1.0. SUMMARY

- 1.1 This report provides information on the Capital Highway Maintenance funding element of the Local Transport Plan for 2024/25 and makes recommendations on the allocation for Non-Classified road resurfacing schemes and Surface Dressing sites in the Keighley constituency.

2.0. BACKGROUND

- 2.1 The Capital Highway Maintenance allocation for the maintenance of A, B, C Classified roads and Non-Classified roads across the Bradford district in 2024/25 is expected to be in the region of £6,000,000.
- 2.2 Following the Government's announcement of Network North capital funding in October 2023, the West Yorkshire Combined Authority will receive an additional £4,633,000 for each financial year 2023/24 and 2024/25. Of this, Bradford will receive £949,765 for each financial year for local highway maintenance priorities. It is expected that the 2-year allocation will be spent in 2024/25. The allocation for Non-Classified road resurfacing schemes in the Keighley constituency is £215,000.
- 2.3 It is essential that local highway maintenance continues to be prioritised, reflecting the economic and social importance to communities and the need to safeguard the largest single local public asset. As such, the allocation is to be prioritised on those roads in most need of maintenance.
- 2.4 The varying types and classifications of roads are surveyed annually using standardised survey and video equipment. The sites chosen for inclusion are those that are shown to be in the most need of repair following in-house and third party condition analysis. This analysis is supplemented with routine site monitoring by officers. Those roads that are known to have suffered increased deterioration due to the ageing process and recent winter weather are also considered when formulating annual schemes lists.
- 2.5 For information purposes, Appendix 1 summarises the resurfacing schemes completed and those still outstanding from the 2023/24 approved list.
- 2.6 A recommended list of Non-Classified resurfacing schemes for the 2024/25 financial year is included in Appendix 2.
- 2.7 A recommended list of Surface Dressing sites for the 2024/25 financial year is included in Appendix 3.
- 2.8 The full list of Non-Classified resurfacing sites (Appendix 2) is detailed in priority order, based on road condition. The cut off between 'priority' and 'reserve' sites coincides with a value of circa £750,000 as described in paragraph 4.1. Members may seek to substitute schemes from the priority list with those from the reserve list as is deemed necessary to address local highway maintenance concerns. Also, if it transpires that it is not feasible to progress any of the originally selected schemes, these will be substituted with alternatives from the reserve list.

2.9 The suggested programme of Surface Dressing sites, totalling circa 14,090m (approx. £450,000) is attached as Appendix 3.

2.10 In order that programme delivery can be achieved within the 2024/25 financial year it is imperative that the committee approves a works programme at this stage.

3.0 OTHER CONSIDERATIONS

3.1 There are no other considerations at this time.

4.0 FINANCIAL & RESOURCE APPRAISAL

4.1 The total value of priority and reserve schemes in Appendix 2 exceeds the allocated budget for Non-Classified roads for 2024/25 which is £3,750,000 for the whole of the Bradford district. This equates to £750,000 for the Keighley constituency.

4.2 Indicative funding has been identified for each scheme but the actual cost will be determined through the scheme development process. The identification of a reserve list of works is necessary in order to offset schemes that will inevitably be delayed as a consequence of unforeseen circumstances such as work by statutory bodies and conflicts with other major schemes, etc. There may also need to be further adjustment to the programme following the more detailed costing process. Any sites that are deferred for whatever reason will roll over to the following year's list.

4.3 Schemes identified in Appendix 3 include A, B and C Classified roads and it is the intention that work will be completed on all of the sites listed, however it is possible that some of the schemes may need to be deferred, again likely due to conflicts with works by other bodies, statutory undertakers, etc. Any schemes that are deferred for whatever reason will roll over to the following year's programme.

5.0 RISK MANAGEMENT AND GOVERNANCE ISSUES

5.1 A failure to prioritise highway maintenance schemes based upon condition and safety survey data will result in an increased requirement for reactive maintenance and lead to a reduction in road safety conditions and an associated increase in successful insurance claims against the Council.

6.0 LEGAL APPRAISAL

6.1 There are no specific issues arising from this report. The course of action proposed is in general accordance with the Council's power as Highway Authority.

6.2 All works undertaken will be carried out within the requirements of the Highways Act 1980.

7.0 OTHER IMPLICATIONS

7.1 SUSTAINABILITY IMPLICATIONS

7.1.1 Proactive repairs, such as surface dressing, serve to extend carriageway life.

7.2 TACKLING THE CLIMATE EMERGENCY IMPLICATIONS

7.2.1 Highway maintenance teams will continue to seek and deliver innovation in road surface repairs and treatment, through new products/materials and carbon reduction initiatives.

7.3 COMMUNITY SAFETY IMPLICATIONS

7.3.1 Maintenance of the local highway network is essential to ensure the safe passage of all road users.

7.4 HUMAN RIGHTS ACT

7.4.1 There are no human rights implications arising from this report.

7.5 TRADE UNION

7.5.1 There are no trade union implications arising from this report.

7.6 WARD IMPLICATIONS

7.6.1 The programmes have been determined on the basis of condition surveys, hence the proposed level of funding may differ from ward to ward for the programme year. However, it is considered that, over a number of years, monies expended on maintenance works within each Area Constituency will even out (proportionate to the length, nature and condition of carriageways).

7.7 AREA COMMITTEE LOCALITY PLAN IMPLICATIONS

7.7.1 The development and implementation of schemes included in this report support priorities within the Keighley Area Committee Locality Plans.

7.8 IMPLICATIONS FOR CHILDREN AND YOUNG PEOPLE

7.8.1 There are no Children and Young People implications or Corporate Parenting duty implications arising from this report.

7.9 ISSUES ARISING FROM PRIVACY IMPACT ASSESSMENT

7.9.1 None

8.0 NOT FOR PUBLICATION DOCUMENTS

8.1 None.

9.0 OPTIONS

9.1 That the Keighley Area Committee approves the recommended schemes detailed in Appendices 2 and 3.

9.2 That the Keighley Area Committee approves the recommended schemes detailed in

Appendices 2 and 3, with any substitutions (to a similar value) from the reserve list in Appendix 2.

10.0 RECOMMENDATIONS

10.1 That the Keighley Area Committee approves the proposed list of schemes for 2024/25 as shown in Appendices 2 and 3.
