key to a balanced budget will however be a significant reduction in the cost base as market share of fees remain unlikely to significantly recover in the medium term. The Council's expertise in dealing with dangerous structures and sports grounds safety is required round the clock. A number of major incidents were attended to in 15-16 including fires at Drummond Mill, Prospect Mill and Thornton Mills.
- **Development Services** overspent the net £0.4m budget by £0.1m. The service collected £1.9m of Planning Fees in 15-16, the same as 14-15. Additional income opportunities are expected to materialise in 16-17 with the introduction of fees for High Hedge complaints and Street Naming and Numbering. The cost base for the service is being restructured in 16-17 and is expected to rebalance the service budget

• Planning and Building Control Activity

| | 2014-15 | 2015-16 |
|-----------------------|---------|---------|
| Planning applications | 3,198 | 3,158 |
| BC Inspections | 5,235 | 6,650 |
| BC Enforcements | 260 | 194 |

- **Highways Asset Management** including Street Lighting overspent the £22.6m budget by £0.6m, this included £0.2m higher than planned for costs of street lighting utilities costs although this was offset by lower staffing costs in the year across wider function.
- Highways Delivery Unit overspent the £1.1m budget by £0.3m although there were one off savings from Winter Maintenance due to a mild winter, savings in Trunk Road maintenance also helped to alleviate the pressure overall. The Boxing Day Floods in 2015 added additional pressures to existing budgets as expenditure incurred was not eligible for government funding under the Bellwin scheme, however the Department has received £2.5m in Capital Grant for Local Highway Flood Damage. In terms of routine work, fewer potholes were repaired however capital expenditure on surfacing work was maintained providing for a more durable network

• Highways Delivery and Highways Asset Management Activity

| | 2014-15 | 2015-16 |
|-------------------|---------|---------|
| Capital Spend | £2.9m | £4.6m |
| Potholes repaired | 12,463 | 11,633 |
| Cat 1 Repair Jobs | 284 | 305 |

- Highways services commenced work on the Challenge Fund schemes in conjunction with Kirklees MDC in 15-16. This is a three year Capital Funded Grant for the maintenance of Highway Structures of which Bradford's share is £3.63m
- **Transport Development** underspent its £0.7m net budget by £0.3m. 2015-16 saw the introduction of the NRAWSA permit scheme which achieved £0.2m income within its first year and increased income from prolonged occupation of highways (Section 74 charges). Despite a challenging climate for front line highways services, Transportation Development officers are leading on the delivery of major highways projects that form part of a regional vision to improve local infrastructure. A number of projects (Hard Ings Road, Harrogate New Line and the Station Gateways), all in partnership with the Combined Authority, are reaching key staging posts in their delivery.

3.5 Public Health

2015-16 Financial Outturn

People employed

| | FTE | Sickness Rate (days lost per employee) | Overtime spend £000 (cumulative) | True manager cost as % Total salary cost | Vacancy Rate |
|------------------|-----|--|--|--|-----------------|
| Year end 2013-14 | 59 | 10.27 (Mar 14) | £1 | 45.1% (Jun 14) | 21% |
| Year end 2014-15 | 61 | 11.22 (Mar 15) | £0.3 | 46.9% | 14.1% |
| Year end 2015-16 | 53 | 10.17 (Mar 16) | £0.3 | 33.5% | 11.9% |

* New Department transferred into the Council 1 April 2013

Public Health - £44.0m gross budget / £0.1m net budget, £0.0m underspend

- The main variances include underspends on Sexual Health services (£0.8m) and Tobacco cessation services (£0.4m). The underspends are linked to managed contract savings in response to the £2.6m in year Public Health grant cut imposed by Government. In year reductions of £2.6m have been met through realignment of the procurement plan, one off vacancy savings and non recurrent funding from NHSE.
- As reported at quarter 3, further reductions to the Public Health grant have been confirmed by the Department of Health, and will be phased in over the next 4 years; this additional reduction of £4.3m is expected between 2016-17 and 2019-20.

Public Health

The main variances to plan within Public Health included

Sexual Health

• The service underspent the £5.7m net expenditure budget by £0.8m.

- The main underspends are as a result of decommissioned Voluntary and Community Sector contracts, reduced spend in laboratory costs, change in contractual arrangements with NHSE regarding HIV costs, and property costs. It also includes income from the sexual health clinical services for 25% of out of authority activity recharged to other Local Authorities.
- The majority of Sexual Health Services were re-commissioned in 2015-16.

Tobacco Services

• The Tobacco service underspent the £1.3m net budget by £380k. The under spend of £380k within Tobacco programme is largely due to £240k savings on prescribe stop smoking medication; £23k under spend on commissioned GP and Dental providers. Additional savings of £121k is a released provision for dispensing fees.

Drug and Alcohol Misuse

- The service balanced the combined £12.9m net expenditure budget.
- The main performance measure for drug treatment is the 'successful completions without re-presentation to treatment within 6 months of discharge. Approximately 5.4% of Opiate Users' had successful completions in Bradford compared to 6.8% nationally and this continues to be an area of concern, a high proportion of the £12.9m drugs and alcohol misuse budget is spent on the treatment of opiate users.

| | 2013-14 | 2014-15 | 2015-16 |
|---|---------|---------|---------|
| All opiate users in treatment | 2,641 | 2,581 | 2,492 |
| % of clients completing and not re-presenting within 6 months | 6.3% | 6.1% | 5.4% |
| National | 7.8% | 7.6% | 6.8% |

- The Bradford & District Care NHS Foundation Trust services are subject to performance monitoring review as these services are directly affecting District performance. This will result in reduced funding allocation in 2016-17.
- The second performance measure relates to Non Opiates and this is 'Number of completions without re-presentation to treatment within 6 months of discharge Non Opiates' and is currently 38.5% which is below the 43% district target but above the 37.3% reported nationally.

| | 2013-14 | 2014-15 | 2015-16 |
|---|---------|---------|---------|
| All Non opiate users in treatment | 724 | 769 | 814 |
| % of clients completing and not re-presenting within 6 months | 38.4% | 40.1% | 38.5% |
| National | 37.8% | 39.0% | 37.3% |

• The whole system is the subject of a re-commission and this performance was highlighted as one of the factors for change. It is anticipated that a completely new system will commence in October 2017.

3.6 Chief Executive

2015-16 Financial Outturn

| | Gross expenditure | | | | Income | | | Net expenditure | | |
|-----------------------------|-------------------|---------|----------|--------|---------|----------|--------|-----------------|----------|--|
| | Budget | Outturn | Variance | Budget | Outturn | Variance | Budget | Outturn | Variance | |

| Chief Executive | 5.5 | 5.1 | -0.4 | -0.1 | -0.1 | -0.0 | 5.4 | 4.9 | -0.4 | |

People employed

| | FTE | Sickness Rate (days lost per employee) | Overtime spend £000 (cumulative) | True manager cost as % Total salary cost | Vacancy Rate |
|------------------|-----|--|--|---|-----------------|
| Year end 2013-14 | 142 | 6.99 (Mar 14) | £1 | 22.5% (Incl WYPF Jun 14) | 9% |
| Year end 2014-15 | 119 | 9.33 (Mar 15) | £0.8 | 26.1% ((Incl WYPF) | 4.4% |
| Year end 2015-16 | 97 | 6.66 (Mar 16) | £0.1 | 26.1% | 4.9% |

Chief Executives - £5.5m gross budget / £5.4m net budget, £0.4m underspend

- The Chief Executive's Office including Policy, Programmes & Change (PPC) underspent the £4.7m net expenditure budget (£4.9m gross budget) by £0.3m. This is primarily through an under spend on employees in Public Affairs and Policy Programmes and Change as a prudent approach to staffing is being taken in anticipation of a need to achieve further efficiencies in 2016-17.
- The Chief Executive's Office including Policy, Programmes & Change (PPC) underspent the £5.4m net expenditure budget (£5.5m gross budget) by £0.4m. This is primarily due to an under spend on employees in Public Affairs and Policy, Programmes and Change as a prudent approach to staffing is being taken in anticipation of a need to achieve further efficiencies in 2016-17.
- Additionally substantial savings targets of £1.1m are on track to be delivered as the service completes its transition to a lower cost base.
- The service has submitted a better use of budget request to help the service transition to a lower cost base in 2016-17.

3.7 City Solicitor

2015-16 Financial Outturn

| | Gro | Gross expenditure | | | Income | | | Net expenditure | | |
|-------------------------|--------|-------------------|----------|--------|---------|----------|--------|-----------------|----------|--|
| | Budget | Outturn | Variance | Budget | Outturn | Variance | Budget | Outturn | Variance | |

| Finance Directorate | 213.1 | 211.8 | -1.3 | -185.5 | -184.4 | 1.1 | 27.6 | 27.4 | -0.2 | |

People

| | FTE | Sickness Rate (days lost per employee) | Overtime spend £000 (cumulative) | True manager cost as % Total salary cost | Vacancy Rate |
|------------------|-----|--|--|--|-----------------|
| Year end 2013-14 | 557 | 8.92 (Mar 14) | £377 | 20.9% (Jun 14) | 8% |
| Year end 2014-15 | 571 | 9.56 (Mar 15) | £201 | 19.7% | 8.5% |
| Year end 2015-16 | 572 | 8.33 (Mar 16) | £257 | 18.7% | 16.1% |

Dept of Finance including Revenues and Benefits - 213.1m gross budget /, 27.6m budget, 20.2m underspend

- Net spending was £0.2m below the £27.6m budget, reflecting a favourable variance in Commissioning & Procurement of £0.3m, offsetting small pressures in Financial Services and Revenues and Benefits. Budgeted savings of £1.9m were achieved. Within the overall result, significant financial risks were dealt with.
- The £0.2m surplus is after posting a provision in Revenues and Benefits, to reduce the level of outstanding debt and associated balances created over several years, relating to salaries paid by the Council in respect of school-based staff.
- An extensive review has concluded that, while discussions between the payroll service and individual schools continue, it is not certain that schools will reimburse the Council for the expenditure incurred, given the age of and uncertainty of some of the debt. Accordingly, a provision to the value of £1m has been included.

Financial Services

- **Financial Services** ended the year overspending the £2.7m net expenditure budget by £0.1m
- Structural changes required to achieve the £0.4m allocated savings have been put in place although an implementation time lag resulted in a small in year overspend on salaries.
- Further opportunities for joint working partnerships are being explored building upon the existing positive relationship with Wakefield Council.

ICT Services

- The ICT Service underspent the £17.3m net budget by £0.05m and achieved its 15/16 savings target of £0.8m.
- IT Services spend reduced from £24m in 2014/15 to £17m in 2015/16 as a result of the 10 year contract with IBM/Serco ending in September 2015 with the Council reverting to an In House operation.
- Expenditure per user has fallen significantly since the end of the contract and is planned to fall further

| | 2014/15 | 201516 | Planned 16/17 |
|---|---------|--------|---------------|
| Gross spend per user per year $\mathfrak L$ | 3,403 | 2,515 | 2,430 |
| Net Spend per user per year ${\mathfrak L}$ | 3,176 | 2,378 | 2,200 |

- £4.9m in the 2015/16 budget for payments to the erstwhile contractor for planned upgrade and maintenance has been set aside in reserves, as funding to pay, equivalently, for future investment and maintenance in systems and hardware.
- The service goes into 2016/17 with unfilled vacancies of some £0.4m. Further work on restructuring and re-profiling the service in line with the future need of the Council is underway, with salary cost reductions to the value of £0.2m are planned.
- The service has implemented this year's programme of technology developments & system improvements including the new desk top solution on over 1,000 new devices. A framework has also been put in place to ensure achievement of a further £5.95m of savings in 2016-17 as compared to the original contract cost.

Revenues & Benefits

- **Revenues & Benefits** ended the year with a £0.1m deficit. In day-to-day operations, they achieved a surplus of £0.9m, against a £4.5m net budget. As noted above, the aggregate position was affected by an exceptional £1m provision relating to school-based staff paybill balances
- £0.4m budget savings were achieved, although they included some compensating savings being made to offset those originally targeted reductions that turned out not be achievable, especially in recovering charges for late payment of tax. Such recovery remains a challenge due to the financial circumstances of some debtors.

- In respect of activity levels, the value of council tax collected in year rose by 4%, £6.7m from £166m to £173m, while the number of business rates bills issued rose by 3.8%, from 17,900 to 18,600.
- Employee costs were £0.5m underspent, arising from less overtime, fewer agency staff, and vacancies. A £0.5m surplus on the net benefits payments budget reflects continued improvement in the performance in collecting overpaid housing benefit and an on-going benefit the Council has from backdated reductions in entitlement to Council Tax Benefits.
- Forecasting reliably during the year the net benefit payment budget remains difficult a near £185m turnover, volatility in claimant circumstances and debt levels, combined with the increasing practical difficulty of collecting from debtors under financial stress, all make precise forecasting hard.
- Additional administrative costs associated with migrating to Universal Credit, projected at £0.5m, will now, due to delays in the DWP's roll out programme, be incurred from 2016-17 onwards. The associated funding has been reserved, in respect of grant funding received in 2015-16 for new burdens, plus a request made to carry forward £0.1m.

Commissioning and Procurement

- The Commissioning and Procurement Service underspent the £1.9m net expenditure budget by £0.3m, primarily from filling vacant posts pending a service review, and in year savings through renegotiation of contracts.
- The gross cost of the service per £'000 of 3rd party spend has fallen from £4.43 in 13/14 to £4.13 in 14/15 and to £3.54 evidence of the cost efficiency of the service. Set against this, there is still scope for improvement in the maturity and efficacy of Council-wide procurement habits and practice, which forms the centre-piece of the Service's operating plan for 2016/17. Further savings to the value of £192k are required in the 2016-17 budget.

3.9 Human Resources

2015-16 Financial Outturn

| | Gros | Gross expenditure | | | Income | • | Ne | t expend | iture |
|----------------------|--------|-------------------|----------|--------|---------|----------|--------|----------|----------|
| | Budget | Outturn | Variance | Budget | Outturn | Variance | Budget | Outturn | Variance |
| | £m | £m | £m | £m | £m | £m | £m | £m | £m |
| HR Functions | 5.4 | 5.1 | -0.3 | -0.3 | -0.5 | -0.2 | 5.1 | 4.6 | -0.5 |
| Single Status | -0.0 | 0.0 | 0.0 | - | - | - | -0.0 | 0.0 | 0.0 |
| Corporate Projects | 0.1 | 0.1 | -0.0 | - | -0.0 | -0.0 | 0.1 | 0.1 | -0.0 |
| Miscellaneous Income | - | 0.0 | 0.0 | -0.0 | -0.1 | -0.0 | -0.0 | -0.1 | -0.0 |
| Traded HR Functions | 1.4 | 1.3 | -0.1 | -1.6 | -1.5 | 0.1 | -0.2 | -0.3 | -0.0 |
| Administration | 3.0 | 2.8 | -0.2 | -0.1 | -0.1 | -0.0 | 2.8 | 2.6 | -0.2 |
| Human Resources | 9.9 | 9.3 | -0.6 | -2.1 | -2.2 | -0.1 | 7.8 | 7.0 | -0.8 |

People employed

| | FTE | Sickness Rate (days lost per employee) | Overtime spend £000 (cumulative) | True manager cost as % Total salary cost | Vacancy Rate |
|------------------|-----|--|--|--|-----------------|
| Year end 2013-14 | 551 | 10.93 (Mar 14) | £20 | 13.9% (Jun 14) | 8% |
| Year end 2014-15 | 214 | 11.14 (Mar 15) | £2 | 20.8% | 6% |
| Year end 2015-16 | 191 | 7.79 (Mar 16) | £7 | 21.9% | 9.5% |

- Human Resources (HR) underspent the £7.8m net expenditure budget by £0.8m which is in addition to £0.4m of savings applied to it in 2015-16 which are being reported as being achieved.
- Approximately half the under spend is in employee costs within the core Human Resources & Administration functions due to vacancy control pending the completion of the restructure and the decentralisation of Transactional Support staff. The other half of the under spend is from one off savings and income generation within Workforce Development. The projections also allow for work on Council priority programmes such as New Deal & Learner Management System being funded in 2015-16 via prior year underspends.
- HR plan to submit a better use of budget request for £0.2m to help cover the transition to a lower cost base in 2016-17.

3.10 Property Programme

2015-16 Financial Outturn

| | Gross expenditure | | | Income | | | Net expenditure | | |
|--------------------|-------------------|---------|----------|--------|---------|----------|-----------------|---------|----------|
| | Budget | Outturn | Variance | Budget | Outturn | Variance | Budget | Outturn | Variance |
| | £m | £m | £m | £m | £m | £m | £m | £m | £m |
| Property Programme | 1.4 | 1.3 | -0.1 | 0.1 | 0.1 | 0.1 | 1.3 | 1.3 | - |

- The Property Programme balanced the £1.3m net expenditure budget.
- In 2015-16 the Programme continued work on the City Centre Property Utilisation Project that is now nearing completion.
- The Project was initially approved £15.8m to relocate the library service to City Park; undertake a major refurbishment of the former Central Library building to office accommodation, and purchase and undertake a major refurbishment of the neighbouring Mercury House (now Sir Henry Mitchell House).
- The aims of the project were to
 - Enable the vacation of 2 large out of town office building (Future house and Flockton House saving £1.5m gross per year).
 - Reduce backlog maintenance requirements by £5m from the major renewal of the former Central Library building and the demolition of Flockton House
 - Accommodate many Children's Services on one location in line with Ofsted recommendations
 - To relocate the library to a fit for purpose building on City Park that was formerly underutilised as the Bradford 1 Gallery (relocated to Cartwright Hall). The Bradford 1 Gallery previously had approx. 33k visitors per year, where the new City Library has approx. 214k visitor per year (32k more visitors than in 2014-15).
 - City Centre regeneration through the renewal of two major buildings that were previously dilapidated (Former Central Library and the neighbouring Mercury House), and the relocation of 1,000 staff aiding City Centre footfall.
- The project has ended up costing £14.5m and in addition to the benefits outlined above, has also subsequently enabled the vacation of other Council office accommodation including the Aire Building Shipley.
- The Programme is also in the process of relocating Council Staff from the Jacobs Well office, with the majority of staff relocating to Argus Chambers and space created within Britannia House.

- Other work on the horizon includes
 - The Depots strategy which is seeking to consolidate Council depot operations on to freehold land on Bowling Back Lane, enabling the disposal of Shearbridge and Harris Street depots.
 - The proposed Keighley Hub, which is planned to be a Public Sector hub shared by the Council and other Public Services. The scheme is still at the planning stage, and will only progress if appropriate lease terms can be agreed with other Public Bodies.
- The Programme has submitted a better use of budget request for £0.1m to help fund costs associated with the vacation of Jacobs Well in 2016-17.

3.11 Non Service Budgets

2015-16 Financial Outturn

| | Gros | Gross expenditure | | | Income | | Net | expenditu | re |
|--------------------------|--------|-------------------|----------|--------|---------|----------|--------|-----------|----------|
| | Budget | Outturn | Variance | Budget | Outturn | Variance | Budget | Outturn | Variance |

| Levys | 0.2 | 0.2 | -0.0 | - | - | - | 0.2 | 0.2 | -0.0 |
| Miscellaneous | 0.3 | -0.4 | -0.7 | - | -0.1 | -0.1 | 0.3 | -0.5 | -0.8 |
| Parish Councils | 0.0 | 0.2 | 0.2 | - | -0.2 | -0.2 | 0.0 | 0.0 | 0.0 |
| Non Recurring Investment | 0.3 | 0.2 | -0.1 | - | 0.0 | 0.0 | 0.3 | 0.2 | -0.1 |
| Non Service | 2.5 | 1.7 | -0.8 | -1.3 | -2.1 | -0.9 | 1.3 | -0.4 | -1.6 |

 Non Service budget underspent by £1.6m, mostly due to the overachievement of interest earned, and £0.4m of deferred income for Flood Hardship grants (shown within Miscellaneous). The remaining funding from government for Flood Hardship will be available for 2016-17.

3.12 Central Budgets

- Central budgets and transfers to reserves include non service expenditure relating to capital financing costs £50.1m, the West Yorkshire Passenger Transport Authority Levy £23.9m along with general grants (New Homes Bonus £9.6m).
- Year end technical accounting entries relating to charges made to services for depreciation, amortisation, technical pension adjustments, capital grants, Finance Lease costs relating to Private Finance Initiative Schools and revaluation losses are also included.
- Overall Central Budgets and Net Transfers to reserves shows an overall deficit against budget of £5.5m.
- The overspend comprises an additional £6.7m to fund a provision for redundancy costs associated with future budget plans. Further, £2.7m of costs were transferred to the Better Use of Budgets reserve to fund deferred expenditure in 2016-17. Additionally there were technical accounting adjustments for gains and losses on disposal of fixed assets.
- These charges were partly funded by a £6.5m underspend on capital financing costs and £1.4m of net budget contingencies were not used in 2015-16. There was also a £0.8m saving on miscellaneous budgets, including some amounts set aside for inflation which were not required. In addition, there was £0.4m of additional general grant income, mostly relating to Business Rates grants.

4.0 BALANCE SHEET

4.1 Revenue Reserves

- At 31st March 2016 unallocated reserves stand at £19.9m inclusive of the £0.8m Council underspend. The 2016-17 budget assumes £6.2m will be used to leave a forecasted unallocated balance of just £13.8m at 31 March 2017.
- The balance continues to be seen as potentially inadequate by both the Council's Section 151 Officer and the Council's External Auditors given Governments fiscal policies that will reduce Council net spending from £400m in 2015-16 to £300m by 2021.
- Net movements from reserves have led to a £16.3m reduction in total reserves from £184m at 1 April 2015 to £167.7m at 31st March (£133.9m Council and £33.8m schools). The £16.3m net releases from reserves include:
 - £18.7 m of net releases from reserves outlined previous qtr. reports.
 - \circ £2.3m of net additions to reserves since 29th Feb:
- The main releases to and from reserves are outlined below.

Releases from reserves include

-£4.6m to support School Delegated Budget (see School Reserves) -£3.6m from PFI Credits reserve to meet liabilities. -£1.4m from Employment Opportunity Fund -£1.0m from Routes to Work

Additions to reserves include

+£3.9m movement to Transition and risk reserve to help cover cost of redundancies and other risks in future years.

+£3.2m Care Act – Remaining funding to cover hourly rate increases in 16-17 +£2.8m Better use of budget requests (table 2)

- +£1.7m transfer to Grant Reserves relating to deferred spend of grant.
- +£0.8m General Fund surplus

Appendices 1&2 outline all Council and schools reserves including movements in year.

4.2 General Fund balance

• The General Fund balance is a statutory requirement which provides a contingency against unforeseen events. At 31 March 2016 the General Fund balance remains at £10.8m and within the Council's policy of 2.5% of the net budget requirement.

4.3 School Reserves

• The table below shows that School Reserves (including Schools Contingencies) position as at 31st of March 2016. At the end of the 2014-15 financial year, the school reserve balance was £38.4m. The table below provides the current position on school balances.

| | Balance 1 st April | | | Balance 31 st | | Forecast | |
|-----------------------------|-------------------------------|--------|-----|--------------------------|-----|----------|--|
| | | 2015 | M | arch 2016 | | Movement | |
| | Nos | £000 | Nos | £000 | Nos | £000£ | |
| Nursery | 7 | 866 | 7 | 634 | 0 | 232 | |
| Primary | 137 | 13,281 | 137 | 13,193 | 0 | 88 | |
| Secondary | 15 | 4,303 | 13 | 3,307 | 0 | 996 | |
| Special | 6 | 773 | 6 | 693 | 0 | 80 | |
| Pupil Referral Units (PRU) | 7 | 1,841 | 7 | 1,041 | 0 | 800 | |
| Total | 172 | 21,064 | 170 | 18,868 | 0 | 2,196 | |
| School Contingency | | 16,693 | | 14,091 | 0 | 2,602 | |
| City Learning Centres/Other | | 598 | | 844 | 0 | (246) | |
| Total | 172 | 38,355 | 172 | 33,803 | | 4,552 | |

- There were six schools (Midland Road Nursery, Stocks Lane Primary, Hanson School, The Holy Family Catholic school, St Bede's & St Joseph's College, Oastler School) that have a combined deficit of £1.2m in 2015-16.
- Two schools (Belle Vue Boys and Immanuel College) converted to Academy status in 2015-16. In setting the 2016-17 school's budget, the Schools Forum has utilised £9.6m balance on School Contingencies.

4.4 **Provisions**

• At the 31st March 2016, the Council set aside £22.7m, of which £9.4m is expected to be used in 2016-17 with the remainder in subsequent years. Provisions are £2.7m higher than at the 2014-15 year end.

The main provisions include:

£8.4m Termination Provision to fund the cost of future redundancies £6.0m Business Rates appeal provision £4.0m Outstanding legal claims £3.9m Damage Compensation

4.5 Long Term Assets

At 31 March 2016, the Council had long term assets of £1.149bn consisting almost entirely of land and buildings

4.6 Other Significant Balances

• At 31 March 2016, the Council's net worth (the total value of its financial assets less the value of its outstanding liabilities) decreased by £25.6m, resulting in a negative net worth of £42.1m.

| | 2014-15 £ms | 2015-16£ms |
|----------------------------|-------------|------------|
| Revenue and Capital | -218.0 | -202.3 |
| Unusable (non cash) | 234.5 | 244.4 |
| Total Reserves (net worth) | 16.5 | 42.1 |

4.7 Council Tax and Business Rates Collection Rates and the Collection Fund (Council Tax and Business Rates)

Council Tax

- The Council Tax element of the Collection Fund ended the year £3.1m in surplus, of which 85% (£2.6m) belongs to the Council.
- The overachievement of Council tax income compared to the budgeted figure is due

to a higher number of new properties being billed and a lower than forecast cost in the current year of providing Council Tax Reduction support.

• The total amount collected and in year collection rates are as outlined.

| | 2014-15 | 2015-16 | 2016-17 |
|---|---------|---------|---------|
| Council Tax (incl surplus/ deficit) £ms | -146.56 | -152.10 | -161.95 |
| In year collection rates* | 94.18% | 94.24% | |

Business rates

- The Business Rates retention scheme provides for Business Rates collected by Bradford Council to be shared between itself, central government and the West Yorkshire Integrated Fire Authority. Any difference between what the Council forecast it would raise in Business Rates in 2015-16 (£68.513m) and what it has actually raised results in either a surplus or deficit on the Collection Fund,
- A deficit of £21.2m was outturned, in line with the forecast in January 2016. Bradford's share (49%) of this deficit was £10.4m.
- A reason for the deficit was the impact of appeals. Successful appeals require the Council to refund business in 2015-16 and in many cases prior years. There was a high cost of refunds because:
 - Refunds due to rateable value reductions on GP surgeries backdated to prior years
 - Refunds on other rateable value reductions
- This deficit on the Business Rates Collection Fund was fully forecast when the 2016-17 budget was set. As a result, the deficit has already been budgeted for.
- The total amount collected and in year collection rates are as outlined.

| | 2014-15 | 2015-16 | 2016-17 |
|---------------------------------------|---------|---------|---------|
| Business Rates (incl surplus/deficit) | -64.3 | -68.72 | -63.69 |
| In year collection rate | 97.94% | 96.94% | |

5. CAPITAL INVESTMENT PLAN

5.1 Capital Spend

- During the year the Council made a total capital investment of £70.6m in the district. This was £4.3m less than the forecast budget of £74.9m. The capital investment included the completion of Margaret Macmillan Tower, three new affordable schemes, the new Forster Academy School and the redevelopment of Clergy House to provide temporary accommodation for homeless families. In addition £6.6m was provided for regeneration through the City Centre Growth Zone and the former Tyrls site cleared to enable regeneration.
- Costs of £0.2m were incurred over the past three years on two schemes that have not been brought into use. These are the Saltaire Hydro scheme (£0.1m) and the design and feasibility work on the proposed Saltaire Extra/Intermediate Care development at Queens Road, Saltaire (£0.1m). Accounting standards do not allow for these costs to be capitalised and the costs have to be charged to revenue. This leaves a net spend position of £70.4m.

| Services | Forecast Budget £m | Outturn £m | Variance £m |
|--|--------------------------|---------------|----------------|
| Adult & Community Services | 0.6 | 0.7 | 0.1 |
| Children's' Services | 24.7 | 24.0 | -0.7 |
| Public Health | 0.4 | 0.4 | 0.0 |
| Environment & Sports | 3.6 | 3.0 | -0.6 |
| Property & Economic Development | 17.9 | 17.5 | -0.4 |
| Regen - Climate, Housing, Employment & Skills | 11.5 | 10.9 | -0.6 |
| Regen - Planning | 1.1 | 0.7 | -0.4 |
| Total - Regen - Highways & Transport | 15.1 | 13.4 | -1.7 |
| | 74.9 | 70.6 | -4.3 |
| Less Abortive Costs Saltaire Hydro & Extra/Intermediate Care devt | | -0.2 | -0.2 |
| TOTAL - All Services | 74.9 | 70.4 | -4.5 |

5.2 Analysis of Spend by Type of Expenditure

• The Table below shows an analysis of the capital expenditure by the type of expenditure. This shows the main variance relates to expenditure on the maintenance of the Council's own assets, in the main relating to the maintenance of schools and reflecting the intention to redirect some of that resource to increase school capacity.

| | Budget | Actual Spend | Variance |
|-------------------------------------|--------|-----------------|----------|
| | Budget | Spend | Variance |
| | £m | £m | £m |
| Maintenance of Council Fixed Assets | 36.5 | 34.0 | 2.5 |
| Invest to Save | 2.1 | 2.1 | - |
| New Build or Acquisition | 8.2 | 8.0 | 0.2 |
| Schools Capacity | 12,2 | 11.6 | 0.6 |
| Regeneration | 10.6 | 9.3 | 1.3 |
| Grants to Third Parties | 5.3 | 5.4 | -0.1 |
| Total | 74.9 | 70.4 | 4.5 |

5.3 Funding of Capital Investment Plan

• In year the total net capital expenditure of £70.4m was funded from a variety of sources, shown in the table below:

Sources of funding

| Total resources used to fund capital spend | 70.4 |
|--|------|
| PFI and Other Finance Lease | 0.6 |
| Prudential Borrowing | 18.0 |
| Capital Receipts | 5.1 |
| Direct Revenue Funding | 6.7 |
| Capital Grants and Contributions | 40.0 |
| | £m |

5.4 Capital Grants and Contributions

• The Council had a balance of £38.4m in unused capital grants and contributions at the beginning of the year. A further £39.3m was received in year. Of this £38.9m was used to fund capital expenditure on the Council's own assets and a further £1.1m was used to fund expenditure on assets owned by third parties. This leaves a

Capital grants and contributions

| | £m |
|---|-------|
| Balance B/fwd at 1.4.2015 | 38.4 |
| Capital grants received in year | 39 3 |
| Repayment of Grant | - |
| Applied to fund spend on Property Plant & Equipment | -38.9 |
| Applied to fund REFCUS ¹ | -1.1 |
| | |
| Balance C/fwd 31.3.2016 | 37.7 |

5.5 Capital Receipts

• The Council received £8.2m of receipts from the disposal of assets and repayment of loans. £5.1m was applied to fund capital expenditure on the Council's own assets. The remaining £4.9m relates to the repayment of loans and grants under schemes that require the reuse of those repayments for similar schemes as the original loan or grant and to schemes that have generated capital receipts that will be used to fund that scheme in the following year.

Capital receipts

| | £m |
|---|------|
| Balance B/fwd at 1.4.2014 | 1.8 |
| Capital receipts received in year | 8.2 |
| Applied to fund spend on Property Plant & Equipment | -5.1 |
| Balance C/fwd 31.3.2015 | 4.9 |

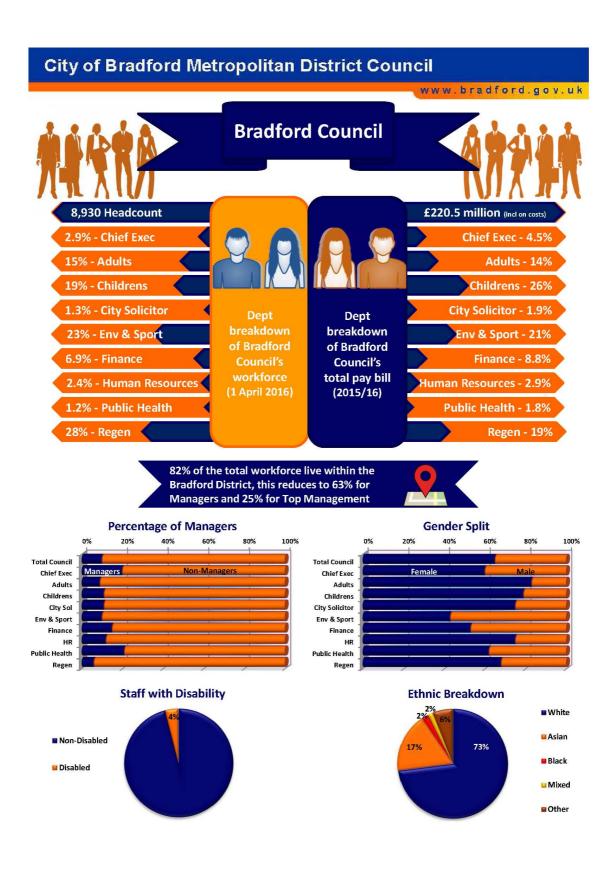

5.6 Direct Revenue Funding

• The Council used £6.7m of its revenue budget to directly fund capital expenditure. The most significant contribution was the £3.4m from school own funds to fund capital improvements.

5.7 Prudential Borrowing and Prudential indicators

- The £18.0m of capital spend funded from additional borrowing (including finance lease) has been offset by a Minimum Revenue Provision (MRP) of £32.0m to pay off debt. There is therefore a net decrease in the notional debt owed of £14m reducing the Capital Financing Requirement from £679.3 to £665.7m.
- In accordance with 'The Prudential Code for Capital Finance' the Council monitors performance against a range of prudential indicators set as part of the budget process. There are no concerns currently in relation to prudential indicators. In particular:
 - Borrowing was within the authorised limit and operational boundary throughout 2015-16.
 - Net external borrowing is below the capital financing requirement.

¹ Revenue Expenditure Funded from Capital under statute, is revenue expenditure where the Secretary of State has given specific approval for it to be funded using capital financing.

Capital Outturn 2015-16

Agenda Item 6/

Н

Report of the Director of Finance to the meeting of Executive to be held on 19 July 2016.

Subject:

Medium Term Financial Strategy 2017-18 to 2019/20 and beyond incorporating the Efficiency Plan

Summary statement:

The Medium Term Financial Strategy focuses on how the Council intends to respond to the forecasted public sector funding reductions as a result of the on-going austerity measures imposed by the Government's spending plans. It sets out the approaches and principles the Council will follow to ensure the Council remains financially viable and delivers on its priorities.

The Plan also forms the basis of the Council's Efficiency Plan for the next four financial years.

The next four years already contained a series of potentially significant changes to the structure of the Council and the services it will be responsible for and what it can provide. Many of these changes are still at consultation stage which brings additional complexity when predicting the future. However, the result of the EU referendum has added a further layer of uncertainty to prospects of stability in local government finances.

The forecast identifies further savings of \pounds 11.5m in 2017/18 in addition to the \pounds 24.2m agreed in February 2016. In the following year the gap increases to \pounds 32m in 2018/19 and then up to \pounds 109.5m by 2022/23.

Stuart McKinnon-Evans Director of Finance Portfolio: Leader and Corporate

Corporate

City of Bradford Metropolitan District Council

1. SUMMARY

- 1.1 In the medium term the landscape of local government service provision could totally shift through a series of potential changes announced collectively in the Spending Review 2015, Local Government Settlement and the Chancellor's Budget Statement in March 2016. The Medium Term Financial Strategy (MTFS) does however set out the financial envelope for the Council to deliver its key priorities as set out in the revised Corporate Plan. The result of the EU referendum has increased the uncertainty facing local government finances. The Chancellor has indicated that there will not be an immediate emergency budget but that there may need to be an adjustment to deal with issues following the referendum result. Any such adjustment through a Budget would be in the autumn. The impact on local government finance is not known and this forecast has not built in any adjustments to the local government finance envelope as a result of the EU referendum result.
- 1.2 The key outcomes that underpin the financial planning of the Council are:
 - Good schools and a great start for all our children
 - Better skills, more good jobs and a growing economy
 - Better Health and better lives
 - Safe, clean and active communities
 - Decent homes that people can live in
- 1.3 The MTFS shows a continuing reduction in the size of the Council's financial envelope and identifies an immediate need to identify revenue savings of a further c£11.5m in order to set a balanced Budget in February 2017. The gap rises to £32m in 2018/19 and continues to widen to £109.5m by 2022/23.
- 1.4 Appendix 1 section 3.1 contains details of the key risks associated with the forecast. Clearly the recent result of the EU referendum has introduced immediate and unquantifiable uncertainty to the future of local government finances. The key risk is the deterioration of the national economy which could lead to further austerity measures imposed on local government.

The biggest uncertainties that could affect the Council finances post April 2020 are the state of the national economy and in particular the current reforms on local government finance which include business rate reforms, academisation and the restructure of the New Homes Bonus.

1.5 The Council has the opportunity to apply for a multi year settlement which will provide a certain level of comfort on the rate of decline of the Revenue Support Grant (RSG). Annex D to Appendix 1 of this report forms the basis of the Efficiency Plan the Council is required to prepare if it chooses to apply for the multi year settlement.

2. BACKGROUND

2.1 The MTFS forms part of the Council's planning and performance framework, and provides the context for the more detailed budgeting process.

- 2.2 The MTFS is refreshed each year to give a rolling three year assessment of the fiscal environment, after the close of the previous year, and before the budgeting round commences. It also provides a forecast for a further three years but due to the current work on reforming local government finances these further three years are based on the current financial system.
- 2.3 The MTFS (Appendix 1) comprises three sections
 - 1. Purpose, priorities and principles page 2
 - 2. Medium Term Financial Forecast and Gap Analysis page 4
 - 3. Risks associated with the forecast page 7

Followed by a series of annexes

- Annex A Current Cost and Resource Structure and savings delivered
- Annex B Expenditure Forecast Assumptions
- Annex C Resource Forecast Assumptions
- Annex D Efficiency Plan (to support application for a multi year settlement)

3. OTHER CONSIDERATIONS

3.1 The MTFS is typically affected by Forward Plan decisions being considered by Executive and Council which have material financial implications. In addition national policy changes can also have a significant impact on the MTFS.

4. FINANCIAL & RESOURCE APPRAISAL

4.1 The MTFS is a financial and resource appraisal.

5. RISK MANAGEMENT AND GOVERNANCE ISSUES

- 5.1 The principal risks arising from the strategic assessment emerge from:
 - the sensitivity of financial estimates to actions beyond the immediate control of the Council, in particular Government decision on local authority financial regimes and spending levels. This is particularly significant for this forecast given the National reforms currently being considered
 - the capability of the Council to influence Council Tax and Business Rates
 - the impact on the economy and any resulting adjustment to the local government financial envelope resulting from the EU referendum vote to leave the European Union.

6. LEGAL APPRAISAL

7.7 WARD IMPLICATIONS

Non specific.

8. NOT FOR PUBLICATION DOCUMENTS

None.

9. OPTIONS

9.1 The two options to consider are whether the Council wishes to apply for the multi year settlement or reject the offer. In simple terms the multi year offer will fix the Revenue Support Grant (RSG) up to and including 2019/20. Annex C section 1.1b sets out the RSG on offer but is replicated here:

| Forecasted RSG from multi year settlement | 2017/18 | 2018/19 | 2019/20 |
|---|---------|---------|---------|
| | £'m | £'m | £'m |
| RSG included in the forecast | 62.8 | 48.5 | 34.1 |

The multi-year settlement guarantee is subject to unforeseen circumstances and the EU referendum vote to leave the EU will undoubtedly be classed as such an event. However, it is too early to say whether any autumn budget will affect the multi-year offer.

9.2 Interest in accepting the multi year offer will only be considered if a link to a published efficiency plan is received by 5pm Friday 14th October 2016.

Those councils that chose not to accept the offer, or do not qualify, will be subject to the existing yearly process for determining the local government finance settlement.

Allocations could be subject to additional reductions dependant on the fiscal climate and the need to make further savings to reduce the deficit.

At present we do not expect any further multi-year settlements to be offered over the course of this parliament.

9.2 Option 1 – Accept the multi year deal. This option will at least give a limited amount of comfort as to the rate at which RSG will fall and the Council can then plan accordingly. The MTFS assumes that RSG will fall to zero by April 2020 in line with Government announcements. By accepting the multi year settlement the Council would not be locking into a source of funding that would potentially increase.

Option 2 – Reject the multi year deal and be subject to the annual settlement announcement.

- 9.3 Given the size of the budget gap to close, as indicated by this MTFS, then an element of certainty over the next three years on a funding stream will help in planning to address the budget gap. It is considered extremely unlikely that by locking into the RSG there would be a missed opportunity for an increase in RSG even if there was a change in government.
- 9.4 Having considered the two options it is recommended that the Council applies for the multi-year settlement based on this MTFS and in particular the Efficiency Plan at Annex D. The position will be reviewed up to 14th October 2016 to ensure that if any new information comes to light, (for example further austerity measures as a result of the EU referendum vote to leave the EU), this can be taken into account before submitting the application for the multi-year settlement.

10. **RECOMMENDATIONS**

- 10.1 That Executive consider the Medium Term Financial Strategy as an assessment of the Council's financial outlook to 2019/20 and beyond, and a framework for it to remain financially viable and deliver sustainable public services in line with its priorities using the principles contained in the Efficiency Plan (Annex D).
- 10.2 That Executive recommends the updated and revised Medium Term Financial Strategy at Appendix 1 of this report be forwarded to Council for approval.
- 10.3 That Executive recommends, subject to Council approval, to delegate to the Chief Executive, in consultation with the Leader, to apply to take up the multi-year settlement supported by the Efficiency Plan at Annex D based on their assessment of whether this will be in the best interests of the Council.

11. APPENDICES

11.1 Appendix 1 Medium Term Financial Strategy 2017/18 to 2019/20, including the annexes to the Strategy.

APPENDIX 1

City of Bradford Metropolitan District Council

Medium Term Financial Strategy & Efficiency Plan

2017/18 - 2022/23

PURPOSE, PRIORITIES AND PRINCIPLES OF THE MEDIUM TERM FINANCIAL STRATEGY (MTFS)

1.1 Purpose and priorities

The MTFS sets out how the Council intends to respond to:

- the forecasted size of the financial challenge it faces in both the medium and longer term (Medium Term Financial Plan Annex A)
- the constraints of the national and local landscape
- the risks to financial resilience.

In the current financial climate the Council's principal financial aim is to remain viable so that it continues to work with partners, other organisations, residents and communities to deliver positive outcomes on its priorities of:

- Good schools and a great start for all our children
- Better skills, more good jobs and a growing economy
- Better Health and better lives
- Safe, clean and active communities
- Decent homes that people can afford to live in.

To remain affordable and deliver sustainable public services, the MTFS has four main objectives;-

- Continue the trend of recent years to manage down the Council's recurrent cost base in line with reductions in overall resources
- Maintain income levels and increase them where possible, including growing the Council Tax and Business Rates tax base
- Prudently use unallocated reserves and balances to smooth the transition to a lower cost base and accommodate unforeseen challenges, and ensure that longer term liabilities and risks are adequately covered
- Seek to benefit from public service reform

1.2 Approach and principles

The MTFS is consistent with the priorities the Council is pursuing, as articulated in the District Plan and the Council Plan.

The principles that will influence the choices the Council will make in the future are summarised below

- Enabling Community Leadership a culture and system of governance which is vibrant inclusive and democratic.
- Working closely with partners maintain cost-effective partnerships, through pooling resources and collaborating with various organisations in the District

- Reducing demand, changing expectations and behaviour -
 - managing and reducing demand for services through changing citizen's behaviour, recognising that people have responsibilities as well as rights.
 - changing public expectations about the level and scope of Service they can expect from the Council and the role they can play in helping achieve positive results for themselves, their families, communities and the District.
- **Investing in prevention and early intervention** taking action early to stop problems getting worse or from happening in the first place.
- **Reducing inequalities and tackling poverty** targeting resources where they are most needed to address inequalities and poverty.
- **Devolution** to ensure the Council can operate effectively at neighbourhood, District and regional level. The Council's approach shaped by the outcome of devolution.
- **Productivity and Value for Money** making sure that services give value for money and maximise the potential of all the District's assets, be they in the public, private or third sectors or within the community.

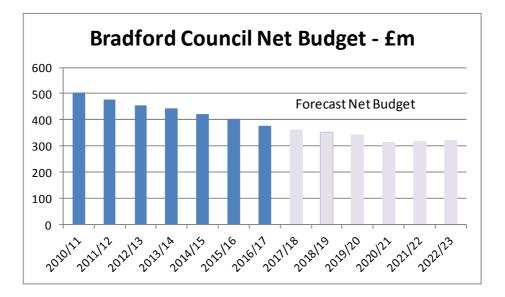

A robust performance management framework arrangement will make sure value for money, sustainability, efficiency gains and the effectiveness of resource allocations can be demonstrated across all Council services, partnerships and commissioned service delivery; and that mechanisms are in place by which performance against these can be measured and managed. This will provide an increasingly sophisticated understanding of performance against district wide and local priorities set within the context of the financial outlook.

This forecast is based on a series of assumptions which are detailed in Annexes B and C. It starts from the current financial structure of the Council, which is analysed in more detail at Annex A.

The strategy and principles set out above lay down the framework and constraints for the next stage in the continuous cycle of operational and financial planning. Annex D shows the Efficiency Plan to meet the financial planning challenge.

MEDIUM TERM FINANCIAL FORECAST AND GAP ANALYSIS

- 2.1 The medium term and longer term forecasts set out in Table 1 and Table 2 derive from comparing forecast expenditure assuming no changes to current plans, with forecast income, to give a deficit to be managed out through budget decisions.
- 2.2 The starting point for the Forecast is the current financial structure of the Council, which is analysed in Annex A. It also assumes that the Service and non-Service savings approved by Council, covering 2016/17 and part of the gap for 2017/18 will be achieved in full (£68.8m).
- 2.3 Forecast cost structure and forecast future resources are affected by a number of factors, some that are within our control and others that are not. However, given the announcements in the Local Government Settlement and March 2016 Budget there are significant changes planned for local government finance but the early stage of these developments mean that the impact on Bradford is currently unknown. These developments are set out in more detail in Annex C. In Annex B the material factors that are likely to affect the Council's spending forecasts are set out.
- 2.4 This Forecast is also the platform for the Efficiency Plan (Annex D) of the Council in order to secure the multi year settlement on the Revenue Support Grant of which 2016/17 is the first year. This forecast therefore covers in detail the period up to 2019/20 but also projects for a further three years up to 2022/23. Given the uncertain nature of the local government financial landscape post April 2020 clear assumptions are set out.
- 2.5 In 2010 the Council's adjusted net budget was in the region of £500m, it is now £378m. Given that core grant is expected to disappear by April 2020 the Council is using a working assumption that the net budget will be c£300m in current prices by 2020/21.

2.6 In the five years from the beginning of 2011/12 to 2015/16 the Council has implemented a series of reductions to its net budget of £172.6m. Further reductions of £45.6m (including £1.0m of further Public Health grant cuts) are being applied during 2016/17 taking the total reductions to £218.2m.

- 2.7 On 25 February 2016 the Council agreed further savings for 2017/18 of £24.2m. Assuming that the Council raises Council Tax in 2017/18 by 1.99% and also applies the social care precept of 2% in full, the deficit still to be closed in 2017/18 is forecast to be £10.3m.
- 2.8 Initial projections are that it is expected that austerity will have ended and the Council net resources will start to increase again from 2021/22 however, there will still be a cumulative gap of £110m by 2022/23. Clearly the result of the EU referendum has brought further uncertainty and it is too early to understand the implications of this vote. The Chancellor has announced that any adjustment to public finances will be deferred until the Office for Budget Responsibility has updated its forecast in the autumn and any new budget would not be implemented until there is a new Prime Minister. This forecast has not incorporated any fresh assumptions into the financial outlook and if the position materially changes the financial outlook will be updated after any new autumn Budget has been published.

TABLE 1 CUMULATIVE THREE YEAR MEDIUM TERM FORECAST

RISKS ASSOCIATED WITH THE FORECAST

- 3.1 A series of potential changes announced collectively in the Spending Review 2015, Local Government Settlement and the Chancellor's Budget Statement in March 2016 inevitably means the numbers of uncertainties, sources of risk attached to the forecast are significant.
 - The impact of national economic performance public sector finance following the result of the EU referendum to leave the EU.
 - The buoyancy of the local economy
 - Fundamental review of relative needs of local authorities in a national funding regime
 - Business Rates Review process, 2017 Revaluation, appeals against the rating list and future increases in the Business Rate multiplier
 - Integration of health and social care, the financial health of the NHS, and the ability and willingness of the NHS to fund social care
 - Inflation a 1% variance in pay equates to £2.2m and a 1% change in prices would have a £2.1m impact on expenditure assumptions
 - Treasury management the extent to which cash balances will drive the need to borrow to finance capital investment
 - Change management risk, and the deliverability of existing budget decisions
 - Liabilities that may arise from conversion of schools to academies
 - Contractual risk

- What devolution, regional and other aspects of public sector reform will mean for Bradford
- Impact of demographics in terms of both additional demand and additional growth
- The potential costs of transition and restructuring
- Outcome of the New Homes Bonus reforms
- Triennial valuation of the local government pension scheme

4.1 ANNEX A: CURRENT COST AND RESOURCE STRUCTURE AND SAVINGS DELIVERED TO DATE

To put the size of the challenge facing the Council into context an understanding of the current cost, resource base and savings delivered to date is required.

a) Cost Base

Whilst the Council continues to have overall accountability for close to \pounds 1.3bn of spend, it cannot spend directly \pounds 419m which is controlled by schools. This leaves, in 2016/17, a gross expenditure budget of \pounds 846m (\pounds 378m net expenditure) to fund non school activity.

| 2016/17 | Gross Expt | Net Expt | |
|------------------|------------|-------------|--|
| | £m | £m | |
| Council Services | 846.1 | 378.0 | |
| Schools | 419.5 | 0 | |

1,265.6 378.0

If the £178m spent on benefit payments, the £34m required to meet the cost of the long term PFI contracts, the £24m levy paid to the West Yorkshire Combined Authority (WYCA), the £44m that must be spent on Public Health activity and the £42m capital financing budget are excluded from the gross expenditure budget, this leaves a much smaller gross cost base, £524m, from which to drive out further savings.

Whilst the Net Budget today is £378m, by 2022-23 it is forecast to be just under £322m. That's a 15% drop from today in the amount of cash available to fund services which will continue to be subject to some inflation and increases in demographic-led demand.

Of the net budget of £378m almost one third is allocated to Adult Services. This emphasises that if the Council is going to balance its books in the long term and make sure the services it provides are sustainable, controlling demand and spend on Adult and Integrated Health Care is key.

| 2016/17 Budget | Gross £m | Net £m | % of net budget |
|-------------------------------|-------------|-----------|--------------------|
| Adults and Community Services | 154.3 | 116.4 | 30.8% |
| Children's Services | 570.9 | 71.3 | 18.9% |
| Capital Financing, WYCA and | 75.7 | 70.4 | 18.6% |
| contingency | | | |
| Environment & Sport | 91.5 | 45.4 | 12.0% |
| Regeneration | 83.2 | 36.5 | 9.7% |
| Department of Finance | 210.1 | 21.3 | 5.6% |
| Travel Assistance | 7.1 | 6.9 | 1.8% |
| City Solicitor | 8.2 | 6.0 | 1.6% |
| Human Resources | 7.6 | 5.5 | 1.5% |
| Chief Executive | 4.3 | 4.2 | 1.1% |
| Public Health | 45.7 | 0.6 | 0.2% |

| Non Service | 7.2 | (6.7) | -1.8% |
|-------------|--------|-------|--------|
| | 1265.7 | 378.0 | 100.0% |

A different way of presenting the budget is by the Council Outcomes that will be used for the Outcome Based Budgeting exercise. This is an initial analysis and the definitions and criteria for allocating costs to each outcome will be refined as the process progresses.

| Outcome | Gross £m | Net £m | %of net budget |
|---|-------------|-----------|-------------------|
| Better health and better Lives | 450.5 | 173.6 | 46% |
| Enablers | 96.2 | 53.7 | 14% |
| Fixed | 48.7 | 48.4 | 13% |
| Better skills, more good jobs and a growing economy | 96.7 | 45.0 | 12% |
| Safe clean, active communities | 59.7 | 38.1 | 10% |
| Good schools and a great start for all our children | 510.4 | 17.0 | 4% |
| Decent homes that people can live in | 3.5 | 2.2 | 1% |
| | 1265.7 | 378.0 | 100% |

The analysis illustrates that 46% of the budget relates to personal type services which will undoubtedly lead to some difficult choices through the budget process.

b) Resource base

The Table below shows that in 2016/17, 60% of the Council's net expenditure is funded from Council tax (43%) and locally retained Business Rates (17%). As explained in Annex C there is currently work being undertaken on the development of the business rates reforms. These reforms are expected to be implemented by April 2020. At the time of writing DCLG have had no information that 2017 rates retention legislation will have to make way for EU exit legislation. Given the significance of these reforms the analysis below has projected on the basis of the current system continuing post April 2020 on the basis of consistency and overwhelming uncertainty on what the reforms might mean.

| Sources of Funding in 2016/17 | Gross £m | % | Net £m | % |
|---------------------------------------|-------------|------------|-----------|--------------------|
| Schools Grants | 419.5 | 33% | | 0% |
| Other Government Grants | 293.6 | 23% | _ | 0% |
| Revenue Support Grant | 83.9 | 2078 7% | 83.9 | 22% |
| Fees, Charges, Contributions | 174.5 | 14% | - 00.9 | 0% |
| Council Tax and previous year surplus | 161.9 | 14 % | 161.9 | 43% |
| Business Rates and previous year | 63.7 | 5% | 63.7 | 43 <i>%</i> 17% |
| deficit | 03.7 | J70 | 03.7 | 1770 |
| Government "Top Up" Grant | 57.0 | 5% | 57.0 | 15% |
| Use of Reserves | 11.4 | 1% | 11.4 | 3% |
| | 1265.7 | 100% | 378.0 | 100% |

Please note totals may not add up due to rounding differences

Looking at the prospective composition of the Council's net budget today compared to six years time (see the table below) the points to make are:

• Government Revenue Support Grant today is £84m. It drops steeply over time, and forecasted to reach zero in 2020-21

- Whilst the Council might choose to increase Council Tax current rules require a referendum for increases above 2%. There is also now the power to raise additional sums for Adult Social Care via a social care precept of up to 2%
- Council Tax income today makes up 43% of the net budget. It rises to 54% by 2022/23
- Localised business rates are around £72m today the aim is to grow them to £82m by 2022/23, around 14%.

Prospective Composition of Funding of Council Net Budget £m (before any business rate reform)

| | 2016/17 | 2017/18 | 2018/19 | 2019/20 | 2020/21 | 2021/22 | 2022/2 |
|---------------------------|---------|---------|---------|---------|---------|---------|--------|
| | | | | | | | 3 |

| Total | 100% | 100% | 100% | 100% | 100% | 100% | 100% |

† 2016/17 business rates are supressed due to deficit on collection as a result of successful appeals on GP surgeries Please note totals may not add up due to rounding differences

The clear message as the Council is required to absorb further reductions in Government funding is that the Council's ability to grow both its local council tax base and local business rates base in order to sustain services and deliver on priorities will take on increasing significance.

c) Savings delivered to date

Six consecutive years of reductions in Government funding, and inflationary and demographic pressures have required the Council to make savings over the period of £218.2m.

| | 2011-12 | 2012-13 | 2013-14 | 2014-15 | 2015/16 | 2016/17 | Total |
|---------|---------|---------|---------|---------|---------|---------|-------|
| | £m | £m | £m | £m | £m | £m | £m |
| Savings | 48.7 | 28.5 | 26.1 | 31.8 | 37.5 | 45.6 | 218.2 |

By 2022/23 it is estimated that to balance the books over \pounds 109m more in savings and additional income (29% of the current net budget) will have to be found – on top of the

£218.2m already made and increases in Council tax.

To date the Council has absorbed a disproportionate share of Government funding reductions and protected basic services. The Council will continue to focus on reducing costs and improving efficiency and productivity but finding new savings totalling 29% of the current net budget may mean that it will no longer be possible to protect all frontline services.

ANNEX B: EXPENDITURE FORECAST ASSUMPTIONS

1.1 Inflation

a) Pay

Although the Council does not receive any specific funding for pay awards an amount equivalent to 1.0% for 2017/18 and for each year up to 2019/20 has been included in the calculations. From 2020/21 the pay award has been assumed to be 2.0% p.a. Services are expected to absorb incremental increases.

b) Non Pay

The Bank of England published their forecast of CPI in May 2016, which indicated that inflation would increase to 2% by the end of 2017/18. Given this, an inflation rate of 1.5% has been assumed for contract inflation as the average rate during 2017/18, levelling off at 2.0% in future years. As there is a fixed price contract in place until April 2018 for waste disposal no price increases have been provided for waste disposal in 2017/18. Premises and Transport costs have been increased by 2% in all years.

In recognition of current low levels of inflation, all Services inflation increases to their income budgets are factored in 0.5% per annum.

1.2 Pension Contribution Rates

The next Actuarial Valuation will take place in December 2016. Employers' pension contribution rates have been fixed at 14.2% until the end of 2016/17. The forecast assumes that further provision will have to be made in 2017-18 to address the service pension deficit. An increase of 1% on the Employers' contributions has been incorporated into the forecast. Following the referendum vote to leave the EU the gilt yields have fallen. If the gilt yields do not recover then this will have implications for the pension deficit as the gilt yields are used as a benchmark for calculating LGPS fund liabilities. Similarly, if the fall in share prices remains this will have a negative impact on the triennial valuation.

1.3 Demand-Led Service Pressures

As in previous years an extra £1.5m p.a. has been included to reflect the increased pressure on Adult Social Care services from demographic trends.

In addition £0.5m has been included to reflect the likely loss of income from recycling contracts that are due to expire at the end of 2016/17. The loss of income is due to falling market prices for recyclates.

1.4 West Yorkshire Combined Authority (WYCA)

From 1st April 2015 the WYCA began operations overseeing strategies for growing the economy, creating jobs, developing new affordable homes and improving the transport network. Whilst in 2016/17 the levy paid to the WYCA by the Council was increased by a

relatively small amount £65k, discussions as to how to bridge the gap between the aspiration to deliver a £1.4bn Transport Fund compared to the Government's commitment of £1bn over 20 years may result in an increase in contributions by local Councils from 2016/17. No such increases have been factored into the Forecast. The initial forecast of District Council levies indicated a further £1.3m p.a. would eventually be required from Bradford by 2024/25. The levy would steadily increase by an average £140kp.a.

1.5 Service and Non Service Saving Proposals

The Forecast assumes that the Service and Non Service savings of £68.8m, approved by Council, covering 2016/17 and part of the gap for 2017/18 will be achieved in full. If the tracking of these savings identifies this not to be the case, the Forecast assumes Services will absorb the shortfall through compensating savings.

1.6 Health Sector Reforms

Sustainability and Transformation Plans (STPs) are being developed in collaboration with the NHS to tackle financial, care quality and health challenges. No allowance has been made in this MTFS for any impact of financial, organisational or service delivery changes arising from those plans.

1.7 Better Care Fund (BCF)

The 2016/17 Base Budget includes a £4.2m contribution from the Better Care Fund to support Adult Social Care Services. The forecast is reliant on this funding continuing. The Final Local Government Settlement provided an estimate for an Improved Better Care Fund that recognises the fact that some local authorities with a low council tax will not be able to raise as much from the social care precept as those with a high council tax base. Part of this Improved BCF is likely to be funded through the reductions to the amounts of New Homes Bonus paid.

The indicative amounts included in the Final Local Government Settlement are set out below:

| | 2015/16 | 2016/17 | 2017/18 | 2018/19 | 2019/20 |
|---------------------------|---------|---------|---------|---------|---------|
| | £m | £m | £m | £m | £m |
| Improved Better Care Fund | 0 | 0 | 1.6 | 9.9 | 17.2 |

Source: Final core spending power supporting information published by DCLG Feb 2016

It is not clear whether this money will be paid directly to local authorities. None of the Improved BCF monies have been included in this forecast.

As Adult Social Care represents nearly one third of the Council's net budget it is inevitable that further cuts will have to be made in this area. The scale of such cuts depends to some extent on the level of additional BCF the Council receives.

1.8 Care Act 2014

The Care Act 2014 brings a number of challenges to the Council but until further

information is available the forecast takes a neutral stance in terms of the impact of the new cap on care costs.

1.9 Independent Living Fund

For 2016/17 the Council will receive a grant of £2.1m for the administration of the Independent Living Fund (ILF). A modest 3.5% p.a. reduction in the ILF grant has been forecast over the period of this forecast in line with the indicative allocations.

1.10 Living Wage

The Council had previously introduced a local living wage from 1 October 2015 of £7.85 per hour as a non consolidated supplement to pay. In the July 2015 Summer budget the government announced that a new compulsory National Living Wage (NLW) will come into effect for workers age 25 and above on 1st April 2016 at the rate of £7.20 per hour. A report to Executive on 3 November 2015 "Introduction of the Compulsory National Living Wage" included the estimated cost of the introduction of the National Living Wage on the Authority. Amounts have been included in the forecast based on the NLW rising to £9.00 per hour by 1920/21. The potential liabilities for this will start to be felt in 2018/19. As a result amounts have been built into the forecast from 2018/19 for the pressure on the Council pay bill based on information contained within the report "AE" presented to Executive in November 2015.

1.11 Devolution

At the time of writing, discussions were underway between senior Leaders of the Regions, Councils and Government about a devolution agreement. Whether these negotiations will slow down or even stop following the EU referendum vote to leave the EU is unclear. For the purposes of the Forecast in this document, no assumptions, either positive or adverse have been made about the financial consequences of such a deal.

1.12 Apprenticeship Levy

A forecast of £1m p.a. has been included in the forecast for the introduction of Apprenticeship Levy from April 2017 for non schools pay. The levy is to be 0.5% of the total pay bill. As the criteria for eligible apprenticeships have not been fully worked through no income returned from the levy has been assumed in this forecast.

ANNEX C: RESOURCE FORECAST ASSUMPTIONS

1.1 National influences

The Local Government Settlement and the Chancellor's March 2016 budget have both outlined that further austerity measures will be applied during the remainder of this current Parliament. There are several reviews and consultations taking place that will affect local government financing over the period covered by this forecast but as these have not yet concluded there is more uncertainty than in previous years. The reviews and consultations are referenced in the appropriate sections below.

The EU referendum vote to leave the EU brings further uncertainty and it is unclear whether there will be an adjustment to local government finances or what the size of any such adjustment may be. No adjustments have been made to this forecast but the situation will be under constant review during the budget setting process.

The 2016/17 change in Bradford's core spending power was a reduction of 3.6% compared to an average of 2.3% for England. By the 2019/20 the forecast core spending for Bradford will be a reduction of 1.9% compared to the national average of 0.4%. However, the 1.9% reduction assumes that an additional £17.2m of Improved Better Care Fund is paid to Bradford Council and that the Council raises a further £14.4m through the social care precept. This means that the level of spending reductions and reforms required in Bradford may be and perceived to be greater than elsewhere.

Bradford Core Spending Power

Source: Final core spending power supporting information published by DCLG Feb 2016

| | 2015/16 £m | 2016/17 £m | 2017/18 £m | 2018/19 £m | 2019/20 £m |
|--|---------------|---------------|---------------|---------------|---------------|
| Settlement Funding Assessment * | 236.6 | 211.4 | 192.8 | 182.3 | 172.1 |
| Council Tax, of which: | 150.1 | 159.1 | 169.4 | 180.5 | 192.6 |
| Council Tax Requirement excluding parish precepts (including base growth and levels increasing by CPI) | 150.1 | 156 | 162.9 | 170.3 | 178.2 |
| additional revenue from referendum principle for social care | 0 | 3.1 | 6.5 | 10.2 | 14.4 |
| Improved Better Care Fund | 0 | 0 | 1.6 | 9.9 | 17.2 |
| New Homes Bonus† | 9.6 | 11.4 | 11.5 | 7.2 | 6.9 |
| Core Spending Power | 396.3 | 381.9 | 375.3 | 380.0 | 388.8 |

*2019-20 Settlement Funding Assessment has been modified to include a provisional tariff or top-up adjustment †The New Homes Bonus is a pro-rata share of the assumed level of national control total for NHB using projected proportions of funding distributed to each authority for 2016/17. It is not therefore a forecast of the NHB likely to be received.

a – Review of Relative Need

A fundamental review of the relative need of local authorities is being undertaken for implementation in 2020. The relative need determines the baseline for the Settlement Funding Assessment, in other words it sets out how the pot of local government funding may be split. The baseline need is currently determined by the 2013/14 four block model, specific grants rolled into the Revenue Support Grant and subsequent funding reductions. The current four block model was frozen at 2013/14 and is derived from a Central Allocation (on a per capita basis), Relative Need (a combination of relative need measures), Relative Resource (council tax collected) and Damping (to restrict gains or

losses).

The fundamental review of the relative needs is being undertaken by the Technical Working Group that reports into the Business Rates Retention Steering Group. The review will tackle some fundamental questions about need and how to measure it. A review on this scale has not been undertaken for a decade. A call for evidence was issued by DCLG on 5th July 2016 with responses due by 26th September 2016.

It is likely that any gains or losses will be reflected through the top up/tariff adjustment. Bradford may gain or lose from this fundamental review but for the purposes of this forecast a neutral position has been adopted.

b– Revenue Support Grant (RSG) (10% of 2016/17 gross funding excluding schools and 22% of 2016/17 net expenditure)

The Final 2016/17 Local Government Settlement announced in February 2016 provided the opportunity for local authorities to apply for a multi year settlement up to and including 2019/20. In essence the multi year settlement only covers the Revenue Support Grant (RSG) and the rate of reduction during that period and it may be adjusted due to unforeseen circumstances. Clearly the result of the Brexit vote will be classed as an unforeseen event in relation to the multi year settlement. The Chancellor has announced that he will await the Office for Budget Responsibility's forecast on the economy in the autumn and following that there may be an Autumn Budget. It is not known whether this will lead to further austerity measures or if such measures are implemented whether they will be directed towards local government. This forecast therefore assumes that the multi year settlement is still on offer.

The Secretary of State for Communities and Local Government in his statement to Parliament on 8th February 2016 said "ultimately the Revenue Support Grant will disappear altogether, as we move towards 100% business rate retention."

It is recommended that the Council applies for the multi year settlement and on that basis the indicative RSG published by DCLG has been included in this forecast. Annex D sets out the Council's Efficiency Plan that underpins the application for the multi year settlement.

| Forecasted RSG † | 2017/18 | 2018/19 | 2019/20 | 2020/21 onwards |
|------------------------------|---------|---------|---------|--------------------|
| | £'m | £'m | £'m | £'m |
| RSG included in the forecast | 62.8 | 48.5 | 34.1 | 0 |

+Only 20177/18 to 20119/20 are covered by the multi year settlement

The profile of reduction suggests a sharp fall between 2019/20 and 2020/21. In order to reduce the severity of the reduction in RSG from 2019/20 to 2020/21 the Council could choose to implement cuts earlier in order to smooth the impact of the reduction.

c- Business Rates Retention

The move to 100% business rates retention has been widely publicised and a Business

Rates Retention Steering Group has been established with government representatives and interested parties. It is being hosted by DCLG and the Local Government Association (LGA). In addition to the fundamental review of relative need there are also reviews on the NNDR baseline and new burdens associated with the move to 100% rates retention. A further two working groups are tasked with looking at these issues. A consultation on 100% business rate retention was launched by DCLG on 5th July 2016 with responses due by 26th September 2016.

Systems Design Working Group – this group is looking at the mechanisms needed to set up and run 100% business rate retention. It will cover many issues such as redistribution mechanisms, managing appeal risks, safety net, split between tiers of local government, amongst other issues.

A key task for this working group is to make recommendations on establishing the new NNDR baselines for local authorities. The baseline will determine the target level of business rates to be collected by the Council. Over recent years the Council has not achieved the target level of business rates and the effect of appeals has exacerbated the gap between the baseline and actual business rate income. The NNDR baseline is important as it is deducted from the Settlement Funding Assessment to derive the top up grant the Council receives.

It is not explicit from the papers released so far but it appears that there will not be a levy system for above target growth in future. The levy system was introduced to avoid local authorities with potential for high growth making large surpluses and the levies were used to fund the safety net for local authorities that failed to reach a set percentage of their business rates. If the levy system is abolished this will remove the incentive for business rate pools as it is the levy payable that is redirected into the local business rate pool rather than back to central government.

The NNDR baseline and mechanisms to be put in place for 100% business rate retention may lead to gains or losses for Bradford, independent to the review of relative needs. In this forecast it has been assumed that the NNDR baseline will be neutral for Bradford.

Responsibilities Working Group – this working group is reviewing the potential new burdens that will come with 100% business rate retention. It has been assumed that the move to 100% business rates retention will be fiscally neutral for HM Treasury so the new burdens will be offset by any increased share of the business rates income.

One issue that caused some concern was the extension of the Small Business Rate Relief for which local authorities are compensated for the loss of income by a s31 grant funded from central government's share of the business rate income. The Secretary of State for Communities and Local Government has indicated that when 100% business rate retention is introduced the new burdens will be adjusted to allow for the current s31 compensation.

Alongside the business rates reform there will also be a business rates revaluation introduced in 2017 which is likely to bring fresh appeals. Nothing has been factored into this forecast for the effect of the 2017 business rates revaluation.

To compare the proportion of the rateable value that attracts small business rate relief the NNDR1 2016-17 returns have been analysed. To aid comparison the small business rate

relief forecast to be given was divided by the small business rate multiplier to give an estimated rateable value of the properties attracting relief. The results of the analysis are shown in the table below:

| Comparison of Small Business Rateable Values as a proportion of Total Rateable Value | | | | |
|--|----------------------------|----------------------------------|--|--|
| Authority | Total Rateable Value | Small Business Rate Relief | Rateable Value on which relief given (rate relief ÷ 0.484) | Rateable Value attracting relief as a percentage of total Rateable Value |
| | £m | £m | £m | % |
| Kirklees | 281 | 13.8 | 28.4 | 10.1 |
| Calderdale | 158 | 6.9 | 14.2 | 9.0 |
| Bradford | 384 | 16.5 | 34.1 | 8.9 |
| Wakefield | 309 | 8.0 | 16.5 | 5.4 |
| Leeds | 918 | 16.8 | 34.7 | 3.8 |
| Westminster | 4,116 | 2.2 | 4.6 | 0.1 |
| England | 57,365 | 1,126.7 | 2,327.8 | 4.1 |
| Source NNDR1 F | Returns 2016/17 | 7 | | |

The table on small business rate reliefs illustrate significant differences in the proportion of relief forecast between different local authority areas. Leeds and Bradford have similar monetary amounts of small business rate relief. However, for Bradford this represents 8.9% of the total rateable value compared to only 3.8% in Leeds. The comparison with Westminster is even starker.

Out of the 36 metropolitan boroughs/districts, Kirklees, Calderdale and Bradford have the highest percentage of rateable value attracting relief as a proportion of the total rateable values in their respective areas. This doesn't necessarily correlate to a vibrant, young entrepreneurial sector but is more likely to be a reflection of property values.

A breakdown of the composition of the rateable value shows that 28% of the business rate base is retail based with 18% categorised as industrial.

| Rateable value analysis by business type | | | | |
|--|----------------|------------|--|--|
| Property Type | Rateable Value | % of total | | |
| Shops, banks, post offices etc. | 109,224 | 28% | | |
| Industrial | 69,060 | 18% | | |
| Warehouses, stores etc. | 54,985 | 14% | | |
| Offices | 49,593 | 13% | | |
| Other commercial | 34,318 | 9% | | |
| Education, training and cultural | 32,891 | 9% | | |
| Other | 33,952 | 9% | | |
| Total | 384,024 | 100% | | |

Macro economic issues clearly impact on the local economy but the biggest cause of volatility on the business rate income is caused by successful appeals. The business rateable values are set by the Valuation Office Agency (VOA) and any appeals against those valuations are heard by the VOA. The Council has no say in the appeal process. In 2015/16 a successful appeal on purpose built GP surgeries has led to a repayment of £14m of which the Council had to bear £7m.

A potential new power was suggested would become available to local government to cut the business rate multiplier going forward but such a power could guite easily become a race to the bottom and is also fraught with potential state aid implications.

d- Schools National Funding Formula and Academisation

The Education Bill outlined in the Queen's speech will include:

- A new funding formula to deliver fair funding for every school and pupil in the country,
- New laws to expand the academies programme in the poorest performing local authority areas.

First stage consultations have now closed on the proposed Schools National Funding Formula and the responses will be used to inform the second stage consultation process. The first stage dealt with principles and general proposals so it is not possible at this stage to try to understand any change in the totality of funding into the Bradford District or in the distribution of funding between types of schools and academies.

The academisation programme will undoubtedly change the relationship of the Council with schools and hence the Council will need to carefully consider the activities it undertakes in respect of the education agenda.

The amount of Dedicated Schools Grant (DSG) is in the main passported directly to schools and therefore the transfers to academies, whilst affecting how the Council might undertake its duties in respect of education, will have a lesser effect on the net budget of the Council. However, there is an amount of DSG that is used to fund services provided by the Council and this has been forecast to decline as we move to a sector led model.

For the purposes of this forecast we have assumed that the Education Services Grant (ESG) will reduce to just £0.5m from 2018/19.

1.2 Local Influences

a) Business Rates (7% of 2016/17 gross funding excluding schools and 17% of 2016/17 net expenditure)

As explained above the landscape for business rates is changing which makes the forecasting of the business rate income difficult. For the purposes of this forecast any changes to the national system are assumed to be revenue neutral to Bradford. However, as mentioned in section 1.1d above the academisation process will impact on business rate income as schools that convert to academy status will get mandatory relief as charities, which is estimated to be in the region of £3.1m.

For future years the MTFS assumes a minimum underlying level of growth in the Council's net Business rates yield consistent with an annual increase in Business rates multiplier capped at 2%.

In 2016/17 the Council is to receive £6.1m in Section 31 grants to compensate the Council for the loss of business rates income as a result of Business Rates Reliefs included in the March 2016 budget.

The Forecast assumes that the Council's current Discretionary Rate Relief continues in its current form and is not extended to include growth incentives.

The cost of appeals against the 2010 rating list continues to adversely affect the Council's Business Rates income. At 31 March 2016, based on information provided by the Government's Valuation Office Agency, there were 1918 appeals outstanding with a Rateable Value of \pounds 178m. To cover the cost of settling these appeals an estimated \pounds 12.2m has been provided for in the Business Rates Collection Fund. This has contributed to a deficit on the Business Rates Collection Fund at 31 March 2016. Bradford's share of which (49%) will be recouped in 2016/17 from locally retained Business Rates income in order to bring the Collection Fund back into balance.

The Council continues to commit to being a Member of the Leeds City Region Pool along with the other four West Yorkshire Authorities, Harrogate and York. The advantage of the pooling arrangement is that levy income generated by Leeds, Harrogate and York is retained in the region as opposed to being paid over to the Government. The future distribution of any levy income generated will be determined by the Leeds City Region Business Rates Joint Committee and is outside the scope of this Forecast.

The business rate reforms may lead to the levy being abolished which would remove one of the primary reasons for establishing a business rates pool.

b Council Tax Levels (19 % of 2016/17 gross funding excluding schools and 43% of 2016/17 net expenditure)

For 2016/17 the limit on raising council tax remained at 2% but a new power was introduced to raise up to an additional 2% in council tax through a social care precept, recognising the continued and growing pressure on the adult social care budget. With a 2016/17 Band D Council tax of £1,198.08 (including the social care precept of 2.0%) the Council continues to set one of the lowest Band D Council Taxes of all Metropolitan Districts.

In total the Council budgeted to raise £160m in Council Tax in 2016/17.

Any future increase in Council Tax will be consulted on as part of the Budget process. In February 2016 Full Council indicated a 3.99% Council Tax rise for 2017/18. This figure has been included in this forecast but no further Council Tax rises have been included for future years. If the Council Tax rise of 3.99% is not agreed for 2017/18 this would widen the gap for 2017/18 by a further £6.4m.

No Council Tax freeze grant was offered as part of the Final Local Government Settlement, which together with the social care precept is a significant shift in central government policy.

With early indications pointing to a growing number of new properties being built in the District the Council Tax base has been increased by an estimated 750 Band D properties in 2017/18 and a further 0.6% in subsequent years. This may prove to be a relatively cautious estimate and will be kept under review as the Local Plan is implemented.

It is important to understand the profile of the categorisation of properties in the District and the effect it has on limiting the revenue that can be raised through Council Tax increase compared to more affluent areas. The table below shows that 121,375 or 78% of properties fall within bands below Band D. This clearly limits the amount of money that a rise in Council Tax will raise compared to other districts that have property profiles skewed to higher council tax bands.

Council Tax Band Analysis 2016/17

| | <u>A*</u> | <u>A</u> | <u>B</u> | <u>C</u> | <u>D</u> | <u>E</u> | <u>F</u> | <u>G</u> | H | Total |
|---|-----------|---------------|---------------|---------------|---------------|----------------|---------------|---------------|-------------|---------|
| Equivalent number of properties | 86 5/9 | 55,461 6/9 | 34,158 7/9 | 31,670 8/9 | 15,031 9/9 | 10,845 11/9 | 5,196 13/9 | 3,306 15/9 | 232 18/9 | 155,985 |
| Band D Equivalent number of properties | 48 | 36,974 | 26,567 | 28,151 | 15,031 | 13,255 | 7,506 | 5,509 | 464 | 133,505 |

The Council Tax Reduction Scheme (CTR) provides help with Council Tax for people on low incomes. As a result of more people being in employment the CTR awarded in the current year is reducing. This gives the Council the opportunity to either:-

- change the current CTR scheme by increasing the protection granted to vulnerable groups or reducing the percentage of Council tax residents on low income are expected to pay; or
- increase. the Council Tax base included in the Forecast and reduce the funding gap identified in each year of the Forecast.

2.1 Core Funding – specific grants

In addition to the funding announced in the Final Local Government Settlement details of the main grants that will be paid to the Council have been announced which will be used to fund over £71m of the Council's gross expenditure, the most significant being the ring fenced Public Health Grant.

| | 2016/17 £m |
|---|---------------|
| Local Council Tax Support and Housing Benefit Admin | |
| Subsidy | 3.1 |
| Public Health Grant | 44.0 |
| Education Services Grant | 7.0 |
| New Homes Bonus | 11.2 |
| Returned New Homes Bonus top sliced monies | 0.3 |
| Section 31 Business Rates Compensation | |
| Small Business Rates | 4.1 |
| Top Up and Multiplier 2% Cap | 1.9 |
| Retail Reliefs | 0.1 |
| Total | 71.7 |

Lead Local Flood Authority grant and Adult Care Act New Burdens grant have been rolled into the RSG as part of the 2016 Final Settlement.

a) Public Health

To cover the cost of public health services delivered by the Council, the Department of Health will pay the Council a ring fenced grant of £44.0m in 2016/17 which includes the full year effect of district health visiting responsibilities which transferred to the Council on 1 October 2015. The Head of Public Health England has indicated the probable level of cuts to the Public Health grant up to and including 2019/20. These cuts have been included in this forecast. This means future contract inflationary pressures will have to be absorbed from the within the Public Health grant.

It is thought that with the introduction of 100% retention of business rates that the Public Health grant will disappear and become part of the new burdens to be funded by business rates. This forecast assumes that the level of Public Health funding will remain cash flat post 2020.

b) Education Services Grant (ESG)

The Council and Academies in the District are allocated an Education Services Grant (ESG) on a per pupil basis according to the number of pupils for whom they are responsible. There have been further cuts to the ESG in 2016/17. The current consultation on the National Schools Funding Formula indicates that ESG will be significantly reduced. The level of ESG has therefore been phased down to just £0.5m in 2018/19 from the current level of £6.35m. The grant is not ring fenced; therefore the forecast has not assumed that savings equal to the reduction in the grant will be made in those areas that ESG currently funds.

c) New Homes Bonus Grant

The Chancellor announced in the 2015 Spending Review that the New Homes Bonus (NHB) needed to reduce by at least £800m in order to redirect funding to adult social care (i.e. Improved BCF). A consultation was launched in December 2015 which has now closed and central government are considering the responses. Any announcement on a revised NHB is unlikely to be made until later this year.

One option included in the consultation was to reduce the number of years NHB would be paid from six years to four years. The amount included in this forecast is the removal of one year funding in 2017/18 and the removal of two years funding from 2018/19.

The estimated amount of NHB in future years is based on a rolling average of the previous three years. For 2018/19 onwards a scaling reduction has been applied to keep the New Homes Bonus within the forecast national control total.

In 2017/18 a forecast return of NHB of £2m has been included in the forecast based on the assumption that the removal of one year NHB funding for 2017/18 will release some of the top slice taken by DCLG.

Forecast New Homes Bonus

| | 2014/15 £000 | 2015/16 £000 | 2016/17 £000 | 2017/18 £000 | 2018/19 £000 | 2019/20 £000 | 2020/21 £00 |
|---|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|----------------|
| Year 1 (Actual) | 2,760 | 2,760 | 2,760 | 0 | 0 | 0 | 0 |
| Year 2 (Actual) | 1,150 | 1,150 | 1,150 | 0 | 0 | 0 | 0 |
| Year 3 (Actual)) | 1,756 | 1,756 | 1,756 | 1,756 | 0 | 0 | 0 |
| Year 4 (Actual)) | 1,864 | 1,864 | 1,864 | 1,864 | 0 | 0 | 0 |
| Year 5 (Actual) | | 1,708 | 1,708 | 1,708 | 1,708 | 0 | 0 |
| Year 6 (Actual) | | | 1,916 | 1,916 | 1,916 | 1,916 | 0 |
| Year 7 (Est) | | | | 1,829 | 1,829 | 1,829 | 1,829 |
| Year 8 (Est) | | | | | 1,818 | 1,818 | 1,818 |
| Year 9 (Est) | | | | | | 1,854 | 1,854 |
| Year 10 (Est) | | | | | | | 1,834 |
| Less scaling to remain within national control total | | | | | (917) | (1,278) | (1.093) |
| Total | 7,530 | 9,238 | 11,154 | 9,073 | 6,354 | 6,139 | 6,242 |

A more radical option in the NHB consultation is potentially to withhold all or part of the payment of NHB for local authorities that have not produced a local plan. We have assumed that such a measure would not be applied to Bradford.

d) Local Council Tax Support and Housing Benefit Administration

With no clarity on when Housing Benefit Administration will fully transfer to the Department of Work and Pensions (DWP), a reduction of 9.6% has been assumed in the two separate grants the Council receives to fund the cost of administering Council Tax reduction (CTR) scheme and Housing Benefit. The reduction has been factored into the underlying funding gap as opposed to being addressed by the Service.

e) Local Welfare Assistance Funding

The Forecast assumes no external funding for Local Welfare Assistance.

3.1 Schools Funding

Of the Council's gross spend of nearly £1.3bn, £419.5m is spent by schools and funded from the ring fenced grants, Dedicated Schools Grant (DSG), Pupil Premium and Post 16 funding.

The funding system for schools is currently very fluid and the timescale for the introduction of the anticipated national funding formula for primary and secondary schools is still unclear.

4.1 Reserves

At the start of year, the Council has $\pounds19.9m$ of unallocated reserves, $\pounds6.2m$ of which have been used immediately to support the 2016/17 Budget. This leaves just $\pounds13.8m$ (1.5% of the Council's gross budget excluding schools) as a contingency reserve.

The level of unallocated reserves will be kept under the review, in the light of the Council's External Auditor's recommendation in their June 2015 report on the Council's arrangements for securing Value for Money "that unallocated reserves should not be allowed to fall below the level determined prudent by the Council's Section 151 Officer".

All other balances are set aside to meet the cost of future commitments and political priorities. The utilisation and purpose of which will be subject to regular scrutiny.

5.1 European Funding

The Council is in receipt of EU Structural funds and works with businesses and the VCS across the district on EU programmes. It is anticipated that following the vote to leave the EU that central government monies will be directed to the regions to replace any potential loss of EU structural funding.

If the funding is not replaced it will have a negative impact on the range and type of interventions the Council can be involved with.

ANNEX D: EFFICIENCY PLAN

This Efficiency Plan is a continuation of the Planning Framework and Strategies for Delivering Planning and Efficiencies that the Council has been implementing since the beginning of austerity. The Efficiency Plan will be used to support any application for a multi-year financial settlement with central government.

The Council has published a District Plan, and is developing a Council Plan for formal adoption in September. The latter will be the mechanism through which detailed service and internal budget plans will be developed, in order to keep Council performance effective and finance sustainable.

Between 2011/12 and 2015/16 the Council delivered net cost reductions totalling \pounds 172.6m, and has plans to deliver \pounds 45.6m more in 2016/17 and \pounds 25.3m more in 2017/18 (already reflected in the forecast).

In defining future service changes and associated budgets, it will build on the approach adopted hitherto which has included:

- Being clear about its priorities, and assessing budget proposals against them
- Explaining the financial challenges facing the Council
- Working with partners, stakeholder and citizens to explore what people should be able to expect from local services, what it is reasonable to pay or pay more for, what they are responsible for themselves and within their communities, what people can contribute and what support they might need
- Consulting on specific changes in informal and formal ways, and taking account of feedback before setting the final Budget
- Where appropriate balancing cost reduction with growth and investment.

The budget reductions from 2011/12 to 2016/17 by department are shown in the table below:

| Budget reductions by department 2011/12 to 2016/17 | £m |
|--|-------|
| Adult and Community Services | 53.9 |
| Cross cutting and non service | 42.1 |
| Children and Young People | 37.2 |
| Regeneration | 23.2 |
| Support Services | 21.2 |
| Environment and Sport | 17.3 |
| Finance | 10.8 |
| Travel Assistance | 7.8 |
| Public Health | 4.7 |
| Total | 218.2 |

The table illustrates that despite £63m of the reductions coming from cross cutting, non service and support services there has still been a large proportion of the reductions to the biggest spending departments. Given the size of the reductions required this is unsurprising.

If the savings over the same period are analysed by type of saving it is clear that efficiency, restructuring and management savings have contributed to the biggest share.

In later years these savings as a proportion of the total have reduced where cessation and reduction in services are now becoming more prominent.

| Budget reductions by type 2011/12 to 2016/17 | | |
|---|-------|-----|
| Savings Type | £m | % |
| Efficiency, restructuring and management | 56.2 | 26 |
| Renegotiate contracts, better commissioning | 30.6 | 14 |
| Back office support, training and equipment | 26.1 | 12 |
| Cease or reduce service delivery | 25.4 | 11 |
| Reduce non service expenditure and base budget provisions | 22.0 | 10 |
| Increased income (charges, trading and grants) | 11.2 | 5 |
| Reduce demand, requirements, prices | 8.7 | 4 |
| Property and utility costs | 6.9 | 3 |
| Change to eligibility | 6.5 | 3 |
| Transfer to alternative providers | 6.0 | 3 |
| Partners contributions and collaboration | 5.6 | 3 |
| Reduce grants and third party payments | 4.1 | 2 |
| Savings from invest to save/prevention | 3.6 | 2 |
| Public Health support | 2.9 | 2 |
| Terms and conditions | 1.5 | 1 |
| Transitional support to move to new delivery model | 0.7 | 0 |
| Total | 218.2 | 100 |

It is also worth noting that the savings category that has been one of the most difficult to achieve is the increased income which reflects the price elasticity of demand for many of the Council services and also the impact of the economy on the level of income generated e.g. planning fees.

Contingency budgets have been utilised to plug the gap where budget reduction plans have not been implemented to plan. In addition reserves will have to be utilised in order to fund transition costs as Council services are reshaped.

Another lesson from the previous five years of budget reductions is that small scale reductions can generate a lot of resistance for example closure of public conveniences.

Stakeholder engagement is vital if budget reduction plans are to succeed and diversifying the risk across different types of budget reductions provides resilience in achieving those reductions.

It is also very clear that Council tax increases are an increasingly essential component for setting a balanced budget as central government support reduces. This was also reflected in the core spending figures published as part of the Local Government Final Settlement.

All of these factors inform the budget setting process which is set out in more detail in the next section.

1.1 Budget Setting for 2017/18 and Beyond

To manage changes in future resources, service demand and the impact on spending levels requires a robust planning framework. Budget setting is at the core of the financial planning process. It is a complex process that must be fully integrated with the Council's strategic planning, service planning and value for money planning.

Given the size of the task remaining to reduce the size of the Council's budget, the Council is adopting an Outcome Based Budgeting approach as the methodology to set its future budgets. This approach is to design what the Council should undertake in the future to have the biggest positive impact on the Council priorities with a net budget of £300m in real terms by April 2020.

The Council Priorities are:

- Better skills, more good jobs and a growing economy
- A great start and good schools for all our children
- Better health, better lives
- Safe, clean and active communities
- Decent homes that people can afford to live in

Boards have been set up to determine what the sub-outcomes need to be in order to deliver the Council Priorities and then to set out the actions the Council will undertake to best achieve those sub-outcomes. There is full engagement with the Executive on the Outcome Based Budget process. The process has already commenced and a structured plan will be implemented to change the shape of the Council. From the Outcome Based Budgeting approach the shape of the Council in April 2020 will be designed and budget proposals formulated to determine the staging posts in order to get to that April 2020 position. Firm 2017/18 budget proposals will be consulted on from late 2016 with proposals also set out for 2018/19.

In determining its Budget, the Council will take account of the public sector equality duty as detailed in the Equality Act 2010. The public sector equality duty requires the Council when exercising its functions to have due regard to the need to:

- eliminate discrimination, harassment, victimisation and any other conduct that is prohibited by or under the Equality Act 2010
- advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it
- foster good relations between persons who share a relevant protected characteristic and persons who do not share it.

The Council will ensure that there is meaningful consultation throughout this process. The Council will ensure it meets its legal obligations in this respect, both as a public authority responsible for the delivery of services in the District, and as an employer (in the event that workforce implications are envisaged).

The Council will apply rigorous project management principles to its budget setting process to ensure consistency, effective management of interdependencies across Council services and compliance with the principles of the current internal design.

1.2 Value for Money

The Council will use a full range of strategies, approaches and tools to ensure it gets value for every pound it spends. They include:

• Exploring the options for innovative and alternative models of service delivery

- Commissioning and procurement strategies and frameworks
- Reviewing and identifying the opportunities to share services and jointly commission services with other organisations
- A performance management framework
- Use of a wide range of management information on efficiency and productivity
- External benchmark and other comparative indicators
- Qualitative surveys
- User involvement (co-production, devolved decision-making) and emphasis on social value
- Demand management and other techniques to manage non-pay costs
- Pricing and charging
- Contract management tools
- Business case and other decision-support techniques
- Cross-Agency pooling of resources
- System and process reviews

1.3 Statutory Framework

When the Council is looking at proposed service changes and reductions, the impact that change or reduction may have on the Council's continued compliance with its statutory duties must also be considered. The Council will need to consider how it can continue to comply with its statutory duties but at a reduced level and whether the risks of reducing the level of compliance are acceptable in the context of a significantly reduced budget.

1.4 Partnership Working

The partnerships and networks are responsible, with the Bradford District Partnership (BDP) Board, for shared outcomes identified by the BDP and partnerships. The Board provides strategic leadership and oversight to the delivery of shared priorities and provides a collective response to challenges facing the district.

1.5 Relationship with the Voluntary and Community Sector

The Council values its relationship with the Voluntary and Community Sector (VCS) as a partner and recognises the significant role it plays in delivering on our shared priorities for the District.

As Government reforms and reductions in public spending continue to take effect, the Council remains committed to working with the VCS through the Bradford District VCS Assembly, engaging in a mature and on-going dialogue about delivering on priorities and addressing the key strategic issues affecting the District. In particular, the Council will seek the close involvement of the sector in reviewing VCS commissioning arrangements.

1.6 Relationship with Business Sector

To help deliver a thriving local economy and support business growth the Council maintains strong links to the business community in order to understand its needs and help identify potential opportunities for investment and growth. The Council will continue this approach to working with the private sector through direct contact with

business and through relevant partnerships/networks. This activity helps to both promote Bradford District as a place to do business in and to support local entrepreneurs, skills and the delivery of additional employment opportunities.

1.7 Role of Local Councils

Within the Bradford District there are eighteen Town and Parish councils. These local councils have three main responsibilities:

- Represent their local communities;
- Delivering services to meet local need;
- Striving to improve the quality of life in the parish

The local councils can raise their own precepts to help fund these responsibilities. The local councils are the first tier of local government. The Council will continue to engage with the local councils in order to ensure that services are delivered by those best placed to do so.

1.8 Community Budgets / Payment by Results

The Council is committed to making wise use of the totality of all of the assets and resources available to the District. This means thinking more radically and planning for larger-scale transformational change in service delivery. It is clear that efficiency measures alone will not be sufficient to meet the challenges that the District faces.

1.9 Social Investment

The Council is also willing to explore opportunities to fund services through social investment. Essentially social investment can offer the investment to fund services with the investment being repaid usually in return for moderate returns. For instance social impact bonds may improve the social outcomes of publicly funded services by making funding conditional on achieving results.

1.10 Alternative Delivery Models

The Council will continue to explore the options on alternative delivery models and adopt these where it makes sense to do so. The key principle is to offer the best service and outcome rather than allow the choice of model to direct the approach to the arrangement.

Types of delivery model include:

In house provision Strategic partnership Shared services Outsourcing Establish separate corporate entity to deliver services Establish a staff mutual

1.11 Internal Changes

Managing the Council's Buildings

The Property Programme to manage the Council's buildings is now nine years into a 10 year invest-to-save strategy. Since its inception 65 properties have been vacated and gross revenue savings of £5.2m per year generated. Future objectives will include;

- Completing approved schemes as planned and continuing work to optimise the size and quality of the Council's estate. Schemes that are nearing completion will deliver an extra £2m per year savings.
- Identifying opportunities to share property with other public sector partners as part of the Government's One Public Estate initiative.
- Ensuring that all property issues generated from the Council's Efficiency Plan are managed.

1.12 Contingency Planning

The Council has a Risk Management Strategy and from this the Council identifies the main risk to its operations in the Risk Register. To recognise the risks, contingencies in the base budget have been set at a level consistent with experience in 2015/16. Clearly the financial landscape of the Council is subject to change and the EU Referendum result to leave the EU has brought further uncertainty to the shape of that landscape. Issues that emerge will be assessed on an on-going basis and if it is considered necessary spending plans will be adjusted accordingly.

In addition to the contingencies specific provisions have been set aside in relation to liabilities that are likely to arise.

At the 31^{st} March 2016, the Council set aside £22.7m, of which £9.4m is expected to be used in 2016-17 with the remainder in subsequent years. Provisions are £2.7m higher than at the 2014-15 year end.

The main provisions include:

- £8.4m Termination Provision to fund the cost of future redundancies
- £6.0m Business Rates appeal provision
- £4.0m Outstanding legal claims
- £3.9m Damage Compensation

1.13 Reserves Policy

In turbulent financial times, the Council's unallocated reserves enable a balanced budget to be set as the Council moves to a smaller organisation. However they cannot sustain day to day services on an on-going basis.

The Council will continue to use balances prudently, recognising that the volatile fiscal climate requires the Council to remain resilient, through the retention of adequate balances.

The Council has a long standing principle to maintain a prudent level of general reserves. This is currently set at 2.5% of the net budget each year and informed by a risk assessment.

With a financial gap of £109m it is inevitable that there will be some call on reserves but the unallocated reserves of £13.8m are just 12.6% of the forecast gap.

Whilst the balance of reserves appears to be healthy, a closer inspection reveals how these are forecast to reduce over the period of this forecast.

| Reserves as at 31 March 2016 Reserve category | £m |
|--|-------|
| Service earmarked reserves | 42.8 |
| Capital reserves | 13.1 |
| Unallocated reserves | 19.9 |
| Corporate earmarked reserves | 38.9 |
| Grant reserves | 8.4 |
| School balances | 33.8 |
| General reserve | 10.8 |
| Total | 167.7 |

Of the service earmarked reserves of £42.8m one quarter of these are expected to be utilised in 2016/17 with the remainder forecast to be used over the period up to April 2020. The capital reserve is fully allocated to support the financing of the capital investment plan.

At the start of 2016/17 there were unallocated reserves of \pounds 19.9m available of which \pounds 6.2m were used immediately to support the 2016/17 Budget. This leaves just \pounds 13.8m or 1.5% of gross Council expenditure.

Accordingly, reserves should be used only to:

- Support transitional arrangements both organisational and in our communities, in recognition of the fact that some changes cannot be implemented in one financial year or over the short-term.
- Fund non-recurrent or time limited activities contributing to Council priorities (where there is a compelling business case)
- Support invest-to-save activity

Of the corporate earmarked reserves, £12.3m is set aside for specific work on skills jobs and economy. These one off funds are being used to facilitate the growth of the local economy and ultimately an increase in business rates.

£11.5m of the corporate earmarked reserves are set aside for specific risk such as insurance claims, transitional activity, and partially exempt VAT liabilities. Of these £3.6m are due to be used in 2016/17.

£4.1m of the corporate earmarked reserves are set aside for severance costs which will need to be funded as the size of the Council reduces.

£4m of the corporate earmarked reserves are to be used for waste minimisation actions to facilitate a reduction in waste collection and disposal costs.

£2.8m of the corporate earmarked reserves relate to deferred expenditure which will be utilised in full during 2016/17.

The £8.4m of grant reserves are specific sums of money to be spent in line with the grant conditions.

School balances are controlled by the Schools Forum and there is little scope for the Council to influence the use of these reserves.

To sum up, the level of reserves is forecast to reduce significantly during the period covered by the Efficiency Plan.

1.13 Treasury Management

There has been a clear trend of reducing cash balances and during 2015/16 cash and cash equivalents have reduced by £24.4m to £70.5m as at 31 March 2016. This will be kept under review and there may be a point reached during the next few years where borrowing is required in order to maintain sufficient working capital for the Council to run its operations.

1.14 Fees, Charges and Income Stability

In the past two years a clear picture emerged of the difficulties faced by Services dependent on external fees and charges. To address this matter selected income targets have been reduced. Going forward Services should continue to

- maximise income opportunities whilst having regard to Council and partners priorities, service performance and the impact on key service groups and businesses in Bradford.
- have regard to the cost of collection when setting charges and aim to recover promptly all income that it is due.
- explore trading and charging opportunities where it makes commercial sense to do so.
- consider the investment strategy relating to property holdings where a strong business case suggests that there may be opportunities to gain an income stream from such investments.

1.15 Council Tax Setting

Historically the Council has set relatively low levels of Council Tax, below the averages for both Metropolitan Districts and all local authorities in England. This means that there is a wider gap between resources and expenditure when there are reductions in central government funding than would be the case if Council Tax were at average levels.

Going forward the key objective will be to strike a balance between protecting services, investing in priority areas, delivering value for money and setting an appropriate level of Council Tax.

For 2016/17 the Government announced that Councils with responsibility for adult social care would be allowed to raise a social care precept of up to 2% on top of the basic council tax increase. For the 2016/17 Full Council chose to raise the social care precept by 2% and a forecast has been made to do so again in 2017/18. Given the increasing pressure on social care costs the approval of raising further funding through the social care precept makes financial sense.

The Council aims to collect a minimum of 97.4% of all Council Tax debt raised.

In addition to the Council Tax and Social Care Precept the local town and parish councils also raise their own precepts which are used to deliver services in their local areas.

1.16 Budgetary Control and Monitoring

- Budgets will be controlled by the relevant budget holders, monitored regularly throughout the year and reported alongside performance information to individual Assistant Directors and Strategic Directors on a monthly basis. Executive will receive quarterly reports to ensure that action is taken to address any significant unplanned deficits or surpluses.
- Service areas are required in the first instance to accommodate unforeseen expenditure or income shortfalls from within their approved cash limits in any particular year. Allocations from reserves will only be made if there is no alternative and on the approval of Executive.
- The Budget Delivery Board receives monthly reports on an exception basis and reviews the delivery of the budget proposals approved by Full Council. Where budget proposals are not proceeding to plan corrective action is recommend by the Board.

The detailed principles applying to all aspects of financial management are set out in the Council's Constitution.

1.17 Internal Control and Reporting

The maintenance of a sound internal control environment is paramount, and the Council has developed and embedded effective corporate governance. Within the prevailing internal and external protocols and guidance, including the Annual Governance Statement, the Council will aim to deliver best practice in this important area.

Financial monitoring and reporting will be undertaken in accordance with the budget management and control framework and in line with the corporate financial monitoring and reporting timetable. The current and estimated year end financial position will be reported, including progress against savings targets at regular intervals to both Members and officers. Reporting will be on an exception basis bringing managers' and Members' attention to important financial issues linked to cost drivers and strategy. The emphasis will

be on future corrective action to bring performance back on track rather than explaining past performance.

Quarterly financial monitors presented to Members will report on key balance sheet balances as well as the forecast revenue and capital expenditure positions.

1.18 Improvements in Management Information

A programme of work continues to make more use of activity-based and unit cost information, to focus more on productivity and value for money. Performance is reported alongside financial stewardship reporting.

1.19 Performance Management Arrangements

The regular reporting of key corporate indicators and measures to Members is a key element of the Council's corporate performance framework that provides assurance around service performance, the Council's contribution to District outcomes, value for money and informs decision-making. At a time of reduced resources and increasing demand, the Corporate Indicator set is part of a performance framework that helps the Council be smarter about where to allocate its budget and assets and to measure their impact.

The Council has 45 headline indicators on which it monitors progress.

1.20 Transparency

The Council is committed to adhering to the statutory Transparency Code that provides local people with the tools and information they need to enable them to play a bigger role in shaping the services the Council provides.

1.21 Capital Financing and the Capital Investment Plan (CIP)

Capital spending will remain a significant aspect of the Council's financial strategy, with planned capital investment of £350.2m during the period from 2016/17 to 2020/21.

The profile of the capital expenditure is as follows:

| Capital Investment Plan (CIP) profile | | | | | | | |
|---------------------------------------|---------|---------|---------|---------|-------|--|--|
| 2016/17 | 2017/18 | 2018/19 | 2019/20 | 2020/21 | Total | | |
| £m | £m | £m | £m | £m | £m | | |
| 107.4 | 111.9 | 91.0 | 22.6 | 17.3 | 350.2 | | |

Slippage in the profile of capital spending will lead to one off savings in the capital financing budget as a higher proportion of the CIP is now funded from corporate resources compared with previous years.

The analysis of the planned capital spending by Council Outcomes is shown in the table below:

| Capital Investment Plan analysed by outcome | |
|---|------------------|
| Outcome | Planned Spend £m |
| Better skills, more good jobs and a growing economy | 116.0 |
| A great start and good schools for all our children | 63.8 |
| Better Health, Better Lives | 63.7 |
| Decent Homes that people can afford to live in | 50.3 |
| Safe, clean and active communities | 32.6 |
| Enabling activities | 14.8 |
| Contingency | 9.0 |
| Total | 350.2 |

The revenue budget associated with financing the capital investment plan does have headroom for additional capital spend of up to ± 50 m (in totality – this is not a per annum figure). Or there could be a choice to freeze any new capital spending plans and take the revenue savings.

| Forecast Capital Financing Budget | 2016-17 £000 | 2017-18 £000 | 2018-19 £000 | 2019-20 £000 | 2020-21 £000 |
|--------------------------------------|-----------------|-----------------|-----------------|-----------------|-----------------|
| Forecast | | | | | |
| Interest | 19,940 | 18,153 | 17,900 | 17,891 | 17,194 |
| Premia/Discounts | 285 | 285 | 285 | 285 | 285 |
| Principal on Historic Spend | 15,255 | 15,060 | 14,464 | 13,948 | 13,948 |
| Principal on Planned Spend | 0 | 2,761 | 5,528 | 6,544 | 7,853 |
| Available New Spend/Revenue | | | | | |
| Saving | 6,420 | 6,002 | 4,366 | 4,505 | 4,493 |
| Total | 41,900 | 42,261 | 42,543 | 43,173 | 43,773 |

The Council's objectives in managing the CIP and its financing are:

- To ensure that the schemes in the CIP are funded in the most cost effective way for the Council.
- To ensure that the financing costs fall as revenue resources reduce and therefore do not become an unsustainable burden on the Council revenue.
- To manage the portfolio of debt in such a way that the Council is not exposed to major shifts in interest rates by managing the maturity structure of debt and exposure to interest fluctuations.
- To ensure that capital spending is aligned to the Council's priorities

Given the Government no longer provides additional resources to fund new borrowing by the Council, key to the Council's capital financing strategy is to manage down its corporate borrowing and at the same time reduce the reliance on external borrowing.

To achieve this aim the Council will

- use in the first instance internal cash balances when high interest external loans mature and
- continue to invest in schemes that either generate additional income (e.g. affordable housing schemes) or reduce costs (e.g. office rationalization that reduces running costs and allow for disposals) to pay for the capital financing costs of the prudential borrowing.

The value of loans that are due to mature during the period 2017/18 to 2020/21 is £38.4m and new borrowing of £20m is forecast to be taken out during this same period. This will leave the Council with a forecasted £315m of debt outstanding by April 2021.The position will be reviewed in the light of actual cash balances and capital investment plans.

A Project Appraisal Group is the expert officer forum for reviewing the Capital Investment Plan and scrutinising individual business cases, in support of Directors and Members.

All capital receipts will be treated as a Corporate Resource.

1.22 Risk Management Strategy

The Council has in place a comprehensive Risk Management Strategy and action plan. All financial decisions take place within the principles set out in the risk management strategy. Responsibility for the management of financial risk is shared between elected members and officers with overall risk management being the responsibility of the Executive.

The Risk Management Strategy provides a framework which is designed to enable the Council to take a proactive approach to the identification and management of risk and opportunity, and to ensure that it is best placed to seize the opportunities that present themselves. The Council will not be risk averse, and will seek to seize and maximise opportunities by the appropriate identification and management of risk.

In constructing and assessing the annual budget for the forthcoming year, a comprehensive financial risk assessment is undertaken for all parts of the budget, including sensitivity analysis, and steps are taken to manage identified risks to the extent appropriate.

The Council has adopted the Covalent Risk management database for recording, monitoring and overall management of its risk register. It provides a consistent method for scoring and evaluating a risk status and promotes pro-active risk management.

The Risk Register is reviewed, assessed and updated on a regular basis, with each service formally documenting its key risks and potential impacts and the actions taken to mitigate those risks.

Agenda Item 7/

City of Bradford MDC

Report of the Director of Finance to the meeting of the Executive to be held on 19 July 2016.

Subject:

First Quarter Financial Position Statement for 2016-17

Summary statement:

This report provides Members with an overview of the forecast financial position of the Council for 2016-17.

It examines the latest spend against revenue and capital budgets and forecasts the financial position at the year end. It states the Council's current balances and reserves and forecasts school balances for the year.

Stuart McKinnon-Evans Director of Finance **Portfolio:**

Leader of the Council and Corporate

Report Contact: Andrew Cross Business Adviser Management Accounting (01274) 436823 <u>andrew.cross@bradford.gov.uk</u> Overview & Scrutiny Area: Corporate

FIRST QUARTER FINANCIAL POSITION STATEMENT FOR 2016-17

1.0 INTRODUCTION

This report is the first monitoring report presented to Members on the Council's 2016-17 financial position. It provides an early indication of the revenue and capital financial position of the Council at the 31st March 2017.

The report covers

- The forecast outturn of the Council's revenue budget including management mitigations where issues have been identified.
- The delivery of 2016-17 approved budget savings plans.
- A statement on the Council's reserves including movements in the first quarter.
- An update on the Capital Investment Plan.
- An update on Council Tax and Business Rates Collection.

2.0. MAIN MESSAGES

- Based on May 31st 2016 projection, the Council is forecasting that spend will be £6.6m above the approved budget of £378.0m. The main forecast variances are outlined in section 3 Service commentaries. It is important to stress that this estimate is based on information gathered at a very early point in the financial year. Actions taken between now and the end of the financial year, together with additional issues that might arise, such as the repercussions of Brexit, will affect the ultimate outturn position.
- Regarding the £45.6m budgeted savings programme, there are risks associated with the underachievement of a number of plans, and it is forecast that £7.3m of savings will not be delivered as intended. The main variances are outlined in section 2.2 – Delivery of budget savings proposals. One of the aims of this report is to flag these so that necessary action can be taken.
- At the 17th June reserves stand at £153.4m (Council £119.6m and Schools £33.8m). Net movements from reserves have led to a £14.3m reduction in total reserves from £167.7m at 1 April 2016. Reductions are inclusive of £11.4m¹ of reserves used to support the 2016-17 budget, and £2.8m of Better use of Budget carry forwards from 2015-16.
- Unallocated reserves now stand at £13.8m as a contingency reserve. This is equivalent to just 1.5% of the Council's gross budget excluding schools.
- The balance continues to be seen as potentially inadequate by both the Director of Finance and the Council's External Auditors given Governments fiscal policies that will reduce Council net spending from £400m in 2015-16 to £300m by 2021.
- Regarding Capital Expenditure, the profiled resource position for 2016-17 for the Capital Investment Plan (CIP) stands at £118.4m with £6.3m incurred at 31st May.
- New schemes for approval include £0.7m for the Station Gateways Programme to secure land to enable the major redevelopment of Bradford Forster Square Station. The acquisition to be funded by £0.275m from the Strategic Acquisition scheme, with

¹ £6.2m unallocated reserves, £3.7m of service earmarked reserves and £1.5m of grant reserves

temporary borrowing for the remainder as future reimbursement from the West Yorkshire Combined Authority is expected.

- Regarding Council Tax, there is no forecast variance against the 2016-17 Council Tax budget of £159.9m.
- By statute the Council in 2016-17 will receive its budgeted £63.7m share of Business Rates from the Collection Fund. A challenge on forecasting Business Rates is the cost of refunds for backdated appeals. The current forecast for these refunds is in line with the assumptions in the 2016-17 budget.
- As reported previously, Business Rates appeals handled by the Governments Valuation Office relating mainly to GP surgeries and Health Centres are impacting on the Business Rates base.
- At 31 May 2016, the Council had collected 17.7% of the value of Council Tax bills for the year compared with 17.8% at the same point last year. A reason for this slight reduction in the collection rate is that in May 2016 an additional 1,500 households had opted to pay Council Tax over 12 rather than 10 instalments, compared with May 2015.
- For Business Rates the collection figure at 31st May 2016 is 24.64% compared to 24.24% at the same time last year.
- The EU referendum result to leave the EU has added a further layer of uncertainty to the ultimate financial outturn of the Council. The impact to the Council could be the direct loss of EU structural funds and any indirect effect of potential further cuts to local government funding if there is a downturn in the economy leading to a reduction in public sector spending.

2. COUNCIL REVENUE FORECAST

2016-17 Revenue Budget

The Council's approved net revenue budget of £378.0m is forecast to overspend by £6.6m. The budget is after £45.6m of service and non service budget savings.

2.1 2016-17 Revenue Forecast as at 31st May 2016

| | Gross expenditure | | Ir | Income | | | Net expenditure | | |
|--|-------------------|------------------|----------------|--------------|----------------|----------------|-----------------|----------------|----------------|
| | Budget £m | Forecast ` £m | Variance £m | Budget £m | Forecast £m | Variance £m | Budget F £m | Forecast £m | Variance £m |

| Non Service Budgets | 7.2 | 7.2 | - | 1.3 | 1.3 | - | 5.9 | 5.9 | - |
| Total support services and non service | 47.3 | 47.3 | -0.1 | 7.5 | 7.2 | -0.3 | 39.8 | 40.1 | 0.2 |
| Central Budgets & Net Transfers To Reserves | 76.7 | 76.7 | - | 24.3 | 24.3 | - | 52.4 | 52.4 | - |
| Total Council Spend | 1,270.8 | 1,263.8 | -7.1 | 892.8 | 879.1 | -13.2 | 378.0 | 384.6 | 6.6 |

2.2 Delivery of Budgeted Savings proposals

The combined budget savings of $\pounds45.6m$ in 2016-17 ($\pounds44.6m$ approved by Council in February 2016², and a further $\pounds1.0m$ Government cut to the Public Health Grant) brings the total savings the Council has had to find in the five years following the 2010 Comprehensive Spending Review (CSR) to $\pounds218.3m$.

Table 2- Year on Year savings since 2010 CSR

| | £m |
|---------------|-------|
| 2011-12 | 48.7 |
| 2012-13 | 28.5 |
| 2013-14 | 26.1 |
| 2014-15 | 31.8 |
| 2015-16 | 37.7 |
| 2016-17 | 45.6 |
| Total savings | 218.3 |
| | |

In tracking progress made against each individual saving proposal, £37.7m (84%) of the £45.6m is forecast to be delivered, leaving £7.3m that is forecast not to be delivered.

Saving Tracker

| Service | Original Budgeted Savings | Revised Savings ³ | Forecasted Variance at Qtr. 1 |
|---------------------------------------|---------------------------------|---------------------------------|-------------------------------------|
| Adult & Community Services | 12.5 | 12.6 | 2.6 |
| Children's Services | 3.2 | 3.7 | 1.6 |
| Environment & Sport | 3.2 | 3.5 | 0.0 |
| Regeneration | 4.1 | 4.3 | 0.0 |
| Public Health | 1.4 | 1.4 | 0.0 |
| Director of Finance | 7.1 | 7.2 | 0.0 |
| City Solicitor | 0.0 | 0.0 | 0.0 |
| Chief Executives Office | 0.2 | 0.2 | 0.0 |
| Director of Human Resources | 0.7 | 1.0 | 0.1 |
| Non Service Budgets and cross cutting | 10.2 | 8.8 | 0.0 |
| Travel assistance | 3.0 | 3.0 | 3.0 |
| Total | 45.6 | 45.6 | 7.3 |

The main planned savings that are at risk of not being delivered in full:

Transport Assistance

Informed by extensive public consultation, the Executive in June 2015 approved a revised Travel Assistance Policy based on principles and guidance contained in a joint framework between Children's and Adults. The £3m savings reduction in 2015-16 transport assistance was underachieved by £1.8m and there is a further saving of £3.0m in 2016-17. The service will be undertaking reassessments of entitlement in 2016-17 which will contribute

 ² £27.4m of savings agreed in Feb 2015 that impact on 2016-17 budget, and £17.3m of additional savings agreed in Feb 2016.
 ³ Revised savings include £1.5m of savings linked to Transactional support being allocated to

³ Revised savings include £1.5m of savings linked to Transactional support being allocated to departments from cross cutting, and £0.1m of savings linked to Connexions being implemented by Environment and Sport.

towards the savings target, but the saving cannot yet be quantified. The Council also agreed to allocate £0.6m of investment over 2 years from 2016-17 to support the provision of Travel Training. The forecast underachievement is covered by Corporate contingencies in 2016-17.

- £1.2m of savings planned to be delivered by reducing the average number of Adults Residential Care places by a further 50 to 850 are forecast to be underachieved by £1m. The service starts the year with a £0.65m shortfall on the £1.6m 2015-16 saving, meaning that places would need to reduce by 93.
- £1m of savings planned to be delivered by renegotiating Adults high cost placements are forecast to be underachieved by £1m as the service starts he year with a £0.5m shortfall on the £1m 2015-16 savings target.
- £0.8m of savings planned to be delivered by reducing the number of Looked After Children by 75 over 2 years are forecast not to be delivered.
- £0.6m of savings planned to be delivered by bringing Looked After Children cared for outside of Bradford back into the district are forecast not to be delivered.
- The Journey to Excellence and Signs for Safety programmes have been established to deliver the above two Looked After Children savings.
- £0.4m of savings planned to be delivered by reducing payments to Foster Carers due to a reduction in the number of Looked After Children is forecast to be underachieved by £0.1m.

3. SERVICE COMMENTARIES

3.1 Adult and Community Services

Adult and Community Services are forecast to overspend the £118.7m net expenditure budget by \pounds 3.5m. The forecast overspend results from \pounds 2.6m forecast underachievement of the \pounds 12.6m budget savings; \pounds 0.3m recurrent shortfall on 2015-16 savings and further recurrent pressures of \pounds 0.6m.

- Of the £2.6m forecast unachieved savings, £1m relates to the planned reduction of Older People Residential and Nursing placements (A10 - £1.2m saving). The saving planned that the average population in 2016-17 would reduce by a further 50 to 850; however, as the 2015-16 outturn position was 943, placement numbers would need to reduce by an average of 93.
- This is a challenging target for the department, however it is positive to note that the
 population figures are showing a month on month reduction. This positive trajectory
 is due to the service working closely with the NHS to ensure that at discharge from
 hospital all clients are accessing re-ablement services before the appropriate long
 term service is agreed.
- At this stage the department is also forecasting that the £1m High Cost Placement savings target (A9) will be unachieved. The £1m target will be challenging in 2016-17 particularly as the service did not fully meet the 2015-16 saving (£0.5m shortfall).
- To mitigate the overspend, the department's reviewing teams will continue to review client's packages of care and negotiate costs with providers. The department also works closely with the NHS to share the cost of high cost placements where a client has both health and social care needs. Given these factors, together with the department's strategy to reduce the number of residential placements and the close monitoring of new placements via a panel, the £1m forecast pressure may reduce in 2016-17.
- Additionally, there is a £0.1m forecast non achievement of the Safeguarding saving target which was a request for further funding from partner organisations. There is also an additional £0.1m pressure for the 2015-16 unachieved element of this saving.

The department will seek to identify compensating savings to mitigate the overall $\pounds 0.2m$ shortfall in 2016-17.

- There is a further unachieved saving in 2016-17 of £0.4m relating to the original proposal (A10) to close an in-house residential home. The total pressure of this original saving is £0.6m, as £0.2m relates to 2015-16. The mitigating savings for this pressure will be evident in the on-going Great Places to Grow Old strategy. {Dn how?]
- The consultation period for the new non-residential charging policy (3A1) has been extended by a further two months, therefore a shortfall of £0.1m is forecast on the £0.5m saving target due to the delay in implementing the new policy.

Recurring Pressures

- The Bradford and Airedale Community Equipment Service (BACES) is forecast to overspend by £0.4m. This is a reduction of £0.6m from the £1m overspend in 2015-16 (of which £0.5m was funded from the NHS). A number of initiatives are currently being put in place to reduce expenditure, including invest to save measures, reviewing the policy on the provision of equipment to care homes, and introducing a panel to review both council and NHS special orders to ensure value for money. This budget will be closely monitored in 2016-17 and corrective action taken as appropriate to reduce the overspend.
- The Mental Capacity Act budget is forecasting a pressure of £0.2m due to the costs of the service carrying out increased MCA assessments and the costs associated with the medical assessments carried out by doctors.

All other service areas are reporting a balanced budget at this stage in the financial year.

3.2 Children's Services

Children Services are forecast to overspend the \pounds 80.9m net expenditure budget (\pounds 580.7m) Gross budget) by \pounds 1.8m. The forecast overspend is inclusive of a \pounds 1.6m shortfall in the \pounds 3.7m of budgeted savings for 2016-17 as outlined in section 2.2. The main variances are outlined below.

| | Gross | s expendi | ture | Income | | | Net expenditure | | |
|--------------------------------|----------|-----------|----------|--------|----------|----------|-----------------|----------|----------|
| | Budget I | Forecast | Variance | Budget | Forecast | Variance | Budget | Forecast | Variance |

| Schools | 407.0 | 394.4 | -12.6 | 416.0 | 403.4 | -12.6 | -9.0 | -9.0 | 0.0 |
| Total | 580.7 | 569.3 | -11.3 | 499.8 | 486.6 | -13.1 | 80.9 | 82.7 | 1.8 |

Children Social Care Service

• Children's Social Care are forecast to overspend the £58.1m net expenditure budget by £1.9m. The main variances include:

- A £0.7m overspend on the £7.2m external purchased placements budget. The service had an overspend of £3m in 2015-16 and was allocated £1.5m of additional budget in 2016-17 to address the increase in prices paid for external placements.
- The fees and allowances budgets of £16.7m are also anticipated to overspend as follows:
 - Special Guardians Allowances £0.5m
 - Adoption Allowances £0.3m
 - Fostering £0.3m
- The above pressures are partly offset by forecast underspends on the Direct Payment budget to children with disability (£0.2m), commissioning budgets for Prevention and Support Services (£0.4m), staffing vacancies within Children Residential Homes (£0.1m) and Support for Children Shared Care Services (£0.1m).
- Children's services plan to mitigate the remaining pressure on Purchased Placements and Allowances by reviewing the sufficiency and commissioning strategy; Re-commissioning block contracts for residential and fostering provision; reviewing the care plans of all young people in purchased placements who can return internally or to an Independent Foster Agency placement, and increasing the capacity of the In-House Fostering Service through training and recruitment.

Performance Commissioning and Development

• Performance Commissioning and Development are forecast to overspend the £3.5m net expenditure budget by £0.1m as a result of a £0.2m overspend on administration being partly offset by a £0.1m underspend on Strategic Commissioning due to staffing vacancies.

Education, Employment and Skills

• Education, Employment and Skills are forecast to underspend the £31.5m net expenditure budget by £0.3m as a result of a £0.7m underspend on Early Years resulting from staffing vacancies, partly offset by overspends in Education, Employment and Skills and underachieved savings in administration

3.3 Environment and Sport

The department is forecast to balance the £45.3m net expenditure budget (£90.3m gross budget) and deliver the £3.5m savings as planned.

| | Gross | expenditu | ire | Income | | | Net expenditure | | |
|-------------------------------------|----------|-----------|---------|--------|----------|----------|-----------------|----------|----------|

| Neighbourhoods & Street Scene | 18.4 | 18.4 | 0.0 | 5.7 | 6.2 | -0.4 | 12.7 | 12.3 | -0.4 |
| Leisure & Culture Services | 30.3 | 30.6 | 0.3 | 20.1 | 20.0 | 0.1 | 10.2 | 10.6 | 0.5 |
| Environment & Sport | 90.3 | 90.6 | 0.3 | 45.0 | 45.2 | -0.2 | 45.3 | 45.4 | 0.0 |

- The forecast balanced position is however inclusive of a continued forecast overspend within Sports Facilities, offset by underspends in Bereavement services, Parks and landscapes and income from bus lane fines.
- A summary explanation is outlined in the sections below.

Waste Service

- Waste Services are forecast to balance the £22.8m net expenditure budget (£28.9m gross budget). The forecast position is comprised of a £0.2m under spend on Waste Collection offset by a £0.2m overspend on Waste Disposal.
- Waste Collection is forecast to under spend the £7.7m net budget by £0.2m due mainly to savings on transport costs and increased income from Trade Waste.
- Waste Disposal is forecast to over spend the £15.2m net budget by £0.2m, mainly due to the continuing problem of insufficient income being received from paper sales due to contaminated batches. The proposed Materials Recycling Facility (MRF) is in the process of being procured, which should remedy the problem, but is not expected to be operational until August/September.
- The service is also projecting an over spend on disposal costs (£0.06m); however increased recycling as a result of waste minimisation strategies should reduce waste to landfill.
- This has been acknowledged in the 2016-17 savings proposals, as the current budget provides for 145,000 tonnes of residual domestic waste, which is approx. 3,000 tonnes less than the 2015-16 outturn figure.

Neighbourhoods and Customer Services

- Neighbourhoods and Customer Services are forecast to underspend the £12.7m net expenditure budget (£18.4m gross budget) by £0.4m
- All services are forecast to balance other than Uniformed Services which is predicting higher than expected income from bus lane fines of £0.4m.

Sports and Culture

Sports & Culture are forecast to overspend the \pounds 10.2m net expenditure budget (\pounds 30.3m gross budget) by \pounds 0.5m.

- Employee costs within Sports Facilities are forecast to overspend the £4.3m budget by £0.6m. This takes into account the transfer of Nab Wood from Council ownership which gave a year on year reduction of £0.1m. When compared to the 2015-16 outturn figure of £5.0m (£5.1m less Nab Wood £0.1m) this shows a year on year reduction of £0.1m.
- The Sports Facilities income budget of £4.5m is also forecast to be underachieved by £0.2m based on the 2015-16 outturn figure adjusted for the transfer of Nab Wood and price changes.
- Transportation costs, equipment running costs, and maintenance within Parks & Landscapes, are forecasting a combined underspend of £0.2m against a budget of £1.1m. This has been achieved through a combination of reduced activity, planned replacement of equipment, and service efficiencies.
- Bereavement Services are forecast to receive £0.2m more than the £1.3m net income budget. This is based on the level of burials administered in 2016-17 being forecast at a similar level to those which were administered in 2015-16 (4,197).
- Culture Services are forecast to balance the £5.4m net expenditure budget (£16.3m gross). The £5.4m budget includes £0.5m transitional funding to facilitate the delivery of savings during 2016-17. A strategic review of the function of tourism services in the Bradford District is underway. The review encompasses both a destination management plan and the future of tourism services. Budgeted savings of £0.1m have been applied in 2016-17. The shape of the future service will be expected to follow from the conclusions of the review.

3.4 Public Health

The department is forecast to balance the £1.1m net expenditure budget (£45.0m gross budget) and deliver the £1.4m savings as planned.

| Public Health | 46.1 | 46.1 | - | 45.0 | 45.0 | - | - | 1.1 | 1.1 | - |

- The Public Health grant for 2016-17 is £44m which includes an in year reduction of £1m and the full year effect of the transfer of the Health Visiting service from NHS England. As reported at 2015-16 year end, £0.4m was transferred into reserves to be utilised during 2016-17 and the service is forecast to balance the net expenditure budget of £1.1m. The reductions in funding are being managed through continual review and commissioning of contracted services.
- Following the announcement from the Department of Health regarding future funding, Public Health will also be planning for annual funding reductions of approximately £1m per annum between 2017-18 and 2019-20.
- The Environmental Health service transferred to Public Health on 1st April 2016, part of the service is funded through base budget (£0.6m) and the balance of £1.4m is funded by the Public Health grant which includes £0.3m from 2016-17 savings.

3.5 Regeneration

The Department of Regeneration is forecast to overspend the £36.6m net expenditure budget (£83.2m gross budget) by £0.9m. Budget savings of £4.3m are currently forecast to be delivered, however, there are some risks associated with delivery.

| | Gross | expenditu | ire | Income | | | Ne | e | | | | |

| Regeneration | 83.2 | 84.0 | 0.8 | 46.7 | 46.6 | 0.1 | 36.6 | 37.4 | 0.9 | | | |

Economy and Development Services

- Economy and Development Services are forecast to underspend the £7.6m budget by £0.2m, mainly from within housing and ancillary school support services. Economic Development Services are projecting a balanced budget.
- EDSe service supports a range of major Regeneration projects such as One City Park and the Odeon. An initial allocation of funds was made for One City Park but the Council is working with the Combined Authority to determine the most appropriate funding method for the remaining allocated funds. Also funding amounting to £0.4m has been allocated from Regional funds for the Odeon, allowing for internal works to be made that will enhance the prospects for future funding bids.
- Housing operations are forecast to underspend the £1m net expenditure budget by £0.1m due to additional fees being collected from the delivery of Disabled Facilities Grants. Demand for adaptations to homes to allow for independent living remains high. Housing Access services (homelessness services) are also much in demand but costs are being contained.

Estates and Property Services

- Estates and Property Services are forecast to overspend the £14.9m budget by £0.5m.
- This consists of a £0.3m forecast overspend on utility costs linked to waste water and trade effluent (depot waste water and other large dischargers e.g. landfill sites and City Park), and minor overspends in Other Catering and Admin Buildings.
- The Energy unit is seeking to mitigate the forecast overspend through refunds and compensation resulting from suppliers inaccurate billing.
- Estates management are anticipating to balance the £1.8m net rent account this year. Additional income has been secured from both one off rent reviews and new temporary occupiers of Shipley Town Hall and Future House.
- The new income will provide a boost to the account of between £0.2m and £0.4m, however, the additional income may be offset by additional costs required to

undertake a review of commercial and non commercial leases, and undertake other property related work associated with transitioning to a smaller estate.

Planning, Transportation and Highways

- The service is forecast to overspend the £13.9m net expenditure budget by £0.6m. This is mainly due to lower than budgeted income from fees for building control (£0.3m) and planning charges (£0.2m).
- The service is seeking to mitigate the forecast overspend though cost efficient practice, strict vacancy management and improved productivity.
- Highways Asset Management and the Highways Delivery Unit are expected to balance. Weather conditions can be a factor in closing the account favourably and so there is a degree of uncertainty in projections. Savings of £0.8m are expected to be met in full, although only partially from a reduced insurance premium as originally expected. Instead efficiencies will be found from within highways operations, leasing vehicles instead of purchase, reducing depot costs, productivity improvements and vacancy management.

3.6 Chief Executive

• The Chief Executive's Office including Policy, Programmes & Change (PPC) is forecast to balance the £4.2m net expenditure budget (£4.3m gross budget) and achieve the £0.2m of savings targets.

| | Gross | expendi | ture | Income | | | Net expenditure | | |

| Finance Directorate | 210.1 | 210.1 | 0.0 | 188.7 | 188.6 | 0.2 | 21.3 | 21.5 | 0.2 | |

• Revenues & Benefits are forecast to overspend by £0.2m due to an anticipated requirement to increase the bad debt provision within the Housing Benefits payments

budget.

- Revenues & Benefits are also forecasting an underspend of £0.2m on salaries which is counterbalanced by a £0.1m reduction in forecast payroll income and a £0.1m increase in transaction fees.
- Commissioning & Procurement are forecast to underspend by £0.05m on salaries due to the decision not to fill vacant posts pending a service review, and is anticipating a further £0.05m in year saving to be made through the renegotiation of contracts.
- Information Technology Services (ITS) are forecasting a balanced budget with the costs of recruiting to new posts anticipated to be balanced by structural changes to achieve the budgeted savings.

3.8 Human Resources

• Human Resources (HR) are forecast to overspend the £5.5m net expenditure budget by £0.1m, after accounting for £1m of budget savings.

| Administration | 2.2 | 2.1 | -0.1 | 0.1 | 0.1 | - | 2.1 | 2.0 | -0.1 |
| Human Resources | 7.6 | 7.7 | 0.1 | 2.1 | 2.1 | 0.0 | 5.5 | 5.6 | 0.1 |

- The £0.1m currently projected over spend is primarily on employee costs within the core Human Resources & Administration functions pending the completion of a review and restructure. Mitigating savings are to be sought and the potential for increased income generation within Workforce Development examined.
- The projections also allow for work on Council priority programmes such as New Deal & Learner Management System being funded in 2016-17 via prior year underspends of £0.2m.

3.9 City Solicitor

• The City Solicitor is forecasting a small underspend of £0.05m on its £6m net budget. This partly as a result of improved position for Registrars since the move into City Hall.

| | Gross | expend | iture | | Income | | | Net expenditure | | |

| Legal & Democratic | 8.2 | 7.9 | -0.3 | 2.2 | 1.8 | 0.3 | 6.0 | 6.0 | -0.0 | |

3.10 Non Service Budgets

• Non service budgets are forecast to balance.

3.11 Central Budgets & Contingencies

- Budgets held centrally include the revenue costs associated with Capital Investment (interest and principal repayment), payment to the West Yorkshire Passenger Transport Executive and contingencies amongst others.
- All budgets are forecast to balance, except for the £4.8m of savings associated with Transport Assistance that are forecast to be mitigated by the use of £4.8m of contingencies in 2016-17.

4. BALANCE SHEET

4.1 Cash Reserves

- At 17th June 2016 unallocated reserves stand at £13.8m.
- The balance continues to be seen as potentially inadequate by both the Director of Finance and the Council's External Auditors given the expected cuts in non protected Government Departments spending the future.
- Net movements from reserves have led to a £14.3m reduction in total reserves from £167.7m at 1 April 2016 to £153.4m at 17th June (£119.6m Council and £33.8m schools). The £14.3m net releases from reserves include:

Releases from

-£6.2m from unallocated reserves to support the 2016/17 budget

-£3.6m from the Transition and Risk reserve to support the 2016/17 budget

-£0.1m from the Trade Waste Vat reserve to support the 2016/17 budget

-£1.5m from Children's Grant Reserve to support the 2016/17 budget

-£2.8m Better use of Budget releases

-£0.5m from Producer City Initiative reserve to fund new Strategic site assembly and development reserve

-£0.3m from Capital Feasibility reserve to fund new Strategic site assembly and development reserve

Transfers to +£0.3m Public Health grant reserve +£0.3m General Fund Surplus +£0.8m Strategic site assembly and development reserve.

Appendices 1&2 outline Council and schools reserves.

4.2 School Balances

• The table below shows the School Reserves (including Schools Contingencies) position as at 31st of March 2016. Schools do not report their quarter one financial position for 2016-17 until the end of July 2016.

| | Balance 1 st April 2015 | | | ance 31 st arch 2016 | Movement | | |
|-----------------------------|---------------------------------------|--------|------|------------------------------------|----------|-------|--|
| | No's | £000£ | No's | £000£ | No's | £000 | |
| Nursery | 7 | 866 | 7 | 634 | 0 | 232 | |
| Primary | 137 | 13,281 | 137 | 13,193 | 0 | 88 | |
| Secondary | 15 | 4,303 | 13 | 3,307 | 0 | 996 | |
| Special | 6 | 773 | 6 | 693 | 0 | 80 | |
| Pupil Referral Units (PRU) | 7 | 1,841 | 7 | 1,041 | 0 | 800 | |
| Total | 172 | 21,064 | 170 | 18,868 | 0 | 2,196 | |
| School Contingency | | 16,693 | | 14,091 | 0 | 2,602 | |
| City Learning Centres/Other | | 598 | | 844 | 0 | (246) | |
| Total | 172 | 38,355 | 172 | 33,803 | | 4,552 | |

• There have been four schools (Laisterdyke Business College, High Crags Primary, Thornbury Primary, and Barkerend Primary) that converted to Academy Status in 2016-17.

• In setting the 2016-17 Schools budget, The Schools Forum allocated £9.6m balance held within School Contingencies.

5. CAPITAL

The profiled resource position for 2016-17 for the Capital Investment Plan stands at £118.4m. This includes £4.9m of carry forward resources from 2015-16 plus £0.7m of additional external funding. To the end of May there has been total spend of £6.3m. Service managers are in the process of reviewing the profiled spend on their capital schemes. A summary by service is shown below with a detailed monitor in Appendix 3.

| Scheme No | Scheme Description | Budget Approved by Exec | Change | Re profiled Budget 16-17 | Spend to date | Budget 17-18 | Budget 18-19 | Budget 19-20 & Onwards |

| TOTAL - A | Il Services | 112.8 | 5.6 | 118.4 | 6.3 | 78.4 | 77.5 | 42.2 |

New Capital Schemes

The Project Appraisal Group (PAG) has considered the following capital bids and recommends their approval by Executive for inclusion in the CIP.

- £0.7m of capital expenditure is required to secure land to enable the major redevelopment of Bradford Forster Square Station as part of the Station Gateways Programme. The acquisition to be funded by £0.275m from the Strategic Acquisition scheme, with temporary borrowing for the remainder where future reimbursement from the West Yorkshire Combined Authority is expected.
- The Station Gateway Programme is part of the West Yorkshire Plus Transport Fund Portfolio of Projects, that will make significant improvements to the key Rail Stations in West Yorkshire, as well as improving the linkages between the stations and their city and town centres.
- The Bradford Stations Gateways projects are two of six stations included in the West Yorkshire Plus Transport Fund (WY+TF) Station Gateways Programme. This development would attract significant capital investment into the city. Given the potential benefits of the scheme it is recommended that this scheme is given approval.

6. COUNCIL TAX AND BUSINESS RATES COLLECTION

Council Tax

• Regarding Council Tax there is no forecast variance against the 2016-17 Council Tax budget of £159.9m.

Business Rates

- By statute, the Council in 2016-17 will receive its budgeted £63.683m share of Business Rates from the Collection Fund. A challenge on forecasting Business Rates is the cost of refunds for backdated appeals. The current forecast for these refunds is in line with the assumptions in the 2016-17 budget.
- As reported previously, Business Rates appeals handled by the Governments Valuation Office relating mainly to GP surgeries and Health Centre are impacting on the Business Rates base.

Collection Rates

• At 31 May 2016, the Council had collected 17.7% of the value of Council Tax bills for the year compared with 17.8% at the same point last year. A reason for this slight reduction in the collection rate is that in May 2016 an additional 1,500 households had opted to pay Council Tax over 12 rather than 10 instalments, compared with May 2015.

• For Business Rates the collection figure at 31 May 2016 is 24.64% compared to 24.24% at the same time last year.

7.0 RISK MANAGEMENT

• The Financial risks of future known and uncertain liabilities are being addressed through contingencies and provisions outlined in this report.

8.0 LEGAL APPRAISAL

• This report is submitted to the Executive in accordance with the Budget and Policy Framework Procedure rules

9.0 NOT FOR PUBLICATION DOCUMENTS

None

10.0 RECOMMENDATIONS

That the Executive

- 10.1 Note the contents of this report and the actions taken to manage the forecast overspend.
- 10.2 Approve the addition of the £0.7m land acquisition for Station Gateways Programme to the Capital Investment Plan. The scheme to be funded by £0.275m from the Strategic Acquisition scheme and temporary borrowing.

Agenda Item 8/

J

Report of the Strategic Director of Children's Services to the meeting of the Executive to be held on 19th July 2016

Subject:

Regionalisation of Adoption Services

Summary statement:

The purpose of this report is to provide information to the Council's Executive about the proposals for adoption reform contained within the government's Education and Adoption Act 2016. It sets out the Yorkshire and Humber regional plan for adoption and requests delegated authority for the Director of Children's Services to form a Yorkshire and Humber central adoption hub and develop a West Yorkshire Regional Adoption Agency which is to be hosted by Leeds City Council.

| Care Phone: (01274) 432904 E-mail: jim.hopkinson@bradford.gov.uk | Children's Services |

1. SUMMARY

The purpose of this report is to provide information to the Council's Executive about the proposals for adoption reform contained within the government's Education and Adoption Act 2016. It sets out the Yorkshire and Humber regional plan for adoption and requests delegated authority for the Director of Children's Services to proceed with the plan to form a West Yorkshire Regional Adoption Agency, to be hosted by Leeds City Council within the Yorkshire and Humber hub.

1.1 An agreed regional and sub-regional approach to the future delivery of adoption services will benefit Bradford in delivering a more efficient and cost effective service. It will utilise central Government funding to help facilitate the change.

The new Agency would take over the recruitment of adoptive families, the family finding function for children requiring adoption and the provision of adoption support. The Local Authority would however retain the decision making in respect of adoption planning and matching for its own children.

The key benefits of the agency would be to:

- Focus on best outcomes for children requiring adoption through good quality recruitment & assessment of adopters, matching, early placement and adoption support.
- Improve outcomes for children, prospective adopters and adoptive families and birth families.
- Provide sufficient placements for West Yorkshire's children and improve adoption support for all those affected by adoption including birth families, for the transition and the future adoption service
- Enable the new regional adoption agency to form relationships with voluntary organisations in the Yorkshire and Humberside Voluntary Adoption Alliance Group
- Ensure partnership work is promoted and enhanced to promote the best interests of children, adopters and adoptive families and allow best practice elements between the local authorities to be enhanced.
- Ensure funding for the agency will go directly to work for children and adoption because the local authority funding profile is understood and factored into the plan of the new agency and provides value for money
- The Yorkshire and Humber hub will be tasked to undertake key functions on behalf of the 3 Y&H regional adoption agencies, where the outcomes for all stakeholders will be optimised by regional collaboration.

The Executive is asked to endorse the proposed creation of a West Yorkshire Regional Adoption Agency and Yorkshire and Humber Hub and to delegate authority for the implementation of this to the Director of Children's Services.

2. BACKGROUND

- 2.1 In June 2015 the Department for Education published 'Regionalising Adoption'. The Government's view is that structural change will help to:
 - Speed up the process and markedly improve the life chances of neglected and damaged children.
 - Improve adopter recruitment and adoption support.
 - Reduce costs.
- 2.2 In March 2016 'Adoption: A vision for change' was published which set out plans for adoption reform as part of the overarching vision for transforming the quality of children's social care services by 2020.

The key objectives of this are

- To reverse the marked decline in the numbers of adoptions
- To address concerns that some children still wait too long for adoption
- To address concerns that too many families miss out on vital support services
- To address concerns that some children fail to get the permanence option that would be in their best interests

The government's stated intention is to improve the provision of adoption services through the establishment of Regional Adoption Agencies with local authority and voluntary agency involvement.

- 2.3 The issues that the government is seeking to address within adoption reform are as follows:
 - **Inefficiencies.** The current system is fragmented with around 180 agencies, both Local Authority and Voluntary Adoption Agencies (VAA), recruiting and matching adopters for 5000 children per year. The majority of agencies are operating at a very small scale and this hinders strategic planning and economies of scale.
 - **Timeliness of placing children**. Whilst there has been significant improvement in the performance of Local Authorities in placing children swiftly with adoptive families there is further progress that can be made. This is particularly the case with harder to place children, often older, within a sibling group or with a disability.
 - Adopter recruitment. Again there has been improvement in both the number of adopters recruited and the timescales to achieve this. However, whilst the number of approved adopters nationally is now greater than the number of children waiting, many of these adopters are less willing to consider those children who are harder to place.
 - Adoption support. The help that is offered to families after adoption is the responsibility of Local Authorities. However it is currently fragmented and characterised by a combination of in-house and spot purchased arrangements with often significant variations between local authority areas.

2.4 The specific proposal within the Education and Adoption Act 2016, as it relates to adoption reform, is to support the creation of regional adoption agencies. This is the preferred delivery structure to ensure the issues identified above are resolved. Government has asked the sector to propose the most suitable method of scale and scope for these regional agencies and has provided funding to achieve this. It is the intention that by the end of the current parliament there will be a regional adoption agency in place for every part of England. There are powers within the Education and Adoption Act 2016 to force a Local Authority or VAA to join a regional agency if no action is taken.

The proposal is to create a Yorkshire and Humber adoption hub with 3 regional adoption agencies, North and Humber, West and South. The hub will take on many of the functions previously provided by the Adoption Consortium with a small number of functions held centrally e.g. performance data collection and analysis to enable tracking and service planning. The hub is likely to be hosted by Barnardo's.

- 2.5 Yorkshire and Humber regional project board has been successful in an application to the Department for Education (DfE) to become an early adopter of regionalisation. As a demonstration project of a regional approach it can establish best practice and help to shape adoption agency development on a wider basis. The Yorkshire & Humber project board will be working over the next six months to establish an implementation delivery plan. In relation to West Yorkshire this will combine adoption services from Bradford, Calderdale, Kirklees, Leeds and Wakefield. Voluntary Adoption Agencies (VAA's) and Adoption Support Agencies (ASA's) will be integrated into this arrangement.
- 2.6 West Yorkshire will be responsible for managing its own Regional Adoption Agency which will be hosted by Leeds City Council but jointly controlled by the Local Authorities and Voluntary Agencies in the area. It will provide a centre of excellence for adoption practice and a consistent, high quality service for children in our care and adopters.
- 2.7 A detailed partnership arrangement will be drawn up between the Local Authorities.
- 2.8 The Agency will be overseen by a Joint Committee with a representation of elected members from each Local Authority and a Management Board with chief officer representation from each Local Authority. These two bodies will set the strategic direction and performance expectations for the Agency.
- 2.9 Key stakeholders have been briefed about the work of the project board to ensure that they understand the direction of travel towards a regional agency. Regular briefings will continue to be produced
- 2.10 Each Local Authority will have key staff in the areas of Legal, IT, HR, Finance and Procurement, Communications, Business Support, involved in progressing the regionalisation of the adoption service.

The formal process of engagement with staff, elected members and the key officers, who will establish a regional agency has not commenced, as the governance model needs to be agreed and given regional/Departmental approval to

proceed.

The staffing structure and funding model for the new agency is being developed in conjunction with KPMG external consultants. This will require fuller discussion regarding arrangements for staff transfer, TUPE, pension implications etc and consultation with the trade unions.

2.11 The planned implementation date for the Regional Adoption Agency is 1st April 2017.

3. OTHER CONSIDERATIONS - THE BRADFORD CONTEXT

- 3.1 In the Regional Agency Decision making about Bradford children will be retained by Bradford Council and agency decisions regarding whether a child should be placed for adoption and whether a child should be matched with a particular family for adoption will remain with the Council's Deputy Director for Children's Social Care.
- 3.2 Regionalisation offers the opportunity for some of Bradford's harder to place children being more likely to be placed within West Yorkshire than across the country as sometimes can be the case now and for all West Yorkshire families to benefit from a larger scale and breadth of adoption support services than are currently available
- 3.3 There is a commitment to retaining a presence of adoption staff within Bradford district and that there will continue to be a point of contact and recruitment events for prospective adopters from the District in Bradford.

4. OPTIONS

There are two available options for consideration

- 4.1 To support the continuing development of the Regional Adoption Agency will:
 - provide economies of scale and efficiency savings to Bradford Council at a time of economic austerity.
 - improve the timeliness of service delivery to adopters and children within the Bradford district
 - increase the range of services available to all parties affected by adoption.
 - as an early adopter of the development of the Regional Adoption Agency model, enable the Agency to benefit from Department for Education funding to facilitate the transition process
- 4.2 To maintain the status quo and not pursue the development of the Regional Adoption Agency will;
 - render the risk that legislation will oblige the Bradford adoption service to merge with or be taken over by another adoption agency within 2 years
 - risk the ability to access the level of funding currently available to facilitate the staff time and expertise to oversee the regionalisation.
 - risk that Bradford children and adopters will be disadvantaged from accessing the benefits of an adoption service offered on a larger scale.

5. FINANCIAL & RESOURCE APPRAISAL

Funding of the Agency will be based on an accurate understanding of each agency's budget and expenditure in respect of adoption, identification of economies of scale that can be achieved by a regional agency and recommendation of a budget and funding formula to apportion the cost of the Regional Agency between the 5 Local Authorities

Each Local Authority will consult with HR advisors to identify the scope of the proposal for affected staff in that LA and engage in consultation and the application of the HR process with the affected staff and their trade unions.

It is anticipated that there will be savings in the implementation of the Regional Adoption Agency through the rationalisation of duplication of some management functions and tiers.

Any forecast savings will be clarified during the 2016/17 financial year once the identified model is confirmed and implementation plans are effected.

The return upon the overall investment will ensue when the Regional Adoption Agency has increased its recruitment of adoptive families in the Agency, which had formerly required cost and time intensive inter agency searches/matches.

6. RISK MANAGEMENT AND GOVERNANCE ISSUES

The proposed joint arrangements are permitted under Article 13.2 of the constitution which states the Executive may establish joint arrangements with one or more local authorities to exercise functions which are executive functions. Such arrangements may involve the appointment of joint committees of these other local authorities.

The establishment of a joint committee, its terms of reference, members to be appointed and terms of office etc are executive decisions. These matters will need to be considered by the Executive at a later date as they cannot be delegated to officers. The Executive may wish to consider delegating the matters to a committee.

Article 13.11 of the constitution requires the Monitoring Officer to keep a record of joint governance arrangements and gives the monitoring officer the power to require information about the arrangements.

Governance of the Agency and the management of any associated risks will be subject to a detailed partnership agreement between the 5 Local Authorities.

The Agency will be overseen by a Joint Committee with a representation of elected members from each council and a Management Board with chief officer representation from each Local Authority. These two bodies will set the strategic direction and performance expectations for the Agency.

The new agency will need to be formally established as an Adoption Agency and registered with OFSTED.

For the duration of the process of transition a local Bradford Regionalisation Board

has been established to ensure the various strands of ongoing work are synchronised.

7. LEGAL APPRAISAL

- 7.1 The adoption functions included in the proposed transfer are executive functions of the local authority. The proposal to discharge functions jointly with other authorities is lawful and governed by the Local Government Act 1972 and the Local Authorities (Arrangements for the Discharge of Functions (England) Regulations 2012. Such joint arrangements may be made by the Leader, the Executive, an individual member of the executive or a committee of the Executive. As stated above, the establishment of a joint committee, its terms of reference, members to be appointed and terms of office etc are executive decisions and cannot be delegated to officers.
- 7.2 The Education and Adoption Act 2016 provides the Secretary of State with the power to direct one or more local authorities to make arrangements for any or all of their specified adoption functions to be carried out on their behalf by one of the local authorities named or by another adoption agency. The Secretary of State can either name which adoption agency should carry out these functions, or instruct the local authorities to determine who should carry out the functions. The effect of the provisions is that the Government has the power to remove the adoption function from a local authority and direct that another authority or adoption agency carries out that function.
- 7.3 The proposals would involve a transfer of staff from City of Bradford MDC to Leeds City Council. It is considered that the Transfer of Undertakings (Protection of Employment Regulations 2006 ("TUPE") would apply to such a transfer. If collective redundancies are envisaged, information and consultation duties under Trade Union and Labour Relations (Consolidation) Act 1992 may also apply. The Council should also bear in mind any relevant collective agreement, policy and/or procedure. It is important to inform the recognised trade unions long enough before the proposed transfer of staff to enable effective consultation with representatives of any affected employees to take place.

8. OTHER IMPLICATIONS

IT and Performance Management systems will require further development but the timeline and cost of procurement for a new system does not fit with the proposed implementation date for the Agency and further work/collaboration will be needed.

8.1 EQUALITY & DIVERSITY

Implementation of a Regional Adoption Agency should optimise the potential range of families available for Bradford children within the West Yorkshire region and avoid those children losing connection with their West Yorkshire heritage by virtue of being placed outside of the region.

8.2 SUSTAINABILITY IMPLICATIONS

The establishment of a Regional Agency will bring about economies of scale and make the adoption service more resilient to service cuts impacting adversely on

service delivery.

8.3 GREENHOUSE GAS EMISSIONS IMPACTS

None.

8.4.1 COMMUNITY SAFETY IMPLICATIONS

None.

8.5 HUMAN RIGHTS ACT

None.

8.6 TRADE UNION

The trades unions will be fully involved in the process of consultation with staff and with any HR processes at both a West Yorkshire and Bradford level.

8.7 WARD IMPLICATIONS

All Bradford children and families are affected equally by these proposals.

8.8 AREA COMMITTEE ACTION PLAN IMPLICATIONS

Not applicable.

9. NOT FOR PUBLICATION DOCUMENTS

None.

10. **RECOMMENDATIONS**

- That Executive approve the formation of a Yorkshire and Humber adoption service as set out in this report.
- That authority be delegated to the Director of Children's Services, in consultation with the Education, Employment and Skills Portfolio Holder to progress the development of the Yorkshire and Humber Hub and the West Yorkshire Adoption Agency and to proceed with the revised structure leading to the transfer of staff to Leeds City Council as the host of the West Yorkshire Agency with the new arrangements being in place for April 2017.
- That a further report be presented to the Executive prior to the implementation of the new arrangements, including details of proposed governance arrangements

11. APPENDICES

None.

12. BACKGROUND DOCUMENTS

None.

City of Bradford Metropolitan District Council

Page 195

1. SUMMARY

- 1.1 This report provides a background to the proposed spin out of the EPT with the requested updates. The Council Executive is requested to approve the final sign off of spin-out of the EPT as an employee owned mutual.
- 1.2 It is recommended that the Spin-Out is a Community Interest Company (CiC), reflective of the council's 'New Deal' agenda.
- 1.3 The CiC will be a Mutual, owned and run by its employees, but with assets locked for community benefit. Employees will be represented on the board, and consultation mechanisms will be put in place to communicate with service users and stakeholders
- 1.4 In line with the New Deal, the Spin-Out will provide the opportunity for the LA to develop its role as commissioner of previously centrally held services, and add social value to the district through attracting more skilled and experienced Educational Psychologists to the area.
- 1.5 Through its constitution, the Community Interest Company will add social benefit to Bradford, through any surplus being used to provide additional psychological services to children and their families across the district. These services will be established and co-created in collaboration with service users, partners and other stakeholders.
- 1.6 The proposal was shared with the Chief Executive's management team in January 2016 and they similarly agreed that it should be progressed. At a meeting with Joint Management Team on 29th February 2016, it was agreed that this should be progressed and key issues addressed, prior to being presented to council exec for final approval.

2. BACKGROUND

- 2.1 The LA currently employs a team of 21.4 Educational Psychologists (EPT), including trainees and assistants. The role of the EPT is to improve educational outcomes and life chances for children and young people by ensuring they have maximum success in school.
- 2.2 The LA currently funds approximately 75% of the cost of the team, in order to provide statutory advice for children undergoing Education Health and Care assessments under the Children and Families Act (2014). In addition this funding provides early intervention work for schools across the district and a critical incident response linked to the LA's emergency planning duties. The remaining 25% of the cost of the team is funded through traded work with schools and other external partners such as Healthy Minds and Born in Bradford.
- 2.3 There is a strong market for educational psychology, but in the context of a national shortage of EPs it is becoming increasingly difficult to attract new psychologists to

City of Bradford Metropolitan District Council

Bradford. The EPT is currently carrying three permanent and two temporary vacancies and a recent recruitment yielded only one applicant. This situation puts at risk the statutory and other services required by the LA.

- 2.4 In response to this, an options appraisal was undertaken to look at ensuring the long term sustainability of educational psychology services within Bradford. Three options were considered including remaining as is, a wholly owned company and a Spin-Out. The preferred option is that the EPT should spin out of the Local Authority as an Employee Owned Mutual.
- 2.5 This proposal is supported by the Association of Educational Psychologists (Professional Association) and by team members. Stakeholders have also been informally consulted and they expressed support for the idea.
- 2.6 A business proposal was drawn up and scrutinised by the LA's 'Alternative Delivery Vehicle Project Group' in November 2015. This group, comprising of representatives from Finance, Legal, Commercial and HR pronounced that the proposal was sound and should be progressed.

3. OTHER CONSIDERATIONS

3.1 This will be the first Spin-Out from Bradford LA in recent years. Based on the past successful trading of the EPT, the venture is low risk and likely to succeed. The Spin-Out could provide valuable experience of developing such arrangements and an effective model for future Spin-Outs.

4. FINANCIAL & RESOURCE APPRAISAL

- 4.1 Initially the Spin-Out will look very similar to the existing EPT. The LA will enter into an initial three year contract with the CiC to provide a similar level of statutory and early intervention services. This will be provided at a cost which is will be no more than the existing budget spent on the EPT.
- 4.2 Over an agreed timescale the Spin-Out will expand its trading with schools and other partners (for example Public Health) in order to generate increased income. Any surplus will be reinvested into the Bradford District to enhance existing or provide new services.
- 4.3 As a Spin-Out, the CiC will in time provide a secure income stream for the council through the buying back of accommodation and other back office functions which were previously provided to the EPT through corporate recharge.
- 4.4 During the establishment of the CiC and for the period of the initial contract, it is expected that BMDC will transfer physical assets and staff to the company, enter into arrangements for the provision of facilities to the company and novate any existing contracts held by the Educational Psychology Team. Assets currently consist of psychological test equipment and resources (approximate value £30,000)

and IT equipment (approximate value £15,000)

- 4.5 In order to support the Spin-Out, it is proposed that the LA authorises any surplus generated by the EPT in the pre Spin-Out phase to be used to support the development of the CiC.
- 4.6 Due diligence has been carried out by Raj Singh, May 2016 and confirms the financial viability of the mutual being created, a contract being issued and operational robustness for 3 5 years

5. RISK MANAGEMENT AND GOVERNANCE ISSUES

- 5.1 The main risk to the LA relates to ensuring sufficiency of EPs to carry out the required statutory work.
- 5.2 Careful negotiation of the core contract with the CiC will be a key tenet in reducing this risk. Staff recruitment and retention within the CiC should be enhanced by the Spin-Out, enabling it to fulfil the requirements of any contract entered into. Should these anticipated benefits not materialise, the CiC may struggle to deliver the required statutory work. This situation is however no less favourable than remaining as is.
- 5.3 As with any new business, there is a chance that the CiC will fail, and this will impact negatively on the LA's capacity to access sufficient statutory psychological advice. Working with the CiC to ensure its best possible chance of success will mitigate against this. In the worst case scenario of the CiC failing, then the option remains for the LA to re-employ a team of psychologists directly in order to fulfil their statutory and other requirement.
- 5.4 At the end of the three year contract the LA will need to enter into competitive tendering for Educational Psychology Services. This introduces a potential risk to service security. However, it is anticipated that the CiC will maintain a strong link to Bradford and will be keen to bid for any tendered contract and ensure best value for the district.

Progress has been made with the cohort of staff subject to change as a result of transferring into the mutual. This has been pursued by Michelle Moverley and Darren Whitelaw (May 2016). There are no perceived risks (including from unions)

Progress has been made for the establishment of the mutual and plans are in Place for a formal launch from November 1st 2016. Market testing and awareness is in place and demonstrates a welcome from existing client and key LA departments.

6. LEGAL APPRAISAL

6.1 The initial contract entered into with the LA will be a contract "reserved" under Regulation 77 and will run for the maximum allowed 3 years. After this period the LA will enter into competitive tendering for Educational Psychology Services.

- 6.2 All staff currently within the EPT will transfer from BMDC to the new company under the Transfer of Undertakings (Protection of Employment) Regulations (TUPE) with indemnity for predicted redundancy, sickness etc provided initially by the LA in line with other outsourced contracts.
- 6.3 The CiC will request admitted body status to West Yorkshire Pension Scheme and in the first instance, the LA will provide a bond to support the new company with potential responsibilities around sickness and redundancy.
- 6.4 A modification order will be sought by the CiC to ensure continuity of service for all members of staff joining the CiC.

7. OTHER IMPLICATIONS

7.1 EQUALITY & DIVERSITY

The proposal will advance equality of opportunity for people who share a protected characteristic. As a CiC, the Spin-Out will have a community interest statement requiring it to use any surplus to provide additional services to the community. By their nature, psychological services are focused on those with disabilities and with other barriers to educational success eg poverty. As such, the proposal will advance equality of opportunity for these groups.

The proposal will have a positive impact and help to eliminate discrimination_against people who share a protected characteristic. The reinvestment of any surplus into the community will ensure that those with disabilities and other barriers to education will have enhanced access to educational psychology, which in turn will improve outcomes for these groups.

7.2 SUSTAINABILITY IMPLICATIONS

This proposal seeks to secure a viable, financially robust, long-lasting response to ensuring educational psychology service delivery within the Bradford District.

The proposal is positioned within the wider changes to public services and cocreation of personal and social wellbeing in line with New Deal outcomes and principles. It will contribute to enhancing the overall prosperity, well-being and resilience of people, communities and future generations within Bradford.

The proposal recognises that robust and agile structural, governance and organisational changes create the foundations for the future and are part of the solution to more efficient, effective and ethical ways of supporting children, young people and their carers throughout the District.

7.3 GREENHOUSE GAS EMISSIONS IMPACTS

There is no impact on the Council's own and the wider District's carbon footprint and emissions from other greenhouse gasses.

7.4 COMMUNITY SAFETY IMPLICATIONS

There are no Community Safety Implications

7.5 HUMAN RIGHTS ACT

There are no implications in relation to the Human Rights Act

7.6 TRADE UNION

The Association of Educational Psychologists (AEP) has been fully engaged throughout the options appraisal and drafting of the business proposal. It is fully supportive of the move.

UNISON is aware of the proposal and has had sight of the business proposal.

Full consultation will be undertaken as part of the TUPE process..

7.7 WARD IMPLICATIONS

Under the proposal, all wards will continue to access Educational Psychology support via the core contract drawn up between the LA and the CiC.

Community stakeholders will be engaged in order to establish how and where services provided through the 'community interest statement' will be delivered.

8. NOT FOR PUBLICATION DOCUMENTS

8.1 Background document - Yorkshire Educational Psychology Partnership (Bradford) Business Proposal (not for publication paragraph 3 (financial or business affairs) of schedule 12A of the Local Government Act 1972 as amended)

9. OPTIONS

The following options were previously presented to JMT, giving the main advantages and disadvantages:

Option 1: Retain current structure (The "as-is," no change)

Advantages

• Provision of statutory services secure (within limits of staffing)

Disadvantages

• Deterioration in terms and conditions linked to efficiency savings impacts negatively on capacity to attract and retain staff

City of Bradford Metropolitan District Council

 Increased pressure on remaining staff due to recruitment issues impacts on retention and capacity

Option 2: Establish EPT as a 'wholly owned' TECKAL company

Advantages

- LA maintains decisive influence over the strategic objectives and key decisions of the EPT
- TECKAL exemption avoids need for competitive tendering

Disadvantages

- TECKAL is generally seen as a transition arrangement to incubate fledgling businesses. As the EPT has been trading successfully for 6 years, this seems unnecessarily bureaucratic
- As the EPT currently trades in excess of 20% with external partners, the EPT would not pass the TECKAL status test
- Working as a quasi-LA department, the EPT would reduce flexibility to offer more favourable terms and conditions in order to attract staff

Option 3: EPT spins out of the LA as an Employee owned Mutual, in the form of a Community Interest Company.

Advantages

- Allows freedom and flexibility for EPT to attract new EPs to the team, and retain existing team
- Ethically bound through Community Interest statement, so any surplus is put back into the district through co-constructed community based initiatives
- In line with New Deal, the core contract with the CiC ensures provision of statutory and other services, but from perspective of commissioner, not provider
- Potential income stream opened up, through CiC paying for services currently provided by LA

Disadvantages

- After initial protected term, EP services will need to be procured through competitive tendering
- Failure of CiC would put at risk delivery of statutory services

Option 3 was agreed as the preferred option, having most financial, organisational and social benefits for the district, as well as addressing the retention and recruitment issues.

Option 3 is in line with the 'New Deal' ethos. As a commissioner the LA will have more flexibility over what services it purchased from the CiC offering a potential

budget saving. This option will also provide an income stream for the council through the buying back of accommodation and other back office functions which were previously provided through corporate recharge. Further benefits include derisking the LA through reducing directly employed staff and providing a valuable learning experience relating to spinning services out of the LA

In addition, Option 3 has benefits for the wider District. The CiC community interest statement will ensure that a significant proportion of any surplus is put back into the community. In this way, through consultation with the LA and community groups, initiatives such as parenting classes and community consultations for vulnerable groups, which have been casualties of budgetary reductions, could be reinstated.

10. **RECOMMENDATIONS**

10.1 Executive is requested to approve final sign off of the proposal that the EPT spins out of the LA as an Employee owned Mutual, in the form of a Community Interest Company, from 1st November 2016.

11. APPENDICES

11.1 None

Report of the Strategic Director Environment & Sport to the meeting of Executive to be held on 19th July 2016.

Subject: The Unauthorised Deposit of Waste (Fixed Penalties) Regulations 2016.

Summary statement: Executive is asked to agree to the use of Fixed Penalty Notices for fly-tipping offences as provided for in the Unauthorised Deposit of Waste (Fixed Penalties) Regulations 2016.

Steve Hartley Strategic Director Environment & Sport

Report Contact: Amjad Ishaq, Environmental Services & Enforcement Manager Phone: (01274) 433682 E-mail: <u>amjad.ishaq@bradford.gov.uk</u> Portfolio:

Environment, Sport & Culture

Overview & Scrutiny Area:

Environment & Waste Management

City of Bradford Metropolitan District Council

1. SUMMARY

Executive is asked to agree to the use of Fixed Penalty Notices for fly- tipping offences as provided for in the Unauthorised Deposit of Waste (Fixed Penalties) Regulations 2016.

2. BACKGROUND

- 2.1 The Unauthorised Deposit of Waste (Fixed Penalties) Regulations 2016 (the "Regulations") came into force on 9 May 2016. The Regulations give local authorities greater powers to tackle fly- tipping by allowing authorised officers of the authority to issue fixed penalty notices of between £150 and £400, where they have reason to believe a person has committed a "waste deposit offence" in the authority's area. Introducing fixed penalty notices for fly-tipping is the latest move in a government crackdown on waste crime, which costs the economy millions of pounds a year in clean-up costs, undermines legitimate business, and poses serious risks to our environment.
- 2.2 Currently the only sanctions the Council can take are to either prosecute or offer cautions to offenders for fly-tipping. Fly-tipping is a criminal offence and the maximum penalty for most fly-tipping offences is a fine of up to £50,000 or 12 months imprisonment or both (in the Magistrates Court) or a unlimited fine or 5 years imprisonment or both (in the Crown Court).
- 2.3 Prosecutions can be extremely time consuming, costly and can take many months to get to court. It is recommended that Fixed Penalty Notices (FPNs) are used for small scale fly-tipping such as dumping more than a single item of non commercial waste e.g 2 black bin bags of rubbish up to a car boot load. Anything more than a car boot load or any commercial waste is considered to be serious fly-tipping and prosecution would be considered in such incidents. Historically the fly-tipping of a single item of waste e.g. a single black bag or equivalent has been dealt with as a littering offence and a littering fixed penalty notice was issued to the offender. This will continue to be the case. The ability to issue a fixed penalty notice for small scale fly-tipping will enable the Council to deal with such offences in a more efficient and proportionate manner other than to prosecute or offer a caution. The fixed penalty notice offers the offender an opportunity to discharge their liability for the offence by payment of a fine. However, if the fine is not paid within a specified time scale namely 14 days following the date of the notice the Council will then prosecute the offender for the fly-tipping offence.

For more serious fly-tipping offences the Council will still look to prosecute offenders.

2.4 While acting as a deterrent, issuing fixed penalty notices for small scale fly- tipping will also save the Council officer time and money in prosecuting offenders as they will provide a quicker alternative to the prosecution of fly-tippers through the courts.

3. OTHER CONSIDERATIONS

- 3.1 The Regulations provide for a fixed penalty of not less than £150 and not more than £400 for fly-tipping. If no amount for the fixed penalty is specified by the waste collection authority the default amount is £200. The Regulations allow a waste collection authority to offer a reduction for early payment if the penalty is paid before the end of the period of 10 days following the date of the notice.
- 3.2 Officers from Yorkshire Councils have been discussing the implementation and use of Fixed Penalty Notices for fly tipping to ensure a co-ordinated and consistent approach across the county.
- 3.3 Nearly all Councils in the Yorkshire and Humber region are setting the fixed penalty at £400. Most councils are looking to use the option of a discount for early payment, typically about a £100 reduction.

4. OPTIONS

Option One

Executive agree to the use of Fixed Penalty Notices for small scale fly-tipping and agree that the penalty in the Bradford District be fixed at £400.

That Executive also agree that the penalty be reduced to £300 if the penalty is paid in full before the end of the period of 10 days following the date of the notice.

Option Two

Executive do not agree to the use of Fixed Penalty Notices for small scale fly-tipping.

Option Three

Executive agree to the use of Fixed Penalty Notices for small scale fly-tipping but decide that a different amount for the fine and/or the early payment discount, within the limits prescribed by the Regulations , should be imposed .

5. FINANCIAL & RESOURCE APPRAISAL

There are no direct financial implications with this report. The new fixed penalty powers will increase the potential to take alternative action against people committing lower level fly-tipping offences by issuing Fixed Penalty Notices as opposed to preparing lengthy, time consuming prosecutions.

6. RISK MANAGEMENT AND GOVERNANCE ISSUES

There are no risk management and governance issues apparent within the context of this report.

7. LEGAL APPRAISAL

- 7.1 Pursuant to section 33 (1) of the Environmental Protection Act 1990 it is an offence to deposit controlled or extractive waste in or on any land without a permit or in breach of a permit.
- 7.2 The Unauthorised Deposit of Waste (Fixed Penalties) Regulations 2016 introduce a new section to the Environmental Protection Act 1990 to allow waste collection authorities in England to issue Fixed Penalty Notices for fly-tipping waste offences in breach of s33(1) EPA 1990.

8. OTHER IMPLICATIONS

8.1 EQUALITY & DIVERSITY

There are no equality and diversity implications apparent within the context of the report.

8.2 SUSTAINABILITY IMPLICATIONS

Preventing fly- tipping contributes positively towards the sustainable agenda.

8.3 GREENHOUSE GAS EMISSIONS IMPACTS

The content of the report does not have a negative climate change impact. Should the incidence of fly- tipping be reduced there will be a carbon saving from less vehicle and miles needed to remove fly- tipped waste.

8.4 COMMUNITY SAFETY IMPLICATIONS

There are no community safety implications.

8.5 HUMAN RIGHTS ACT

There are no known Human Rights Act implications.

8.6 TRADE UNION

There are no staffing implications arising from this report.

8.7 WARD IMPLICATIONS

Enforcement action would take place across the district and all Wards would be covered under the new legislation, which will hopefully help to reduce the amount of fly-tipping across the district, when applied as part of a wider Environmental Enforcement strategy.

9. NOT FOR PUBLICATION DOCUMENTS

None

10. **RECOMMENDATIONS**

- 10.1 That the Strategic Director Environment and Sport be given delegated authority in consultation with the Portfolio Holder to implement the provisions within the Unauthorised Deposit of Waste (Fixed Penalties) Regulations 2016.
- 10.2 That the Strategic Director Environment and Sport authorise in writing designated Council officers to issue Fixed Penalty Notices for fly- tipping and such officers will receive appropriate training.
- 10.3 That the fixed penalty be set at £400 which will be reduced to £300 if the penalty is paid in full before the end of the period of 10 days following the date of the notice.

Μ

MINUTES OF THE MEETING OF THE WEST YORKSHIRE COMBINED AUTHORITY HELD ON THURSDAY 31 MARCH 2016 AT WELLINGTON HOUSE, LEEDS

| Present: | Cllr Peter Box (Chair) Cllr Tim Swift (Dep Chair) Cllr David Green Peter McBride Cllr Judith Blake Cllr Keith Aspden Cllr Stephen Baines Cllr Simon Cooke | | Wakefield MDC Calderdale MBC City of Bradford MDC Kirklees MC Leeds City Council City of York Council Conservative Representative (Calderdale MBC) Conservative Representative (City of Bradford MDC) |
|----------------|--|-------------|--|
| In attendance: | Cllr Keith Wakefield Ben Still Nick Winney Angela Shearon | - - - | Chair of WYCA Transport Committee WYCA WYCA WYCA |

76. Apologies for Absence

Apologies for absence were received from Councillors Andrew Carter (Leeds City Council), David Sheard (Kirklees MC), Jeannette Sunderland (Bradford) and Roger Marsh (Leeds City Region LEP).

77. Nick Winney

It was reported that it would be the last meeting for Nick Winney, Director of Legal Services, who would be leaving WYCA on 15 April to take up a new position.

Members thanked Nick for all his hard work during his time with WYCA and wished him well for the future.

78. Declarations of Disclosable Pecuniary Interests

There were no pecuniary interests declared by members at the meeting.

79. Exclusion of the Press and Public

There were no items on the agenda requiring exclusion of the press and public.

80. Minutes of the Meeting held on 4 February 2016

Resolved: That the minutes of the meeting of the WYCA held on 4 February 2016 be approved and signed by the Chair.

81. Implications of Government's 2016 Budget

The Authority considered a report setting out the implications of the Government's 2016 budget and the principal implications related to Combined Authority powers focusing on business rates, flooding and transport.

Business Rates

The Chancellor announced cuts for all business rate payers with most of the shortterm benefit for small businesses and significant long-term benefits for large businesses. The government committed to compensating local authorities for the loss of income as a result of the cuts to business rates although there was no guarantee that the level of compensation would account for the full loss of business rate income and clarity would need to be sought on the detail.

Flooding

The Government committed a further £130m to repairing roads and bridges damaged by Storms Desmond and Eva on top of the £49m previously announced which would benefit, for example, Linton Bridge in Leeds, Scout Road in Calderdale and the A646 near Mytholmroyd. In addition, a further £700m would be added to the Government's flood defence capital programme by 2020 with maintenance spending to be increased by £40m.

Transport

The Chancellor committed support to the Northern Transport Strategy, developed by Transport for the North (TfN), including commitments to develop the following schemes using part of the £300m funding pot announced in November's Spending Review:-

- High Speed 3
- Upgrade of the M62 to a four-lane smart motorway
- Improvements to Leeds Station to capitalise on the benefits of HS2

Further announcements made included the bringing forward by 2 years of previously announced critical road projects, including Lofthouse junction and capacity enhancements to the M1 at junction 35a-39 (Rotherham to Wakefield); funding to improve local roads with £15m allocated from the Pothole Action Fund to repair around 277,000 potholes during 2016-17.

Resolved –

- (i) That the headline implications from the Government's 2016 budget be noted.
- (ii) That a further report be brought to a future meeting of the Combined Authority once further details of the implications of the budget are known.

82. Growth Deal Approvals

The Authority considered a report seeking approval to the gateway stages for Growth Deal schemes outlined in the submitted report and providing an update on projects within the Skills Capital, Resource Efficiency, Housing and Regeneration and the West Yorkshire Plus Transport Fund programmes within the Growth Deal.

Skills Capital Programme 16/17 – Leeds College of Building

The report provided details of the project to enable the Leeds College of Building to consolidate its estate to operate from two sites in Leeds to provide world class education and training facilities for students and the construction industry to meet the growing needs and skills gaps in the industry.

Approval was sought from the Authority, subject to completion of the appropriate due diligence and legal documentation, for grant funding of £14m, of which £2.1m would be repaid upon completion of the project.

Resource Efficiency (Pillar 3)

The report provided details of the project, which had been considered by WYCA's Investment Committee, to construct a new 6.4 kilometre District Heating Network (DHN) to connect the Recycling and Energy Recovery Facility in the Aire Valley to customers across the Leeds, the benefits of which would include tackling fuel poverty and a 40% reduction in carbon between 2005 and 2020.

The Authority were asked to consider the benefits of the project and an appropriate funding mechanism to support the £7m required by Leeds City Council to invest in the project, recognising the developing pipeline of other District Heat Networks.

Housing and Regeneration (Pillar 4) Programme, 2016/17 to 2020/21

It was reported that proposals for a 2016-17 Housing and Regeneration Programme had previously been considered by WYCA's Investment Committee and that,

following the appraisal of the business cases for the proposed projects and the conclusion of the SEP refresh, a detailed programme would be submitted to the Investment Committee for further consideration and future recommendation to the Combined Authority.

York Central Access and Station Masterplan Gateway 1

Members were provided with details of the scheme which would deliver a highly sustainable new central business district providing modern commercial floor space currently lacking in the city centre enabling businesses to grow and encouraging companies to relocate to York and the Leeds City Region and will deliver significant new homes.

Approval was sought to expenditure of £2.1m to progress the scheme through Gateway 1 to the next stage.

M62 Junction 24a

Approval was sought to additional expenditure of £70,000 to undertake an extended feasibility study into the economic, social and wider impacts of the scheme.

South East Bradford Link Road

Approval was sought to expenditure of £91,000 to undertake pre-feasibility work to re-evaluate the economic benefits of the original scheme and other potential route options.

A629 Phase 2

Approval was sought to progress the A629 Phase 2 through Gateway 1 and for the release of the remaining funding of £1,616,000 to cover the costs of developing the scheme from Gateway 1 through to Gateway 2.

Resolved:

- (i) That, subject to completion of the appropriate due diligence and legal documentation, grant funding of £14m to support the proposal from the Leeds College of Building, of which £2.1m will be repaid upon completion of the project, be approved.
- (ii) That the benefits of the Leeds District Heat Network be recognised and that the final decision on an appropriate funding mechanism for the £7m sought be delegated to the WYCA Director of Programme Delivery, in consultation with the Chair of the Investment Committee.
- (iii) That progression of York Central Access and Station Masterplan through Gateway 1 and the release of £2.1m to cover the costs of developing the scheme from Gateway 1 through to Gateway 2 be approved.

- (iv) That expenditure of £70,000 to progress the feasibility work to progress the M62 Junction 24a project to Gateway 1 be approved.
- (v) That expenditure of £91,000 for pre-feasibility work on the South East Bradford Link Road be approved.
- (vi) That progression of the A629 Phase 2 through Gateway 1 and the release of the remaining funding of £1,616,000 to cover the costs of developing the scheme from Gateway 1 through to Gateway 2 be approved.

83. Refresh of the Leeds City Region Strategic Economic Plan

The Authority considered a report seeking endorsement of the final draft of the refreshed Leeds City Region Strategic Economic Plan (SEP).

It was reported that the first SEP had been completed in March 2014 at the request of the Chancellor and was intended both as a statement of local economic ambition and policy and as a competitive bid document for a share of the government's £12bm Local Growth Fund. In September 2015, following recommendation by the LEP Board, the Combined Authority approved a review of the SEP two years on in order to re-assess the strategy in light of experience of project delivery to date and economic and political developments over that period. Work began in Autumn 2015 on reviewing the SEP which included:-

- an update and review of the economic evidence base underpinning the strategy;
- economic modelling both of the impact of LEP investments to date and of the expected economic impact of investments that it is recognised will happen over the next decade;
- extensive consultation with external stakeholders, business people, local authority partners and the public.

Members considered a first draft of the refreshed SEP at its February meeting, following which an amended version formed the basis of the consultation document. Changes suggested during the consultation exercise were incorporated into the latest version of the Plan, attached as Appendix B to the submitted report, which the Authority were asked to consider, together with the Executive Summary attached at Appendix A.

Resolved – That the draft Leeds City Region Strategic Economic Plan be endorsed as the overarching economic strategy of the Combined Authority.

84. Land and Assets Board Terms of Reference

The Authority considered a report seeking endorsement of the Terms of Reference for the Leeds City Region (LCR) Land and Assets Board.

The Authority had considered a report at its meeting on 20 November regarding the establishment of a Leeds City Region Land and Assets Board with the Government's Homes and Communities Agency (HCA) to jointly consider and make recommendations on the use, re-use and disposal of public sector land and assets, including rationalisation of the public estate. The aim of the Board being to identify suitable public sector land for development, taking a strategic view on the use of surplus public sector land whilst seeking to maximise the delivery of the LCR Strategic Economic Plan objectives and targets; particularly housing and economic growth.

The first meeting of the Board, held in February, had considered Terms of Reference which were appended to the submitted report and recommended to the WYCA for consideration.

Members considered the Terms of Reference and discussed the membership and political composition of the Board. It was reported that in determining membership, consideration had been given to ensuring both politically balanced and geographical representation.

Resolved -

- (i) That the draft Terms of Reference for the Leeds City Region Land and Assets Board, as set out in Appendix 1 of the submitted report, be endorsed.
- (ii) That the LEP Board be requested to consider clearly defining the political composition of the Land and Assets Board within the terms of reference.

85. Strategic Planning Update

The Authority considered a report providing an update of progress in implementing the Leeds City Region (LCR) Planning Review recommendations agreed by the West Yorkshire Combined Authority and seeking endorsement of relevant documents recommended for approval by the LCR Planning Portfolio Board.

The Planning Review had been undertaken in order to explore and develop options on the potential roles of the WYCA and Leeds City Region LEP in adding value to the Duty to Cooperate, planning processes and strategic planning. At its meeting on 17 September 2015, WYCA had endorsed thirty six Planning Review recommendations, which had been made with a view to adding value to existing local priorities and policies, and had been developed and put forward for approval by the LCR Planning Portfolios Board.

Members considered the report which provided an update on progress in implementing the Planning Review recommendations six months on and set out a summary of progress within each of the following workstreams:

- WYCA/LEP Compliance with the Duty
- WYCA/LEP Involvement with Planning Applications
- WYCA/LEP Input into Local Plans

It was noted that significant progress had been made across all of the recommendations. Joint working on LCR housing and employment requirements together with Duty to Cooperate processes had proved to be robust after being tested at both the Leeds and Bradford Local Plan Inquiries.

Members were also asked to consider the LCR Planning Charter, the LCR Statement of Cooperation for Local Plans and the draft West Yorkshire Local Aggregates Assessment which had been recommended for approval by the LCR Planning Portfolios Board and were appended to the report.

Resolved –

- (i) That the progress made over the past 6 months in implementing the recommendations of the LCR Strategic Planning Review be noted.
- (ii) That the revised LCR Planning Charter, as detailed in Appendix 2 of the submitted report, be endorsed.
- (iii) That the revised LCR Statement of Co-operation for Local Plans, as detailed in Appendix 3 of the submitted report, be endorsed.
- (iv) That the draft West Yorkshire Local Aggregates Assessment, as detailed in paragraph 3.16 of the submitted report, be noted.

86. WYCA Planning Consultations

The Authority considered a report regarding two planning consultations as part of the West Yorkshire Combined Authority's role under the Duty to Co-operate.

In line with the recommendation of the LCR Planning Review, endorsed by WYCA in September 2015, the Authority had been consulted on the Kirklees Local Plan and on a major planning application in Calderdale. The report provided members with details on each of the planning applications.

Kirklees Draft Local Plan Consultation

It was reported that Kirklees Council had consulted WYCA in February 2016 on the Kirklees Local Plan and a response had been submitted within the required period to meet the Council's consultation deadline. A copy of the response submitted was attached at Appendix A to the report for information.

Calderdale Planning Application Consultation (Cummings Turbo Technologies)

WYCA had been consulted on 10 March by Calderdale Council on a planning application by Cummings Turbo Technologies for a proposed new manufacturing facility at Ainley Top, Calderdale. Members were asked to consider the proposed WYCA response set out in Appendix 2.

Resolved –

- (i) That the response to Kirklees Council on the Kirklees Local Plan consultation, as detailed in Appendix 1 of the submitted report, be supported.
- (ii) That the proposed response to Calderdale Council, as detailed in Appendix 2 of the submitted report, in relation to the Cummings Turbo Technologies manufacturing plant planning proposals be endorsed.

87. Transport Priorities and Transport for the North (TfN)

The Committee considered a report summarising recent progress with Transport for the North and priorities in respect of the future role of Transport for the North as a Sub National Transport Body.

The report set out the key messages in the recently published Transport for the North (TfN) report.

It was noted that Lord Adonis, as Chair of the National Infrastructure Commission, had published a report on rail connectivity between major cities in the north, which recognised the need for immediate and significant investment in the North and a plan for longer-term transformation to reduce journey times, increase capacity and improve reliability. The report also recommended the kick-starting of HS3, bringing forward of investment to boost capacity on the M62 and recognised the benefits of upgrading the Calder Valley route. Members suggested that it would be beneficial to invite Lord Adonis to a future meeting of WYCA to pick up on some of the issues outlined in his report.

Members discussed the ambitions of the Leeds City Region in the context of its role in the Northern Powerhouse and supported the six key messages set out in the report which had been identified by WYCA's Transport Committee. Members agreed that it was of paramount importance to set out a consistent and clear narrative to influence the northern and national agenda and to have a clearly defined list of regional priorities which could be delivered through Transport for the North, namely:-

- A Northern Powerhouse rail network that radically improves journey times and frequencies without causing a detriment to the existing network;
- A full review of Strategic Highway Network priorities, recognising the importance of the M62 and M1 to the Leeds City Region;

- Improved surface access to Manchester and Leeds/Bradford Airports that offer businesses more international destinations;
- Significant improvements to road and rail to transform the distribution network;
- Smart ticketing and fare simplification with LCR leading the way;
- LCR schemes that have pan-northern benefits are prioritised and supported.

Resolved:

- (i) That the report be noted.
- (ii) That the key messages and priorities set out in the report be endorsed.
- (iii) That work should continue to identify the priorities of the Leeds City Region and to make the case for economic investment in the north.
- (iv) That Lord Adonis, Chair of the National Infrastructure Commission, be invited to a future meeting of the Authority.

88. Minimum Standards Charter for Construction Industry Employees

The Committee considered a report regarding the Minimum Standards Charter for employees in the construction industry.

It was reported that the constituent West Yorkshire authorities were signing up to a Minimum Standards Charter with a view to encouraging the adoption and adherence to a set of minimum standards of employment on construction projects procured by their authorities.

Members discussed the benefits of supporting the Charter and broadly supported the principles but felt that it would be useful to have more information on the implications for tendering and procurement and the effect on smaller contractors.

Resolved:

- (i) That the principles of the Minimum Standards Charter be supported, namely:
 - the Authority will adopt the minimum standards in all construction projects procured;
 - underlines that Health & Safety of workers is paramount, and that appropriate welfare facilities should be provided;
 - expects that skilled operatives are used in order to achieve the high standard finished product that is demanded;
 - expects major contractors to offer apprenticeships to the youth of the city region, and generally supports initiatives to improve the education/training of construction employers and employees;

- reiterates the belief that workers should be fairly rewarded, and should be entitled to holiday, sickness, pension, accident compensation and death in service rights; and
- promotes the vital role of trade unions, including inviting construction employers to agree to employ operatives under the terms and conditions of relevant national agreements.
- (ii) That a further report be brought to a future meeting of the Authority.

89. Organisational Arrangements

The Committee considered a report seeking approval to a number of organisational and control matters.

Internal Audit Plan 2016/17

Members were asked to consider the Internal Audit Plan 2016/17 which had been endorsed by the Governance & Audit Committee and was attached to the report as Appendix A.

Further Budget Approvals

Members were asked to consider approval of expenditure in relation to further funding secured since the budget was agreed in February, namely £6m for the Business Growth Programme, £15.7m for the Access to Capital Grants programme, £625k for the LEP Growth Service and £62k for the Better Homes project.

Treasury Management

In order to manage the expected increase in cash balances upon receipt of Growth Deal funding, and recognising some stresses in the economic markets, changes were proposed to increase flexibility in managing cash by increasing the time limits for investment with local authorities to three years with up to £20 maturing in each of the next three years.

European Investment Bank

Approval was sought for the Director of Resources to enter into an agreement with the European Investment Bank for a facility of £100m, providing a flexible alternative to the usual Public Works Loan Board borrowing, that would be required to fund the Transport Fund in future years.

Monitoring Officer

The Authority is required by law to designate an officer as the statutory Monitoring Officer with the post of Assistant Director Legal currently fulfilling this obligation. Following the resignation of the Assistant Director Legal (re-named Head of Legal and Democratic Services), it is proposed that the Managing Director as Head of Paid Service be the designated Monitoring Officer of the Authority from the date upon which the current Assistant Director Legal leaves that post until the date upon which the post is filled following recruitment.

Committee Arrangements

Members were asked to consider the request made by the Overview and Scrutiny Committee for the Chair to be given permission to speak at meetings of the Combined Authority in order to share any views of the Committee.

Resolved:

- (i) That the internal audit plan for 2016/17 be approved.
- (ii) That further budget approvals be approved as follows:
 - a further £6m for the business growth programme in 2016/17;
 - £15.7m for the Access to Capital Grants programme;
 - a further £625k for the LEP Growth Service;
 - a further £62k for the Better Homes project.
- (iii) That the treasury management arrangements be amended, as set out in paragraph 2.7 of the submitted report, to enable longer term investments to be placed with local authorities.
- (iv) That the Director, Resources be authorised to enter into a facility with the European Investment Bank to the value of £100m which would enable WYCA to undertake disbursements over a five year term.
- (v) That the Managing Director as Head of Paid Service be the designated Monitoring Officer of the Authority from the date upon which the current Assistant Director Legal leaves that post until the date upon which the post is filled following recruitment.
- (vi) That upon commencement of employment, the new Head of Legal and Democratic Services become the designated Monitoring Officer of the Authority.
- (vii) That the Chair of the Overview and Scrutiny Committee be invited to attend future meetings of the Combined Authority to present the views and recommendations of the Committee.

90. Feedback from Combined Authority Spokespersons Representing the WYCA on External Bodies

Councillor Wakefield provided members with feedback from meetings of Transport for the North and the Rail North Partnership Board which he had attended on 25 February.

Resolved: Members noted the update provided by Councillor Keith Wakefield of the meetings of Transport for the North and the Rail North Partnership Board which he had attended on 25 February.

91. Draft minutes of the meeting of the Governance & Audit Committee held on 9 February 2016

Resolved: That the draft minutes of the meeting of the Governance & Audit Committee held on 9 February 2016 be noted.

92. Draft minutes of the meeting of the Overview & Scrutiny Committee held on 16 February 2016

Resolved: That the draft minutes of the Overview & Scrutiny Committee held on 16 February 2016 be noted.

93. Draft minutes of the meeting of the Transport Committee held on 26 February 2016

Resolved: That the draft minutes of the meeting of the Transport Committee held on 26 February 2016 be noted.
