### **Overview & Scrutiny Area:**

Environment and Waste Management

## 1. SUMMARY

- 1.1 This report seeks to update members on current casualty levels and trends in Bradford East and on the Road Safety education, training and publicity initiatives aimed at reducing these casualties.

## 2. BACKGROUND

- 2.1 A report on proposals for the devolution of Road Safety funding was considered by the Bradford East Area Committee on 22 November 2012. At the meeting members resolved to support an evidence based approach to determine Road Safety priorities. It was also resolved to present an annual 'State of the Nation' style report detailing casualty numbers/trends and details of ongoing and proposed road safety education, training and publicity initiatives to the Area Committee.
- 2.2 The West Yorkshire Local Transport Plan set a target to reduce the number of fatal and serious road casualties in West Yorkshire by 50% by 2026. This reduction target uses the 2005 – 2009 average figure as a baseline. For the Bradford district this equates to a reduction from 248 to 124 casualties.
- 2.3 A 'Road Casualties' report is published annually. Based on Police Road Traffic Collision records the report identifies casualty reduction priorities for the District. This report takes into account the most recent full year data available, i.e. 2017, and trends in comparison to preceding years.
- 2.4 In 2017 there was an overall decrease in casualties in the Bradford District and the long term downward trend has been maintained. This mirrors the long term downward trend for West Yorkshire. Appendix 1 shows the present position for the Bradford District.
- 2.5 In Bradford East there was an overall decrease in casualties and, as with the District, the long term trend is downward. Appendix 2 shows the present position for Bradford East.
- 2.6 Public Health (PH) now provides financial support for the Road Safety Team. An Inter Departmental Agreement has been agreed linking the Road Safety Team programme with PH outcomes which include; killed and serious injuries, hospital admissions caused by unintentional injury, infant mortality and mortality rate from causes considered preventable.
- 2.7 The Road Safety Team operates on a district-wide basis. Staff and financial resources are allocated to education, training and publicity programmes based on priorities identified for greatest impact on casualty reduction. Between August 2017 and July 2018 the team delivered the programmes set out in Appendix 3. These programmes are highlighted in the Bradford Metropolitan District Road Safety Plan, which is supported by the Area Committees.
- 2.8 Car occupants account for the highest number of casualties and are targeted

through publicity campaigns and enforcement. Education and training initiatives, delivered at local level, target the 0-19 age group through work with schools, other educational establishments, youth organisations, multi-agency partnerships and Area Coordinator teams.

### **3. OTHER CONSIDERATIONS**

#### **Engagement with schools**

- 3.1 The team provides a three tier district wide service. The first tier is where schools in the top eight wards with the highest child casualties are targeted. The second tier is the delivery of presentations by the team which are booked on a first come first served basis. The third tier is the provision of resources and information for all schools which does not need a road safety officer to deliver. Appendix 4 shows the first and second tier engagement with schools by ward, based on a two year rotation.

#### **Activities in Bradford East during 2017 - 2018**

- 3.2 In Bradford East activities in primary schools focused on pedestrian safety sessions and there was a strong take up for the practical pedestrian training for Year 3. A number of schools also ran Bikeability courses. There was also a strong take up of Theatre in Education performances by secondary schools for Year 7 which addressed pedestrian safety.
- 3.3 In 2018 - 2019 the team, will continue to address key issues in Bradford East identified from the Annual Road Casualties Report, through the activities outlined in Appendix 3.
- 3.4 Given the relatively small data set for user and demographic groups for individual constituencies, district wide casualty data is more generally used to inform some intervention priorities.
- 3.5 The West Yorkshire Safer Roads Delivery Group, which comprises of Road Safety Officers from each district, the police and Fire and Rescue, delivers regional road safety campaigns which are data led. Analysis of casualties and causation factors has continued to highlight the vulnerability of 11-12 year old pedestrians with failure to look properly being a major contributory factor. This was addressed through Theatre in Education targeting year 7 students.

#### **Safer Roads schemes**

- 3.6 The Traffic & Highways Area Teams deliver a programme of Safer Roads engineering measures such as traffic calming, pedestrian and cycle facilities, speed limit reductions and parking management. These schemes are funded through the Single Transport Plan and are largely evidence-based to ensure best value in terms of casualty reduction. The Safer Roads schemes programmes are the subject of separate reports to the Area Committees.

#### **4. FINANCIAL & RESOURCE APPRAISAL**

- 4.1 The Road Safety budget allocation for education, training and publicity resources for 2018/19 is £33,700. This also covers contributions to wider West Yorkshire and Yorkshire and Humber campaigns and initiatives that have an impact on the Bradford District.

#### **5. RISK MANAGEMENT AND GOVERNANCE ISSUES**

- 5.1 Budget spend on Road Safety is currently prioritised against overall district casualty reduction priorities which are based on analysis of statistical data relating to road casualties. This analysis, underpinned by the District Road Safety Plan priorities, is used to establish key themes of a district-based approach for the following 12 month period. It is anticipated that a failure to maintain this approach would have a detrimental effect on future casualty prevention/reduction.
- 5.2 Without continued strategic use of resources the ability of the Council to achieve value for money through procurement savings as well as participating in partnership working on West Yorkshire and Yorkshire and Humber campaigns, initiatives and events would be at risk.

#### **6. LEGAL APPRAISAL**

- 6.1 The ongoing activities of the Road Safety team contribute to the Council's duties under the Road Traffic Act 1988.

#### **7. OTHER IMPLICATIONS**

##### **7.1 EQUALITY & DIVERSITY**

The Road Safety Team provides a diverse range of road safety programmes and activities that engage with individuals from across the Bradford East area.

##### **7.2 SUSTAINABILITY IMPLICATIONS**

Improvements in road safety conditions encourage a shift to more sustainable transport modes.

##### **7.3 GREENHOUSE GAS EMISSIONS IMPACTS**

Any increases in walking, cycling or public transport use encouraged by road safety improvements would have a positive impact on reducing Greenhouse Gas emissions.

#### **7.4 COMMUNITY SAFETY IMPLICATIONS**

The work of the Road Safety team contributes towards improving community safety in the following areas:

- Drivers and passengers – speed, seatbelt wearing
- Pedestrian safety
- Vulnerable road users: children, cyclists; and motorcyclists
- Safety around schools

#### **7.5 HUMAN RIGHTS ACT**

None

#### **7.6 TRADE UNION**

None

#### **7.7 WARD IMPLICATIONS**

The information in this report is relevant to all wards.

#### **7.8 AREA COMMITTEE ACTION PLAN IMPLICATIONS**

Road Safety Team activities contribute to the Safer Communities priorities within the Bradford East Ward Plans. Through education, training, publicity and partnership working with other agencies and local people, the Road Safety Team address pedestrian safety, safer and responsible driving, and parking issues particularly around schools.

#### **7.9 IMPLICATIONS FOR CORPORATE PARENTING**

None

#### **7.10 ISSUES ARISING FROM PRIVACY IMPACT ASSESMENT**

None

#### **8. NOT FOR PUBLICATION DOCUMENTS**

None

#### **9. OPTIONS**

- 9.1 That the Bradford East Area Committee identifies additional priority areas that could be addressed by the Road Safety team as part of their annual programme.

**10. RECOMMENDATIONS**

- 10.1 That the information in respect of casualty trends and Road Safety activities in Bradford East be noted.
- 10.2 That the evidence based approach to determining Road Safety priorities continue to be supported.

**11. APPENDICES**

- 11.1 Appendix 1 – Road Casualties Bradford District 2012 to 2017
- 11.2 Appendix 2 – Road Casualties Area Committee: Bradford East 2012 to 2017
- 11.3 Appendix 3 - Road Safety Education Training and Publicity Programmes
- 11.4 Appendix 4 – Engagement with schools by ward

**Overview & Scrutiny Area:**

**Regeneration and Environment**

## **1.0 SUMMARY**

1.1 This report considers an application for a Disabled Persons Parking Place where the application has received an objection.

## **2.0 BACKGROUND**

2.1 The Council has received an application for a Disabled Persons Parking Place from the occupant of 27 Wingfield Mount. The resident who lives here is registered disabled, receives PIP at the higher rate, holds a current Disabled Person's Blue Badge and has a vehicle registered at the property. There is no off-street parking at these premises.

2.2 A plan showing the indicative location of a Disabled Persons Parking Place outside 27 Wingfield Mount as Appendix 1.

## **3.0 OTHER CONSIDERATIONS**

3.1 The applicant has a number of on-going medical conditions which they maintain necessitates the provision of a disabled persons parking space..

3.2 As part of the Disabled Persons Parking Place application investigation process, officers undertake consultations with adjacent neighbours to determine if there are any objections to the proposal. An objection has been received to this application; the points of objection are summarised below:

- i. It is alleged that the applicant does not own a vehicle and that the requested parking space is for a relative.
- ii. It is alleged that relatives of the occupants, both living on the same street and elsewhere, **do** often park their cars outside the property.
- iii. On-street parking on Wingfield Mount is already at a premium.
- iv. The turning head at the end of the street is already used for parking and it is expected that this would be exacerbated by the proposal.
- v. An existing Disabled Persons Parking Place on Wingfield Mount is already used by vehicles not displaying blue badges, as such the objector is concern that an additional such space will be similarly abused.

## **4.0 FINANCIAL AND RESOURCE APPRAISAL**

4.1 If approved, this parking place would be implemented as part of the overall programme of Disabled Persons Parking Places in Bradford East in 2018/19 subject to the allocation of funding by the Area Committee

## **5.0 RISK MANAGEMENT AND GOVERNANCE ISSUES**

5.1 There are no significant risks arising out of the implementation of the proposed recommendations.

## **6.0 LEGAL APPRAISAL**

6.1 The options contained in this report are within the Council's powers as Highway Authority and Traffic Regulation Authority.

## **7.0 OTHER IMPLICATIONS**

### **7.1 EQUALITY & DIVERSITY**

Due regard has been given to Section 149 of the Equality Act when determining the proposals in this report.

### **7.2 SUSTAINABILITY IMPLICATIONS**

There are no sustainability implications arising from this report.

### **7.3 GREENHOUSE GAS EMISSIONS IMPACTS**

There is no impact on the Council's own and the wider District's carbon footprint and emissions from other greenhouse gases arising from this report.

### **7.4 COMMUNITY SAFETY IMPLICATIONS**

None.

### **7.5 HUMAN RIGHTS ACT**

None

### **7.6 TRADE UNION**

None

### **7.7 WARD IMPLICATIONS**

None.

### **7.8 AREA COMMITTEE WARD PLAN IMPLICATIONS**

7.8.1 None

### **7.9 IMPLICATIONS FOR CORPORATE PARENTING**

None.

### **7.10 ISSUES ARISING FROM PRIVACY IMPACT ASSESSMENT**

None.

## **8.0 NOT FOR PUBLICATION DOCUMENTS**

8.1 None

## **9.0 OPTIONS**

- 9.1 That the objection to the requested Disabled Persons Parking Place at 27 Wingfield Mount be overruled and the parking place be implemented in the 2018/19 financial year subject to the availability of funding.
- 9.2 That the objection to the requested Disabled Persons Parking Place at 27 Wingfield Mount be upheld and no further action be taken on this request.

## **10.0 RECOMMENDATIONS**

- 10.1 That the Bradford East Area Committee determines whether to overrule or uphold an objection to a requested Disabled Persons Parking Place at 27 Wingfield Mount.
- 10.2 That the applicant and objector be informed accordingly.

## **11.0 APPENDICES**

### Overview & Scrutiny Area:

Regeneration and Environment

## 1.0 SUMMARY

- 1.1 This report considers a petition requesting the closure of Westfield Lane, Bradford.

## 2.0 BACKGROUND

### **Petition : Westfield Lane (79 signatures)**

- 2.1 The petitioners are requesting the Council to close Westfield Lane to through traffic to improve safety and the quality of life for all who live and work on Westfield Lane, Bradford. The petition states that Westfield Lane has become a dangerous through route and that the existing traffic measures do not address vehicle speeds and dangerous driving on Westfield Lane. A copy of the full wording of the petition is shown in Appendix 1 and a location plan is attached as Appendix 2.
- 2.2 Westfield Lane is some 1.9km long stretching from Town Lane and Highfield Road in Idle to Wrose Road in Wrose. It is therefore partly in the Bradford East and partly in the Shipley Area Committee areas. Approximately 80% of the petitioners live in the Bradford East area. Westfield Lane is residential for the majority of its length except for the section from Wrosecliffe Grove to Welwyn Avenue where there are a stables and fields. This is where the boundary changes. There is a series of round top road humps on Westfield Lane between properties numbered 94 and 191, covering a distance of 500 metres. This section is in the Bradford East area. These features have been in place for over 10 years.
- 2.3 There has been one recorded road incident causing slight injury in the last five years on Westfield Lane. This was a collision at the junction with Welwyn Avenue, Wrose.
- 2.4 Information on the speed and volume of traffic using Westfield Lane has been gathered using an automatic data logger.

Data was collected in October 2017 on the section of Westfield Lane to the south of Wrosecliffe Grove near the stables. The average volume of two-way traffic over 4 days was 2120 (1107 in the direction of Wrose and 1013 towards Idle). The average speed of traffic was 26mph and 85% of traffic was travelling at or below 30mph.

Data has been collected more recently for 4 days between 17 and 20 May 2018 (Thursday to Sunday) near the Hepworth Idle cricket ground at the Idle end of the road. The average two-way traffic volume was 2747 (1334 in the direction of Wrose and 1413 towards Idle). The average speed of traffic was 25mph and 85% of traffic was travelling at or below 29mph.

These figures do not give cause for concern on a 30mph residential route. Also, given that Westfield Lane forms part of a network of roads serving sizeable residential areas, a significant proportion of traffic will be generated by residents themselves.

- 2.5 The closure of Westfield Lane would affect a large number of residents who would need to find alternative routes between Wrose, Shipley and Idle. All affected residents would need to be consulted on any potential closure and their views considered. The inconvenience caused would need to be weighed up against any envisaged benefits. Some of the alternative routes available although less rural in nature already give cause for concern in terms of traffic speeds and road injuries. Inevitably the closure of one route to through traffic will increase traffic volumes on other roads some of which may be equally undesirable alternative routes leading to requests for other through routes to also be closed.
- 2.6 The Bradford East Area Committee only has a limited amount of funding to address traffic related concerns raised by residents. Priority is currently given to sites where there are significant numbers of road injuries and where specific engineering interventions are predicted to have casualty reduction benefits. There is an even lesser budget for traffic management measures where there are community safety concerns that have not necessarily materialised into a significant collisions record but, for instance, vehicle speeds are above acceptable tolerances. It would be difficult to recommend prioritisation of resources to an area with some existing traffic calming measures, little casualty reduction potential, and no evidence of excessive speed.

### **3.0 OTHER CONSIDERATIONS**

- 3.1 Local ward members have been consulted. A local councillor has commented that a closure has been considered before but residents were against the inconvenience which would be caused particularly getting to Wrose. They also feel that if this went ahead many requests would be received for road closures from residents of other roads used as through routes. They suggest doing surveys and finding out what the public think of the idea.

### **4.0 FINANCIAL AND RESOURCE APPRAISAL**

- 4.1 There are no financial or resource implications arising from this report.

### **5.0 RISK MANAGEMENT AND GOVERNANCE ISSUES**

- 5.1 There are no risks arising from this report.

### **6.0 LEGAL APPRAISAL**

- 6.1 There are no legal issues arising from this report.

### **7.0 OTHER IMPLICATIONS**

#### **7.1 EQUALITY & DIVERSITY**

Due regard has been given to Section 149 of the Equality Act 2010 when investigating these matters.

#### **7.2 SUSTAINABILITY IMPLICATIONS**

There are no sustainability implications arising from this report.

**7.3 GREENHOUSE GAS EMISSIONS IMPACTS**

There is no impact on the Council's own and the wider District's carbon footprint and emissions from other greenhouse gasses arising from this report.

**7.4 COMMUNITY SAFETY IMPLICATIONS**

There are no community safety implications of this report.

### Petition for road closure Westfield lane

Petition Summary: Westfield lane, BD10 Bradford has become a dangerous to the public "rat run" existing measures have not been able to address the chronic vehicle speeding and associated dangerous driving on Westfield lane. The disregard towards the highway code on Westfield lane has increased the risk of personal harm or fatality beyond what is considered reasonably practical.

We the undersigned are concerned citizens who urge Bradford Council to close Westfield lane to through traffic to improve the safety and quality of life for all who live and walk on Westfield lane.

**Overview & Scrutiny Area:**

**Regeneration & Environment**

## 1. SUMMARY

- 1.1 This report updates the Area Committee on changes to the apportionment of the Safer Roads budget (recently approved by the Executive) and seeks approval for a programme of schemes in Bradford East for 2018/19.

## 2. BACKGROUND

- 2.1 The West Yorkshire Transport Strategy 2040 was approved by the West Yorkshire Combined Authority (WYCA) in August 2017. In conjunction with the Strategic Economic Plan, the overarching aim of the strategy is *“...for Leeds City Region to be a globally recognised economy where good growth delivers high levels of prosperity, jobs and quality of life for everyone.”*

- 2.2 The key objectives of the strategy are:

**Economy:** Create a more reliable, less congested, better connected transport network.

**Environment:** Have a positive impact on our built and natural environment.

**People and place:** Put people first to create a strong sense of place.

- 2.3 In term of Safer Roads themes, the strategy includes a specific aim to reduce road accidents, aspiring to ‘zero tolerance’ of transport-related deaths. There are also aspirations to encourage walking and cycling by improving safety.
- 2.4 The Strategy retains the casualty reduction target first introduced by the Local Transport Plan, i.e. a 50% reduction in the number of people killed or seriously injured in road collisions (KSI) by 2026.
- 2.5 Historically there were specific budgets for the promotion of Casualty Reduction schemes and more general Traffic Management Measures. Following a significant reduction in the level of funding, this was combined into a single funding stream. Executive devolved the budget to the Area Committees on the basis of population split in October 2012, with a provision that 70% of the budget had to be allocated to Casualty Reduction schemes, the residual funding being available for projects prioritised by members.
- 2.6 The prioritisation of funding for Casualty Reduction schemes has been an important contributor to the continuing downward trend in casualty rates within the district. This has been achieved in partnership with other interventions including Police enforcement and Road Safety education, training and publicity activities. However, the current level of funding dictates that individual Area Committees are restricted in the scale of projects that can be prioritised. The current system also precludes the development of projects of more strategic significance or on a district-wide basis.
- 2.7 There has been a systematic addressing of locations with notable clusters of recorded traffic collisions. As such, the occurrence of collisions is becoming more sporadic and thus more difficult to target with specific area committee based interventions. Notwithstanding this, it is acknowledged that there remains a safety

benefit in delivering traffic management schemes in areas where casualty rates are not necessarily high, but where there are concerns about vehicle speeds, severance or more general safety issues.

2.8 In order to address the issues highlighted in paragraphs 2.6 and 2.7 the following revisions to the Safer Roads budget allocation and scheme governance systems for 2018/19 onwards were approved by Executive committee on 12 June 2018:

- Establish a top-slice of the Safer Roads budget to enable the promotion of strategic or district-wide projects, with the approval to promote such projects and consideration of any resulting objections being an Executive Member function.
- Maintain the existing allocation for project development
- Residual funding to be distributed to the Area Committees for them to continue promoting Casualty Reduction schemes as a priority. Each Area Committee will retain an indicative sum of £50,000 (per area) for general traffic management measures, with this figure being flexible when all viable Casualty Reduction projects have been prioritised.

### **3. OTHER CONSIDERATIONS**

3.1 The Safer Roads budget forms part of a package of works known as implementation plans (IP). These have previously been 3yr plans, however the current plan (IP3) is for a 5yr period. IP2 ran from 2014/15 to 2016/17; all Safer Roads projects in Bradford East approved for promotion in that period have now been completed with the exception of 2 schemes as follows:

- Shipley-Airedale Road/Barkerend Road red-light violation camera – which was not recommend for progression by the West Yorkshire Safety Camera partnership on account of other planned improvement works at the junction.
- Killinghall Road/Fagley Road junction improvement – which proved unfeasible due to the requirement for 3<sup>rd</sup> party land.

It is recommended that these projects are formally abandoned by the Area Committee.

3.2 The approved 2017/18 area-wide Traffic Regulation Order for Bradford East included an item for the installation of waiting restrictions on Kings Gate. Following investigations and initial consultations it was concluded that there was little evidence to support the installation of restrictions and that the proposal would be detrimental to nearby businesses.

It is recommended that this proposal be formally abandoned by the Area Committee.

- 3.3 It is recommended that the Area Committee re-affirms its commitment to progressing Disabled Persons Parking Places and undertaking mobility access improvement works by again including budgets for these within the 2018/19 programme. The cost of any traffic surveys required to assess requests for traffic management measures and assist in determining future schemes programmes will also need to be met from this budget.
- 3.4 It is also suggested that the successful exercise of promoting a constituency-wide Traffic Regulation Order, to include a number of sites where minor amendments to waiting restrictions have been requested, be repeated in 2018/19. (Due to the more extensive processes involved, it would not be feasible to include any larger schemes or Residents Permit Parking Schemes within the constituency-wide Order).

#### **4. FINANCIAL & RESOURCE APPRAISAL**

- 4.1 The strategic schemes top-slice has been set at £120,000 for 2018/19 by Executive. Residual funding is allocated to the Area Committee's based on 2011 census population figures as follows:

<b>Area</b>	<b>Population %</b>
<b>Bradford West</b>	22.0
<b>Bradford South</b>	19.4
<b>Bradford East</b>	21.8
<b>Shipley</b>	18.2
<b>Keighley</b>	18.6

- 4.2 This apportionment results in a total budget of £122,892 for Bradford East. The individual budgets are therefore £72,892 for Casualty Reduction schemes and £50,000 for other community priority schemes
- 4.3 The Council's allocation for IP2 has been fully expended. As such there is no residual funding to allocate from that period.

#### **5. RISK MANAGEMENT AND GOVERNANCE ISSUES**

- 5.1 A failure to follow an evidence-based approach and prioritise schemes on the basis of casualty reduction potential would not meet with the overarching aims of the Safer Roads allocation

#### **6. LEGAL APPRAISAL**

- 6.1 There are no specific issues arising from this report. The course of action proposed is in general accordance with the Councils power as Highway Authority and Traffic Regulation Authority. The Council's commitment to taking into account the needs of all road users, including those with special mobility needs, is referred to in the body of this report.

## **7. OTHER IMPLICATIONS**

### **7.1 EQUALITY & DIVERSITY**

Due consideration is given to Section 149 of the Equality Act 2010 when developing all Safer Roads schemes.

### **7.2 SUSTAINABILITY IMPLICATIONS**

Safer Roads projects are designed to minimise future maintenance implications and the impact on the environment.

### **7.3 GREENHOUSE GAS EMISSIONS IMPACTS**

The implementation of highway safety schemes and projects which encourage sustainable transport modes will potentially reduce harmful emissions.

### **7.4 COMMUNITY SAFETY IMPLICATIONS**

The Safer Roads programme delivers a wide-range of projects including traffic calming, pedestrian crossing facilities, cycling and horse riding provision, speed limit reductions and junction improvements. Such measures, along with partnership activities, form an integral part of improving safety in local communities. Reduction of community severance and community cohesion are two positive outcomes of this programme.

### **7.5 HUMAN RIGHTS ACT**

None

### **7.6 TRADE UNION**

None

### **7.7 WARD IMPLICATIONS**

Respective ward members will be involved in the development of site specific projects.

### **7.8 IMPLICATIONS FOR CORPORATE PARENTING**

None

### **7.9 ISSUES ARISING FROM PRIVACY IMPACT ASSESMENT**

None

## **8. NOT FOR PUBLICATION DOCUMENTS**

None

## **9. OPTIONS**

- 9.1 Members may nominate alternative schemes to those recommended in Appendices 2 and/or 3 (to the same total budget value). Officers will provide appropriate advice on any suggested substitutions. Any alternative sites suggested for inclusion in Appendix 1 will be subject to justification in terms of Casualty Reduction potential

## **10. RECOMMENDATIONS**

- 10.1 That the changes to the apportionment of the Safer Roads budget (approved by the Executive on 12 June 2018) be noted.
- 10.2 That a programme of Casualty Reduction schemes for 2018/19 listed in Appendix 1 be approved.
- 10.3 That the proposed programme of Traffic Management schemes for 2018/19 listed in Appendices 2 and 3 be approved.
- 10.4 That any Traffic Regulation Orders, or any legal procedures linked to the processing of traffic calming measures or pedestrian crossing facilities which are necessary to implement the chosen schemes be approved for processing and advertising subject to the scheme details being agreed with the local Ward Members.
- 10.5 That any valid objections to the advertised Traffic Regulation Orders, traffic calming or pedestrian facilities be submitted to this Area Committee for consideration or in the event of there being no valid objections the Traffic Regulation Orders be sealed and implemented and the traffic calming or pedestrian facilities be implemented as advertised.
- 10.6 That the previously approved schemes for Shipley-Airedale Road/Barkerend Road and Killinghall Road/Fagley Road (as detailed in paragraph 3.1) and Kings Gate (as detailed in paragraph 3.2) be formally abandoned.

## **11. APPENDICES**

- 11.1 Appendix 1 – Bradford East Casualty Reduction Schemes – recommended 2018/19 programme.
- 11.2 Appendix 2 – Bradford East Traffic Management Schemes – recommended programme.
- 11.3 Appendix 3 – List of minor Traffic Regulation Orders recommended for inclusion in 2018/19 Area-Wide Traffic Regulation Order.

## **1. Summary**

- 1.1 This report outlines the allocation of the Community Chest Budget for the financial year 2017/2018 and asks Members to consider the make-up of the Grants Advisory Group in the Bradford East Area for 2018/2019.

## **2. Background**

- 2.1 The Community Chest Budget assists and enables a wide range of community initiatives to be developed to benefit communities in the Bradford East Area.
- 2.2 The Community Chest Budget allocated to the Bradford East Area Coordinator's Office for 2017 / 2018 was £11,500.
- 2.3 Applications that meet the published criteria are considered from community groups and organisations and sometimes from individuals living and benefiting the Bradford East Area.
- 2.4 The Area Co-ordinator, or designated officer, is responsible for making the decisions on the Community Chest applications received. These decisions are made in consultation with the Grants Advisory Group whose membership is made up of three Elected Members, reflecting the political make up of the Bradford East Area Committee. In previous years the Chair and Deputy Chair and the Opposition Spokesperson have made up the Grants Advisory Group.
- 2.5 Interest in and the demand on the Community Chest Fund continues to be extremely high. Over the years, the Community Chest Fund has been well used by local community and voluntary organisations and individuals. Numerous activities and events have been supported which otherwise may have been difficult to run.

## **3. Other considerations**

- 3.1 During the financial year 2017/2018, 35 applications for Community Chest Grants were awarded to community groups, a breakdown of which is shown in appendix A.
- 3.2 In reviewing the Community Chest grant allocation for 2017 / 2018, it is important to note the high demand on the fund available to Bradford East Area Co-ordinator's Office. Owing to the high demand on the limited Community Chest fund it has been a practice of the Bradford East Area Co-ordinator, or designated officer, in consultation with the Grants Advisory Group, to make a contribution towards the total cost of the activity and to only occasionally approve the full amount requested.

## **4. Options**

- 4.1 That Members note the report.

## **5. Financial and resource appraisal**

### **5.1 Financial**

- 5.1.1 In 2017/2018 the Community Chest funding allocated was £11,500 plus an additional £250 that was returned as not spent from the previous year. Therefore, a total of £11,750 Community Chest funding was available.

5.1.2 The 2018 / 2019 Community Chest Fund is £11,500. The Fund is frequently match funded by contributions from other Council Departments, external funders and fundraising by the local community groups applying.

## 5.2 **Staffing**

5.2.1 Officer support is provided from the Area Co-ordinator's Office from within existing resources.

## 6. **Legal appraisal**

6.1 There are no legal implications.

## 7. **Other implications**

### 7.1 **Equal Rights**

7.1.1 Community Chest Grants enable local organisations to provide activities and services in response to identified local needs. Support for a range of disadvantaged groups figure in the award of the grant e.g. women, young people, older people, minority ethnic communities and those with disabilities or special needs.

### 7.2 **Sustainability implications**

7.2.1 Local community groups and individuals are encouraged to fundraise and apply for funding from other sources, including charitable organisations. This experience builds up confidence and empowers local residents.

### 7.3 **Community safety implications**

7.3.1 There are no Community Safety implications arising from this report.

### 7.4 **Human Rights Act**

7.4.1 There are no direct Human Rights implications arising from the recommendations below.

### 7.5 **Trade Union**

7.5.1 There are no Trade Union Implications arising from this report.

## 8. **Not for publication documents**

8.1 There is no restriction on the publication of this report.

## 9. **Recommendations**

9.1 That the allocation of Community Chest Grants to local groups in the Bradford East Constituency for the financial year 2017/2018 be noted.

9.2 That a 2018/2019 Grants Advisory Group made up of the Chair, Deputy Chair and Opposition Spokesperson be established.

9.3 That the Area Coordinator be asked to submit a report on the allocation of Community Chest Budget to local groups in Bradford East at the end of financial year 2018/2019.

## 10. **Appendices**

10.1 Appendix A: Breakdown of Community Chest applications in 2017/2018.

**11. Background documents**

11.1 None.

**Overview & Scrutiny Area:**

**Corporate**

## **1. SUMMARY**

- 1.1 This report invites members to consider draft Ward Plans for the Bradford East Area covering the period 1 April 2018 to 31 March 2019. In addition, the report provides an update on progress of actions undertaken supporting the delivery of Bradford East Ward Plan priorities for 1 April 2017 to 31 March 2018.

## **2. BACKGROUND**

- 2.1 Ward Plans highlight local priorities and provide a basis for tackling issues collectively at a local level.
- 2.2 The method for developing priorities for Wards has been through the annual Ward Assessment. The Ward Assessment includes a wide range of key statistical information about the Ward. In addition to the statistical data, there is also a range of qualitative information gained through community engagement. The quantitative and qualitative information is used to establish the needs of the Ward. The Assessment also includes information about community strengths and resources available to address the Ward needs.
- 2.3 Information collated through this process has identified priorities in the Ward Plans that require addressing.
- 2.4 Members in all the six wards and partners have been invited to be involved in the development of the Ward Plans. The Committee may wish to look to allocate resources at its disposal to meet the priorities contained in the Plans. The Ward Plans 2018 - 2019 are attached as Appendix A.

## **3. OTHER CONSIDERATIONS**

- 3.1 The purpose of the six Ward Plans is to set out a clear list of priority issues that should be addressed in 2018 - 2019 in order to improve the social, economic and environmental conditions within the Bradford East Area. The Ward Plans will continue to be the subject of a refresh on an annual basis with full consultation with members, partner organisations and the community.
- 3.2 Bradford East Area Committee is able to influence the Ward Plans directly by use of its executive powers and delegated budgets, as well as by a co-ordinator body and catalyst for action working in partnership. The six Ward Plans list the current priorities which can be amended in the light of emerging conditions and opportunities (e.g. devolution).

## **4. OPTIONS**

- 4.1 That Bradford East Area Committee adopts the recommendations outlined in this report.
- 4.2 That Bradford East Area Committee adopts the recommendations outlined in this report, with amendments.
- 4.3 That Bradford East Area Committee decides not to accept the recommendations outlined in this report.

## **5. FINANCIAL & RESOURCE APPRAISAL**

- 5.1 The production and dissemination of the six Ward Plans can be met from within existing resources.
- 5.2 The priorities contained in the Ward Plans can be used to assist the Area Committee in its Local Area Management role and to inform the allocation of existing Area Committee budgets.
- 5.3 Officer support for co-ordination to action the priorities in the Ward Plans can be provided by the Area Co-ordinator's Office.
- 5.4 The six Ward Plans will inform budget-setting processes and service-planning throughout the Area.
- 5.5 The Bradford East Ward Plans will be forwarded to other key service-providers such as the Police and Clinical Commissioning Groups and community organisations to request that the Ward Plans be used to inform their own priority-setting processes.

## **6. RISK MANAGEMENT AND GOVERNANCE ISSUES**

- 6.1 There are no significant risks arising out of the proposed recommendations

## **7. LEGAL APPRAISAL**

- 7.1 There are no legal implications arising from this report.

## **8. OTHER IMPLICATIONS**

### **8.1 EQUALITY & DIVERSITY**

The Ward Plans will seek to address concerns that have arisen from all sections of the community.

### **8.2 SUSTAINABILITY IMPLICATIONS**

Sustainability considerations should be a constant element in any actions taken to address the Ward Plans.

## Bolton and Undercliffe Ward Plan 2018 - 2019

<b>Ward Members</b>	Cllr Michael Stelling	Cllr Ian Greenwood	Cllr David Ward
<b>Ward Officer</b>	Ishaq Shafiq	<b>Date completed</b>	May 2018

## Summary of the Bolton & Undercliffe Ward Assessment

<b>Community Strengths</b>	The Greenwood Centre is now under new management arrangements supported by Ward Councillors, Inspired Neighbourhoods and other partners. A range of actions are being undertaken to secure investment, develop services for young people, older people and retain space for the wider community usage. There are a number of community based organisations supported by volunteers working across the Ward. Active citizenship is healthy in the ward as a whole but support for existing volunteers and to community based groups and organisations, and to increase volunteering, will continue to be needed.
<b>Clean</b>	There are far fewer incidents of littering and flytipping (dumping) than in other wards although people continue to perceive littering as a big problem. There is a slightly lower than district average of residents using the doorstep recycling service. Dog fouling is consistently raised as an issue by people.
<b>Safe</b>	Burglary is the main, ongoing crime across the ward along with theft of motor vehicle. Residents tend to be satisfied with the Police and other agencies who deal with anti-social behaviour but see drugs as a problem and feel unsafe after dark locally. Speeding and inappropriate and dangerous parking outside schools and places of worship are regularly raised as an issue.
<b>Active</b>	Obesity in children entering year 6 at school is higher than the district average as is the proportion of people who have difficulty finding the money to heat their homes.
<b>Incomes employment and housing</b>	There are concerns about proposed new housing as part of the Canal Road Corridor improvements and the impact this will have on traffic and local services including schools and health.
<b>Children and young people</b>	Although opportunities to exist for young people to engage in positive activities such as youth clubs and sports, more is felt to be needed to divert them away from anti-social behaviour and crime. Attainment of grades A to C in GCSE's is lower than the district average and it is felt aspiration and attainment could be improved.
<b>Stronger Communities</b>	The population of the ward is skewed towards older people as well as more White, mixed race, Indian and 'other' ethnic groups than the district average. The majority of community based groups are linked to faith organisations, mainly Churches.
<b>Further information</b>	There is always more that could be said about Bolton and Undercliffe. This Ward Plan captures some of the key challenges, local services, community based work and is backed up by statistical information from West Yorkshire Observatory. ## Bowling and Barkerend Ward Plan 2018- 2019

<b>Ward Members</b>	Cllr Imran Khan	Cllr Hassan Khan	Cllr Rizwana Jamil
<b>Ward Officer</b>	Ishaq Shafiq	<b>Date completed</b>	May 2018

## Summary of the Bowling and Barkerend Ward Assessment

<p><b>Community Strengths</b></p>	<p>The Bowling and Barkerend ward connects and leads into the Bradford City Centre and is a key gateway linking Leeds and Bradford. There are strong community organisations including Community works, Karmand Centre, Otley Road and Barkerend Environment Group, The Anchor Project, The Vine, Bangladeshi Community Association and several active residents groups. Within the Karmand Centre there is a large outdoor cricket area run by the BD3 Sports Association. In addition, there are two children's centres in the Ward which are now run independently of the Council. The school community provides a useful platform for engagement and gives opportunities for partnership working within schools. Many of the schools have community rooms / spaces and offer a range of activities to parents e.g. sewing, ICT, exercise etc. Compared to other Wards of Bradford, with the exception of the adjoining Ward of Bradford Moor, the area has significantly high numbers of faith buildings (mosques, temples and churches). The ward benefits from very strong active citizenship through the faith sector. There are opportunities to increase active citizenship across the ward; in some areas this would need more support and encouragement, using different methods to reach the hard to reach. Some of this could be achieved by continuing to improve through day to day work of Council Wardens, Ward Officer, Community Development workers, Youth Workers, parental support workers engaging one to one with residents on their environmental and community safety issues, connecting them with services; also through specific projects\clean ups in areas where residents want to see change. This could be developed to help sustain the work. There are a range of good parks and outdoor spaces Bowling Park, Beech Grove, Upper Seymour Street Recreation Ground, woodlands and other smaller play areas across the Ward.</p>
<p><b>Clean</b></p>	<p>Residents not taking responsibility for the cleanliness of streets, including un-adopted backstreets and other public spaces (dropping or not picking up litter and dumping unwanted waste items on verges streets and open spaces rather than using waste sites or Bulk Waste collections) remain a priority. Environmental issues such as street litter, feeding vermin, untidy gardens, fly-tipping and waste around fast food premises are commonly raised at community engagement events by Wardens, Councillors and other community groups and also remain a significant issue across the ward. Trade waste containment and litter from fast-food take-away premises continue to be a big issue particularly along key gateways such as Leeds Road, Barkerend Road, Killinghall Road and associated side streets. There has been an increase in new food businesses. Surprisingly, 91.2% of people in the Ward are overall satisfied with the local area and this is higher than the Bradford East Area and District averages of 80.5% and 86.8 respectively. Residents who perceive litter or rubbish as a problem at 30% is relatively higher than the District average (26.2%) but below the Bradford East Area average (26.2%). The percentage of streets failing on litter is high for the Ward (23.2%) compared against the Bradford East area (19.1%) and double the district average (11.8%). The ward ranks top in the district for reported fly-tipping the</p>

	Bradford District as more residents are now logging complaints formally with the Council. The number of fly-tipping hotspots has actually decreased as residents are more informed about how to report environmental concerns to the Council.
<b>Safe</b>	Overall there has been a downward crime trend across the ward i.e. less crimes. However, the percentage of overall crime ranks the Ward in the top five within the district wide. Most community tensions raised within the ward relate to perceptions of high levels of anti-social behaviour associated with driving, speeding and parking as well as drugs related activities. Low levels of engagement between residents and local services makes creating positive changes in deprived communities more difficult. Previous user satisfaction survey highlights the percentage of people who are satisfied with how the Police dealt with the issue they reported (86.9%) ranked the Bowling and Barkerend the top most satisfied Ward against other Neighbourhood Policing Teams (NPTs).
<b>Active</b>	The all age, all cause mortality rate per 1000 population is higher than the Bradford East average and district average. The diabetes hospital admission ranks the high across the district. This is reflective of the population make up for the ward. Coronary heart disease mortality, people who find it difficult finding money to pay for heating and hot water and birth rates are high. Lack of access to NHS dentists across the area is an issue and people find it difficult to get GP appointments when they need them, which probably lead to inappropriate use of the local hospital A&E department. People have access to information on healthy lifestyles (diet and exercise) but there remains much to be done to create positive behaviour changes that impact on health. It is particularly difficult to engage men and Eastern European residents on health issues.
<b>Incomes employment and housing</b>	According to the Index of Multiple Deprivation 2011, Bowling and Barkerend has very high levels of deprivation. All of the ward's population live in neighbourhoods that fall within the 20% most deprived in England. The ward is ranked 4 <sup>th</sup> most deprived out of 30 wards in Bradford in terms of its average deprivation scores. It also ranks badly across all seven domains which make up the multiple deprivation score. There is an increasing East European population drawn to the area by cheap, poor quality private rented housing, often with informal tenancy arrangements. There is a need for more support to make people job-ready and into training and employment. In terms of housing a proportionately high number of privately owned homes are empty for lengthy periods compared to other areas, whilst social housing is popular locally with a high number of 'bids' per property available. Exploitation of people in housing need on limited income leads to overcrowded and poor quality housing being occupied, often by central and eastern European migrants. Advice services and ESOL classes help address these issues, but again more is needed.
<b>Children and</b>	The birth rate in ward is higher than the Bradford East Area and district averages. Qualification rates for young people leaving school are low and work with NEET (not in employment education or training)

<b>young people</b>	young people aims to help create young people than are ready for training and employment. Statistically children living in poverty ranks the ward in the top five district wide. A higher proportion of young people than the district average become 'looked after' by the Local Authority. More work is needed to impact on obesity in children and young people. Although there are a number of youth projects and clubs across the ward but more is needed, particularly to draw in girls and young women.
<b>Stronger Communities</b>	Volunteering overall is low across the Ward. However, there are many people involved with faith based organisations as volunteers delivering community benefit activities which might not be seen as volunteering by those taking part in this work. There is a need to improve active citizens within the Ward. There are some very successful projects in the area such as the Friends of Bowling Park who have developed a strong network of volunteers that take part in activities ranging from litter picking, running a café, gardening club to fun days and youth engagement activities. The population ethnicity mix White, South Asian and Eastern European communities is a challenge. This diversity creates challenges, in an area where it is felt that people from different backgrounds don't necessarily get on well or treat each other with respect and there are community tensions.

## Bradford Moor Ward Plan 2018- 2019

<b>Ward Members</b>	Cllr Mohammed Shafiq	Cllr Zafar Iqbal	Cllr Riaz Ahmed
<b>Ward Officer</b>	Ishaq Shafiq	<b>Date completed</b>	May 2018

## Summary of the Bradford Moor Ward Assessment

<p><b>Community Strengths</b></p>	<p>The Bradford Moor ward connects and leads into the Bradford City Centre and is a key gateway linking Leeds and Bradford. There are a range of community organisations including The Thornbury Centre which acts as a hub for the Ward delivering a broad range of service provisions, Thornbury Youth and Community Centre, Bradford Moor PASS (based at Attock Park) and some other third sector groups. There is a children's centre in the Ward at Mortimer House. The area is well served with several schools across the ward, a mix of state and private educational establishments. The school community provides a useful platform for engagement and gives opportunities for partnership working within schools. Many of the schools have community rooms / spaces and offer a range of activities to parents sewing, ICT, exercise etc. Compared to other Wards of Bradford, but similar to the adjoining ward of Bowling and Barkerend, the area has significantly high numbers of faith buildings (mosques, temples and churches). The ward benefits from very strong active citizenship through the faith sector e.g. Sant Nirankari volunteers group do occasional litter picks / cleanups in their surrounding area. The level of volunteering is low and investment by residents in their neighbourhood is low in terms of community involvement in helping address local community concerns. However there is voluntary involvement in a range of activities including volunteering on a street level, through community groups and faith based organisations and some of this might not have been seen by the individuals concerned as volunteering. There are certainly opportunities to increase active citizenship across the ward; in some areas this would need more support and encouragement, using different methods to reach the hard to reach. Some of this could be achieved by continuing to improve through day to day work of Council Wardens, Ward Officer, Community Development workers, Youth Workers, parental support workers engaging one to one with residents on their environmental and community safety issues, connecting them with services; also through specific projects/clean ups in areas where residents want to see change. This could be developed to help sustain the work. There are a range of good parks and outdoor spaces Bradford Moor Park, Myrashay, Woodhall Recreation Grounds etc. Morrison's head offices are based within the ward at Gain Lane. The ward has access to a diverse range of businesses, shops and food places.</p>
<p><b>Clean</b></p>	<p>Residents generally not taking responsibility for the cleanliness of streets, including un-adopted backstreets in terms of dropping or not picking up litter and dumping unwanted waste items on backstreets, verges and open spaces rather than using waste sites or Bulk Waste collections (which are now being charged for, other than for electrical items). Trade waste arrangements are inadequate or non existent for a number of businesses. Anecdotally we are aware that East Europeans residents in rented housing get blamed for furniture and household waste being</p>

	<p>dumped in yards and on verges by other residents. This can be the result of landlords not clearing houses between tenancies, leaving the problem for the new tenants to deal with. This can have an impact on the nature of a neighbourhood and how people get along, and is a wider community problem. Low levels of engagement between residents and local services and the types of engagement and a lack of experience of 'self-help' makes creating positive changes in this deprived community more difficult to kick start and then keep going. The Bradford Moor Ward ranks top district wide for street litter failure and ranks second highest for reported fly-tipping. More work is needed to encourage residents to recycle. Residents should be supported to develop self-help approaches.</p>
<b>Safe</b>	<p>Overall crime statistics evidence a downward crime trend. However, despite this significant issues of anti social behaviour and illegal drug dealing impact negatively on feelings of safety and probably the low level of satisfaction in Police and other services dealing with ASB. Low satisfaction with Police and other services dealing with anti-social behaviour could be linked to high levels and concern about anti social behaviour and street drug dealing / drug running. Concern about teenagers hanging around on streets, in parks and open spaces which can feel / be intimidating or aggressive is also something that young people themselves mentioned when taking part in a Youth Service consultation. People feeling unsafe after dark, including young people is perhaps also linked to levels of crime and anti social behaviour. Drivers not using seat belts or child restraints, parking irresponsibly and reacting negatively (sometimes abusively) continues to be a challenge. Bradford Moor is one of three Better Start Bradford Wards. Children aged under 3 years old in the Better Start area are more likely to be brought up in an environment where domestic abuse occurs compared to Bradford district.</p>
<b>Active</b>	<p>High rate of a number serious, life threatening health conditions including diabetes, coronary heart disease and obesity which impact on mortality rates and quality of life. High birth rate. Isolation and depression may be linked to family lifestyles, lack of occupation and levels of poor health. Though people say they feel encouraged to be physically active the need for support / encouragement of healthy lifestyle choices is ongoing. Bradford Moor is one of three Better Start Bradford Wards. The communities in the Better Start Area have a lower life expectancy than in Bradford district and, for males, there is a significant difference been the expected life span in the Better Start area compared to local and national figures. The Better Start area has a high infant mortality rate with 9 infants dying per 1,000 live births compared to 4.6 per 1,000 in England between 2009 and 2011. There are higher rates of obesity in both Reception and Year 6 in the Better Start area compared to Bradford and England. The three Better Start wards account for 19% of all admissions to hospital following injury for 0-3 year olds across Bradford district and also</p>

	<p>have higher rates of A&amp;E attendances for 0-4yrs than for the district. The Better Start children have poorer oral health with, on average, 3.2-4.0 decayed, missing or filled teeth per child aged under 5 years old. This data clearly indicates that children in the Better Start area are much less healthy compared to children within Bradford district as a whole and Bradford district itself is worse compared to regionally and nationally in many child health outcome areas.</p>
<b>Incomes employment and housing</b>	<p>High level of benefit claimants and low household income leads to worry about amount of debt and covering costs of heating etc. Overcrowded households are juxtaposed with a high level of empty homes across the ward and a low number of bids for social housing.</p>
<b>Children and young people</b>	<p>High youth and young adult population means a significant and appropriate level of services for children and young people are needed. The high level of children receiving free school meals is due to low household incomes, positive role models are needed. Obesity from year 6 onward is linked to diet, sedentary lifestyles and easy availability of cheap fast food. Low educational attainment and lack of aspiration; positive role models are needed. The Better Start Area Wellbeing Profile highlights over half of the children aged 5 years old or under in this area have poor social and emotional development compared to one in three children in Bradford. In the same survey, one in five children had poor communication, language and literacy compared to the district average of one in ten. We know already domestic abuse and child protection rates are higher in the Bradford Moor Ward and are aware from other research by Born in Bradford that White mothers are more likely to smoke and drink alcohol and this applies to many mothers of White Other ethnicity.</p>
<b>Stronger Communities</b>	<p>Volunteering overall is low across the Ward similar to the neighbouring ward of Bowling and Barkerend. However, there are many people involved with faith based organisations as volunteers delivering community benefit activities which might not be seen as volunteering by those taking part in this work. There is also evidence of some volunteering through local centres such as the Thornbury Centre Hub but there is a need to encourage and support volunteers to engage helping to build their capacity. The population ethnicity mix White, South Asian and Eastern European communities is a challenge. This diversity creates challenges, in an area where it is felt that people from different backgrounds don't necessarily get on well or treat each other with respect and there are community tensions.</p>

## Idle & Thackley Ward Plan 2018-2019

<b>Ward Members</b>	Cllr Jeanette Sunderland	Cllr Julie Humphreys	Cllr Alun Griffiths
<b>Ward Officer</b>	Daren Parr	<b>Date completed</b>	June 2018

## Introduction to Idle & Thackley Ward Plan

<b>Ward</b>	Idle & Thackley Ward
<b>Ward Officer</b>	Daren Parr
<b>Partners involved</b>	Bradford East Area Co-ordinator's Office (Area Co-ordinator, Ward Officer, Area Operations Manager, Youth Service, Street Cleansing Manager, Environmental Enforcement). Ward Councillors, Neighbourhood Policing Team, Incommunities, BMDC Traffic & Highways, BMDC Parks & Landscapes, Community Groups and Organisations.
<b>How does the ward plan work</b>	The ward plans throughout the district engage with the communities identified in the boundary of each ward. The assessment summarises the strengths using both statistical and qualitative information. Each year the plan sets out agreed action in each ward with the support of a Ward Officer to work with others to seek solutions. Ward plans are agreed and accountable to the Area Committees in each constituency.
<b>How to get involved</b>	If you would like to get involved please contact the Ward Officer, Daren Parr on (01274) 431066 or the email address is <a href="mailto:daren.parr@bradford.gov.uk">daren.parr@bradford.gov.uk</a>

## Summary of the Idle & Thackley Ward Assessment

<b>Population</b>	<p>The Idle &amp; Thackley ward consists of six neighbourhoods which are: lower part of Thorpe Edge, Idle, Idle Moor, Cote Farm estate, Thackley and Apperley Bridge.</p> <p>93% of the population are predominantly white with small pockets of mixed ethnicity throughout the ward. The population of 25 to 69 year olds has moderately increased is significantly higher in comparison to other wards within Bradford East and district wide. The younger population of 5 to 14 year old has moderately increased whilst the population of 0 to 4 year old and 15 to 24 year old has seen a moderate reduction in comparison to other areas within Bradford East and district wide.</p>
<b>Community Strengths</b>	Two primary roads through Idle & Thackley provide good arterial commuting links to Bradford, Shipley, Leeds and Leeds Bradford Airport. The introduction of a new railway station at Apperley Bridge has enhanced public

	<p>transport links between Bradford and Leeds. The semi rural locations of Idle, Thackley, Greengates and Apperley Bridge provide an opportunity for a variety of outdoor activities including walking and horse riding. Idle village centre has been identified as a Conservation Area and provides its residents and visitors with a good variety of shops, pubs and two supermarkets. In 2015 the Wright Watson Centre opened its doors and now hosts a number of business enterprises, community based projects and a public library.</p>
<b>Clean</b>	<p>Key issues include:</p> <ul style="list-style-type: none"> <li>• Street litter and trade waste hotspots.</li> <li>• Fly tipping</li> <li>• Build up of detritus</li> <li>• Weeds</li> <li>• Dog fouling</li> </ul> <p>Since 2015 Street Cleansing requests per 1000 population has increased from 5.87 to 7.28. However, this is still lower than the area average of 9.09 and a district average of 9.20. Fly tipping cleansing requests per 1000 population has also increased from 2.41 to 5.73 and is still lower than the area average of 15.61 and a district average of 13.30. Between 2017/18 Bradford Council's Enforcement Officers has successfully investigated and prosecuted a number of people involved in fly tipping and dog fouling complaints.</p>
<b>Safe</b>	<p>Statistics provided by the West Yorkshire Police Senior Analyst highlights that between 2016 to April 2018:</p> <ul style="list-style-type: none"> <li>• Criminal damage cases increased from 204 to 280</li> <li>• Theft from motor vehicle increased from 148 to 234</li> <li>• Theft of motor vehicle decreased from 49 to 29</li> <li>• Violence without injury increased from 237 to 323</li> </ul> <p>Over the past two years Bradford Council and the Neighbourhood Policing Team have organised a series of crime prevention road shows in the ward in a bid to help reduce crime</p> <p>For the past two / three years Idle village has become a hotspot area for ASB with young people causing much of the nuisances. The Neighbourhood Policing Team, partners, retailers and Ward Councillors are working on various strategies to address the problem.</p>
<b>Active</b>	<p>Statistics from 2013 to 2015 obtained from Public Health indicate that:-</p> <ul style="list-style-type: none"> <li>• Infant mortality rate at 8.91 (per 1,000 live births) is higher than the area (6.6) and district (5.9) averages.</li> <li>• The life expectancy rate for both males and females is on par with the area and district averages.</li> </ul>

	<ul style="list-style-type: none"> <li>• The under 75 mortality rate due to cancer is lower at 138.9 (per 100,000 population) compared to the area average of 175.3 and district average of 153.7.</li> <li>• The under 75 mortality rate due to cardiovascular diseases is 102.3, lower than the area average of 124.2 and lower than the district average of 102.7</li> <li>• The mortality rate due to respiratory diseases is 65.98, lower than the area (70.26) but higher than the district (50.93) averages.</li> <li>• Data obtained from 2015/16 highlights that 14.81% of children in reception have excess weight or are obese. In comparison the area average is 18.63% and district average is 21.10%</li> <li>• 31.88% of children in year 6 have excess weight or are obese. In comparison the area average is 35.81% and district average is 36.40%.</li> </ul>
<b>Incomes employment and housing</b>	<p><u>Annual data 2016 to 2017 obtained from Jobcentre Plus, highlights:-</u></p> <ul style="list-style-type: none"> <li>• The percentage of job seekers allowance claimants is 0.90 (rate per 16 to 64 population) lower than the area average of 2.2% with the district average at 1.80.</li> <li>• The percentage of working age claimants is 1.3 (rate per 16 to 64 population) lower than the area average of 3.2 and district average of 2.6</li> </ul> <p><u>% of empty homes over 6 months - according to data from 2016 to 2017 (BMDC Revenues &amp; Benefits):-</u></p> <ul style="list-style-type: none"> <li>• 0.82% of homes have been empty longer than 6 months, lower than the area average of 1.95% and lower than the district average of 1.90%.</li> </ul> <p><u>% of people not in education, employment or training (NEET) – according to 2016/17 Integrated Youth Support Solution (IYSS) database</u></p> <ul style="list-style-type: none"> <li>• 1.2% of people in the ward are NEET, lower than the area average of 2.70 and district average of 2.20</li> </ul> <p>Incommunities, Home Group and Places For People are the main registered social landlords for providing alternative accommodation in Thorpe Edge.</p>
<b>Children and young people</b>	<p>Qualitative information taken from BMDC Youth Workers suggests that young people express concerns about:-</p> <ul style="list-style-type: none"> <li>• Relationships with peers, parents and teachers.</li> <li>• Parents &amp; other family members involved in drugs &amp; alcohol.</li> <li>• High turn over of supply teachers in schools.</li> <li>• Social media (online bullying, sexting etc.)</li> </ul> <p>Young people feel that youth centres provide them with a warm, safe place to socialise and take part in activities. The Springfield Centre offers open access youth sessions, day trips, volunteering opportunities, job search, boys / girls only clubs, summer school programme and fund raising activities.</p>

<p><b>Stronger Communities</b></p>	<p>Local volunteers from Idle Active group and Greengates Community Garden Group undertake a variety of environmental projects. Idle Cricket club, Idle residents group (incommunities supported), Idle &amp; Thackley theatre group, Thackley Urban village, Thackley Cricket club, Thackley Methodist Church supporting; Jigsaw Out of School Club, Guides and Brownies, Wives Club, Monday Mums Play-Group, Mums and Tots., Karate, Retired Men's Forum Ladies Group Baby Ballet. Other community based groups include Greengates over 55's group, Friends of Greengates Cenotaph and History Group, Friends Of Buck wood, Thackley Good Friends Café, a local independent newsletter (Thackley Trumpet) written by local residents. The ward also benefits from a range of community assets to encourage more volunteering, these include: The Wright Watson Centre, Birkhill and Idle recreation grounds, Springfield and Springdale Centres located near by in Thorpe Edge.</p> <p>The River Aire cuts through the lower part of the Idle &amp; Thackley Ward. On 26<sup>th</sup> December 2015 several homes and business in Apperley Bridge area were severely damaged due to flooding as a result of high water levels from the river. The high water levels of the river also caused a large scale environmental problem at Buck Mill Bridge. Ward Councillors and local community volunteers worked with Bradford Council, The Environment Agency and other services to clean up the debris from the river and peoples homes.</p>

Eccleshill Ward Plan 2018-2019

<b>Ward Members</b>	Cllr Brendan Stubbs	Cllr Nicola Pollard	Cllr Geoff Reid
<b>Ward Officer</b>	Daren Parr	<b>Date completed</b>	June 2018

## Introduction to Eccleshill Ward Plan

<b>Ward</b>	Eccleshill Ward
<b>Ward Officer</b>	Daren Parr
<b>Partners involved</b>	Bradford East Area Co-ordinator's Office (Area Co-ordinator, Ward Officer, Area Operations Manager, Youth Service, Street Cleansing Manager, Environmental Enforcement). Ward Councillors, Neighbourhood Policing Team, Incommunities, BMDC Traffic & Highways, BMDC Parks & Landscapes, Community Groups and Organisations.
<b>How does the ward plan work</b>	The ward plans throughout the district engage with the communities identified in the boundary of each ward. The assessment summarises the strengths using both statistical and qualitative information. Each year the plan sets out agreed action in each ward with the support of a Ward Officer to work with others to seek solutions. Ward plans are agreed and accountable to the Area Committees in each constituency.
<b>How to get involved</b>	If you would like to get involved please contact the Ward Officer, Daren Parr on (01274) 431066 or the email address is <a href="mailto:daren.parr@bradford.gov.uk">daren.parr@bradford.gov.uk</a>

<b>Community Strengths</b>	<p>The A658 splits communities living between Fagley / Ravenscliffe / Greengates / Eccleshill and Thorpe Edge but the primary road provides a good commuting links to Bradford, Harrogate and Leeds / Bradford Airport. Much of the ward is considered to be urban but residents living in the ward have easy access to rural parts of its neighbouring ward Idle &amp; Thackley and Pudsey.</p> <p>Residents benefit from a range of community assets including: Eccleshill Community Hospital, Eccleshill Adventure Play Ground, Eccleshill Swimming Pool, Bradford Industrial Museum, Eccleshill Library, play areas at Harrogate Rd, Flaxton Green, Eccleshill Park and recreation ground. It has 4 Community Centres (Rockwell, Gateway, Ravenscliffe Youth Centre and Eccleshill Mechanics Institute, all of which provide a range of activities and services to its residents. Inspire Business Park also offers a range of support services and business opportunities. There are 6 Primary Schools and 7 Churches located in the ward.</p>				
<b>Clean</b>	<p>Key issues include:</p> <ul style="list-style-type: none"> <li>Management of open space on former council estates, or created by demolitions, including protection from</li> </ul>				

	<p>abuse by vehicles and horses.</p> <ul style="list-style-type: none"> <li>• Residents taking responsibility for their unadopted back streets.</li> <li>• Cars competing for limited on-street parking therefore damaging grass verges.</li> <li>• Street litter and trade waste hotspots.</li> <li>• Flytipping</li> </ul> <p>Between periods 2015 to 2017 fly tipping requests per 1000 population has increased from 4.18 to 10.54. However, this is still lower than the area average of 15.61 and a district average of 13.30. Street cleansing requests per 1000 population has decreased from 6.71 to 6.56 and is still lower than the area average of 9.09 and a district average of 9.2.</p>
<b>Safe</b>	<p>The Eccleshill ward has the highest anti social behaviour rates in comparison to all other 30 wards within the Bradford district. Between periods 2015 to 2017, ASB per 1000 population has seen a steady increase from 54.76 to 57.85. This is significantly higher than the area average of 36.35 and district average of 28.73. Over the past two years Enterprise Five Retail Park has become the hotspot area for ASB with young people causing much of the nuisances. The Neighbourhood Policing Team, partners and retailers are working on various strategies to address the problem.</p> <p>Statistics highlight that since 2016 to September 2017 burglary residential, criminal damage, serious acquisitive crimes, theft from motor vehicles and theft of motor vehicles have all declined. However violent crime and robbery crime have increased over the same period.</p>
<b>Active</b>	<p>Statistics from 2013 to 2015 obtained from Public Health indicate that:-</p> <ul style="list-style-type: none"> <li>• Infant mortality rate at 3.13 (per 1,000 live births) is lower than the area (6.6) and district (5.9) averages.</li> <li>• The life expectancy rate for both males and females is on par with the area and district averages.</li> <li>• The under 75 mortality rate due to cancer is lower at 131.37 (per 100,000 population) compared to the area average of 175.34 and district average of 153.75.</li> <li>• The mortality rate due to cardiovascular diseases is 100.37, lower than the area average of 124.29 and lower than the district average of 102.73.</li> <li>• The mortality rate due to respiratory diseases is 65.98, lower than the area (70.26) but higher than the district (50.93) averages.</li> </ul>
<b>Incomes employment</b>	<p>Annual data 2016 to 2017 obtained from Jobcentre Plus highlights:-</p> <ul style="list-style-type: none"> <li>• The percentage of job seekers allowance claimants is 1.80 (rate per 16 to 64 population) lower than the area</li> </ul>

<p><b>and housing</b></p>	<p>average of 2.2% with the district average at 1.80.</p> <ul style="list-style-type: none"> <li>The percentage of working age claimants has increased to 3.8% and this is significantly higher than the area (2.7%) and the district (2.6%) level.</li> </ul> <p><u>% of empty homes over 6 months - according to data from 2016 to 2017 (BMDC Revenues &amp; Benefits):-</u></p> <ul style="list-style-type: none"> <li>1.12% of homes have been empty longer than 6 months, lower than the area average of 1.95% and lower than the district average of 1.90%.</li> </ul> <p>Incommunities is the main registered social landlord for providing alternative accommodation in Thorpe Edge, Ravenscliffe and Fagley. Home Group and Places For People also provide social housing.</p>
<p><b>Children and young people</b></p>	<p><u>According to 2016 to 2017 data obtained from the Integrated Youth Support Solution (IYSS):-</u></p> <ul style="list-style-type: none"> <li>The percentage of people aged 16 to 19 not in education, employment or training (NEET) is 3.90% compared to the area average of 2.70% and a district average of 2.20%</li> </ul> <p>Qualitative information taken from BMDC Youth Workers suggests that young people express concerns about:-</p> <ul style="list-style-type: none"> <li>Relationships with peers, parents and teachers.</li> <li>Parents &amp; other family members involved in drugs &amp; alcohol.</li> <li>High turn over of supply teachers in schools.</li> <li>Social media (online bullying, sexting etc)</li> </ul> <p>Young people feel that youth centres provide them with a warm, safe place to socialise and take part in activities. The youth centre / worker in Ravenscliffe offers open access youth sessions, day trips, volunteering opportunities, job search, boys / girls only clubs, summer school programme and fund raising activities.</p> <p><b>Eccleshill Adventure Playground</b> (The Big Swing) offers children aged 5 to 13 years the chance to engage in pro-social activities but with an element of challenge, such as using tools to construct dens, go karts and other structures and learn how to make camp fires in our outdoor kitchen.</p> <p><b>The Gateway Centre</b> has partnered up with Ravenscliffe Youth Centre to develop a junior youth club with over 40 children attending weekly sessions.</p> <p><b>The Rockwell Centre</b> hosts Little Chefs / Little Gardeners / Little Bakers for children aged 5/6 and a Young Leaders Youth Club 8 – 13 year old.</p>

<b>Stronger Communities</b>	<p>There are a large range of community activities, organisations, church groups, history group and sports groups across the ward to cover all ages and interests. All of them organise events and encourage local involvement and participation.</p> <p>In 2017 Eccleshill Community Association drew new volunteers on to their management committee and the group are now in discussion with Bradford Council in an attempt to secure a Community Asset Transfer (CAT) for Eccleshill Mechanics Institute. This will provide a local led community project and minimise the risk of the buildings closure.</p> <p>Eccleshill Events Organisers are a group of volunteers who organise annual events such as Eccleshill Village Fair held in July and a Christmas Celebration event in December.</p> <p>Fagley Community Association are currently developing their membership and seeking adequate accommodation to help run a verity of activities.</p>

## Little Horton Ward Plan 2017 - 2018

<b>Ward Members</b>	Cllr Talat Sajawal	Cllr Fareeda Mir	Cllr Taj Salam
<b>Ward Officer</b>	Sheila Brett	<b>Date completed</b>	April 2018

## Summary of the Little Horton Ward issues

<p><b>Community Strength</b></p>	<p>Community led initiatives include Bradford Trident, Trident Community Council, Parkside Community Association, Marshfield Neighbourhood Association, West Bowling Advice and Training Centre, West Bowling Youth Initiative, MAPA, Light of the World Centre, Madni Centre, West End Centre, Bowling Old Lane Cricket Club, Khidmat Centre and SHINE. Bradford Trident is the largest community led organisation in the Ward and supports Trident Community Council, the local Parish Council.</p> <p>The residents of Little Horton come from a range of cultural, religious and ethnic backgrounds. Bradford Trident own a number of community buildings, they employ a part time community development worker and facilitate the BD5 Faith Forum. Trident has successfully led a community based partnership that has drawn in 10 years of Lottery funding (£49 million) for work with families with children 0 – 4 years in Little Horton, Bowling, Barkerend and Bradford Moor, three of the most deprived wards in Bradford. The programme, known as Better Start Bradford, started running its programme and projects from Summer 2015.</p>
<p><b>Clean</b></p>	<p>Little Horton faces a number of challenges in terms of cleaner and greener issues. Littering, and flytipping (dumping) of household items and other waste is much higher than the Bradford District average. Flytipping reports are only higher in Bowling and Barkerend ward, and local people see both this and the amount of littering as a problem. Cleanliness of green spaces and recreation areas is also raised by people and services locally as needing attention. There is a need to get more residents understanding and using the kerbside recycling service properly. Putting food out for birds in public places, leaving waste in gardens and yards and dirty backstreets gives a poor impression of the area as well as attracting vermin. Little Horton is the 2<sup>nd</sup> most densely populated ward (after City ward) and in some neighbourhoods this is even more obvious, for example in streets with families living in back-to-back housing. Some of the cleanliness issues are exacerbated by landlords not taking responsibility for the homes they own and rent out (not clearing out previous tenants furniture and possessions), by residents who either don't speak English very well, or not being long term residents they don't understand how local services (such as recycling) work, or know how to access and use them (e.g. the Household Waste sites). Community litter picks are supported by Wardens, Clean Team, Councillors and Community Council as well as local residents and we are keen to encourage and support as much of this as possible with local people, alongside educational work, and enforcement where needed.</p>
<p><b>Safe</b></p>	<p>Illegal drug dealing and use and anti-social behaviour are regularly raised and dealt with through the Ward Partnership Team. Figures from the Police Analyst show that drugs, violence offences and house burglary are high compared to other areas and seem to be increasing. There are also concerns that Eastern European</p>

	<p>residents in particular have different lifestyles and different understanding of what constitutes acceptable behaviour which seems to be at odds particularly with Asian Muslim resident's way of life. Activities for young people to provide positive alternatives to hanging about aimlessly on streets and public spaces are available, but perhaps not attractive to some of the young people whose behaviour is more problematic. Inappropriate parking at and around schools, Children's Centre and places of worship, including on footways and junctions, leads to safety issues and creates community tensions.</p>
<b>Active</b>	<p>Mortality per thousand population is higher in Little Horton than Bradford District as a whole with both infant and under 75's mortality high. One of the impacts of the 'multiple deprivation' is that many residents of Little Horton experience reduced life expectancy. The ward has high levels of Coronary Heart Disease. Obesity in school aged children at year 6, and the general population contributes to the high level of diabetes. There is a lack of access to NHS dentists across the area. Residents are given information and advice on healthy lifestyles (diet and exercise) through many Community Centre sessions and the work of local schools, but there remains much to be done to create and sustain positive behaviour changes that impact on health. It is particularly difficult to engage both men and Eastern European residents on health issues.</p>
<b>Incomes employment and housing</b>	<p>There are high levels of welfare benefit claimants, including Job Seekers Allowance in Little Horton ward. 18-24year old claimants are the 2<sup>nd</sup> highest in the district after Manningham ward, JSA claimants are the 3<sup>rd</sup> highest in the district after Bowling &amp; Barkerend and Manningham wards. There is a need for on-going support to make people, including young people, job-ready and get them into training and employment, and a number of centres provide this support. Little Horton is 9<sup>th</sup> highest in the district for the number of empty homes, although rented housing is comparatively cheap. Across the district 64% housing is owner occupied, this is likely to be lower in Little Horton, with social housing a good option locally, and this likely to be better quality than private rented housing. Exploitation of people in housing need on limited income leads to overcrowded and poor quality housing being occupied, often by central and eastern European migrants, who may not have a formal tenancy agreements. Advice services and ESOL classes help address these issues, but again more is needed. The numbers of young people not in education, training or employment are the 3<sup>rd</sup> highest in Little Horton, after Tong and Eccleshill wards, in Bradford district.</p>
<b>Children and young people</b>	<p>There is a high birth rate and young population in Little Horton and many families live in poverty, this is why it has been included in the Better Start Bradford area and is getting additional investment in support and services for families with children 0 – 4 year olds. Qualification rates for young people leaving school are low and work with NEET (not in employment education or training) young people, aims to help ready them for</p>

	<p>training and employment, this is run through a range of local community and youth organisations including the Youth Service. Work to impact on obesity rates in children and young people takes place through a range of organisations. It is difficult to see what impact this is having as families cooking meals and cookery skills generally seem to have withered in the face of the plethora of cheap, fast food outlets locally that do not often provide the healthiest food choices. It seems difficult to counteract this. There are a number of youth projects and clubs across the ward but these are not able to help all the young people in need, a particular gap being provision for and drawing in young women and girls.</p>
<b>Stronger Communities</b>	<p>The ward has the 2<sup>nd</sup> highest population in the district after City ward. The highest proportion of residents are Asian, with less than 50% being white, and a much smaller number identifying as Black African, mixed or other ethnic origins. The area has a number of residents from Central and Eastern European countries, focused in West Bowling, and attracted by low cost, and sometimes poorly maintained housing. The diversity of the area creates challenges. People from different backgrounds don't necessarily know each other, get on well or treat each other with respect, creating community tensions particularly where there are differences in cultures that impact negatively on others. For example groups of families and friends gathering noisily and drinking outside when families with small children need them to be sleeping. The BD5 Faith Forum and other more informal community working by faith and community based organisations, includes organising community events, helping different people to connect in social, non-threatening ways and create positive relationships. The ward has a number of organisations that attract and utilise volunteers to help run their services, sessions and activities which helps them work with local people on local issues and priorities. Manchester Road (a busy dual carriageway) bisects the ward and is a physical barrier to community cohesion.</p>

- Wardens work with businesses on containment and disposal of business waste as problems arise. Support has been given to Karmand Centre on a waste cooking oil collection and recycling scheme which has been extended to cover additional streets in BD3 with further support from Yorkshire Water.
- Wardens, Ward Officer and Enforcement Officer education and enforcement action where needed and appropriate and possible
- Referring problem rights of way to Probation Service for cutting back and clearing of dumped items including Myrashay, Bradford Moor Park and public footpaths.
- Reassurance and engagement action days / streets surgeries / school gate surgeries delivered talking to residents about practically helping to clean up their areas, report issues and helping residents download the Council app, ordering recycling bins and issuing Household Waste Site permits.
- Beautiful BD3 garden completion held led by the St Clement's Church to showcase positive gardens and encourage people to take more pride in the appearance of their gardens / wider neighbourhood.
- Gulley cleansing action days delivered in streets most difficult to access and with highest number of blocked gullies. Engagement work by Warden has also included door knocking talking to people and businesses about responsibly disposing of oil, food waste and containing building materials.
- Roll out of new bin policy – awareness raised through presentations, contact with third sector and home visits.

Funding for the above services will cease in March 2018.

Funding for services at Thorpe Edge will continue until June 2018-these include EAE Walking Group, Wildlife and plant id walk, dog walking, 10+ challenge, swimming at Eccleshill pool, Tai chi, Boxercise, football training, fun with food (families and children) and primary school cooking classes

3.4 On 1st October 2017 a new fully integrated substance misuse service for Alcohol and Drug users in Bradford and Airedale commenced under the service name `New Directions` .

The service is delivered by Change, Grow, Live , a large national recovery focussed organisation who are working in partnership with Bridge and Project 6.

The service operates a dedicated single point of contact based at Pelican House, 10 Currer Street, Bradford BD1 5BA and all service users, carers , professionals or members of the public can make referrals to the service through a dedicated 24/7 contact number of 01274 296023.

Any individual who accesses interventions at the service will be allocated a dedicated recovery worker who will work with the individual at an appropriate location. New Directions has hubs located in both Bradford and Keighley and also access to 27 community locations across the district.

3.5 There is 1 outreach venue in Idle & Thackley at a GP surgery. This is currently being reviewed as not many people are accessing this location. The GP surgery is making referrals for patients but they are often choosing to access advice in other venues eg Gateway, Thorpe Edge or Eccleshill Mechanics Institute. This may be due to the surgery not being on a bus route. It is likely that the sessions at the surgery will be ended and an alternative location sought within the ward.

Family Action have indicated they are continuing to review venues in this locality and are waiting to meet with Cllr Rachel Sunderland to discuss this.

**The performance data for Q2 shows 15 people from Idle & Thackley accessed services in the Bradford East locality and 21 people from Idle & Thackley accessed services outside of the locality. 6 in Windhill, , 5 Bradford CAB, 3 Shipley CAB, 2 Wrose Health Centre, and the remainder in 6 different locations. These figures do not include those accessing phone advice or other contacts.**
