In addition:

- £6m from Reserve schemes for SEND provision across the district funded by corporate borrowing. It will be used to complete a number of SEND expansions across both the mainstream school sector and SEND schools. The budget is required to allow for the development of up to three proposed schemes. 4. 2023/24 BUDGET PROPOSALS AND FORECAST RESERVES – SECTION 151 OFFICER ASSESSMENT

That Members have regard to the report (**Executive Document AY**) in setting the budget, and in particular note the conclusions that:

- the estimates presented to Council are sufficiently robust to set a balanced and deliverable budget in 2023-24.
- the reserves are adequate for the 2023/24 proposed budget. The level of reserves has reduced substantially to support the Council budget and in line with Central Government expectation that Councils should use their reserves.
- the projected corporate reserves, on current estimates, are adequate in the short term, subject to the implementation of the rest of the proposed financial plan, however they do not represent a sustainable solution to addressing budget pressures beyond 2023-24.
- the Medium Term Financial Strategy will be updated and reported to Executive as clarity on future local government funding, reforms of adult and social care and other relevant issues are received.

As with all budgets there is the potential for amendments to be proposed/agreed which could change the overall package of proposals. In that respect, it should be highlighted that this statement would have to be amended if a decision was proposed that leads to the Council's reserves reducing below their recommended General Fund balance level. In addition, any other amendments would be considered against the scale of the overall budget and depending upon the extent and nature, may result in a revised statement.
