### Introduction to the Council's Statement of Accounts

The Council's financial statements are set out in the pages following this foreword. They consist of the following:

#### 1. The Narrative Report

The Report by the Assistant Director – Finance and Procurement summarises the most significant items reported in the accounts and outlines the overall financial position of the Council for 2017-18. The money spent by the Council and where the money comes from is shown in a series of charts. There is a distinction between revenue spending (the annual cost of providing services) and capital expenditure, which has a long-term benefit for the citizens of the Bradford District.

#### 2. Movement in Reserves Statement

This Statement shows the movement in the year on the different reserves held by the Council, analysed into "usable reserves" (i.e. those that can be applied to fund expenditure) and other reserves.

#### 3. Comprehensive Income and Expenditure Statement

The cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded in accordance with statute. The Council raises tax, and uses grants and other flows of income to cover the cost of services. The statutory financial result is shown in the Movement in Reserves Statement. This is different to the cost of services stated in accordance with generally accepted accounting practice, as shown in the Comprehensive Income and expenditure account.

#### 4. Balance Sheet

The Balance Sheet shows the value at the Balance Sheet date of the assets and liabilities recognised by the Council.

#### 5. Cash Flow Statement

The Cash Flow Statement shows the changes in cash and cash equivalents (short term investments of three months or less) of the Council during the reporting period.

#### 6. Statement of Significant Accounting Policies

The Council's accounts follow International Financial Reporting Standards (IFRS) since the 2010-11 financial year.

The accounting policies set out the specific principles, bases, conventions, rules and practices applied by the Council in preparing and presenting the financial statements. The accounting policies are based on interpretations and adaptations for the public sector set out in the CIPFA (Chartered Institute of Public Finance and Accountancy) Code of Practice on Local Authority Accounting in the United Kingdom (the Code).

#### 7. Notes to the Main Financial Statements

The notes disclose information required by the Code and information that makes the accounts easier to understand. They show the specific accounting policies and estimates used and breakdowns of figures shown in the main Financial Statements.

#### 8. Collection Fund Statement

The Collection Fund is an agent's statement that reflects the statutory obligation for billing authorities to maintain a separate Collection Fund. The statement shows the transactions of the billing Authority (Bradford Council) in collecting Council Tax and non domestic rates and distributing it to major preceptors and the Government.

#### 9. The Group Accounts

As the Council does not have any material interests in subsidiaries, associates and jointly controlled entities it is not required to produce a set of Group Accounts.

#### 10. The Pension Fund Account

As the Council is the administering authority for the West Yorkshire Pension Fund, the activities of the fund are required to be reported alongside the Council's main Financial Statements.

#### 11. Glossary of Terms

In order to help readers, a Glossary of Terms widely used in relation to local authority finance and referred to within these accounts is included at the back of the document.

#### 12. Annual Governance Statement

The Council is required to undertake an annual review of the effectiveness of its governance framework and system of internal control. The conclusions of this review are reported alongside the accounting statements.

### City of Bradford Metropolitan District Council's Statement of Responsibilities

The Council is required to:

- Make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this Council, that officer is the Assistant Director – Finance and Procurement.
- Manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets.
- Approve the Statement of Accounts.

### The Assistant Director – Finance and Procurement Responsibilities

The Assistant Director – Finance and Procurement is responsible for the preparation of the Council's Statement of Accounts in accordance with proper practices as set out in the CIPFA Code of Practice on Local Authority Accounting in the United Kingdom (the Code).

In preparing this Statement of Accounts, the Assistant Director – Finance and Procurement has:

- Selected suitable accounting policies and applied them consistently.
- Made judgements and estimates that were both reasonable and prudent.
- Kept proper and up to date accounting records.
- Taken reasonable steps for the prevention and detection of fraud and other irregularities.
- Complied with the Code of Practice on Local Authority Accounting.

In addition he has issued:

- A manual on the practices to be adopted in the preparation of the Council's year end accounts.
- Various corporate standards giving guidance on specific accounting issues.

The financial statements are subject to audit by the Council's external auditors.

### Certification of the Statement of Accounts

I certify that this statement of accounts presents a true and fair view of the financial position of the Council at 31 March 2018 and its income and expenditure for the year then ended. I authorise for issue the 2017-18 Statement of Accounts.

Signed:

Andrew Crookham  
Assistant Director – Finance and Procurement  
Date: 31 May 2018

## The Narrative Report

### Financial Highlights

#### Introduction

This Statement of Accounts provides comprehensive and detailed information about Bradford Council's financial results for 2017-18. This section contains the headlines, comments on the financial results and performance against the internal budget plan, and summarises how the Council's services measured up against non-financial targets for the year.

#### Two Financial Reporting Perspectives

The Council uses two complementary but distinct ways of reporting on financial performance, which reflect the legal and accounting environment:

- The Statement of Accounts is prepared using generally accepted accounting principles, and this approach is used in presenting most of the information in the document.
- The other reporting approach (which we call the "statutory" basis) reflects the principle that all revenue expenditure in the year has to be afforded within the money available to the Council from taxation and other sources of income.

The primary distinction between these two reporting approaches is that:

- the accounting approach includes transactions such as losses on disposals of assets, changes in the valuation of assets and liabilities, depreciation and costs for untaken leave by employees in the total income and expenditure for the year, whereas the statutory basis does not.
- the accounting approach incorporates both usable reserves – which are internal funds available to support the Council's revenue and capital operations – and so-called unusable reserves, which together represent the total "taxpayer value" held in reserves. The statutory approach focuses on the usable reserves.
- the statutory basis underpins the setting of the Council's annual budget, and the internal financial management accountability and budgetary control system. It is also the basis for in-year financial reporting to the Council's Executive and other Committees.

This section sets out the financial results from these two perspectives.

#### Headline Financial Results in Statement of Accounts

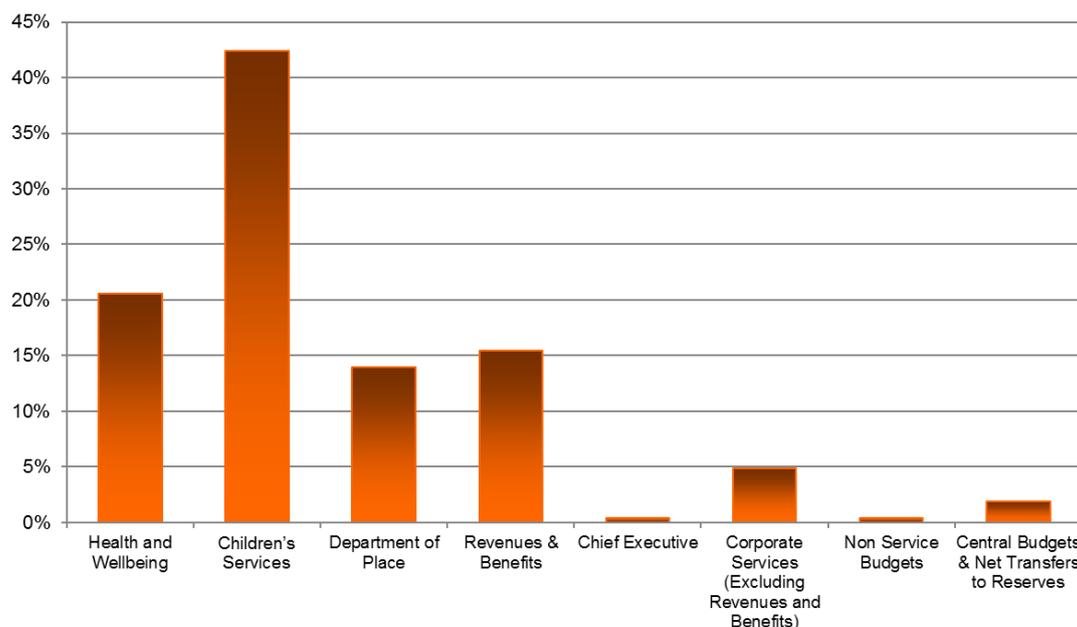

##### Comprehensive Income and Expenditure Statement

Gross revenue spending on services was £1.135bn, £59m less than in 2016/17, with net expenditure on services at £389m, down £8m from 2016/17. In addition to the implementation of the Council's budget reduction plan across all services, the main factors underlying these trends are:

- A £9m reduction in net expenditure on Children's Services, mainly due to changes in depreciation and the revaluation of land and buildings.
- A £56m reduction in gross income on Children's services offset by reductions in gross expenditure. This was caused by schools converting to academies, at which point their expenditure and income are excluded from the Comprehensive Income and Expenditure Statement.
- A £4m reduction in net expenditure in the Department of Place due to planned savings
- A significant change in the net expenditure on Non Service Budgets, mainly due to accounting for pensions.

The figure overleaf shows the distribution of spending by service.

### How much money did the Council spend? (%)

#### Sources of Income

Total income attributable to individual services was £746m, a reduction of £52m on the previous year, again, mainly reflecting academy conversions. In addition, £423m income not directly attributable to an individual service was received, down £7m on the year before, with Revenue Support Grant from Government contributing £21m of the reduction. Income from Council Tax and Business Rates (including the Top Up Grant) totalled £299m, £10m up on the previous year.

#### Net Financial Result

The resulting net surplus on the income and expenditure account is £26.752m, compared to a £249.892m deficit in 2016/17.

#### Service Performance

This section focuses on the performance of the services financed by the Council based on the authority's own indicators. For more detail, see the 2017/18 Finance and Performance Outturn Report presented to the Council's Executive of 10 July 2018.

#### Overview

Over the last twelve months, the Council and the wider District that it works in partnership with have had a number of successes. Many of these have been validated by external sources and partners:

- Bradford MDC was rated as one of the top 10 most productive councils in England using an index based on a variety of measures.
- The Care Quality Commission undertook an assessment of health and social care services in the district and praised our mature approach to partnership working.
- Bradford was rated as the best place to start a business in the UK by Barclays.
- The district is increasingly being seen as a place where new Central Government initiatives can be tested and implemented. The District was selected as an Opportunity Area pilot with investment in education in deprived areas and an 'integrated communities' pilot.

Our Council Plan was produced in 2016 and has provided a framework for performance monitoring and reporting. Over the last twelve months, we have also continued to deliver with our partners through our District Plan and have developed new partner-led strategies, such as the recently launched Economic Strategy in March 2018.

This section provides detail on performance against the Council Plan indicators for the year up to March 2018. Reporting is based on the indicators as per the original Council Plan and separated by our outcome areas which are:

- Better Health, Better Lives,

- Great Start, Good Schools
- Better Skills, More Jobs and a Growing Economy,
- Safe Clean and Active Communities
- Decent Homes, and
- Well Run Council.

Reporting is provided where indicators are available. For some indicators, key data is not available at the time of reporting but will be provided as part of the 10<sup>th</sup> July Executive Finance and Performance monitor report which will also seek to update the performance indicators and targets for the coming year.

**Better Health, Better Lives**

**Key performance indicators**

Description	2017/18		2016/17	Direction of Travel
	Value	Target	Value	
Successful completion of drug treatment - opiate users (Quarterly)	7.2%	6.5%	4.7%	Improving
Successful completion of drug treatment - Non-opiate users (Quarterly)	47.4%	39.8%	40.4%	Improving
Successful completion of alcohol treatment (Quarterly)	39.2%	38.4%	35.5%	Improving
Number of Looked after Children (LAC Overall Total)	987		927	Getting Worse
Rate of children who are the subject of a child protection plan per 10,000 children	40.37		40.04	Staying the same
Total visits to council managed recreation facilities	1,775,858	1,800,000	1,817,020	Getting worse
The total number of programmed preventative interventions carried out by Environmental Health.(was LGSES006)	3,676	3,300	4,584	Getting Worse

**Children in Care:** Rates of Looked After Children (LAC) are 67 looked after per 1000 compared to 78 in our statistical neighbours. At any one time we have just under 1,000 LAC. In 2016-17, the numbers of children placed on a child protection plan rose by 23%. 10 out of our 11 Children's homes are rated Good or Outstanding.

**Delayed Transfers of Care (DTOC):** Bradford has low levels of DTOCs and is ranked 7th nationally and 3rd among statistical neighbours. Current performance is 3.6 per 100,000 population. Bradford's NHS England target is to perform better than 3.8 per 100,000.

**Obesity Activity & Exercise:** 20% of 4 to 5 year olds and 36% of 10 to 11 year olds are overweight (with Little Horton at 43.9%), compared to 22% of 4 to 5 year olds regionally and nationally and 33% of 10 to 11 year olds regionally and nationally 31,000 people aged over 65 are unable to manage at least one activity on their own; 7.3% of people have used outdoor space for exercise or health reasons in the last seven days compared to 18% across Yorkshire & Humber and 17% across England.

**Great Start, Good Schools**

**Key performance Indicators**

Description	2017/18		2016/17	Direction of Travel
	Value	Target	Value	
Percentage of children achieving a good level of development in Early Years	68%	69%	66%	Improving

Description	2017/18		2016/17	Direction of Travel
	Value	Target	Value	
Foundation Stage				
Percentage of Year 1 pupils achieving the Phonics Standard	80%	81%	79%	Improving
Percentage of pupils reaching the expected standard in reading, writing & maths combined at Key Stage 2	57%	60%	47%	Improving

Bradford has seen a year on year increase in Good Level of Development (GLD) at Early Years Foundation Stage (EYFS) since 2013. The figures have shown a strong upward trajectory. Bradford now has more 2 year olds in provision than ever before. We are the fourth most improved education authority in the country for the progress pupils make at secondary school from Year 7 to their GCSEs.

In wider measures, Bradford's performance in relation to take up of the 2 year old offer is strong. However, take up varies from 50% in some wards to 100% in other areas. There are 10 wards where we focus on getting the most vulnerable children into good quality provision to improve GLD at EYFS.

### Better skills, more good jobs and a growing economy

#### Key performance indicators

Description	2017/18		2016/17	Direction of Travel
	Value	Target	Value	
Vacancy rates in Bradford City Centre - Percentage of ground floor business units that are vacant	19.67%	18.1%	18.1%	Getting Worse
Proportion of the Council's workforce that is made up of apprentices	122	140	75	Improving
The value of the local economy measured by Gross Value Added	£10.1bn	£9.5bn	£9.5bn	Improving
The total number of visits to council cultural attractions (markets, museums & libraries)	6,670,467		7,115,583	Getting Worse
Total - Processing of planning applications: Major applications (Manual Entry)	90.16%	60.00%	85.54%	Improving
Principal roads where maintenance should be considered	2%	4%	3%	Improving

The latest data shows that over the years 2010 to 2016 economic productivity has been increasing at a broadly steady rate. We have now exceeded the original council plan target in this area. A new Economic Strategy was developed over the last year and launched in March 2018. This has developed more stretching targets on economic growth.

The latest figures for working-age employment (12 months to December 2017) do show a slight drop in employment but it is too early to see whether this is part of a trend; it may be due to a technicality associated with the ONS recalculating our mid-year population estimates.

Over the last twelve months, we have also seen a fall in the proportion of roads requiring maintenance and an increase in the proportion of major planning applications that have been processed.

**Safe clean and active communities**

**Key performance indicators**

Description	2017/18		2016/17	Direction of Travel
	Value	Target	Value	
Number of Fly Tips reported on CRM	5,572	5,005	9,030	Improving
Total Tonnes of kerbside recycling (Green and dry)	28,720	21,600	28,688	Improving
Percentage of reported missed bins	0.27%	0.13%	0.15%	Getting Worse

Kerbside recycling levels are increasing, yet there is a decline in overall recycling/composting, due to organic fraction in residual waste being disallowed by the EA. This fraction now goes for energy recovery instead. City Centre litter enforcement is now undertaken in the city centre and Keighley by a private company. Around 200 Fixed Penalty Notices are issued each week.

Reported fly tipping is increasing partly due to improved reporting channels. We are currently working with antisocial behaviour group to fund the installation of cameras to tackle fly tipping in hotspot areas. Currently 20 fixed and 10 portable cameras are operational.

**Decent Homes**

**Key performance indicators**

Description	2017/18		2016/17	Direction of Travel
	Value	Target	Value	
Net number of additional homes provided	1,554	1,200	1,334	Improving
Number of private sector homes improved	1,012	950	947	Improving
Empty homes brought back in to use (gross)	4,559		4,784	Getting Worse
The number of households placed in temporary accommodation	928	950	1,042	Improving
Number of affordable homes delivered (gross)	240	165	184	Improving

Our decent homes objectives are focused around:

- Ensuring an adequate supply of housing
- Tackling poor quality housing
- Supporting the most vulnerable and excluded

**Ensuring the supply of homes of the right type and location to meet demand**

- Bradford district housing stock increased by 1,554 properties between April 2017 to April 2018 - an improvement on the previous year. The largest increases were in Keighley East, Craven, City and Bingley Rural.

**Ensure all homes are safe, healthy and affordable**

- **There continues to be insufficient investment in our ageing private sector stock.** However, a number of private sector homes have been improved in the last 12 months.

**Supporting the most vulnerable and excluded**

- Statutory homelessness applications reduced by 12% over the last twelve months whilst prevention activity increased by 10%. This demonstrates our preventative approach is leading to results and there has been a reduction in the number of households placed in temporary accommodation.

**Well Run Council**

**Key performance indicators**

Description	2017/18		2016/17	Direction of Travel
	Value	Target	Value	
Percentage of Council Tax collected	94.2%	94.5%	93.9%	Improving
Percentage of Non-domestic Rates Collected	97.5%	97.2%	90.6%	Improving
The Average Number of Working Days Lost per Employee due to Sickness Absence in Bradford Council (Excluding Schools)	12.06	9.76	11.33	Getting Worse
Percentage of total third party spend with suppliers operating from within the District	42.97%	49%	50.22%	Getting Worse
Percentage of staff who have received a performance review and have a performance plan in place	15%	100%		

**Year on year savings:** We have failed to meet our savings target in full but still achieved £22.6m in savings in 2017-18. Over the next two years forecasts indicate that a further £33.4m savings will need to be delivered.

**Sickness absence:** The management of sickness absence continues to be a Council priority and sickness absence rates have improved year on year. However, the outturn figure for March 2018 has seen a slight increase in absence. 28% of absence is linked to mental health. Measures to address this include managing mental health in the workplace workshop for managers. HRPlus provide advice and support on the management of sickness absence and management information is shared with management teams to monitor and measure performance. New case management targets for managers are being introduced.

**Increase percentage of staff receiving a performance review:** We have recently introduced a new performance management framework which includes an online system enabling us to record and monitor employee performance throughout the performance cycle. From the data generated by the system we will be able to determine how many of our employees are having regular performance discussions with their managers.

## Balance Sheet

### Net Worth

The Council started the year with £191m in usable reserves and an unusable reserves deficit of £483m, yielding a net negative worth of £292m. Usable reserves close £12m up at £203m. The deficit on unusable reserves has also improved to £468m, resulting in the Council having a negative net worth of £265m.

The main movements that make up the increase of £27m in the Council's net worth were:

- a £22m increase in long term assets
- a £14m decrease in net current assets
- a £19m reduction in long term liabilities

Long terms assets stand at £1,045m. The long term liabilities of £1,335m are dominated by three items:

- the pension liability of £824m. This long-term liability will be met by payment obligations estimated over more than twenty years (See below)
- the £178m contractual liabilities for schools PFI contracts. Over time these will be matched by Government funding which is not shown on the face of the balance sheet, due to the accounting rules.
- long-term borrowing from the Government's Public Works Loan Board of £313m.

### Pension Liabilities

The net Pension Fund deficit comprises the pension liabilities (estimated cost of promises by the Council to pay future pension benefits to employees) less pension assets (investments set aside to fund the liabilities). These investments set aside typically comprise equities, bonds, cash and property. Overall, the net Pension Fund deficit decreased by £6m from £830m to £824m as at 31 March 2018.

This decrease of £6m was caused by a £77m increase in the value of the pension assets, offset by a £71m increase in pension liabilities. The increase to pension liabilities was due to interest charges and changes to the demographic and financial inputs within the actuarial model.

The actuarial model is a long-range estimate and liability, in which the actuary takes a 20 years plus perspective of financial market performance and of the life expectancy of pension recipients.

### Capital Spending

#### Capital Spending in 2017-18

The Council spent £72.9m in the year (£61.5m in 2016-17).

The table shows total spend by department, including some of the major schemes

Major Capital Schemes Expenditure 2017-18		
Department and Schemes	Main Schemes	Total Spend
	£000	£000
<b>Health and Wellbeing</b>		<b>3,125</b>
Keighley Road Extra Care	1,805	
Keighley Road Residential Care	1,097	
<b>Children' s Services</b>		<b>13,875</b>
Primary Schools Expansion Programme	4,090	
SEN School Expansion	1,195	
Capital Maintenance Grant	4,400	
Schools direct revenue funding	1,458	
<b>Place – Economy and Development Services</b>		<b>20,982</b>
New Affordable Housing	13,086	
Disabled Housing Facilities Grant	3,951	
Leeds City Region Revolving Investment Fund	1,148	
<b>Place – Planning, Transport and Highways</b>		<b>14,486</b>
Capital Highways Maintenance	4,960	
Integrated Transport	1,061

Cliffe Castle	2,360	
<b>Corporate Resources</b>		<b>7,673</b>
Property Programme	2,186	
Investment Property – NCP Carpark	4,352	
<b>Total</b>		<b>72,902</b>

#### Where the money came from to pay for the spending on capital schemes in 2017-18

The Council can borrow to fund capital investment. It sets and observes a range of indicators covering the level of capital expenditure and the cost of financing it, to ensure borrowing is responsible and affordable. One such measure is the Council's Capital Financing Requirement, which represents the amount of Council's capital expenditure funded by internal or external borrowing. In 2017-18 it increased from the level in 2016-17 of £653.419m to £669.454m.

The main reason for the increase in the Capital Financing Requirement was the recognition of an overprovision in the amount set aside to repay debt.

Other than borrowing, the Council receives capital grants towards some projects, reinvests its capital receipts, or uses revenue resources to fund capital spending.

In 2017-18 the capital spending of £72.9m was funded as follows:

- £17.0m (23%) by borrowing generating capital financing charges which will form part of future revenue spending.
- £41.2m (57%) from government and other grants.
- £5.9m (8%) from revenue contributions and other revenue reserves.
- £8.6m (12%) from capital receipts from the sale of land and buildings.
- £0.2m (0%) from other Finance Leases.

#### Schools

In recent years, the value of Property, Plant and Equipment shown on the Balance Sheet has been volatile due to changes in convention about how to account for education assets and the ability of the Council to control the assets and influence future service potential.

Where the Council directly owns a school or where the School Governing body own the assets or have had rights to use the assets transferred to them, the school is recognised on the Balance Sheet. Community Schools are owned by the Council and are therefore recognised on the Balance Sheet.

Of the Council's Voluntary Aided and Controlled schools, the majority are owned by the respective Diocese with no formal rights to use the assets passed to the School or Governing Bodies. The schools are owned by trusts run by religious organisations and provision is available by the extended goodwill of the trust. As a result these schools are not recognised on the Balance Sheet.

Where the ownership of a Trust/Foundation School lies with a charitable Trust, including Academies, the school is not recognised on the Council's Balance Sheet.

There are seven Foundation schools where as the ownership lies with the School/Governing Body the school is recognised on the Council's Balance sheet. The Council considers it exercises sufficient control over the school governing bodies to warrant recognition of any school where ownership is invested in the governing body.

In 2017-18 seven schools converted to Academies, four of which were Community Schools and as at 1 April 2017, on the Council's Balance Sheet. The other three schools (Voluntary Controlled and Foundation) were not on the Council's Balance Sheet. In addition one Academy School constructed by the Council and on the Council's Balance Sheet as at 1 April 2017 has during the year completed a long term lease. The value of these disposals was £28.4m. The Council is not recompensed for any of these disposals. The table below categorises all Bradford schools and sets out the current accounting treatment.

Type of school	2016-17	2017-18	Accounting Treatment
Community	68	65	On Balance Sheet
Special Schools	6	4	On Balance Sheet
Foundation	9	8	1 Church of England Off Balance Sheet, 7 owned by Governing Bodies On Balance Sheet
Voluntary Aided	24	24	Off Balance sheet
Voluntary Controlled	10	8	Off Balance sheet (with the exception of 3 VC schools the Council still holds the legal title)
Academies	72	79	Off Balance sheet
Trust	2	2	Off Balance sheet
<b>TOTAL SCHOOLS</b>	<b>191</b>	<b>190</b>	
Nurseries	7	7	On Balance Sheet

On the 1 September 2017 Hothfield Juniors and Aireview Infants merged to form one school, known as Silsden Primary School.

For further information on how the Council decides which schools should be included on its Balance Sheet see the Critical Judgements in Applying Accounting Policies on page 38.

### Significant Provisions at 31 March 2018

The provisions total £22.534m at 31 March 2018 (£20.362m at 31 March 2017) and are included in Note 20 on page 53. They are split on the Balance Sheet between short term (up to one year from the Balance Sheet date), and long term.

The significant movements in provision balances in year were as follows:

- The cost of planned future termination costs in 2017-18 and future years arising from the detailed saving proposals approved as part of the 2017-18 Budget has been assessed as £8.1m.
- The provision to cover the risk of day to day insurance losses has been reduced by £1.371m to £5.734m.
- The provision on personal property search fees is £0.1m.
- After charging £4.775m to the Council's provision for the outcome of successful appeals against the Valuation Office's 2010 Business Rates Valuation list, a further £8.240m has been set aside for outstanding appeals. This leaves Bradford's estimated share of lost Business Rates income as a result of appeals at 31 March 2018 at £7.48m.

### Usable Reserves

Usable reserves total £203m at 31 March 2018, falling broadly into £182m reserves controlled by the Council and £21m controlled by community schools.

## Council Reserves

The Council's policy is to earmark its reserves to fund one-off or transitional activity while reducing its recurrent cost base, to hold some reserves unallocated to support future budgets, to allocate some reserves for capital expenditure, and to hold some reserves as contingency.

£171m of earmarked reserves are set aside for future revenue and capital commitments.

£14.5m of unallocated reserves available to support future budget decisions, a very small financial cushion in the context of the very significant fiscal challenge ahead.

The Council has a General Fund balance of £10.8m, which is an operational contingency representing less than 1% of gross revenue spending.

£50m revenue and capital grants are held pending being spent on their specified purposes.

A detailed analysis of all the Reserves held by the Council is set out in Note 5, Page 42.

## School Reserves

The balances of £20.6m comprise £7.1m held by schools and £13.5m held centrally for school contingencies. Of the £13.5m for school contingencies, £8.0m has been used straight away to fund the 2018-19 budget and £0.1m relates to schools that have converted to academies where the authority is in the process of transferring final balances to the new academies.

## Unusable Reserves

Unusable reserves represent positive or negative value owned by taxpayers. They cannot be used to support operational revenue and capital activity, and are typically related to long-term assets and liabilities in the balance sheet. They stood at £468.143m deficit at the year end, and their key components are:

- £181m revaluation reserve, which arises because of upward changes in the value of balance sheet assets. This value can only be realised if assets are disposed
- £194m capital adjustment account, which reflects the timing differences between how assets are financed, and how they are charged for under accounting arrangements. This value will be released as those differences are eroded over the life of the individual assets.
- The Pensions reserve of £824m deficit, which mirrors the Pension Fund liability described above. It alone causes the unusable reserves in total to be in deficit.

## Taxation

### Council Tax

After distributing in 2017-18 the opening surplus balance on the Council Tax Collection Fund, £2.1m, the Council Tax element of the Collection Fund ended the year £1.1m in deficit. A deficit of £0.975m, Bradford's 85% share, is reported in the accounting statements. An amount has been set aside in earmarked reserves to fund the repayment of this deficit in 2018-19.

### Business rates

Business Rates collected by Bradford Council are shared between itself, central government and the West Yorkshire Integrated Fire Authority. Any difference between what the Council forecast it would raise in Business Rates in 2017-18 and what it has actually raised results in either a surplus or deficit on the Collection Fund.

A deficit of £3.7m was outturned, Bradford's share being £1.8m, which has to be paid back in 2018-19.

However, the portion of Bradford's share of the deficit caused by an increase in mandatory reliefs will be offset by compensatory Section 31 grants. These additional grants were for £0.735m and have been set aside in an earmarked reserve, to be released in 2018-19. The remaining portion of Bradford's share of the deficit on the Business Rates Collection Fund was forecast and fully incorporated into the 2018-19 budget. This means that Business Rate income incorporated in the 2018-19 budget was reduced to account for the paying back of the anticipated deficit from 2017-18.

## Financial Performance and Budgetary Control

This section of the report explains financial performance from the statutory reporting perspective, which reflects the internal budgetary control accountabilities. A more comprehensive assessment of departmental spending will be contained in the 2017/18 Finance and Performance Outturn Report presented to the Council's Executive in July.

In the tables below, we show the planned and budgeted results from two perspectives.

Table 1a shows spending by Department, reflecting the Council's internal management accountabilities. Budgets are allocated to Directors who are accountable for their departmental expenditure.

1a: Budgeted and Actual Expenditure and Income (Department)

	Gross expenditure			Income			Net expenditure		
	Budget £m	Actual £m	Variance £m	Budget £m	Actual £m	Variance £m	Budget £m	Actual £m	Variance £m
<b>Services to the public &amp; businesses</b>									
Health and Wellbeing	226.7	235.7	8.9	-107.2	-109.3	-2.2	119.6	126.3	6.8
Children's Services	477.1	488.0	10.9	-395.0	-402.6	-7.7	82.1	85.4	3.3

<b>Council Funding</b>	<b>-16.8</b>	<b>-16.8</b>	<b>-</b>	<b>-358.4</b>	<b>-358.5</b>	<b>-0.2</b>	<b>-375.2</b>	<b>-375.4</b>	<b>-0.2</b>
<b>Total*</b>	<b>1,249.9</b>	<b>1,251.4</b>	<b>1.6</b>	<b>-1,249.9</b>	<b>-1,251.7</b>	<b>-1.9</b>	<b>-</b>	<b>-0.3</b>	<b>-0.3</b>

\* At year end the £0.3m overall underspend is moved to reserves on the balance sheet to make the income and expenditure account £0.

Service budgets and actuals include year end accounting adjustments for depreciation, impairment and pensions. They also include Facilities Management costs and budgets (utilities and repairs) which during the year are managed and controlled within Corporate Resources. These affect Service's budgets and actual spend but have nil impact on the final service variances.

Source: The Council's ledger (SAP) as at 31 March 2018

#### 2018/19 and Beyond

The Council's Medium Term Financial Strategy plans to balance ongoing reductions in Central Government funding with savings in the day to day cost of service provision. Helping to offset these savings in day to day expenditure, the Council has identified funding for a £500m programme of capital projects up to 2020-2021. It is in this financial context that the Council Plan maintains an ambitious vision for employment, the economy, education, health, housing and community safety. Priorities to deliver this vision have been identified as transport and education.

The Council's day to day costs are funded from a small number of items of general funding: Council Tax; Business Rates, fees from service users, reserves and Government Funding. Government Funding comprises firstly the Revenue Support Grant, which is on a reducing path and secondly grants connected to Business Rates, which will be reorganised in the future. Reserves can only be used up once. Therefore, essential to funding day to day expenditure is building up Council Tax and Business Rates. Council Tax and Business Rates collection will itself be boosted by improvement to the district's economy, which is already part of the Council's vision. Equally though, this collection is vulnerable to a downturn in the economy, increasing the need for the Council to retain reserves.

Also the small number of funding items will be subject to significant but unknown change in the future, which will have a significant impact on the Council's finances. The Government has commissioned a review of funding to Local Government. Further, the share of Business Rates between the Council and the Government is likely to change, as well as other technical changes to Business rates. There will also be a Spending Review 2019. The Council also uses specific government grants to fund day to day expenditure. However, these grants can only be used for a set purpose and cannot be used to fund other items of Council expenditure. Examples include the Dedicated Schools Grant and the Public Health Grant, which is reducing with an impact on the Council's ability to fund services.

Overall, while the outcome of all the reviews and changes are unknown, it is inevitable the future trend is one of significant reductions in overall Council funding. Therefore the comprehensive delivery of the Council's savings plan in the 2018-19 budget is essential. Such delivery will require determination and rigorous monitoring.

The Council continues to invest in capital projects in the district, with £60.5m spend in 2017-18. This included £21m of spend on the district's schools, supporting the overall vision on education and £13m on supporting the vision for affordable housing. The £500m programme for future capital projects up to 2020-2021 was approved as part of the 2018-19 budget. This programme includes further funding for schools, housing and transport infrastructure. Further there are significant schemes to boost the district, such as the redevelopment via City Centre markets and St Georges Hall. Funding for 2017-18 and future capital spend is a mixture of sources. This comprises borrowing, some of which will be repaid from savings directly resulting

from the capital spend. Other sources are sales of the Council's current land and property, as well as specific capital grants received from other public sector bodies and the use of reserves.

Useable reserves, which can fund both capital and day to day spend have increased in 2017-18. This is mainly due to a past overpayment of the amount set aside to repay past debt. Such debt, incurred to fund past capital spend, has been rescheduled over a longer period, given the time that land and buildings owned by the Council will bring service benefits. This means that some previous overpayments have been used to increase useable reserves. These additional reserves can only be used once. However, they provide some insurance against the risks of changes in Local Government funding, a down turn in the economy and other one-off pressures.

The distribution of all available funding for capital projects and day to day expenditure is underpinned by the Council Plan, which can be summarised across 5 key outcomes:

- Better skills, more good jobs and a growing economy
- A great start and good schools for all our children
- Better health, better lives
- Decent homes that people can afford to live in
- Safe clean and active communities
- A well run Council

The delivery of such aims is assisted by monitoring performance indicators. Overall, the Council Plan sets out a route to achieve's the Council's vision in the context of the financial and economic outlook.

However, as detailed above the financial outlook is subject to significant change, due to future issues such as the Government review of Local Government funding and the vulnerability of Business Rates and Council Tax to an economic downturn. There will also continue to be reductions in Government finding. Despite this challenging environment, the Council retains an ambitious vision for the district, with a detailed financial strategy and substantial capital programme.

## Movement in Reserves Statement

This Statement shows the movement in the year on the different reserves held by the Council, analysed into “usable reserves” (i.e. those that are real cash) and other non cash reserves. The closing 31 March 2018 General Fund Balance of £31.353m comprises £10.803m (£10.803m in 2016-17) balances generally available to the Council and £20.550m (£25.217m in 2016-17) cash balances held on behalf of schools under the Local Management Scheme.

The deficit on the Provision of Services line of £43.755m (deficit of £150.476m in 2016-17) within the Income and Expenditure account is reversed out of usable reserves into unusable reserves. This is because by statute many of the accounting transactions making up the deficit cannot be charged against the General Fund Account. Unusable reserves have increased by £15.220m (reduction of £238.921m in 2016-17).

## Comprehensive Income and Expenditure Statement

This statement shows the accounting cost during the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with regulations; this may be different from the accounting cost. The taxation position is shown in the Movement in Reserves Statement.

## Balance Sheet

The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the Council. The net assets of the Council (assets less liabilities) are matched by the reserves held by the Council. Reserves are reported in two categories. The first category of reserves is usable reserves, which represent real cash available to the Council to provide services. The Council must maintain a prudent level of these reserves for unexpected events. The second category of reserves does not represent real cash. It includes reserves that hold unrealised gains or losses (for example the Revaluation Reserve) where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line "Adjustments between accounting basis and funding basis under regulations".

31 March 2017		31 March 2018	Notes

483.363	Unusable Reserves	468.143	Note 21
<b>292.046</b>	<b>Total Reserves</b>	<b>265.294</b>	

The total assets less liabilities of the Council are financed by movements in reserves. There was an increase in total reserves of £26.752m from a deficit of £292.046m at 31 March 2017 to a deficit of £265.294m at 31 March 2018.

## Cash Flow Statement

The Cash Flow Statement shows the changes in cash and cash equivalents of the Council during the reporting year. The statement shows how the Council generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Council are funded by way of taxation and grant income or from the recipients of services provided by the Council i.e. fees and charges. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Council's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the Council.

2016-17		2017-18

**Note 1. Statement of Significant Accounting Policies**

The following notes are provided to give more detailed analysis in support of the main financial statements. They include all the information authorities are required to disclose except that for this Council the following disclosure requirements are not relevant for the 2017-18 Statement of Accounts:

- Schemes under the Transport Act 2000 (road user charging and workplace parking levy schemes): The Council has not entered into any such activities.
- Business Improvement District (BID) schemes: No such schemes have been established by the Council.
- Changes in depreciation method: There has been no change to the way fixed assets are depreciated.
- Changes in the basis of amortisation of intangibles: There has been no change to the way in which intangible assets are amortised.
- Analysis of net assets used by General Fund services, Housing Revenue Account (HRA) Services and trading services: The Council has no HRA and none of its trading services uses a material level of the overall net assets.

The accounts have been prepared in accordance with:

- The Accounts and Audit Regulations 2015.
- The Code of Practice on Local Authority Accounting in the United Kingdom 2017-18 issued by the Chartered Institute of Public Finance and Accountancy (CIPFA).
- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board as adopted and adapted by the Code.

**Fundamental Accounting Principles**

Where specific legislative requirements and accounting principles conflict, legislative requirements are applied.

Consistent accounting policies have been applied both within the year and between years unless otherwise identified.

The accounts have been prepared on a going concern basis and reflect the reality or substance of the transactions and activities underlying them, rather than their formal character.

The financial statements give a true and fair presentation of the financial position, financial performance and cash flows of the Council.

Balances and transactions are recognised gross rather than netted off each other.

Comparative information is disclosed in respect of the previous period for all amounts reported in the current period's financial statements.

The concept of materiality has been used such that insignificant items and fluctuations under an acceptable level of tolerance are permitted, provided in aggregate they would not affect the interpretation of the accounts.

Where estimation techniques are required to enable the accounting practices adopted to be applied, then the techniques which have been used are, in the Council's view, appropriate and consistently applied. Where the effect of a change to an estimation technique is material, a description of the change and, if practicable, the effect on the results for the current period is disclosed separately.

**i. Accruals of Income and Expenditure**

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Revenue from the sale of goods is recognised when the Council transfers the significant risks and rewards of ownership to the purchaser and it is probable that economic benefits or service potential associated with the transaction will flow to the Council.
- Revenue from the provision of services is recognised when the Council can measure reliably the percentage of completion of the transaction and it is probable that economic benefits or service potential associated with the transaction will flow to the Council.
- Supplies are recorded as expenditure when they are consumed – where there is a gap between the date supplies are received and their consumption, they are carried as inventories on the Balance Sheet.
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.
- Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet.

There are a small number of exceptions to the accruals concept:

- A 12-month charge is included for payments to public utilities but this may not necessarily be the period of the financial year.
- Expenditure on rent allowances is accounted for on a 52-week basis, with an occasional 53rd week being charged into the accounts.

#### **ii. Cash and Cash equivalents**

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts, but in the balance sheet these are shown gross.

#### **iii. Exceptional Items**

When items of income and expenditure are material, their nature and amount is disclosed separately, either on the face of the Comprehensive Income and Expenditure Statement or in the Notes to the Accounts, depending on how significant the items are to an understanding of the Council's financial performance.

#### **iv. Prior Period Adjustments, Changes in Accounting Policies and Estimates and Errors**

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Council's financial position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied. Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

#### **v. Charges to Revenue for Non – Current Assets**

Services, support services and trading accounts are debited with the following amounts to record the cost of holding fixed assets during the year:

- Depreciation attributable to the assets used by the relevant service.
- Revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off.
- Amortisation of intangible fixed assets attributable to the service.

The Council is not required to raise Council Tax to fund depreciation, revaluation and impairment losses or amortisation. However, it is required to make an annual contribution from revenue towards the reduction in its overall borrowing requirement, in accordance with the Prudential Code. This requires that the Council sets the annual contribution at a prudent level, so that the contribution pays broadly for the benefit in each year of the capital expenditure in proportion to the overall borrowing required. Depreciation, revaluation and impairment losses and amortisation are therefore replaced by the MRP (Minimum Revenue Provision) contribution in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

#### **vi. Employee Benefits**

##### **Benefits Payable During Employment**

Short-term employee benefits are those due to be settled within 12 months of the year-end. They include such benefits as wages and salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits (for example, leased cars) for current employees and are recognised as an expense for services in the year in which employees render service to the Council. An accrual is made using appropriate sampling techniques for the estimated cost of holiday entitlements (or any form of leave) earned by employees but not taken before the year-end which employees can carry forward into the next financial year. The accrual is charged to the Surplus or Deficit on the Provision of Services, but then reversed out through the Movement in Reserves Statement so that holiday benefits are charged out to revenue in the financial year in which the holiday absence occurs.

##### **Termination Benefits**

Termination benefits are amounts payable as a result of a decision by the Council to terminate an employee's employment (before the normal retirement date) or an employee's decision to accept voluntary redundancy. They are charged on an accruals basis to individual Services in the Comprehensive Income and Expenditure Statement when the Council is demonstrably committed to the termination of the employment of an employee or is making an offer to encourage voluntary redundancy.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund balance to be charged with the actual amount payable by the Council to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and

from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year end.

### Post-Employment Benefits

Employees of the Council are members of two separate pension schemes:

- The Local Government Pensions Scheme, administered by Bradford Council on behalf of the West Yorkshire Pension Fund.
- The Teachers' Pension Scheme, administered by Capita Teachers' Pensions on behalf of the Department for Education (DfE).

Both schemes provide defined benefits to Members (retirement lump sums and pensions), earned as employees work for the Council. However, the arrangements for the teachers' scheme mean that liabilities for these benefits cannot ordinarily be identified specifically to the Council. The scheme is therefore accounted for as if it were a defined contribution scheme and no liability for future payments of benefits is recognised in the Balance Sheet. The Children's Services line in the Comprehensive Income and Expenditure Statement is charged with the employer's contributions payable to Teachers' Pensions in the year.

### The Local Government Pension Scheme

The Local Government Scheme is accounted for as a defined benefits scheme:

- The liabilities of the West Yorkshire Pension Fund attributable to the Council are included in the Balance Sheet on an actuarial basis using the projected unit method – i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, and any other relevant factors, and projections of projected earnings for current employees.
- Liabilities are discounted to their value at current prices, using a discount rate based on the indicative rate of return on high quality corporate bond. The discount rate adopted by the Actuary is based on a weighted average of "spot yield" on AA rated corporate bonds.
- The assets of the West Yorkshire Pension Fund attributable to the Council are included in the Balance Sheet (netted from the overall pension liability) at their fair value:
  - quoted securities – current bid price.
  - unquoted securities – professional estimate.
  - unitised securities – current bid price.
  - property – market value.

The change in the net pensions liability is analysed into six components:

- Current service cost – the increase in liabilities as a result of years of service earned this year – allocated in the Comprehensive Income and Expenditure Statement to the services for which the employees worked.
- Past service cost – the increase in liabilities arising from current year decisions whose effect relates to years of service earned in earlier years – debited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement.
- Net interest expense on the defined benefit obligation – the expected increase in the present value of liabilities during the year as they move one year closer to being paid – debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. This is netted off the annual investment return on the fund assets attributable to the Council, based on an average of the expected long-term return – credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.
- Gains or losses on settlements and curtailments – the result of actions to relieve the Council of liabilities or events that reduce the expected future service or accrual of benefits of employees – debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement.
- Re-measurement of the net defined benefit obligation – changes in the net pension liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions.
- Contributions paid to the West Yorkshire Pension Fund – cash paid as employer's contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

Additional pension costs such as early retirement costs, for which the WYPF recharge the Council direct, have been included in the liabilities and contributions in line with International Accounting Standard (IAS) 19 R.

All defined benefits awarded to employees are recognised in the pension liability, and an actuarial calculation of the liabilities in respect of the compensatory added years benefits awarded to teachers has been obtained and included within the overall pension liability.

The difference between the value of the pension fund assets calculated by the actuary and the present value of scheme liabilities is shown in Note 21d relating to the Pension Reserve, see page 56.

In relation to retirement benefits, statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are appropriations to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash

paid to the pension fund and pensioners and any such amounts payable but unpaid at the year end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

Local Government Pension Scheme members retiring on or after 6 April 2006 can elect to take a higher lump sum in exchange for a lower retirement benefit. The commutation terms mean that it is less costly for the scheme to provide the lump sum than the pension, as more members take up this option, employers' pension costs are reduced. At its inception it was assumed that 50% of members will take up the option to increase their lump sum to the maximum available. However, the 2017-18 figures are based on actual take-up levels up to 31 March 2018.

### Teachers' Pensions

The Council is responsible for the costs of any additional benefits awarded upon early retirement outside of the terms of the teacher's scheme. These benefits are fully accrued in the pension liability.

### Discretionary Benefits

The Council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff (including teachers) are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

### vii. Events After the Balance Sheet Date

Events after the Balance Sheet date are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- Those that provide evidence of conditions that existed at the end of the reporting period – the Statement of Accounts is adjusted to reflect such events.
- Those that are indicative of conditions that arose after the reporting period - the Statement of Accounts is not adjusted to reflect such events, but where a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

### viii. Financial Instruments

A financial instrument is defined as any contract that gives rise to a financial asset of one entity and a financial liability of another. The term covers both financial liabilities and financial assets and, includes the borrowing, trade payables, lending, trade receivables, investments and bank deposits of the Council.

#### Financial Liabilities

Financial liabilities are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument. They can be classified either as *financial liabilities at amortised cost* or as *financial liabilities through profit and loss*.

Those classified as *financial liabilities at amortised cost* are initially measured at fair value and are carried at their amortised cost. Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

For most of the borrowings that the Council has, this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest); and interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year according to the loan agreement.

Where premiums and discounts have been charged to the Comprehensive Income and Expenditure Statement, regulations allow the impact on the General Fund balance to be spread over future years. The Council has a policy to spread the gain or loss over the term that was remaining on the loan against which the premium was payable or discount receivable when it was repaid, or ten years (if shorter). The reconciliation of amounts charged to the Comprehensive Income and Expenditure Statement to the net charge required against the General Fund is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

#### Financial Assets

Financial assets are classified into two types:

- Loans and receivables – assets that have fixed or determinable payments but are not quoted in active market.
- Available-for-sale financial assets – assets that have a quoted market price and/or do not have fixed or determinable payments.

#### Loans and Receivables

Loans and receivables are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual

credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument.

Where a council has assets which are identified as impaired because of a likelihood arising from a past event that payments due under the contract will not be made, the asset is written down and a charge made to the relevant service (for receivables specific to that service) or the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate.

Any gains and losses that arise on the derecognition of an asset are credited or debited to Financing and Investment Income and Expenditure in the Comprehensive Income and Expenditure Statement.

### Available-for-Sale Financial Assets

Available-for-sale financial assets are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Where the asset has fixed or determinable payments, annual credits to Financing and Investment Income and Expenditure in the Comprehensive Income and Expenditure Statement for interest receivable are based on the amortised cost of the asset multiplied by the effective rate of interest for the instrument. Where there are no fixed or determinable payments, income (e.g. dividends) is credited to the Comprehensive Income and Expenditure Statement when it becomes receivable by the Council.

Assets are maintained in the Balance Sheet at fair value. Values are based on the following principles:

- Instruments with quoted market prices – the market price.
- Other instruments with fixed and determinable payments – discounted cash flow analysis.
- Equity shares with no quoted market prices – independent appraisal of company valuations.

The inputs to the measurement techniques are categorised in accordance with the following three levels:

- Level 1 inputs – quoted prices (unadjusted) in active markets for identical assets that the authority can access at the measurement date.
- Level 2 inputs – inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly.
- Level 3 inputs – unobservable inputs for the asset.

Changes in fair value are balanced by an entry in the Available-for-Sale Reserve and the gain/loss is recognised in the Surplus or Deficit on Revaluation of Available-for-Sale Financial Assets. The exception is where impairment losses have been incurred – these are debited to Financing and Investment Income and Expenditure in the Comprehensive Income and Expenditure Statement, along with any net gain or loss for the asset accumulated in the Available-for-Sale Reserve.

Where there is a gain or loss in fair value on Available for Sale Financial Assets, this change is shown separately within Other Comprehensive Income and Expenditure in the Income and Expenditure Account, under the heading "Gains and Losses reclassifiable into the Surplus or Deficit on the Provision of Service". Changes in fair value on Available for Sale Financial Assets can be subsequently recognised in the Surplus or Deficit on Provision of Service on derecognition.

Where assets are identified as impaired because of a likelihood arising from a past event that payments due under the contract will not be made (fixed or determinable payments) or fair value falls below cost, the asset is written down and a charge made to Financing and Investment Income and Expenditure in the Comprehensive Income and Expenditure Statement. If the asset has fixed or determinable payments, the impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate. Otherwise, the impairment loss is measured as any shortfall of fair value against the acquisition cost of the instrument (net of any principal repayment and amortisation).

Any gains and losses that arise on the derecognition of the asset are credited or debited to Financing and Investment Income and Expenditure in the Comprehensive Income and Expenditure Statement, along with any accumulated gains or losses previously recognised in the Available-for-Sale Reserve.

Where fair value cannot be measured reliably, the instrument is carried at cost (less any impairment losses).

### ix. Foreign Currency Translation

Where the Council has entered into a transaction denominated in a foreign currency, the transaction is converted into sterling at the exchange rate applicable on the date the transaction was effective. Where amounts in foreign currency are outstanding at the year end, they are reconverted at the spot exchange rate at 31 March. Resulting gains or losses are recognised in Financing and Investment Income and Expenditure in the Comprehensive Income and Expenditure Statement.

### x. Government Grants and Contributions

Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as due to the Council when there is reasonable assurance that:

- The Council will comply with the conditions attached to the payments.
- The grants or contributions will be received.

Amounts recognised as due to the Council are not credited to the Comprehensive Income and Expenditure Statement until conditions attached to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset acquired using the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service (attributable revenue grants and contributions) or Taxation and Non-Specific Grant Income (non-ringfenced revenue grants and all capital grants) in the Comprehensive Income and Expenditure Statement.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied Reserve. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied Reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

Where grants can be treated as revenue or capital, they will in the first instance be treated as revenue grants, with the expectation that the grants are credited to the Comprehensive Income and Expenditure account and then transferred to a grant earmarked reserve. There is an expectation that the grants will be credited in full into the Comprehensive Income and Expenditure statement because where grants can be used either for a capital or revenue purpose, it is likely that the Council has met the conditions of the grant. In the unlikely event that the conditions have not been met, the grant will be treated as a receipt in advance and carried forward into the next financial year as a liability on the balance sheet.

Some grants credited to the grant earmarked reserves will be used for a capital purpose. In these instances, they will be transferred directly to the Capital Adjustment Account via the Movement in Reserves Statement as an adjustment between accounting basis and funding basis under regulations. This will have no impact on the net assets of the Council.

Prior to the implementation of the above policy, some grants may have been credited to the capital grants unapplied reserve when they can be used for either a revenue or capital purpose. Where this has happened and grants have previously been credited to the capital grants unapplied reserve but are then identified as resourcing for a revenue purpose within the rules of the grants, they will be transferred directly via the Movement in Reserves from the capital grants unapplied reserve and into the grant earmarked reserve.

### **xi. Heritage Assets**

The Council's Heritage Assets are assets that are held by the Council principally for their contribution to knowledge and/or culture. They are recognised and measured including treatment of revaluation gains and losses in accordance with the Council's accounting policies on Property, Plant and Equipment. However, some of the measurement rules are relaxed in relation to heritage assets as detailed below.

These are assets which are intended to be preserved in trust for future generations because of their cultural, environmental or historical associations. Where it is practicable to obtain a valuation, heritage assets are held at current value. Valuation methods used by the authority include professional valuations and insurance valuations. The Council has recognised the major pieces of its museum collection on the Balance Sheet on the basis of the lower valuation completed by an external valuer. Civic regalia has been included using as its base the detailed insurance valuations (which are based on market values provided by an external valuer in 2010) held by the Council in respect of the collection.

Where a current valuation is not practicable at a reasonable cost, heritage assets are held at historic cost, if this is known. If neither current valuation nor historic cost is available then heritage assets are not recognised on the balance sheet. The Council discloses information about the nature and scale of its collections of heritage assets, whether or not these have been identified on the balance sheet.

In 2013-14, the accounting policy for one category of Heritage Assets changed, so that items in Museum collections are only included in the balance sheet, where an independent valuation is available.

The Council is unlikely to be able to recognise the majority of the ceramics, porcelain work, figurines, pottery, machinery, ephemera, photography, biological and geological records and specimens, books and manuscripts in future financial statements. This is due to the fact that obtaining valuations for the vast majority of these collections would involve a disproportionate cost of obtaining the information in comparison to the benefits to the users of the Council's financial statements.

The Council discloses information about the nature and scale of its collections of heritage assets, whether or not these have been identified on the balance sheet.

Heritage assets are assumed to be held in perpetuity, and are therefore not depreciated. However, heritage assets are reviewed for impairment in the same way as any other tangible or intangible assets.

The Council has had a number of items kindly donated over the years, but it has insufficient information as to what the value would have been when they were donated. The Council has therefore not recognised any of these assets in the Donated Assets Account on the Balance Sheet prior to 1 April 2010, although their current value might be included as Long Term Assets on the Balance Sheet.

Some assets are also classified as operational heritage assets where they are in addition to being held in trust for future generations, also used by the Council for other activities and services. In such cases, the assets are classified, valued and depreciated in accordance with their general type, for instance buildings.

## **xii. Intangible Assets**

Expenditure on non-monetary assets that do not have physical substance but are controlled by the Council as a result of past events (e.g. software licences), is capitalised, when it is expected that future economic benefits or service potential will flow from the intangible asset to the Council.

Internally generated assets are capitalised where it is demonstrable that the project is technically feasible and is intended to be completed (with adequate resources being available) and the Council will be able to generate future economic benefits or deliver service potential by being able to sell or use the asset. Expenditure is capitalised where it can be measured reliably as attributable to the asset and is restricted to that incurred during the development phase (research expenditure cannot be capitalised).

Expenditure on the development of Council websites is not capitalised if the website is solely or primarily intended to promote or advertise the Council's goods or services.

Intangible assets are measured initially at cost. Amounts are only revalued where the fair value of the assets held by the Council can be determined by reference to an active market. In practice, no intangible asset held by the Council meets this criterion, and they are therefore carried at amortised cost. The depreciable amount of an intangible asset is amortised over its useful life to the relevant service in the Comprehensive Income and Expenditure Statement. An asset is tested for impairment whenever there is an indication that the asset might be impaired – any losses recognised are posted to the relevant services in the Comprehensive Income and Expenditure Statement. Any gain or loss arising on the disposal or abandonment of an intangible asset is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement.

Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation, impairment losses and disposal gains and losses are not permitted to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

## **xiii. Interests in Companies and Other Entities**

The Council does not have any material interests in companies and other entities that have the nature of subsidiaries, associates and joint arrangements which would require it to prepare group accounts.

The Council has financial relationships with a number of subsidiary and associated companies, in the main to manage the Building Schools for the Future (BSF) programme. None of them are material in size or nature. They are shown in the notes to the main financial statements and have been treated according to IAS 27 and IAS 28 (Associates).

## **xiv. Inventories and Long term Contracts**

Inventories are included in the Balance Sheet at the lower of cost and net realisable value.

Long term contracts are accounted for on the basis of charging the Surplus or Deficit on the Provision of Services with the value of works and services received under the contract during the financial year.

## **xv. Investment Property**

Investment properties are those that are used solely to earn rentals and/or capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are measured initially at cost and subsequently at fair value, based on the highest and best use value of the asset. Investment properties are not depreciated but valuations are assessed annually to ensure they reflect market conditions at year end. Gains and losses on revaluation are posted to Financing and Investment Income and Expenditure in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposals.

Rentals received in relation to investment properties are credited to Financing and Investment Income and result in a gain for the General Fund Balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

## **xvi. Joint Arrangements**

Joint arrangements are activities undertaken by the Council in conjunction with other venturers that involve the use of the assets and resources of the venturers rather than the establishment of a separate entity. The Council recognises on its Balance Sheet the assets that it controls and the liabilities that it incurs and debits and credits the Comprehensive Income and Expenditure Statement with the expenditure it incurs and the share of income it earns from the activity of the operation.

Joint arrangements may also mean items of property, plant or equipment that are jointly controlled by the Council and other venturers, with the assets being used to obtain benefits for the venturers. The joint arrangement does not involve the establishment of a separate entity. The Council accounts for only its share of the joint arrangements, the liabilities and expenses that it incurs on its own behalf or jointly with others in respect of its interest in the joint arrangement and income that it earns from the arrangement.

## xvii. Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases.

Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification.

Arrangements that do not have the legal status of a lease but convey a right to use assets in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

### The Council as Lessee

#### Finance Leases

Property, plant and equipment held under finance leases is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the inception of the lease (or the present value of the minimum lease payments, if lower). The asset recognised is matched by a liability for the obligation to pay the lessor. Initial direct costs of the Council are added to the carrying amount of the asset. Premiums paid on entry into a lease are applied to writing down the lease liability. Contingent rents are charged as expenses in the periods in which they are incurred.

Lease payments are apportioned between:

- a charge for the acquisition of the interest in the property – applied to write down the lease liability (together with any premiums received).
- finance charge (debited to Financing and Investment Income and Expenditure in the Comprehensive Income and Expenditure Statement).

Property, Plant and Equipment recognised under finance leases are accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life (where ownership of the asset does not transfer to the Council at the end of the lease period).

#### Operating leases

Where the Council does not have the risks and rewards of ownership, the rental income is shown in the Income and Expenditure account as an expense of the Services benefiting from the use of the leased property, plant and equipment.

### The Council as Lessor

#### Finance Leases

Where the Council grants a lease on one of its assets, a finance lease exists where the economic reality is a sale. This is usually when the minimum lease payments approximate to the value of the asset. The accounting treatment is that the related asset is removed from the balance sheet as a disposal and the lease payments separated into deferred capital receipts and interest income.

Any gain credited to the Comprehensive Income and Expenditure Statement on disposal is not permitted by statute to increase the General Fund Balance and is required to be treated as a capital receipt. Where a premium has been received, this is posted out of the General Fund Balance to the Capital Receipts Reserve in the Movement in Reserves Statement. Where the amount due in relation to the lease asset is to be settled by the payment of rentals in future financial years, this is posted out of the General Fund Balance to the Deferred Capital Receipts Reserve in the Movement in Reserves Statement. When the future lease rentals are received, the element for the capital receipt for the disposal of the asset is used to write down the lease debtor. At this point, the deferred capital receipts are transferred to the Capital Receipts Reserve.

The written off value of disposals is not a charge against Council Tax, as the cost of fixed assets is fully provided for under separate arrangements for capital financing. Amounts are therefore appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

#### Operating Leases

Where the Council grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is credited to Other Operating Expenditure in the Comprehensive Income and Expenditure Statement. Credits are made on a straight line basis over the life of the lease, even if this does not match the pattern of payments (for example, there is a premium paid at the commencement of the lease). Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as rental income.

## xviii. Property, Plant and Equipment

Assets that have physical substance and are held for use in the production of goods or services, for rental to others, or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

### Recognition

Expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment above the de minimis level of £10,000 is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential

associated with the item will flow to the Council and the costs of the item can be measured reliably. Expenditure that maintains, but does not add to an asset's potential to deliver future economic benefits or service potential (i.e. repairs and maintenance), is charged as an expense when it is incurred.

### Measurement

Assets are initially measured at cost, comprising:

- The purchase price.
- Any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

The Council does not capitalise borrowing costs incurred whilst assets are under construction.

The cost of assets acquired other than by purchase is deemed to be its current value, unless the acquisition does not have commercial substance (i.e. it will not lead to a variation in the cash flows of the Council). In the latter case, where an asset is acquired via an exchange, the cost of the acquisition is the carrying amount of the asset given up by the Council.

Assets are then carried in the Balance Sheet using the following measurement bases:

- Infrastructure and assets under construction – depreciated historical cost.
- Dwellings – current value, determined using the basis of Existing Use Value for Social Housing (EUUV-SH).
- Community assets – the Council values community assets at current value, with the exception of one asset, which is valued (£20.40m) at historical cost.
- Surplus assets – fair value, estimated at highest and best use, determined from the perspective of market participants.
- All other assets – current value, determined as the amount that would be paid for the asset in its existing use (existing use value – EUUV).

Where there is no market based evidence of current value because of the specialist nature of an asset, Depreciated Replacement Cost (DRC) is used as an estimate of fair value.

Where non-property assets (Vehicles, Plant, Furniture and Equipment) have short useful lives or low values (or both), depreciated historical cost basis is used as a proxy for fair value.

Assets included in the Balance Sheet at fair value are revalued sufficiently regularly to ensure that their carrying amount is not materially different from their current value at year end, but as a minimum every five years. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the Comprehensive Income and Expenditure Statement where they arise from the reversal of a loss previously charged to a service.

Where decreases in value are identified, they are accounted for by:

- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains).
- Where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

### Component Accounting

The Council's accounting policy from 1 April 2010 onwards is to apply component accounting to all assets being revalued, enhanced or acquired, with a net book value excluding land of £1m or more. Separate components will only be identified where their value is a minimum of 20% of the cost of the asset, and have a different life to other components of the asset. The main component classes to be separately valued will be the structure, plant and equipment, and 'other' to include unusual or one-off components. Where an existing asset is revalued into separate components, the actual or estimated value of the separate components will have to be derecognised. If the original cost is not known, the Council's Asset Management service will use an appropriate index to calculate the net current value of the relevant component.

The Council is also following the Code of Practice's requirements for componentisation where assets are acquired or enhanced, with the Council's £1m minimum value excluding land, for componentisation, as set out below:

- When new assets are acquired, separate components with value over 20%, are recognised on initial recognition. This is best assessed when the asset is first acquired.
- Where an asset is enhanced, separate components (over 20% of total value) have been recognised. These components will not just relate to the enhancement work, but to existing components as well.

### Impairment

Assets are assessed at each year end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for by:

- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains).
- Where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service in the Comprehensive Income and Expenditure Statement.

Where an impaired loss is reversed subsequently, the reversal is credited to the relevant service in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

### Depreciation

Depreciation is provided for all Property, Plant and Equipment assets by the systemic allocation of their depreciable amounts. An exception is made for assets without a determinable finite useful life (i.e. freehold land and certain Community Assets) and assets that are not yet available for use (i.e. assets under construction).

Depreciation is calculated on the following bases:

- Dwellings and other buildings – straight-line allocation over the useful life of the property as estimated by the valuer.
- Vehicles, plant, furniture and equipment – depreciated over 3 to 25 years as appropriate..
- Infrastructure – straight-line allocation over 30 years.

Where an item of Property, Plant and Equipment assets has major components whose cost is significant in relation to the total cost of the item, the components are depreciated separately.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Assets are not depreciated in their year of acquisition. Revalued assets do not have their useful economic life (UEL) or depreciation charges amended until the year following the revaluation.

### Disposals and Non-Current Assets Held for Sale

When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an Asset held for Sale. The asset is revalued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the Other Operating Expenditure in the Comprehensive Income and Expenditure Statement. Gains in fair value are recognised only up to the amount of any previous losses recognised in the Surplus or Deficit on Provision of Services. Depreciation is not charged on Assets Held for Sale.

If assets no longer meet the criteria to be classified as Assets Held for Sale, they are reclassified back to non-current assets and valued at the lower of their carrying amount before they were classified as held for sale (adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as Held for Sale), and their recoverable amount at the date of the decision not to sell.

Assets that are to be abandoned or scrapped are not reclassified as Assets Held for Sale.

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for sale) is written off to the Other Operating Expenditure in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals (if any) are credited to the same place in the Comprehensive Income and Expenditure Statement and accounted for as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Amounts received for a disposal in excess of £10,000 are categorised as capital receipts. A proportion of receipts relating to housing disposals (75% for dwellings, 50% for land and other assets, net of statutory deductions and allowances) is payable to the Government. The balance of receipts is required to be credited to the Capital Receipts Reserve, and can then only be used for new capital investment (or set aside to reduce the Council's underlying need to borrow), in the Capital Financing Requirement Statement. Receipts are appropriated to the Reserve from the General Fund Balance in the Movement in Reserves Statement.

The written-off value of disposals is not a charge against the General Fund, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

### xix. Private Finance Initiative (PFI) and Similar Contracts

PFI and similar contracts are agreements to receive services, where the responsibility for making available the property, plant and equipment needed to provide the services passes to the PFI contractor. As the Council is deemed to control the services that are provided under its PFI schemes, and as ownership of the property, plant and equipment will pass to the Council at the end of the contracts for no additional charge, the Council carries the assets used under the contracts on its Balance Sheet as part of Property, Plant and Equipment. The unitary payments made for the PFI schemes are split, using estimation techniques, into separate elements. Those elements impacting on the balance sheet are the repayment of the liability and capital lifecycle

replacement costs. Other elements are the interest payable on the outstanding liability, the value of services received and contingent rent (contract inflationary increases) which impact on the Comprehensive Income and Expenditure statement.

## **xx. Provisions, Contingent Liabilities and Contingent Assets**

### **Provisions**

Provisions are made where an event has taken place that gives the Council a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. For instance, the Council could be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged as an expense to the appropriate services in the Comprehensive Income and Expenditure Statement in the year that the Council becomes aware of the obligation, and are measured at the best estimate at the Balance Sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year - where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service.

Where some or all of the payment required to settle a provision is expected to be recovered from another party (e.g. from an insurance claim), this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the Council settles the obligation.

The carrying value of debtors has been impaired to reflect bad and doubtful debts. The impairment is netted off the gross total of debtors in line with accounting practice and is not included in the provisions note. Known uncollectable debts have been written off in full.

### **Contingent Liabilities**

A contingent liability arises where an event has taken place that gives the Council a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts.

### **Contingent Assets**

A contingent asset arises where an event has taken place that gives the Council a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council. Contingent assets are not recognised in the Balance Sheet but disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential.

## **xxi. Reserves**

The Council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against Council Tax for the expenditure. These reserves are classed as usable reserves and itemised in Note 5 on page 42.

Certain reserves are kept to manage the accounting processes for non-current assets, financial instruments, retirement and employee benefits. These reserves are classed as unusable reserves and explained in Note 21 on page 54.

## **xxii Revenue Expenditure Funded from Capital under Statute (REFCUS)**

Expenditure incurred during the year that may be capitalised under statutory provisions but that does not result in the creation of a non-current asset has been charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. This includes grants and other assistance given to outside bodies and individuals for capital purposes. Where the Council has determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer in the Movement in Reserves Statement from the General Fund Balance to the Capital Adjustment Account then reverses out the amounts charged so that there is no impact on the level of Council Tax.

## **xxiii. Value Added Tax (VAT)**

VAT payable is included as an expense only to the extent that it is not recoverable from Her Majesty's Revenue and Customs. VAT receivable is excluded from income.

**xxiv. Partnership Arrangements**

Where the Council acts as the accountable body for specific grants or other schemes, they are accounted for on the following basis:

- If the Council controls the grant distribution process, all of the grant money received and the associated expenditure will be included in the Council's accounts. Conversely if the Council does not control the award of grant, only the grant allocated to the Council itself and the associated expenditure is recognised in the Council's accounts.
- Where the Council is the ultimate recipient of grant distributed by the decision making body, the grant receivable is included in the accounts on an accruals basis.
- Where liabilities may arise for the repayment of grant as a result of the Council's status as an accountable body these will be recognised in the accounts of the Council in accordance with accounting policies.

**xxv. Council Tax and National Non Domestic Rates (NNDR)**

In the Council's capacity as billing authority it acts as an agent in collecting and distributing Council Tax income on behalf of the major preceptors and itself. The Code requires that only the Council's share of income and expenditure and Balance Sheet items are included in the financial statements.

The Council acts as an agent in collecting National Non Domestic Rates (NNDR) on behalf of the government, but also retains a 49% share of NNDR received. The budgeted, rather than actual, total of the 49% share of NNDR attributable to the Council is recognised in the Comprehensive Income and Expenditure Statement. The difference between the budgeted 49% share and the actual amount received is transferred to the Collection Fund Adjustment Account and credited or debited to the Comprehensive Income and Expenditure Statement in future years.

As part of directly receiving a share of NNDR rates, the Council will also incur a share of the loss for repayments arising from appeals against NNDR valuations, which can be backdated to years prior to 1 April 2013. The Council has taken up a right allowed by statute to charge this cost to the Comprehensive Income and Expenditure Statement over a period of 5 years, starting in 2016-17.

**xxvi. Acquired and Discontinued Operations**

Where the Council, has acquired material operations, or discontinued operations, further details will be provided. In general, the acquired or discontinued operations will also be shown separately in the Comprehensive Income and Expenditure Account.

**xxvii. Fair value measurement**

The Council measures some of its non-financial assets such as surplus assets and investment properties at fair value at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The Council measures the fair value of an asset or liability using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. When measuring the fair value of a non-financial asset, the Council takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Council uses appropriate valuation techniques for each circumstance and for which sufficient data is available, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. Inputs to the valuation techniques in respect of assets and liabilities for which fair value is measured or disclosed in the Council's financial statements are categorised within the fair value hierarchy, as follows:

- Level 1 – quoted price (unadjusted) in active markets for identical assets or liabilities that the Council can access at the measurement date.
- Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 – unobservable inputs for the asset or liability.

**Note 2. Prior Period Adjustments**

There were no prior period adjustments in 2017-18

**Note 3. Accounting Standards not yet adopted, Changes to the Code, Critical Judgements and Assumptions and Estimation**

**Accounting Standards Issued, not yet adopted**

IFRS 9 Financial instruments: this new standard replaces IAS 39 from 2018/19 and changes the approach to financial assets and accounting for impairments; its impact is unlikely to be material

IFRS 15 Revenue from contracts: this new standard replaces IAS 18 from 2018/19 and aims to standardise practices around recognition of revenue from contracts; its impact is unlikely to be material

IFRS 16 Leases: this new standard replaces IAS 17 from 2019/20 and establishes a new model for lessees; its impact may be material given the value of the Council's leases

**Critical Judgements in applying Accounting Policies**

The Council has made judgements about different transactions and the uncertainty of future events. The critical judgements made in the Statement of Accounts are:

The Council has judged whether its leases are operating or finance leases. These judgements are based on a number of tests, which determine, regardless of the legal form, whether the economic reality of the lease arrangement is that the Council has purchased the asset on credit. The most common test to determine whether this is the economic reality is that the lease arrangement lasts for most of the life of the asset. The accounting treatment of operating and finance leases is different and impact on the main accounting statements.

The Council has also judged whether its contractual arrangements contain an implicit finance lease, which is to say the economic reality is that the Council is paying for the use of an asset as well as a service. The contractual arrangements are tested in a similar way to the Council's lease arrangements. Where this is the case, the Council has shown the asset on its balance sheet per the economic reality, which is that the asset has been purchased.

In addition, the Council has made judgements about which assets to classify as heritage assets, by judging whether those assets that are non-operational have artistic, scientific, cultural and environmental qualities. The accounting standards allow wide discretion over how to value heritage assets. The Council has made the judgement to value heritage assets using professional external valuations and insurance values on specific assets, where possible.

The Council has judged that when it has committed to a redundancy in writing by the end of the financial year, the costs to the Council of the redundancy are either accrued, if the person has left the Council by 31 March 2018, or included in a provision. A judgement has also been made about whether to include a provision for planned future redundancies, even when the Council is not committed to these. The tests are whether there is a high expectation and likelihood that the redundancies are carried out and that there is a detailed plan for redundancies.

The Council has made judgements about what other provisions should be made in the accounts and the amounts to be set aside. The Council has included provisions where the Council has a commitment at the financial year end to incur expenditure. The amount of the provision is based on an estimate of the commitment incurred using the evidence available, which is then discounted. In particular a provision was required in 2017-18 for the estimated costs of repaying Business Rates, following successful appeals. A provision for bad debts is also included based on the expectation of the Council receiving payment.

A judgement is also made on when to disclose a contingent liability. The test is whether at the year end date, there is a potential commitment to incur costs conditional on an event, such as the outcome of a court case.

There is also discretion and debate within current accounting standards about which school types should be included in the Balance Sheet, given there are different degrees of autonomy with the school types.

By virtue of legal ownership or the control exerted over school governing bodies, the Council recognises on its balance sheet at current value, interests in all schools where ownership is vested either in the Council or a school governing body. This includes all community schools, and some foundation and voluntary controlled schools (79 in total). All other schools (30) are vested in founding trusts controlled by religious or charitable bodies. Ownership of these schools is not recognised by the Council as there is no past transaction or event giving the Council control of these properties; rights to continuing use of the assets, or to the benefits associated with them. This is entirely dependent on the ongoing and future goodwill of the owner which could take back the asset at any time. However, the costs of providing actual education services from such establishments and the revenues arising are recognised as service costs under net cost of services.

Overall the Council's policy is not to include Academies on its Balance Sheet. As such, schools transferring to Academies will also be de-recognised from the balance sheet and newly built Academies will not be shown as assets on the Council's balance sheet when long term leases have been completed.

The Council has made judgements about how the Building Schools for the Future (BSF) Phase 2 schools were initially recognised on the Council Balance Sheet. Three mainstream Secondary Schools were handed over to the Council along with three co-located Special Education Secondary Schools on the sites. The Private Finance Initiative (PFI) contract does not separate out the construction costs for the Secondary Schools and the Special Schools and a judgement was made to recognise the schools initially on a 50:50 split based on the construction costs included in the PFI contract. This approach was

taken as the PFI assets were to be revalued once they had been handed over to the Council and the value in the accounts as at 31 March 2018 is the revalued amount for assets that remain on the Balance Sheet.

**Assumptions made about the Future and Other Major Sources of Estimation Uncertainty**

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
Property, Plant and Equipment	Assets are depreciated over useful lives that are dependent on assumptions about the level of repairs and maintenance that will be incurred in relation to individual assets. The current economic climate makes it uncertain whether the Council will be able to maintain an adequate level of spend on repairs and maintenance, which could affect the useful lives of certain assets.	If the useful life of assets is for example reduced, depreciation increases and the carrying amount of the asset falls.
Provisions	<p>The Council has a provision of £8.098m for termination costs arising from redundancies anticipated in the budget. An estimate has been made of these costs based on the anticipated number of redundancies and an average cost.</p> <p>The Council also has a provision of £5.734m at 31 March 2018 (£7.363m at 31 March 2017) for insurance claims which it has chosen to self insure (all claims under £120,000). The insurance provision has been rigorously reviewed over the last two years and is now considered to be at an adequate level to meet all expected claims.</p> <p>In addition, the Council has a provision of £7.480m at 31 March 2018 (£5.782m at 31 March 2017) for the Council's share of Business Rate Appeals. New funding arrangements now mean that the Council receives 49% of the Business Rates it collects, instead of a redistribution from the government. The provision has been estimated by analysing all appeals to date by category as well as reviewing the rate of success.</p> <p>Under IFRS, provisions must be split between short term (up to one year) and long term (over one year). It is not possible to accurately determine when various claims, which may be subject to litigation, will be paid and therefore the analysis of the overall provision between long and short term is an approximate estimate.</p>	<p>An increase or decrease in the cost of redundancy would have a proportionate impact on the provision required.</p> <p>If the insurance provision is not adequate, which is considered very unlikely, extra funds would have to be found from available reserves or from in year savings.</p> <p>If the Business Rate appeals provision is not adequate, additional funds would be required from reserves or in year savings.</p>
Pensions Liability	Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries, Aon Hewitt Limited, is engaged to provide the Council with expert advice about the assumptions to be applied.	<p>An incorrect allocation of the provision between short term and long term will not change the net worth of the Balance Sheet, or impact on the Council's cash levels. It will either over or understate current or long term liabilities, where short and long term provisions are respectively included.</p> <p>The effects on the net pension liability of changes in individual assumptions can be measured. A 0.1% increase in the discount rate assumption would result in a decrease in the present value of the total defined benefit obligation for Local Government Pension Scheme (LGPS) funded benefits of £48.988m – a decrease from £2,778,088m to £2,729,100m.</p>
Arrears	At 31 March 2018, the Council had a balance of debtors and prepayments of £100.2m, a reduction of £0.6m compared to the 31 March 2017 figure of £100.8m. A review of significant balances suggested that a minimum impairment of debts of 15% was appropriate for balances aged at least one year, given the current economic climate, but higher levels than this have been included where appropriate.	If collection rates were to deteriorate, this would increase the amount of the impairment of doubtful debts.
Leases	Under IFRS, all leases must firstly be split into either finance or operating leases, and then into land and buildings. The Council has over 3,000 individual leases, most of which are for relatively small amounts. The Council does not have sufficient	

<p>Fair value measurements</p>	<p>valuation staff to review all leases, and the resulting information would not justify the cost. The main assumptions which have been made are:</p> <p><b>Split between finance and operating lease:</b></p> <ul style="list-style-type: none"> <li>• A lease where the lease term is less than 75% of the economic life of the asset will be assumed to be an operating lease.</li> <li>• A lease where the real (i.e. present) value of the minimum lease payments is less than 80% of the asset value, is classed as an operating lease.</li> </ul> <p>There are approximately 40 equipment leases which have a value over £10,000 over the life of the lease which will be reviewed. Those under £10,000 will not be reviewed.</p> <p>When the fair value of financial assets and financial liabilities cannot be measured based on quoted prices in active markets (ie Level 1 inputs), their fair value is measured using valuation techniques (eg quoted prices for similar assets or liabilities in active markets or the discounted cash flow (DCF) model). Where possible, the inputs to these valuation techniques are based on observable data, but where this is not possible judgement is required in establishing fair values. These judgements typically include considerations such as uncertainty and risk. However changes in the assumptions used could affect the fair value of the Council's assets and liabilities.</p> <p>Where Level 1 inputs are not available, the Council employs relevant experts to identify the most appropriate valuation techniques to determine the fair value (for example for investment properties the Council's chief valuation officer).</p> <p>Information about the valuation techniques and inputs used in determining the fair value of the Council's assets and liabilities is disclosed in notes 9, 13 and 47.</p>	<p>The effect of making an incorrect classification between finance and operating leases is not considered material. The effect of not undertaking a separation of land and buildings for all relevant leases is also not considered material. Many leases are for land only, for which assessment will be relatively easy.</p> <p>The methods used to arrive at the fair value of surplus and investment properties are described in notes 10 and 13. They are based on observable data.</p> <p>The method used to measure the fair value of Investments is described in Note 47.</p>
--------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

**Note 4. Adjustments between accounting basis and funding basis under Regulations 2017-18**

This note shows the removal of expenditure and income included in the accounts in accordance with accounting policies but not chargeable against Council Tax by statute. For example, depreciation is charged in accordance with accounting policy but is not chargeable against Council Tax by statute. The note also shows the charging of other items against Council Tax according to statute but which are excluded by accounting policies, for instance the minimum revenue provision.

Earmarked Reserves are amounts set aside to meet the cost of future commitments, political priorities and specific financial risks. Capital Grants and Capital Receipts unapplied also represent real cash balances but these can only be used to fund capital expenditure.

#### a) General Fund Balance (£31.3m)

A net £31.3m balance has been carried forward to 2018-19 (£36.0m at 31 March 2017). This includes £20.5m carried forward for schools under delegated budgets.

All authorities are expected to maintain a prudent balance for unforeseen events and to assist cash flow management at a prudent level. The Council has assessed this level to be £10.8m.

#### b) Earmarked Reserves (£134.4m)

In light of the ongoing reductions in Government funding since 2010, the Council has consistently applied its Reserves Policy to either fund one off priority investment or transitional activity whilst seeking to reduce its recurrent cost base. A policy which to date has served the Council well.

At 31 March 2018 the Council has available £14.4m of unallocated corporate reserves. In 2017-18 the overall level of earmarked reserves increased by a net £6.4m from £117.0m at 31 March 2017 to £134.4m at 31 March 2018.

#### c) Capital Grants Unapplied Reserve

The Capital Grants Unapplied Reserve represents usable capital grants available to fund capital expenditure. Capital Grants are included in this reserve, rather than shown as Capital Grants Received in Advance when all the grant conditions have been met. Capital grants and contributions unapplied are credited to the Comprehensive Income and Expenditure Account when grant conditions are met.

#### d) Capital Receipts Reserve

When capital receipts are used either to repay debt or to fund capital investment, they are transferred from the Capital Receipts Unapplied Reserve to the Capital Adjustment Account.

Authorities are required to pay 75% of their housing capital receipts into a national pool. The Council was required to pay £1,368 to the pool in 2017-18 (£5,103 in 2016-17). The Council is required to make a corresponding transfer to the Capital Receipts Reserve to offset the contribution to the pool. This transfer is shown in the Statement of Movement on the General Fund Balance. The usable balance of housing receipts and all other capital receipts are held in the Capital Receipts Reserve until applied either to finance capital expenditure or to repay debt.

2016-17	Capital Receipts Reserve	2017-18
£000		£000
<b>4,848</b>	<b>Balance at 1 April</b>	<b>3,666</b>
	Usable receipts in the year	
5,229	Disposal of assets	5,097
10	Other capital receipts	3
-5	Appropriation to (-) from Revenue Account re pooled housing receipts	-1
-6,416	Used to finance capital spending	-8,765
0	Used for debt repayment	0
<b>3,666</b>	<b>Balance at 31 March</b>	<b>0</b>

Whilst most capital receipts arise from the disposal of assets, other capital receipts may arise, mainly where the Council has given a loan or other assistance for capital purposes.

#### Note 6. Material Items of Income and Expense

There were no exceptional items in 2017-18 or 2016-17.

#### Note 7. Post Balance Sheet Events

Since 1 April, three schools have transferred to Academy status. Two Community Schools and one Foundation, with an estimated value of £5.9m at 31 March 2018, will be removed from the 2018-19 Balance Sheet when a 125 year peppercorn lease is completed.

**Note 8. Analysis of the Comprehensive Income and Expenditure**

The following tables provide a further analysis of the individual lines that appear on the face of the Comprehensive Income and Expenditure Statement:

**a) Other Operating expenditure**

2016-17 £000	Other Operating expenditure	2017-18 £000
1,407	Parish Council Precepts	1,711
3	Payments to the Government Housing Capital Receipts Pool	3
127,217	Losses on the disposal of non-current assets	28,066
<b>128,627</b>	<b>Total</b>	<b>29,780</b>

**b) Financing and Investment Income and Expenditure**

2016-17 £000	Financing and Investment Income and Expenditure	2017-18 £000
38,378	Interest payable and similar charges (see table b2 below)	36,230
23,091	Net Interest on the Pension net defined benefit liability/(asset)	20,158
-455	Interest receivable and other income	-381
-6,214	Income and expenditure in relation to investment properties and changes in their fair value	-9,524
-605	Other investment income	-568
865	Net Deficit on Trading Accounts	1,916
<b>55,060</b>	<b>Total</b>	<b>47,831</b>

**b2) External interest costs are paid by the Council on loans raised to finance capital expenditure.**

2016-17 £000	Interest Payable and Similar Charges	2017-18 £000
	<b>External interest charges</b>	
17,917	Public Works Loans Board	16,159
18,431	Interest on PFI and finance lease rentals	18,037
1,778	Lender Option Borrower Option (LOBO's)	1,796
248	Transferred debt	238
4	Interest on short term borrowing	0
<b>38,378</b>	<b>Total</b>	<b>36,230</b>

**c) Taxation and Non- Specific Grant Income**

2016-17 £000	Taxation and Non-Specific Grant Income	2017-18 £000
-162,489	Council Tax income	-172,348
-68,797	Non domestic rates	-61,632
-160,067	Non-ringfenced government grants (see below)	-149,939
-38,740	Capital grants and contributions	-39,388
-500	Donated Assets Funding	0
<b>-430,593</b>	<b>Total</b>	<b>-423,307</b>

Revenue grants that do not relate to the delivery of a specific service are grouped together and shown as income in the Income and Expenditure Account. In 2017-18 the Council received the following:

**c2) Government Grants**

2016-17 £000	Government grants (not attributable to specific services)	2017-18 £000
-83,947	Revenue Support Grant	62,849
-57,040	Top Up Grant	64,679
-104	Local Services Support Grant	652
-11,444	New Homes Bonus Grant	10,864
-7,532	Section 31 Grant, mainly relating to Business Rates	10,895
<b>-160,067</b>	<b>Total</b>	<b>149,939</b>

**Note 10. Valuations**

Operational and non-operational assets have been valued by Belinda Gaynor MRICS and other similarly qualified officers of the Council's Estate Management Service, in accordance with the Statements of Asset Valuation Practice and Guidance Notes of the Royal Institution of Chartered Surveyors. Not all properties were inspected as this was not considered necessary for the purposes of the valuation. Revaluations are planned through a five year rolling programme and have been listed in the table below in the year they were revalued.

The Council constructed a number of dwellings for rent, which are managed by a housing association on its behalf. The Council does not have to establish a Housing Revenue Account (HRA) as it has received legal opinion that it is not required for such a small number of properties.

**Revaluations**

**Fair value measurement of surplus assets**

The Council has accounted for surplus assets in accordance with IFRS 13 and they have been valued at fair value.

There has been no change in the valuation technique used during the year for surplus assets. Surplus assets have been valued at the highest and best use. The fair value of surplus property has been measured using a market approach, which takes into account quoted prices for similar assets in active markets. The valuers are of the opinion that all surplus assets are at Level 2 on the fair value hierarchy using significant observable inputs.

There have been no transfers between the different levels of hierarchy during the year.

**Note 11. Capital Commitments and Obligations Under long Term Contracts**

**a) Capital Commitments**

The Council has an approved capital investment plan for the period 2017-18. At 31 March 2018 the Council has entered into a number of contracts for the construction or enhancement of Property, Plant and Equipment in 2017-18 and future years budgeted to cost £32.079m. Similar commitments at 31 March 2017 were £8.232m. The major commitments (over £0.250m) are:

Capital Commitments	2016-17 £000	2017-18 £000
Primary Schools Expansion Programme	2,252	247
Affordable Housing	3,035	7,375
Cliffe Castle	1,875	0
Crag Road	1,070	0
Keighley Road Adult Social Care Respite and Residential	0	8,086
St Georges Hall	0	2,608
Sedburgh Sports Facility	0	13,388
Vehicle Replacement	0	375
<b>Total</b>	<b>8,232</b>	<b>32,079</b>

**• Obligations Under Long-Term Contracts**

There was no long term obligation at 31 March 2018.

**Note 12. Heritage Assets****Tangible Heritage Assets**

<b>31 March 2018</b>	<b>35,213</b>	<b>1,732</b>	<b>113</b>	<b>37,058</b>

The Council held £37.1m heritage assets on its Balance Sheet as at 31 March 2018.

Heritage assets are assets that are held by the Council principally for their contribution to knowledge or culture. The Council acquires heritage assets in accordance with established Council Policies, i.e. the Acquisitions & Disposals Policy, Bradford Museums & Galleries. The policy of the Council is to manage and preserve its heritage assets and has no plans to dispose of them. Heritage assets are largely held in museums, managed by the Council, where there is public access. Other heritage assets are held for annual usage, such as the Lord Mayor's chain or items on display at City Hall.

The Council considers that the heritage assets held by the Council will have indeterminate lives and a high residual value; hence the Council does not consider it appropriate to charge depreciation in the financial statements in relation to these heritage assets.

**Museum Collection – items on the Balance Sheet**

The collection includes a wide range of material that collectively contributes to national / district knowledge and culture through their archaeological, historic, artistic, scientific, technological, geophysical and environmental qualities. These items are held at four main museums and two external stores within the District. More information on the collections can be found on the Council's website at <http://www.bradfordmuseums.org>

The council owns approximately 691,000 items within the museum collections. It is not considered practical to individually value this entire collection, and so only those items which are considered to have a significant value are individually valued and recorded in the balance sheet at their current valuation.

In 2012-13 there was a review of the major pieces of the Fine Art Collection held at Cartwright Hall by external valuers Christies. For those items reviewed by Christies they have been included on the Balance Sheet based on auction values (lower range). In 2014-15 and 2015-16 further items in the collection were reviewed by external valuers resulting in revaluation increases of £2,861,000 and £88,000. In 2016-17 two paintings and two cannons were reviewed by external valuers which resulted in a revaluation increase of £85,000.

During 2017-18 three paintings were reviewed by Christies and this has resulted in a revaluation increase of £160,000. In addition four painting already included on the Balance Sheet have a revaluation increase of £31,000.

In addition to external valuations the collection is considered for insurance values and four items are included on the Balance Sheet at insurance values which is based on values estimated by museum staff. The insurance values are considered annually.

Those items that are on temporary loan to the museum service have not been included in the Council's Balance Sheet as they are not the Council's assets.

**Museum exhibits and works of art – overall collections**

As explained in the note above, only those items which have a significant individual value are included in the balance sheet. The current insurance valuation of the lesser valued items have been given a collective value of £46m. Items within the collection are diverse, ranging from scientific specimens, to period fashion garments, to antique furniture. The Council has determined that it would not be practical within a justifiable level of cost to obtain individual valuations for its entire collection.

**Civic Regalia**

The Council's external valuer for its Civic Regalia (Sydneys Ltd) carried out a full valuation of the collection as at June 2010. The valuations are based on commercial markets. The valuations are updated approximately every ten years with the previous one completed in April 2001. The Council's Civic Regalia is held in City Hall.

**Statues and external works of art**

The Council has £0.113m of Statues and Monuments. This relates to a war memorial and a new sculpture completed in 2016-17. The value in the accounts is at historic cost.

**Other Heritage Assets**

There are also potential heritage assets not included on the balance sheet and these include:

- Scheduled ancient monuments and regionally important geological sites – carved rocks and caves.
- Library archives - maps, photographs, newspapers & electoral rolls.
- Fossil Tree stumps.
- Statues and memorials across the District.

For the majority of the statues, neither cost nor valuation information can be provided and therefore reported in the Balance Sheet. This relates to over 60 statues and memorials that are located across the District.

The Council also has a number of scheduled ancient monuments located on assets that it owns. In addition there are records within the Library archives that are being held for historical reference. These assets cannot be valued because of the diverse nature of the assets and therefore cost or valuation information is not available as conventional valuation approaches lack sufficient reliability. The Council is of the opinion that the costs of obtaining the valuations for these items would be disproportionate in terms of the benefit derived.

Also, some heritage assets have been classified as operational heritage assets when they are in use, for instance a building which is used for office accommodation or to house a museum collection. In these cases, the asset is classified according to its type, in this case as land and buildings within the Property Plant and Equipment balance.

No significant heritage assets were disposed of in 2017-18 or 2016-17.

**Additions of Heritage Assets**

There have been no significant purchases to heritage assets in 2017-18 but there have been some additions to the museum collections in the last two years. Individually these have not been thought significant so there is no separate valuation included in the Balance Sheet for purchased items.

**Note 13. Investment Property**

The following items of income and expense have been accounted for in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. For example, the net gain of £2.271m (see below Analysis of Rental Income and Management Costs of Investments), plus the increase of £6.979m on fair value (see below reconciliation of Movements on Investments), plus the gain on disposal of £0.274m comprise the £9.524m charge for investment properties in Note 8(b), Financing and Investment Income and Expenditure, page 43.

2016-17		2017-18
£000		£000
-2,356	Rental income from investment property	-2,520
-178	Other income (service and other charges)	-239
	Direct operating expenses:	
196	Repairs & maintenance	181
162	Management expenses	307
<b>-2,176</b>	<b>Net (gain)</b>	<b>-2,271</b>

The movement in the fair value of investment properties over the year is summarised as:

2016-17	Reconciliation of Movements on Investments	2017-18
£000		£000
<b>45,734</b>	<b>Balance at 1 April</b>	<b>48,604</b>
0	Additions	4,352
-251	Disposals	-905
3,387	Net gains/losses(-) from fair value adjustments	6,979
	<b>Transfers</b>	
-266	To/from Property, Plant and Equipment	-167
<b>48,604</b>	<b>Balance at 31 March</b>	<b>58,863</b>

Investment Property has been valued by Belinda Gaynor MRICS and other similarly qualified officers of the Council's Asset Management Service, in accordance with the Statements of Asset Valuation Practice and Guidance Notes of the Royal Institution of Chartered Surveyors. Properties are not depreciated, the fair value of the Council's investment property is considered annually at each reporting date.

**Fair value**

All the Council's investment property portfolio has been assessed as Level 2 for valuation purposes (see Note 1 for explanation of fair value levels).

In accordance with IFRS 13, investment properties have been valued at highest and best value. Investment properties comprise industrial, retail, residential and office units; development and grazing land. Investment assets have been valued on a desktop basis using the Investment Method of Valuation relying on data held on the council's property database and case files and the knowledge of Estate Management staff. The main considerations in valuing investment properties are rental yields and sale values; size, location, configuration and access; condition and covenants. All investment property valuations are based on such observable inputs.

There were no transfers between levels during the year.

There has been no change in the valuation techniques used during the year for investment properties.

**Highest and best use of investment properties**

In most cases the current use of assets has been considered to be the highest and best use of the properties. The exception to this is land suitable for development which is currently put to a lower value use. In such cases, the use for which the property could be developed has been regarded as the highest and best use of the asset.

**Note 14. Intangible Assets**

The Council accounts for its software as intangible assets, to the extent that the software is not an integral part of a particular Information Technology (IT) system and accounted for as part of the hardware item within Property, Plant and Equipment. The intangible assets include only purchased licences and do not include any internally generated software. The Council does not have any intangible assets apart from software.

All software is given a useful life, based on the assessments of the period that the software is expected to be of use to the Council. All of the Council's software has an estimated useful life of between five and ten years. The carrying amount of intangible assets is amortised on a straight line basis. The amortisation of £0.231m charged to revenue in 2017-18 (£0.991m in 2016-17) was charged to the IT cost centre and then absorbed as an overhead across all the service headings in the Net Expenditure of Services. It is not possible to quantify exactly how much of the amortisation is attributable to each service heading.

The movement on Intangible Asset balances during the year is as follows:

	2016-17 £000	2017-18 £000
Balance at 1 April each year		
• Gross carrying amounts	19,712	20,028
• Accumulated amortisation	-18,252	-19,243
Net carrying amount at start of year	<b>1,460</b>	<b>785</b>
Additions :		
• Purchases	316	41
Amortisation for the period	-991	-231
<b>Net carrying amount at end of year</b>	<b>785</b>	<b>595</b>
Comprising :		
• Gross carrying amounts	20,028	20,069
• Accumulated amortisation	-19,243	-19,474

The intangible assets figures largely comprise the software required to run the Council's computer system. The Council has not been able to revalue this software due to its specialist nature as it has been specifically configured for the Council and is not easily comparable with any other system. However, the life of the system used for amortisation is estimated to be conservative, and the actual life should exceed the estimated life for accounting purposes.

**Note 15. Construction Contracts**

The Council did not enter into any construction contracts in 2017-18 or 2016-17.

**Note 16. Long Term Investment**

The Council's long term investment at 31 March 2018 is made up of £1,000 in Integrated Bradford LEP Ltd (31 March 2017 £1,000).

**Integrated Bradford LEP Ltd – Company no. 5797774**

In December 2006, the Council took a £1,000, (10%) interest in the Local Education Partnership, Integrated Bradford LEP Limited. The company has been set up to deliver the capital investment programme in Bradford secondary schools funded through the government initiative Building Schools for the Future.

**Note 17. Long Term Debtors**

These represent the value of long term advances granted by the Council. The amount owed by other local authorities at 31 March 2018 of £0.239m is in respect of transferred debt for Probation Service owed by other West Yorkshire authorities.

The balance owing on sale of assets on finance leases of £0.210m represents the principal element of the leases.

<b>31 March Analysis of Long Term Debtors</b>	<b>31 March</b>
<b>2017</b>	<b>2018</b>
<b>£000</b>	<b>£000</b>

<b>Less provision for bad and doubtful debts</b>	
14,449 Collection Fund	12,622
11,823 Other	3,057
<b>74,560 Net Total</b>	<b>84,606</b>

The net debtors have increased from a total of £74.560m at 31 March 2017 to £84.606 at 31 March 2018, an increase of £10.046.

**Short Term Investments**

The Council has short term investments of £15.003m; see Balance Sheet (£21.025m 2016-17). This is invested with banks and building societies.

**Cash and Cash Equivalents**

At any point in time the cash flow of the Council can result in temporary cash balances which are put into short-term investments. At the 31 March 2018, £51.838m was invested in short term deposits, banks and building societies (£56.253m at 31 March 2017).

<b>31 March 2017 £000</b>		<b>31 March 2018 £000</b>
667	Cash held by the Council	712
54,586	Bank accounts	51,126

**Note 20. Provisions**

The provisions totals of £22.535m at 31 March 2018 and £20.362m at 31 March 2017 are separated on the Balance Sheet into current and long term provisions. The current provisions are those expecting to be used in the next financial year, £9.167m at 31 March 2018 (£9.791m at 31 March 2017). Long term provisions are those expecting to be used more than 12 months after the Balance Sheet date, £13.368m at 31 March 2018 (£10.571m at 31 March 2017).

	Termination £000	Personal Search fees £000	MMI Scheme of Arrangement £000	Outstanding legal cases £000	Injury and Damage Compensation Claims £000	Testing Provision £000	Business Rate Appeals £000	Total £000

<b>Balance at 31 March 2018</b>	<b>8,098</b>	<b>93</b>	<b>1,130</b>	<b>3,090</b>	<b>2,644</b>	<b>0</b>	<b>7,480</b>	<b>22,535</b>

**Termination (£8.098m)** – for planned future termination costs arising from the detailed saving proposals approved as part of the 2018-19 Budget .

**Property Search fees (£0.930m)** – Whilst Personal Search companies have claimed for refunds from the Council, given that the Council's and other authorities charging policies were based on a statutory fee, the Council is reclaiming any repayment from the government in due course.

**Insurance provisions (£3.090m and £2.644m)** – These provisions bear the risk of day to day losses as an alternative to providing insurance cover through external insurance companies. Losses over £120,000 are externally insured. The main areas provided for are:

31 March 2017	Analysis of Insurance Provision (Outstanding Legal Cases & Injury and £000 Damage Compensation Claims)	31 March 2018 £000
0	Property	5
6,777	Other Liability claims	5,272
586	Motor	457
<b>7,363</b>	<b>Total</b>	<b>5,734</b>

**Testing Provision (£0m)** – This amount was originally set aside for potential costs relating to scientific testing provision but was no longer required as at 31 March 2018.

**Business Rates Appeals (£7.480m)** – The provision reflects the estimate of the amount of Business Rates to be repaid to ratepayers, following any future successful appeals against rateable values.

## Note 21. Unusable Reserves

2016-17	2017-18
£000	£000
159,238 (a) Revaluation Reserve	181,029
209,886 (b) Capital Adjustment Account	194,448
-5,528 (c) Financial Instruments Adjustment Account	-5,134
-829,875 (d) Pensions reserve	-824,309
261 (e) Deferred capital receipts reserve	258

13,992	- Application of grants to capital financing from the Capital Grants Unapplied Account	11,948
3,755	- Allocation of grants to capital financing from the Capital Grants Receipts in Advance Account	1,577
500	- Donated assets and contributions credited to the Comprehensive Income and Expenditure Statement that have been applied to capital financing	0
24,376	- Statutory provision for the financing of capital investment charged against the General Fund	1,000
4,306	- Capital expenditure charged against the General Fund balance	5,923
3,387	- Movements in the market value of Investment Properties debited or credited to the Comprehensive Income and Expenditure Statement	6,979
<b>209,886</b>	<b>Balance at 31 March</b>	<b>194,448</b>

**c) Financial Instruments Adjustment Account**

The Financial Instruments Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for income and expenses relating to certain financial instruments and for bearing losses or benefiting from gains per statutory provisions.

2016-17 £000		2017-18 £000
<b>-5,813</b>	<b>Balance at 1 April</b>	<b>-5,528</b>
268	Proportion of premiums and discounts incurred in previous financial years to be charged against the General Fund Balance in accordance with statutory requirements	375
17	Removal of Effective Interest Rate on stepped interest loans	19
<b>285</b>	Amount by which finance costs charged to the Comprehensive Income and Expenditure Statement are different from finance costs chargeable in the year in accordance with statutory requirements	<b>394</b>
<b>-5,528</b>	<b>Balance at 31 March</b>	<b>-5,134</b>

**d) Pensions Reserve**

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. See Note 30 for full explanation.

2016-17		2017-18
£000		£000
-700,142	<b>Balance at 1 April</b>	<b>-829,875</b>
-103,996	Remeasurement of net defined benefit liability	45,561
	Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement	-87,560
-68,128		
42,391	Employer's pensions contributions and direct payments to pensioners payable in the year	47,565
<b>-829,875</b>	<b>Balance at 31 March</b>	<b>-824,309</b>

**e) Deferred Capital Receipts**

The Deferred Capital Receipts Reserve holds the gains recognised on the disposal of non-current assets but for which cash settlement has yet to take place. Under statutory arrangements, the Council does not treat these gains as usable for financing new capital expenditure until they are backed by cash receipts. When the deferred cash settlement eventually takes place, amounts are transferred to the Capital Receipts Reserve.

2016-17		2017-18
£000		£000
271	<b>Balance at 1 April</b>	<b>261</b>
-10	Transfer to the Capital Receipts Reserve upon receipt of cash	-3
<b>261</b>	<b>Balance at 31 March</b>	<b>258</b>

**f) Collection Fund Adjustment Account**

The Collection Fund Adjustment Account manages the differences arising from the recognition of Council Tax and Business Rates income in the Comprehensive Income and Expenditure Statement as it falls due compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

2016-17		2017-18
£000		£000
-9,059	<b>Balance at 1 April</b>	<b>-4,073</b>
	Amount by which Council Tax income credited to the Comprehensive Income and Expenditure Statement is different from Council Tax income calculated for the year in accordance with statutory requirements	1,268
4,986		
<b>-4,073</b>	<b>Balance at 31 March</b>	<b>-2,805</b>

**g) Accumulated Absences Account**

The Accumulated Absences Account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year, eg annual leave entitlement carried forward at 31 March. Statutory arrangements require that the impact on the General Fund Balance is neutralised by transfers to or from the account.

2016-17		2017-18
£000		£000
-12,709	<b>Balance at 1 April</b>	<b>-13,272</b>

-791	<b>Operating activities - net cash flow</b>	V	<b>-19,844</b>

**Note 23. 2017-18 Expenditure Funding Analysis**

The objective of the Expenditure and Funding Analysis is to demonstrate to Council Tax and rent payers how the funding available to the Council (ie government grants, rents, Council Tax and Business Rates) for the year has been used in providing services in comparison with the those resources consumed or earned by the Council in accordance with generally accepted accounting practices. The analysis also shows how this expenditure is allocated for decision making purposed between the Council's Services. A more detailed breakdown of the adjustments between funding and accounting basis, called Analysis of Accounting Changes, is shown below:

	Net expenditure for 2017-18 Outturn Statement	Reclassification for the CIES	Net Expenditure in the CIES	Adjustments between Funding and Accounting Basis	Net Expenditure Chargeable to the General Fund

-137 Trade refuse	-3,172	-182
<b>-5,364 Total</b>	<b>-10,932</b>	<b>-6,306</b>

The services have been shown in the Comprehensive Income and Expenditure Statement. Those in the first table have been included in Financing & Investment Income and Expenditure (see note 8b). Traded Services in the second table have been included in the net cost of services, in the Comprehensive Income and Expenditure Statement.

**Note 26. Agency Services**

The Council provides payroll services to a number of external organisations, including Academy Schools and Colleges of Further Education. The payroll records for the external organisations do not form part of the Council's financial statements. However, the costs of administrating this service and the income received from the external organisations in return for the service are included in the Council's financial statements. In 2017-18, the Council received £0.580m income (£0.563m in 2016-17) from external organisations.

The Council also provides accountancy support to a number of external Trusts, which is provided free of charge.

**Note 27. Road Charging Schemes**

The Council did not undertake or operate any road charging schemes in 2017-18 or 2016-17.

**Note 28. Pooled Budgets Arrangements Under Section 31 of the Health Act 1999, and Section 75 of the Health Act 2006****Better Care Fund**

	<b>2016-17</b>	<b>2017-18</b>

<b>Total LA Better Care Fund</b>	<b>23,396</b>	<b>24,087</b>
CCG's Better Care Fund	14,694	14,962
iBCF	0	12,046
<b>Total Better Care Fund</b>	<b>38,090</b>	<b>51,095</b>

The Better Care Fund (BCF) is a programme spanning both the NHS and local government. It has been created to improve the lives of some of the most vulnerable people in our society, placing them at the centre of their care and support, and providing them with "wraparound" fully integrated health and social care, resulting in an improved experience and better quality of life.

The BCF agreement has been set up under Section 75 of the NHS Act 2006. This year there was an additional allocation of £12m Improved Better Care Fund (iBCF). The total BCF and iBCF in 2017-18 was £51.1m. It is a pooled budget with Bradford City CCG, Bradford Districts CCG and part of Airedale, Wharfedale and Craven CCG.

**Note 29. Termination Benefits**

In 2017-18 the Council incurred voluntary and compulsory redundancy costs of £0.426m (£0.274m in 2016-17) together with £1.179m (£1.936m in 2016-17) for early retirement pension costs. The costs relate to the Council's plans to reduce its expenditure to help to offset the impact of significant Government grant reductions.

**Note 30. Pension Schemes Accounted For As Defined Contribution Schemes**

Teachers employed by the Council are members of the Teachers' Pension Scheme, administered by Capita Teachers' Pensions on behalf of the Department for Education (DfE). The Scheme provides teachers with specified benefits upon their retirement, and the Council contributes towards the costs by making contributions based on a percentage of members' pensionable salaries.

The scheme is a multi-employer defined benefit scheme. The scheme is unfunded and the Department of Education uses a notional fund as the basis for calculating the employers' contribution rate paid by local authorities. Valuations of the notional fund are undertaken every four years.

The scheme had 8,762 participating employers in 2017-18, including 174 local authorities, and, consequently, the Council is not able to identify its share of the underlying financial position and performance of the scheme with sufficient reliability for accounting purposes. For the purposes of this Statement of Accounts, it is therefore accounted for on the same basis as a defined contribution scheme. As a proportion of the total expected contributions into the Teachers' Pension Scheme during the year ending 31 March 2018, the Council's own contributions equate to approximately 0.25%.

In 2017-18, the Council paid £15.650m to Teachers' Pensions in respect of teachers' retirement benefits, representing 16.48% of pensionable pay. The figures for 2016-17 were £18.892m and 16.48%. There were contributions remaining payable at the year-end of £1.278m. The contributions due to be paid in the next financial year are estimated to be £15.000m.

The Council is responsible for the costs of any additional benefits awarded upon early retirement outside of the terms of the teachers' scheme. These costs are accounted for on a defined benefit basis and detailed in Note 31.

The Council is not liable to the scheme for any other entities' obligations under the plan.

A number of Council employees are also members of the NHS Pension Scheme, administered by NHS Pensions on behalf of the Department for Health (DoH). The Scheme provides the relevant employees with specified benefits upon their retirement, and the Council contributes towards the costs by making contributions based on a percentage of members' pensionable salaries.

The scheme is a multi-employer defined benefit scheme. The scheme is unfunded and the Department of Health uses a notional fund as the basis for calculating the employers' contribution rate paid by local authorities. Valuations of the notional fund are undertaken every four years.

The scheme had 8,848 participating employers as at 31 March 2017, including 141 local authorities, and, consequently, the Council is not able to identify its share of the underlying financial position and performance of the scheme with sufficient reliability for accounting purposes. For the purposes of this Statement of Accounts, it is therefore accounted for on the same basis as a defined contribution scheme. As a proportion of the total expected contributions into the NHS Pension Scheme during the year ending 31 March 2018, the Council's own contributions equate to approximately 0.002%.

In 2017-18, the Council paid £0.173m to NHS Pensions in respect of the relevant employees' retirement benefits, representing 14.38% of pensionable pay. The figures for 2016-17 were £0.170m and 14.3%. There were contributions remaining payable at the year-end of £0.015m. The contributions due to be paid in the next financial year are estimated to be £0.158m.

The Council is responsible for the costs of any additional benefits awarded upon early retirement outside of the terms of the NHS Pension Scheme. These costs are accounted for on a defined benefit basis and detailed in Note 31.

The Council is not liable to the scheme for any other entities obligations under the plan.

### **Note 31. Defined Benefit Pension Schemes**

#### **Participation in Pension Schemes**

As part of the terms and conditions of employment of its officers, the Council makes contributions towards the cost of post-employment benefits. Although these benefits will not actually be payable until employees retire, the Council has a commitment to make the payments (for those benefits) and to disclose them at the time that employees earn their future entitlement.

The Council participates in two post-employment schemes:

- The Local Government Pension Scheme, administered through a number of separate regional funds. The Council is a member of the West Yorkshire Pension Fund – this is a funded career average defined benefit scheme. This means that the Council and employees pay contributions into a fund, calculated at a level intended to balance the pensions liabilities with investment assets, determined by the fund's professionally qualified actuary at 31 March 2016 for the three years 1 April 2017 to 31 March 2020. The contribution rates set by the actuary are intended to balance the fund's liabilities with the investment assets over the period. The employer contribution rate for the year 2017-18 in respect of Bradford members of the West Yorkshire Pension Fund was 17.5%.
- Arrangements for the award of discretionary post retirement benefits upon early retirement – these are unfunded defined benefit arrangements, under which liabilities are recognised when awards are made. However, there are no investment assets built up to meet these pensions liabilities, and cash has to be generated to meet actual pensions payments as they eventually fall due.

The West Yorkshire Pension Fund pension scheme is operated under the regulatory framework for the Local Government Pension Scheme. City of Bradford Metropolitan District Council, as administering authority for West Yorkshire Pension Fund (WYPF) with statutory responsibility for the management and administration of the Fund, has delegated legal and strategic responsibility for the WYPF to the Governance and Audit Committee. The Council has established three bodies to assist and support the Governance and Audit Committee in overseeing the Fund, namely the WYPF Pension Board, WYPF Investment Advisory Panel and the WYPF Joint Advisory Group. Policy is determined in accordance with the Pensions Fund Regulations. The Fund's entire investment portfolio is managed on a day to day basis in-house, supported by the Fund's external advisers.

The principal risks to the Council of the scheme are the longevity assumptions, statutory changes to the scheme, structural changes to the scheme (i.e. large-scale withdrawals from the scheme), changes to inflation, bond yields and the performance of the equity investments held by the scheme. These are mitigated to a certain extent by the statutory requirements to charge to the General Fund the amounts required by statute, as described in the accounting policies note.

#### **Discretionary Post-retirement Benefits**

Discretionary post-retirement benefits on early retirement are an unfunded defined benefit arrangement, under which liabilities are recognised when awards are made. There are no plan assets built up to meet these pension liabilities.

Transactions Relating to Post-employment Benefits

The Council recognises the cost of retirement benefits in the reported cost of services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge the Council is required to make against Council Tax (i.e. the statutory amount charged against the General Fund balance) is based on the cash payable in the year (i.e. the total contribution paid by the Council under the pension regulations), so the real cost of post-employment/retirement benefits is reversed out of the General Fund via the Movement in Reserves Statement. The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year:

	Local Government Pension Scheme		Local Government Pension Scheme Discretionary Benefits Arrangements		Teachers Voluntary Early Retirement Discretionary Benefits Arrangements		Total

The split of the defined benefit obligation at the last valuation date between the various categories of members was as follows:

Active Members	37%
Deferred Pensioners	15%
Pensioners	48%

#### Local Government Pension Scheme Assets

Assets in the West Yorkshire Pension Fund are valued at fair value (principally, market value for investments). The following table shows the value of each category of asset and expresses it as a percentage of the total value.

The Discretionary Benefits arrangements have no assets to cover its liabilities. The Local Government Pension Scheme's assets consist of the following categories, by proportion of the total assets held:

Asset Category	31 March 2017	31 March 2017	31 March 2018	31 March 2018	31 March 2018	31 March 2018	31 March 2018	31 March 2018	31 March 2018
	£000	%	£000	%	£000	%	£000	%	£000
	Total	Total	Quoted	Quoted	Unquoted	Unquoted	Total	Total	Total
Equity investments	1,551,748	77.2	1,462,727	70.1	150,237	7.2	1,612,964	77.3	77.3

Cash	24,120	1.2	37,559	1.8	0	0.0	37,559	1.8	1.8
Property	86,431	4.3	93,898	4.5	0	0.0	93,898	4.5	4.5
Other assets	66,331	3.3	31,299	1.5	37,559	1.8	68,858	3.3	3.3
<b>Total</b>	<b>2,010,034</b>	<b>100.0</b>	<b>1,898,831</b>	<b>91.0</b>	<b>187,796</b>	<b>9.0</b>	<b>2,086,627</b>	<b>100.0</b>	<b>100.0</b>

For a disaggregation of the fair value of the plan assets into classes that distinguish the nature and risks of those assets, please refer to:

- the West Yorkshire Pension Fund Financial Statements and Explanatory Notes in City of Bradford Metropolitan District Council's accounts, available at [www.bradford.gov.uk](http://www.bradford.gov.uk)
- the West Yorkshire Pension Fund Report and Accounts, available at [www.wypf.org.uk](http://www.wypf.org.uk)

**Basis for Estimating Assets and Liabilities**

Liabilities have been assessed on an actuarial basis using the projected unit credit method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels, etc.

Both the Local Government Pension Scheme and discretionary benefits liabilities have been assessed by Aon Hewitt Limited, an independent firm of actuaries, with estimates for the West Yorkshire Pension Fund being based on the latest full valuation of the scheme as at 31 March 2017. The significant assumptions used in the Actuary's assessments of assets and liabilities have been:

	Local Government Pension Scheme		Local Government Pension Scheme Discretionary Benefits		Teachers Voluntary Early Retirement Discretionary Benefits	
	31 March 2017	31 March 2018	31 March 2017	31 March 2018	31 March 2017	31 March 2018
<b>Mortality Assumptions</b>	years	years	years	years	years	years
Longevity at 65 for current pensioners (aged 65 at accounting date):						
Men	22.1	22.1	22.1	22.1	22.1	22.1
Women	25.2	25.3	25.2	25.3	25.2	25.2
Longevity at 65 for future pensioners (aged 45 at accounting date):						
Men	23.0	23.1	-	-	-	-
Women	27.0	27.1	-	-	-	-
<b>Commutation i.e. take-up of option to convert annual pension into retirement lump sum</b>	Each member was assumed to surrender pension on retirement, such that the total cash received (including any accrued lump sum from pre-2008 service) is 75% of the permitted maximum.	Each member was assumed to surrender pension on retirement, such that the total cash received (including any accrued lump sum from pre-2008 service) is 75% of the permitted maximum.	-	-	-	-
<b>Financial assumptions</b>	% per annum	% per annum	% per annum	% per annum	% per annum	% per annum
Rate of RPI inflation	3.1	3.2	3.1	3.2	3.1	3.2
Rate of CPI Inflation	2.0	2.1	2.0	2.1	2.0	2.1
Rate of increase in salaries	3.25	3.35	-	-	-	-
Rate of increase in pensions	2.0	2.1	2.0	2.1	2.0	2.1
Discount rate	2.5	2.6	2.5	2.6	2.5	2.6

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analysis below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes while all the other assumptions remain constant. The assumptions in mortality/longevity, for example, assume that post-retirement mortality age rating increases or decreases for men and women. In practice, this is unlikely to occur, and changes in some of the assumptions may be interrelated. The estimations in the sensitivity analysis have followed the accounting policies for the scheme, i.e. on an actuarial basis using the projected unit credit method. The methods and types of assumptions used in preparing the sensitivity analysis below did not change from those used in the previous period. Sensitivity analysis of unfunded benefits has not been included on materiality grounds.

## Impact on the Defined Benefit Obligation in the Scheme

	Present Value of the Defined Benefit Obligation After Increase in Assumption £000	Change in Present Value of Defined Benefit Obligation %	Present Value of Defined Obligation Benefit After Decrease in Assumption £000	Change in Present Value of Defined Benefit Obligation %
Mortality/Longevity i.e. Post-retirement mortality age rating * - increase or decrease by 1 year	2,694,394	-3.0	2,862,240	3.0
Rate of increase in salaries - increase or decrease by 0.1%	2,788,214	0.4	2,768,055	-0.4
Rate of increase in pensions - increase or decrease by 0.1%	2,817,741	1.4	2,739,047	-1.4
Discount rate i.e. Rate for discounting scheme liabilities - increase or decrease by 0.1%	2,729,100	-1.8	2,827,956	1.8

\* an increase by 1 year means that members are assumed to follow the mortality pattern for an individual that is 1 year older than them.

## Impact on the Council's Cash Flows

The objectives of the scheme are to keep employers' contributions at as constant a rate as possible. The Council has agreed a strategy with the scheme's actuary to achieve a funding level of 100% over 22 years from 1 April 2014. Funding levels are monitored on an annual basis. The next triennial valuation is due to be completed on 31 March 2019.

The scheme will need to take account of the national changes to the scheme under the Public Pensions Services Act 2013. Under the Act, the Local Government Pension Scheme in England and Wales and the other main existing public service schemes may not provide benefits in relation to service after 31 March 2014 (or service after 31 March 2015 for other main existing public service pension schemes in England and Wales). The Act provides for scheme regulations to be made within a common framework, to establish new career average revalued earnings schemes to pay pensions and other benefits to certain public servants.

The total contributions expected to be made to the Local Government Pension Scheme by the Council in the year to 31 March 2018 are £38.717m.

The total contributions expected to be made for the Local Government Pension Scheme Discretionary Benefits scheme and the Teachers Voluntary Early Retirement Discretionary Benefits scheme in the year to 31 March 2018 are £3.562m and £5.822m, respectively.

The weighted average duration of the funded defined benefit obligation for the Local Government Pension Scheme (LGPS) is 17.8 years at 31 March 2018 (17.8 years at 31 March 2017).

The weighted average duration of the unfunded defined benefit obligation for Local Government Pension Scheme (LGPS) Discretionary Benefits is 9.6 years at 31 March 2018 (9.6 years at 31 March 2017) & the weighted average duration of the unfunded defined benefit obligation for Teachers Voluntary Early Retirement Discretionary Benefits is 10.0 years at 31 March 2018 (10.0 years at 31 March 2017).

**Note 32. Members' Allowances**

- The total cost to the Council in respect of Members' allowances in 2017-18 was £1,942,671 and £12,566 expenses (£1,933,455 and £30,302 expenses in 2016-17). Excluding Employers National Insurance contributions directly paid over to Central Government, the cost of Members Allowances in 2017-18 was £1,794,546 and £12,566 expenses (£1,781,534 and £30,302 expenses in 2016-17)

**Note 33. Employees' Remuneration**

Authorities are required to disclose information on employees' remuneration in excess of £50,000 per annum. Remuneration is defined in the regulations as:

- All amounts paid to or receivable by an employee
- Expense allowances chargeable to tax
- The estimated money value of any other benefits received by an employee otherwise than in cash

Number of Employees 2016-17	Employees Emoluments	Number of Employees 2017-18
153	£50,000 - £54,999	104
84	£55,000 - £59,999	60
61	£60,000 - £64,999	52
46	£65,000 - £69,999	40
21	£70,000 - £74,999	28
16	£75,000 - £79,999	14
18	£80,000 - £84,999	11
6	£85,000 - £89,999	9
5	£90,000 - £94,999	7
4	£95,000 - £99,999	1
2	£100,000 - £104,999	2
1	£105,000 - £109,999	2
1	£110,000 - £114,999	1
0	£115,000 - £119,999	0
0	£120,000 - £124,999	1
1	£125,000 - £129,999	1
419	Total	333

The above figures include 208 teachers (293 in 2016-17).

The above table includes compensation payments for loss of employment

**Senior Officers Remuneration**

The following tables set out the remuneration disclosures for Senior Officers whose salary is less than £150,000 but equal to or more than £50,000 per year.

A Senior Officer is defined as an employee whose salary is more than £150,000 per year, or one whose salary is at least £50,000 per year (to be calculated pro rata for a part-time employee) and who is:

- The designated head of paid service, a statutory chief officer or a non-statutory chief officer of a relevant body, as defined under the Local Government and Housing Act 1989
- The head of staff for a relevant body which does not have a designated head of paid service; or
- Any person having responsibility for the management of the relevant body, to the extent that the person has power to direct or control the major activities of the body, in particular activities involving the expenditure of money, whether solely or collectively with other persons.

2017-18 Senior Officers with a salary less than £150k per annum (excluding Employer Pension contributions)

**Senior Officers' Remuneration**

The following tables set out the remuneration disclosures for Senior Officers whose salary is more than £150,000

<b>2017-18 Senior Officers with salary more than £150k per annum (excluding Employer Pension contributions)</b>								
Post Title and Holder		Salary including Fees & Allowances	Expense Allowances	Comp'n for Loss of Office	Benefits in kind	Total Remuneration excluding pension contributions	Pension contributions	Total remuneration including pension contributions
	<b>Note</b>							
	A	£	£	£	£	£	£	£
Chief Executive - Kersten England	B	182,064				182,064	31,861	213,925

<b>2016-17 Senior Officers with salary more than £150k per annum (excluding Employer Pension contributions)</b>								
Post Title and Holder		Salary including Fees & Allowances	Expense Allowances	Comp'n for Loss of Office	Benefits in kind	Total Remuneration excluding pension contributions	Pension contributions	Total remuneration including pension contributions
	<b>Note</b>							
	A	£	£	£	£	£	£	£
Chief Executive - Kersten England	B	180,261				180,261	25,377	205,638

Notes:

- A. Contracted annualised salary excludes honorariums, extra duty payments and transport allowances, as well as expense allowances and employer pension contributions. They also show the cost for a full financial year, regardless of how long the postholder was in post. The annualised salary also shows the salary grade at the end of the financial year, even though an increment may have been received part way through the year. The contracted annualised salaries of the Senior Officers posts are as follows:

Annualised Salary for 2017-18

Chief Executive – Kersten England - £182,064  
 Strategic Director – Corporate Services - £134,083  
 Strategic Director Children's Services – £139,223  
 Strategic Director – Health and Wellbeing - £134,083  
 Strategic Director – Place - £134,083  
 Director of Human Resources – £98,315  
 City Solicitor - £94,673  
 Director of Public Health – £99,910  
 Assistant Director of the Office of the Chief Executive £86,297  
 Director West Yorkshire Pension Fund – £98,315  
 Interim Strategic Director Corporate Resources (Monitoring Officer) – £132,798  
 Interim City Solicitor\*\* – £144,703  
 Assistant Director Finance & Procurement (Chief Financial Officer) – £92,102  
 Interim Director of Human Resources – £92,852  
 Interim Director of Public Health - £94,000

\*\*The Interim City Solicitor was in post from 29 January 2018. The annualised salary has been calculated based on the hourly agency rate for the Interim City Solicitor.

Annualised Salary for 2016-17

Chief Executive – Kersten England - £180,261  
 Strategic Director – Corporate Services - £131,483  
 Strategic Director Children's Services – £137,845  
 Strategic Director – Health and Wellbeing - £131,483  
 Strategic Director – Place - £131,483  
 Director of Human Resources – £97,342  
 City Solicitor - £91,933

Director of Public Health – £99,910  
 Assistant Director of the Office of the Chief Executive £83,282  
 Director West Yorkshire Pension Fund – £97,342  
 Strategic Director Environment and Sport –£114,518  
 Strategic Director Regeneration and Culture – £114,518  
 (Interim) Strategic Director Adult and Community Services – £110,278  
 Director of Finance – £111,100  
 Interim City Solicitor – £135,600\*

\*The Interim City Solicitor was in post from 7 March 2016 to 19 May 2016. The annualised salary has been calculated based on the daily rate for the Interim City Solicitor.

B The following amounts were paid in 2017-18 for election duties and are not included in salaries.

<b>2017-18 Senior Officers Election Duty Remuneration</b>				
Post Title and Holder	Salary including Fees & Allowances	Total Remuneration excluding pension contributions	Pension contributions	Total remuneration including pension contributions
	£	£	£	£
Chief Executive - Kersten England	12,395	12,395	2,169	14,564
City Solicitor	3,680	3,680	644	4,324

<b>2016-17 Senior Officers Election Duty Remuneration</b>				
Post Title and Holder	Salary including Fees & Allowances	Total Remuneration excluding pension contributions	Pension contributions	Total remuneration including pension contributions
	£	£	£	£
Chief Executive - Kersten England	27,150	27,150	3,822	30,972
City Solicitor	3,768	3,768	535	4,303

C The post of Assistant Director – Office of the Chief Executive started on 3 January 2017 and the costs shown are from the 3 January 2017 to 31 March 2017.

D The Director of Finance, Strategic Director Environment and Sport and Strategic Director of Regeneration and Culture roles operated from 1 April 2016 to 2 January 2017. On 3 January 2017 the Director of Finance became the Strategic Director Corporate Services. Also on 3 January 2017 the Strategic Director Environment and Sport became the Strategic Director Place. The costs shown for the Strategic Director Corporate Service and Strategic Director Place roles are from 3 January 2017 to 31 March 2017.

E The Strategic Director – Health and Wellbeing started on 12 September 2016. The post of Strategic Director – Health and Wellbeing superseded the post of Interim Strategic Director Adult & Community Service.

F The City Solicitor started on 16 May 2016.

G The Interim City Solicitor was in post from 7 March 2016 to 19 May 2016.

H The Strategic Director Corporate Services left on 5 February 2018.

I The City Solicitor became the Interim Strategic Director Corporate Resources (Monitoring Officer) on 29 January 2018.

J The Assistant City Solicitor became the Interim City Solicitor on 29 January 2018. The Interim City Solicitor is employed by an agency and the costs shown are those invoiced by the agency which complies with the HMRC requirements of IR35. The costs relate to an average of 35.75 hours worked a week.

K The Assistant Director Finance & Procurement took on the additional role of Chief Financial Officer on 29 January 2018.

L The Director of Human Resources left on 31 January 2018.

M The Head of Human Resources became the Interim Director of Human Resources on 19 January 2018.

N The Director of Public Health left on 27 March 2018.

O The Consultant in Public Health became the Interim Director of Public Health on 27 February 2018.

**Exit Packages**

The total cost to the Council of exit packages includes compulsory and voluntary redundancy costs, pension contributions in respect of added years, ex-gratia payments and other departure costs.

The exit packages are classified into compulsory redundancies and other departures.

<b>Compulsory Redundancies</b>				
Number of Exit Packages 2016-17	Cost to Council 2016-17	Cost Bandings	Number of Exit Packages 2017-18	Cost to Council 2017-18
	£			£
11	79,250	£0 - £19,999	23	129,574
1	24,308	£20,000 - £39,999	2	57,404
1	57,938	£40,000 - £59,999	0	0
1	69,592	£60,000 - £79,999	0	0
1	91,739	£80,000 - £99,999	0	0
0	0	£100,000 - £149,999	1	119,302
0	0	£150,000 - £199,000	0	0
<b>15</b>	<b>322,827</b>	<b>Total</b>	<b>26</b>	<b>306,280</b>

<b>Other Departures</b>				
Number of Exit Packages 2016-17	Cost to Council 2016-17	Cost Bandings	Number of Exit Packages 2017-18	Cost to Council 2017-18
	£			£
84	697,502	£0 - £19,999	89	476,472
18	506,249	£20,000 - £39,999	16	437,497

7	559,804	£60,000 - £79,999	4	274,644
4	357,734	£80,000 - £99,999	3	280,297
5	571,922	£100,000 - £149,999	1	135,861
0	0	£150,000 - £199,000	1	293,185
<b>127</b>	<b>3,145,001</b>	<b>Total</b>	<b>116</b>	<b>1,988,326</b>

**Note 34. Capital Charges and the Repayment of External Loans**

Services have been charged or credited within the Comprehensive Income and Expenditure Statement for:

- The depreciation and impairment of fixed assets.
- Expenditure on Revenue Expenditure Funded from Capital under Statute (REFCUS).

These charges are not required by statute and have therefore been removed when calculating the Movement on the General Fund Balance.

The MRP for 2017-18 is £1m, comprising a 2017-18 charge of £24,738m, less an estimated overprovision of £23,738 (2016-17 £24.376m).

These changes are reflected in a transfer to or from the Capital Adjustment Account and are included in the Movement in Reserves Statement.

**Capital Expenditure Charged to General Fund Balance**

Authorities are allowed to finance capital expenditure through their revenue accounts. The expenditure of £5.923m in 2017-18 (£4.306m in 2016-17) is not shown in the Comprehensive Income and Expenditure Account but is charged to the General Fund and shown in the Movement in Reserves Statement.

**Profit or Loss on the Disposal of Assets and Investments**

Profits or losses arising on the disposal of assets are charged to the Surplus or Deficit on Provision of Services in the Comprehensive Income and Expenditure Statement. The loss on disposal of £27.795m in 2017-18 is made up of £32.892m from the de-recognition of assets and £5.097m in capital receipts. There was a loss on disposal in 2017-18 largely because of

schools that were de-recognised from assets when they converted to Academies. The Council does not receive capital receipts when schools convert to academies.

Although generally accepted accounting practice requires any profit or loss to be charged to the Comprehensive Income and Expenditure Statement, there is no statutory duty on local authorities to make such a charge. The charge is therefore removed when calculating the movements on the General Fund balance for the year.

**Note 35. Leases**

**Council as Lessee**

**Finance Leases**

The Council has a number of assets which have been acquired under finance leases. These include Industrial Units, IT equipment and photocopiers.

The assets acquired under these leases are carried as Property, Plant and Equipment in the Balance Sheet at the following net amounts:

<b>31 March 2017 Finance Leases as Lessee</b>	<b>31 March 2018</b>
<b>£000</b>	<b>£000</b>
72 Other land and Buildings	48
371 Vehicles, Plant, Furniture and Equipment	422
<b>443 Total</b>	<b>470</b>

The Council is committed to making minimum payments under these leases comprising settlement of the long-term liability for the interest in the property acquired by the Council and finance costs that will be payable by the Council in years while the liability remains outstanding. The minimum lease payments are made up of the following amounts:

<b>31 March 2017 Finance Lease liabilities</b> (net present value of minimum lease payments)	<b>31 March 2018</b>
<b>£000</b>	<b>£000</b>
143 Current	156
303 Non-current	300
64 Finance costs payable in future years	35
<b>510 Total Minimum Lease Payments</b>	<b>491</b>

The minimum lease payments will be payable over the following periods:

	<b>Minimum Lease Payments</b>		<b>Finance Lease Liabilities</b>	
	<b>31 March 2017</b>	<b>31 March 2018</b>	<b>31 March 2017</b>	<b>31 March 2018</b>
	<b>£000</b>	<b>£000</b>	<b>£000</b>	<b>£000</b>
Not later than one year	174	178	143	156
Later than one year and not later than five years	336	313	303	300
Later than five years	0	0	0	0
	<b>510</b>	<b>491</b>	<b>446</b>	<b>456</b>

The minimum lease payments do not include rents that are contingent on events taking place after the lease was entered into, such as adjustments following rent reviews.

The Council has sub-let some of the Industrial Units held under the finance lease. As at the 31 March 2018 the forecast rental income for 2018-19 is £12,000.

No investment property held under operating leases have been classified as finance leases. However, should the economic reality be equivalent to the sale of investment property, these would be treated as finance leases.

**Operating Leases**

The Council has entered into a number of operating leases for buildings, vehicles, photocopiers and office equipment. The amount charged under these arrangements in the Comprehensive Income and Expenditure Statement during 2017-18 was £1.5m (£2.3m 2016-17).

The future minimum lease payments due under non-cancellable leases in future years are:

<b>31 March 2017</b>	<b>31 March 2018</b>
<b>£000</b>	<b>£000</b>
1,234 Not later than one year	906
1,802 Later than one year and not later than five years	1,893
2,573 Later than five years	2,307
<b>5,609 Total</b>	<b>5,106</b>

**Council as Lessor****Finance Leases**

The Council has leased out one property for 125 years. The Academy school buildings that are on a 125 year lease are also treated as a finance lease.

The Council has gross investments in the leases, made up of the minimum lease payments expected to be received over the remaining term and the residual value anticipated for the property when the lease comes to an end. The minimum lease payments comprise settlement of the long term debtor for the interest in the properties acquired by the lessees and finance income that will be earned by the Council in future years whilst the debtor remains outstanding. The gross investment is made up of the following amounts:

<b>31 March 2017 £000</b>	<b>Finance lease debtor (net present value of minimum lease payments)</b>	<b>31 March 2018 £000</b>
0	Current	0
223	Non-current	210
2,634	Unearned finance income	2,573
<b>2,857</b>	<b>Gross Investment in the Lease</b>	<b>2,783</b>

The gross investment in the lease and the minimum lease payments will be received over the following periods:

	<b>Gross Investment in the Lease</b>		<b>Minimum Lease Payments</b>	
	<b>31 March 2017 £000</b>	<b>31 March 2018 £000</b>	<b>31 March 2017 £000</b>	<b>31 March 2018 £000</b>
Not later than one year	26	26	26	26
Later than one year and not later than five years	154	105	154	105
Later than five years	2,677	2,652	2,677	2,652
	<b>2,857</b>	<b>2,783</b>	<b>2,857</b>	<b>2,783</b>

The minimum lease payments do not include rents that are contingent on events taking place after the lease was entered into, such as adjustments following rent reviews.

The gross investment in the leases is assumed to be the same as the minimum lease payments because no residual value has been assumed for the leases at their end date.

**Operating Leases**

The Council leases out property under operating leases for the following purposes:

- for the provision of community services, such as sports facilities, tourism services and community centres.
- for economic development purposes to provide suitable affordable accommodation for local businesses.
- one academy schools that are on short-term six year leases.

The future minimum lease payments receivable under non-cancellable leases in future years are:

<b>31 March 2017 £000</b>		<b>31 March 2018 £000</b>
2,996	Not later than one year	3,592
6,604	Later than one year and not later than five years	9,032
68,788	Later than five years	69,517
<b>78,388</b>	<b>Total</b>	<b>82,141</b>

The minimum lease payments receivable do not include rents that are contingent on events after the lease was entered into, such as income based on a percentage of income receipts. In 2017-18 £0.459m contingent rents were receivable by the Council (2016-17 £0.568m).

**Note 36. Private Finance Initiative (PFI)****BSF Phase 1 – Provision of three schools**

The Council has a 25 year PFI contract for the building and maintenance of three schools under the Building Schools for the Future Phase 1 programme. The contract commenced in August 2008 and expires in August 2033. The Council has rights under the contract to specify the activities undertaken at each school, and the contract specific minimum standards for the services to be provided by the contractor, with deductions from the fee payable being made if facilities are unavailable or performance is below the minimum standards. The contractor took on the obligation to construct and maintain the schools to a minimum acceptable condition and to procure and maintain the necessary plant and equipment needed to keep the schools operational. The buildings and any plant and equipment installed in them at the end of the contract will be transferred to the Council for nil consideration. The Council would have to pay the contractor substantial compensation if it terminated the contract early without due cause.

2016-17 £000	<b>BSF Private Financing Initiative</b>	2017-18 £000
	<b>Charges to Net Cost of Services</b>	
	Unitary Payments to the Contractor for services provided	
4,169		4,796
<b>4,169</b>	<b>Total charges to the revenue account</b>	<b>4,796</b>
	Net Operating Expenditure	
6,529	Interest element of finance lease payments	6,253
	<b>Movement in Reserves Statement</b>	
2,408	Capital element of finance lease	2,343
<b>13,106</b>	<b>Total PFI charges</b>	<b>13,392</b>
	<b>Financed By</b>	
9,005	Government PFI Revenue Grant	9,005
4,487	Education	4,822
0	Council and Schools contribution	0
<b>13,492</b>	<b>Total Financing</b>	<b>13,827</b>
<b>386</b>	<b>Transfer to BSF PFI Reserve</b>	<b>435</b>

The assets used to provide services at the schools are recognised on the Council's Balance Sheet, as regards one Community School. The other school assets are de-recognised because they are Trusts. Movements in their value over the year are detailed in the analysis of the movement on the Property, Plant and Equipment balance in Note 9.

The Council makes an agreed payment each year which is increased each year by inflation and can be reduced if the contractor fails to meet availability and performance standards in any year but which is otherwise fixed. The figures used to calculate PFI balances include indexation. Estimated cash payments remaining to be made under the PFI contract at 31 March 2018 are as follows:

Year	Unitary Charge £000	Principal £000	Interest £000	Service charge and life cycle costs £000
Within 1 year	12,135	2,502	5,703	3,930
2-5	49,863	11,074	21,000	17,789
6-10	65,569	19,860	20,467	25,242
11-15	69,609	29,686	11,617	28,306
16-20	5,523	3,160	174	2,189
<b>Total</b>	<b>202,699</b>	<b>66,282</b>	<b>58,961</b>	<b>77,456</b>

Although the payments made to the contractor are described as unitary payments, they have been calculated to compensate the contractor for the fair value of the services they provide, any capital expenditure incurred, and principal and interest payable to reduce the outstanding liability to the contractor. The liability outstanding to the contractor for capital expenditure incurred is as follows:

2016-17 £000	<b>Analysis of Outstanding Liability for BSF Phase 1</b>	2017-18 £000
<b>71,032</b>	<b>Balance outstanding at 31 March</b>	<b>68,625</b>
-2,407	Payments during the year	-2,343
<b>68,625</b>	<b>Balance outstanding at year end</b>	<b>66,282</b>

The closing value of assets held under the scheme at 31 March 2018 was £18.830m (£19.254m 31 March 2017) in respect of the BSF Phase 1 scheme.

The liabilities (i.e. the total principal repayments due over the life of the scheme) due on these assets at 31 March 2018 were £66.282m (£68.625m at 31 March 2017). The decrease of £2.343m is due to payments during the year.

**BSF Phase 2**

The Council entered into a contract for Phase 2 of the BSF programme in September 2009, ending 2035-36. This relates to the building and maintenance of four mainstream Secondary Schools and three co-located Special Needs Secondary Schools. Two of the sites were completed during March 2011 and the other two handed over during 2011-12. The Council controls these assets and they will transfer to the Council at no cost at the end of the contract.

2016-17 £000	BSF Private Financing Initiative	2017-18 £000
	<b>Charges to the Revenue Account</b>	
8,719	Unitary Payments to the Contractor for services provided	9,224
<b>8,719</b>	<b>Total charges to the revenue account</b>	<b>9,224</b>
	Net Operating Expenditure	
11,843	Interest element of finance lease payments	11,751
	<b>Statement of Movement on the General Fund Balance</b>	
5,924	Capital element of finance lease	5,868
<b>26,486</b>	<b>Total PFI charges</b>	<b>26,843</b>
	<b>Financed By</b>	
18,297	Government PFI Revenue Grant	18,297
8,602	Education	8,939
0	Council and Schools contribution	0
<b>26,899</b>	<b>Total Financing</b>	<b>27,236</b>
<b>413</b>	<b>Transfer to BSF PFI Reserve</b>	<b>393</b>

The figures used to calculate PFI balances include indexation. Estimated cash payments remaining to be made under the PFI contract at 31 March are as follows:

Year	Unitary Charge £000	Principal £000	Interest £000	Service charge and life cycle costs £000
Within 1 yr	25,376	5,727	11,367	8,282
2-5	104,104	20,824	43,638	39,642
6-10	136,484	29,072	51,419	55,993
11-15	144,406	33,274	44,722	66,410
16-20	89,511	22,512	22,416	44,583
<b>Total</b>	<b>499,881</b>	<b>111,409</b>	<b>173,562</b>	<b>214,910</b>

The liability outstanding to the contractor for capital expenditure incurred is as follows:

2016-17 £000	Analysis of Outstanding Liability for BSF Phase 2	2017-18 £000
<b>123,201</b>	<b>Balance outstanding at 31 March</b>	<b>117,277</b>
-5,924	Payments during the year	-5,868
	Capital Expenditure incurred in the year	
<b>117,277</b>	<b>Balance outstanding at year end</b>	<b>111,409</b>

The closing value of assets held under the scheme at 31 March 2018 was £23.135m (£23.639m 31 March 2017) in respect of the BSF Phase 2 scheme. The assets used to provide services at the schools are recognised on the Council's Balance Sheet, as regards one Foundation School and one Special School. The liabilities (i.e. the total principal repayments due over the life of the scheme) due on these assets at 31 March 2018 were £111.409m (£117.277m 31 March 2017).

The excess of the liabilities over the assets arises because schools are de-recognised when they convert from Community, Foundation or Special Schools to Academies on long leases or Trust status. This excess of the liabilities will be financed in future years by government grants. However, in line with accounting standards and the Code, these government grants are not shown on the Council's balance sheet.

The remaining BSF scheme assets total £41.965m, per Note 9 page 45 and the total liabilities are £177.691m. The total excess of liabilities over assets for BSF Phase 1 and 2 is £135.725m. This reduces the Council's Net Assets as shown in its Balance Sheet, on page 24, by £135.726m.

**Note 37. Capital Expenditure and Financing**

The Capital Financing Requirement is the outstanding nominal debt on historic borrowing to finance debt. The Capital Financing Requirement is shown below:

2016-17 £000		2017-18 £000
	<b>Capital Expenditure and Capital Financing Requirement</b>	
<b>665,655</b>	<b>Opening Capital Financing Requirement</b>	<b>653,419</b>

0	Assets acquired under PFI contracts	0
<b>-12,236</b>	<b>Increase/ (decrease) in Capital Financing Requirement</b>	<b>16,035</b>

**Note 38. Revenue Expenditure Funded From Capital Under Statute (REFCUS)**

These are payments of a capital nature where no fixed asset is created, mainly grants made to individuals or organisations for capital purposes, such as improvement grants.

There was no balance brought forward at the start of the year. The cost of revenue expenditure funded from capital under statute (REFCUS) in the year was £12.093m (£11.555m in 2016-17). Grants of £9.957m funded this in year REFCUS expenditure (£8.696m in 2016-17), including £5.634m transferred from the Capital Grants Unapplied reserve (£3.792m in 2016-17).

**Note 39. Other Long Term Liabilities**

The total deferred liabilities at 31 March 2018 are £998.330m compared to a total of £1,012.286m at 31 March 2017. The main liability is in respect of the actuarially calculated pension liability which is £5,566 lower at 31 March 2018 when compared to 31 March 2017.

Other significant liabilities are:

a) PFI principal repayments due over the remaining life of the BSF Phase 1 and Phase 2 contracts. The total outstanding PFI liability as at 31 March 2018 was £177.691m (£185.902m at 31 March 2017), of which £169.462m is a deferred liability and £8.228m a creditor in respect of the 2017-18 principal repayment.

b) former West Yorkshire Waste Management Joint Committee debt. This is managed on the Council's behalf by Wakefield Metropolitan District Council. The deferred liability outstanding at 31 March 2018 was £3.765m (£3.921m at 31 March 2017).

The other deferred liabilities relate to finance leases. These comprise property and equipment leased by the Council where the real substance of the transaction is that the assets are bought on credit.

2016-17 £000	Other Long Term Liabilities	2017-18 £000
829,875	Pension Liability	824,309
	BSF	
66,282	Phase 1	63,780
111,409	Phase 2	105,682
3,921	Waste Management Joint Committee Debt	3,765
799	Other	794
<b>1,012,286</b>		<b>998,330</b>

The combined liability shown on the Balance Sheet of PFI Phase 1 and Phase 2 is £177.691m. As with all the Long-Term liabilities and current liabilities, the liability of £177.691m impacts on the Balance Sheet by reducing the net assets of the authority. However, this liability is matched with a government grant for Phase 1 of £9.005m and £18.297m for Phase 2, totalling £27.302m, see Note 45, page 87. The Phase 1 grant will be paid until 2033 and the Phase 2 grant will be paid until 2036.

**Note 40. Deferred Income**

There was no deferred income in 2017-18.

**Note 41. Related Party Transactions**

The Council has the following Related Party disclosures in relation to the following entities:

**West Yorkshire Joint Committee** - The West Yorkshire Joint Committee comprises the Councils of Bradford, Leeds, Calderdale, Kirklees and Wakefield. Its services include the Archaeology Advisory Service, Archaeological Services, Archive Service, Ecology, Materials Testing Service, Analytical Services and Trading Standards Service. It has been set-up as a partnership. The Council's share of its expenses is included below in this note, see Other Public Bodies.

Bradford Council makes an annual financial contribution to the West Yorkshire Joint Committee, based on its share of the service cost, and is represented on the management board. All the financial contributions are made on an annual basis. The Board manages the financial position and financial performance of the Joint Committee.

**Combined Authority** - The Combined Authority comprises the Councils of Bradford, Leeds, Calderdale, Kirklees, Wakefield and includes York as an associate. The Leader of Bradford Council is a member of the Combined Authority. The West Yorkshire Transport Fund became a committee of the Combined Authority during 2014-15; Bradford's share of expenditure of this is shown separately below in this note, see Other Public Bodies.

In future years, it is anticipated that the Combined Authority will receive capital grants, which will be spend on transport infrastructure projects across West Yorkshire.

The 2017-18 financial year was the third year of operation. The value of its financial transactions is expected to expand in future years.

**Leeds City Region** - The Leeds City Region comprises the Councils of Bradford, Leeds, Calderdale, Kirklees, Wakefield, York, Barnsley, Harrogate, Craven, Selby and North Yorkshire. It was set-up by a partnership agreement. The organisation accounts for grants held for the purpose of capital investment projects across the West Yorkshire Region.

The accountable body for the Leeds City Region in the West Yorkshire Combined Authority.

While the Leeds City Region holds significant capital grants, the cash flows are managed by Leeds City Council and a separate statement of accounts prepared. The accounts are subject to audit.

**Business Rates Pool** - The Business Rates Pool comprises the Councils of Bradford, Leeds, Calderdale, Kirklees, Wakefield, York and Harrogate. Councils received a 49% share of Business Rates in 2017-18, replacing direct government funding. The Pool redistributes levy income that would otherwise be paid over to Central Government.

**Revolving Infrastructure Investment Fund** - This fund is a Limited Liability Partnership comprising the Councils of Bradford, Leeds, Calderdale, Kirklees, Wakefield, York and Harrogate. It has been set up with the purpose of giving loans for infrastructure development across West Yorkshire. No loans have been agreed to date.

The Council has the following Related Party Disclosures:

Authorities are required to disclose transactions between themselves and related parties. In this context related parties are individuals or bodies which have the potential to influence or control the Council or to be influenced or controlled by the Council. The following information is provided.

**Central Government**

The UK Government provides the statutory framework within which the Council operates, provides the majority of Council funding in the form of grants and prescribes the terms of many of the transactions the Council has with other parties. Details of Government grants for revenue purposes are set out in Note 45 which identifies the cash grants received in the year for inclusion in the Cash Flow Statement (page 25).

**Action for Business**

On 2 February 2018 Action For Business (Bradford) Ltd (company number 2728593) was lent £310,000. A legal charge was taken on Carlisle Business Centre and surrounding land as security. £55,125 was repaid immediately in settlement of a legal charge on the property dated 14 September 2009. Interest is charged at 3% and the maximum term of the loan is 25 years. Repayments of interest and capital are due monthly.

**Members**

The Leader and Portfolio Holders are responsible for the direct control of the policies of the Council. Therefore where the Council enters into material financial transactions with other entities over which the Leader and Portfolio Holder also exert influence, this is declared below.

The Council's Leader is a member and the Chair of the West Yorkshire Combined Authority. The Council contributed £23.715m in revenue funding to the Transport Committee of the West Yorkshire Combined Authority in 2017-18 and received from the Committee a capital grant of £9.3m, see Other Public Bodies below.

The Council's Leader is also a member of the West Yorkshire Joint Services, Archives, Archaeology and Trading Standards Committee. The Council contributed £0.802m revenue funding towards West Yorkshire Joint Services in 2017-18. The Employees' Remuneration Note 33 can be viewed on p72.

The register of Members' interests is held by the Member Support Section within City Hall, Bradford and is available for public inspection as required by the code of conduct adopted by the Council in accordance with section 51 of the Local Government Act 2000 and the Local Authority (Model Code of Conduct) (England) Regulations 2001, made under section 50 of that Act. Chief Officers were requested to complete a voluntary declaration of any relevant transactions with the Council or between the Council and third parties with which they have some relationship. This resulted in there being no other material transactions to disclose. The Members' Allowances Note 32 can be viewed on p72.

**Chief Officers**

The Pension Fund has an investment in Montanaro European Smaller Companies Fund plc, which at 31st March 2018 was valued at £13.14m (£24.67m 31st March 2017), and has an original cost of £4.9m. Investment activity during the reporting period 2017/18 resulted in a sale of stock to the value of £13.55m. The Director, West Yorkshire Pension Fund, is a non-executive director of Montanaro European Smaller Companies Fund plc, for which he is paid a fee.

**West Yorkshire Pension Fund**

The Council administers the West Yorkshire Pension Fund. In 2017-18 it charged the Fund £0.422m in respect of support services provided (£0.347m in 2016-17). The charge includes financial, legal and IT services.

**Other Public Bodies**

Revenue transactions with precepting authorities, joint committees and other related bodies in the year were:

2016-17 £000	Other Public Bodies	2017-18 £000
	Payment of precepts	
7,971	West Yorkshire Fire and Rescue Authority	8,297
19,485	Police and Crime Commissioner West Yorkshire	20,567
1,407	Parish Councils	1,711
*25,562	Payments to joint committees, joint services and other bodies	24,869
5	Parish Councils (running expenses and allotment grants)	52

\*Includes a revenue contribution of £23.715m to the Transport Committee of the West Yorkshire Combined Authority. In addition, the Council received a £9.3m capital grant payment from the same Committee.

**Subsidiary and Associated Companies**

The Council had financial relationships in 2017-18 with the following companies. Their assets and liabilities are not included in the Council's accounts.

**Integrated Bradford LEP Ltd (5797774)** In December 2006, the Council took a £1,000, (10%) interest in the Local Education Partnership, Integrated Bradford LEP Limited, a private limited company. The company was set up to deliver the capital investment programme in Bradford secondary schools funded through the government initiative Building Schools for the Future.

**CBMDC Building Schools for the Future Ltd, (6015434)** is a private limited company and a wholly owned subsidiary of Bradford Council. It was incorporated on 30 November 2006 with the sole purpose to make a loan to Integrated Bradford LEP Fin Co One Ltd (5797779). The outstanding balance as at 31 March 2018 was £78,500 (31 March 2017 £81,000).

**Bradford District Apprenticeship Training Agency (8424557)** was incorporated on 28 February 2013 as a private limited company by guarantee without share capital. The subscribers to the company are Bradford College and the Council. The objects of the company are detailed in the memorandum of association documents available from companies house.

**Active Bradford Ltd, (11178024)** is a private limited company incorporated on 30 January 2018. The company is limited by guarantee and the City of Bradford Metropolitan District Council is one of 6 subscribers. The subscribers are organisations from across the District that are committed to working together to increase the number of people being active and playing sport across the Bradford District. The company did not trade between incorporation and 31/03/18.

**Canal Road Urban Village Ltd, (07084958)** is a private limited company incorporated on 24 November 2009. The City of Bradford Metropolitan District Council owns 199 Ordinary B shares. The objects of the company are detailed in the memorandum of association documents freely available from companies house.

**DHEZ Ltd (09706126)** was incorporated as a private limited company on 28 July 2015. 10 shares (10%) are owned by City of Bradford Metropolitan District Council. The objects of the company are detailed in the memorandum of association documents freely available from companies house.

**Leeds Bradford Airport Ltd (2065958)**, formerly known as Leeds Bradford International Airport Ltd (12/10/94 – 01/07/15), formerly known as Leeds Bradford Airport Ltd (01/12/86 – 12/10/94), formerly known as Inlandlaunch Ltd (21/10/86 – 01/12/86). The company was incorporated on 21 October 1986. 1 Special Share is owned by Leeds City Council and City of Bradford

Metropolitan District Council. The objects of the company are detailed in the memorandum of association documents freely available from companies house.

Details of the Council's long term investment in Integrated Bradford LEP Ltd, is shown in Note 16 on Long Term Investment

In 2017-18 the Council received a £0m interim dividend from our 10% investment in Integrated Bradford LEP (£0m 2016-17)

In addition to the above, the Council is involved in a number of other partnerships and companies limited by guarantee. The Council does not have significant influence over these organisations.

**Joint Arrangements**

The Council has identified that it is involved in 8 (8 in 2016-17) Joint Arrangements. One of these is the Yorkshire Purchasing Organisation.

The remaining 7 Joint Arrangements are known collectively as the West Yorkshire Services Committee. Individually these comprise: West Yorkshire Archaeology Advisory Service, Archaeological Service, West Yorkshire Archive Service, West Yorkshire Ecology, West Yorkshire Materials Testing Service, West Yorkshire Public Analyst and West Yorkshire Trading Standards. In 2017-18 the Council included its contribution of £0.802m to these arrangements (£0.796m in 2016-17) in the Comprehensive Income & Expenditure Statement but has not included its share of the assets and liabilities on the grounds of non-materiality.

The Council had no significant balances outstanding at year end with related parties.

**Note 42. External Audit Costs**

The Council has incurred the following costs in relation to the audit of the Statement of Accounts:

<b>2016-17</b>	<b>External Audit Costs</b>	<b>2017-18</b>
<b>£000</b>		<b>£000</b>
185	External audit services	185
20	Certification of grant claims and returns	17
48	West Yorkshire Pension Fund	48
0	Fees for other services	0
<b>253</b>	<b>Total</b>	<b>250</b>

**Note 43. Dedicated Schools Grant (DSG)**

The Council is allocated the Dedicated Schools Grant (DSG) from the Department for Education (DfE) in support of expenditure relating to the schools budget. The DSG must be allocated between Individual Schools budget (ISB) and the Central School Budget expenditure, and over or underspends on the two elements need to be shown separately. The DSG has been made under sections 14 of the Education Act 2002 and has been spent in accordance with regulations made under sections 45A, 45AA, 47, 48 (1) and (2) and 138 (7) of, and paragraph 1 (7) (b) of Schedule 14 to the School Standards Framework Act 1998 (England).

New disclosure requirements introduced in 2014/15 require the Council to show any in year DSG adjustments made by the DfE.

Bradford was allocated £516.268m for financial year 2017/18, see the table below:

Dedicated Schools Grant	2016-17		2016-17		2017-18	
	Total	Central Expenditure	Individual Schools Budget (ISB)	Total	Central Expenditure	Individual Schools Budget (ISB)
	£000	£000	£000	£000	£000	£000
Final DSG before Academy Recoupment	503,657			516,268		
Academy Recoupment	-170,526			-223,299		
<b>Total DSG after Academy Recoupment</b>	<b>333,131</b>			<b>292,969</b>		
Plus DSG b/f from previous year	887			458		
DSG carry forward to following year agreed in advance	0			0		
<b>Agreed Budget Distribution</b>	<b>334,018</b>	<b>19,643</b>	<b>314,375</b>	<b>293,427</b>	<b>24,710</b>	<b>268,717</b>

Carry Forward agreed in Advance	0	0	0	0	0	0
Total Carry Forward	<b>458</b>			<b>4,765</b>		

#### **Note 44. Contingent Liabilities and Assets**

This note summarises potential contingent losses in relation to certain outstanding matters which cannot be estimated accurately or considered sufficiently certain. Contingent liabilities are not accrued in the accounting statements.

##### **Employment Tribunal**

An Employment Appeal Tribunal (November 2014) ruled that holiday pay should include non-guaranteed overtime which may have implications for the Council where our employees are required to work overtime as a regular part of their job. Any backdating of claims is limited. A limited liability may therefore arise, although it is not thought likely that the impact will be significant.

##### **Municipal Mutual Insurance Limited (MMI Ltd)**

Prior to 1992, the Council's public liability and employers liability insurance were supplied by MMI Ltd. In 1992 the company ceased to accept new business and entered a run off period. In 1994, a Scheme of Arrangement under the Companies Act 1985 was put in place, under which if the company became at risk of insolvency, it would be able to claw back the necessary percentage of the claims it had paid out since the commencement of the Scheme of Agreement. A court ruling in relation to employers liability for occupational disease claims such as asbestosis has adversely affected the financial position of MMI Ltd to the extent that the Scheme of Arrangement has been triggered. The initial levy rate has been set at 15%. An additional levy was triggered for a further 10% on 1 April 2017, for which a provision was set aside as at 31 March 2018 (Please see Provisions, Note 20, p53).

##### **Pension Fund Guarantees**

The Council has agreed, subject to limitations, to guarantee the pension fund deficit of various bodies. Based on the 2016 actuarial valuations, there is no overall net liability to the Council, although it is recognised that in the future this position could change.

##### **Partnership Organisation**

The Council withdrew from a partnership organisation. This gave rise to an additional pension liability of £0.226m as at 31 March 2016, which was subsumed into the Council's overall pension liability.

##### **PFI BSF Phase 1 Asbestos Compensation Claim**

The main contractor responsible for delivery of the PFI BSF Phase 1 scheme has claimed for compensation for extra costs incurred in dealing with asbestos during construction of the scheme. The potential liability is being considered by the Council's legal and technical advisers for the scheme.

##### **Search Fees**

A group of Property Search Companies sought to claim refunds of fees paid to the Council to access land charges data. The Council agree to settle and some costs have been previously settled. It is possible that additional claimants may come forward to submit claims for refunds. An amount of £0.1m is set aside within provisions for refund of search fees (Please also see Provisions, Note 20, p53).

##### **Compensation Claim**

There is a potential contingent liability for schools that convert to an academy where there are historic school deficit balances and whose responsibility they will be if a school converts to an academy. There are a number of schools that could be affected although the Council will look to actions to reduce its exposure to financial loss.

The Council is also in discussions with a specific school with regards to a potential compensation claim.

##### **Indemnity**

The Council has provided an indemnity up to a value of £0.2m.

**Note 45. Grant Income**

The revenue government grants shown in the tables below represent the accrued amount received by the Council.

The Council credited the following grants, and donations, to the Comprehensive Income and Expenditure Statement in 2017-18:

	2016-17 £000	2017-18 £000
<b>Credited to Net cost of Services</b>		
Dedicated Schools Grant (DSG)	332,448	292,846
Rent Allowance Subsidy	170,152	164,511
Public Health	44,016	42,930
Pupil Premium	23,431	17,449
PFI Revenue Support	27,301	27,301
Education and Schools	23,145	21,861
Education Services	6,182	1,393
NHS Adult Social Care	10,711	23,849
Independent Living Fund	2,067	2,074
Revenue Expenditure Funded from Capital under Statute (REFCUS)	4,848	4,310
Council Tax reduction & housing benefits administration	3,524	3,028
Miscellaneous under £500k	945	1,395
Safer Communities	2,494	2,302
Troubled Families	1,776	570
Contribution to cost of Business Rates collection	754	737
Youth Training	865	795
European Union	213	327
Adoption Grant	871	404
Local Reform & Community Voices	314	319
Asylum seekers accommodation and resettlement	226	1,182
Controlling migration	0	744
Arts, Heritage & Leisure	551	443
<b>Total</b>	<b>656,834</b>	<b>610,770</b>
<b>Credited to Taxation and Non Specific Grant Income</b>		
Revenue Support Grant	83,947	62,849
Top Up Grant	57,040	64,679
New Homes Bonus Grant	11,444	10,864
Small Business Rates and other Section 31 grants	7,532	10,895
Local Services Support Grant	104	652
<b>Total</b>	<b>160,067</b>	<b>149,939</b>

The Council has received a number of grants and contributions that have yet to be recognised as income as they have conditions attached to them that will require the monies or property to be returned to the giver. The balances shown below are included in the Balance Sheet in Capital Grants Receipts in Advance under Long Term Liabilities and the amounts at year end are as follows:

	2016-17 £000	2017-18 £000
<b>Capital Grants Receipts in Advance</b>		
Developer's contributions	8,361	10,258
<b>Total (See Balance Sheet p24)</b>	<b>8,361</b>	<b>10,258</b>

**Note 46. Impairment Losses**

The Code requires disclosure by class of assets of the amounts for impairment losses and impairment reversals. The Code distinguishes between impairment loss – which represents the consumption of economic benefit specific to an asset – and revaluation loss – which represent a general decrease in prices. These disclosures are consolidated in Note 9 and Note 14.

The Council has recognised an impairment loss of £0.35m on Property, Plant and Equipment in the Surplus or Deficit on the Provision of Services.

**Note 47. Financial Instruments**

A financial instrument is a contract that gives rise to a financial asset of one entity and a financial liability of another. The term covers both financial liabilities and financial assets and includes the borrowing, lending, soft loans, financial guarantees and bank deposits of the Council.

With effect from 1 April 2007 local authorities were required to adopt the accounting standards for financial instruments IAS 32, IAS 39 and IFRS 7. This means that most financial instruments (whether borrowing or investments) have to be valued in the Balance Sheet on a fair value basis using the effective interest rate (EIR) method.

In addition to help identify, quantify and inform on the exposure to and management of risk, financial instruments are required to be shown at fair value. Fair value is defined as the amount for which an asset could be exchanged or a liability settled, assuming that the transaction was negotiated between parties knowledgeable about the market in which they are dealing and willing to buy/sell at an appropriate price, with no other motive in their negotiations other than to secure a fair price. In the following tables and notes the significance of financial instruments for the Council's financial position and performance will be explained.

Financial Assets that have passed their due date have been impaired but all have been subject to a review and, where appropriate, provided for within the bad debt provision.

**Types of Financial Instruments**

The following categories of financial instrument are carried on the Balance Sheet.:

	Long-term		Current	
	31 March 2017 £000	31 March 2018 £000	31 March 2017 £000	31 March 2018 £000
<b>Investments</b>				
Loans and receivables (Principal amount)	0	0	67,251	66,830
Accrued Interest	0	0	13	11
Equity Investments	1	1	0	0
Available for sale financial assets	0	0	10,014	0
<b>Total Investments</b>	<b>1</b>	<b>1</b>	<b>77,278</b>	<b>66,841</b>
<b>Debtors</b>				
Loans and receivables	1,484	2,104	22	20
Financial assets carried at contract amounts	0	0	34,136	48,769
<b>Total Debtors</b>	<b>1,484</b>	<b>2,104</b>	<b>34,158</b>	<b>48,789</b>
<b>Borrowings</b>				
Financial liabilities at amortised cost (Principal amount)	326,826	317,167	17,212	15,233
Accrued Interest	0	0	3,623	3,621
<b>Total Borrowings</b>	<b>326,826</b>	<b>317,167</b>	<b>20,835</b>	<b>18,854</b>
<b>Other long term liabilities</b>				
PFI and finance lease liabilities	177,994	169,762	8,354	8,384
<b>Total other long term liabilities</b>	<b>177,994</b>	<b>169,762</b>	<b>8,354</b>	<b>8,384</b>
<b>Creditors</b>				
Financial liabilities carried at contract amounts	0	0	29,365	40,292
<b>Total creditors</b>	<b>0</b>	<b>0</b>	<b>29,365</b>	<b>40,292</b>

Under accounting requirements the carrying value of the financial instrument value is shown in the balance sheet which includes the principal amount borrowed or lent and further adjustments for breakage costs or stepped interest loans (measured by an effective interest rate calculation) including accrued interest. Accrued interest is shown separately in current assets/liabilities where the payments/receipts are due within one year. The effective interest rate is effectively accrued interest receivable under the instrument, adjusted for the amortisation of any premiums or discounts reflected in the purchase price.

**Fair value of Financial Instruments**

Financial liabilities and financial assets represented by loans and receivables and long term debtors and creditors are carried in the Balance Sheet at amortised cost. Their fair value can be assessed by calculating the net present value of the cash flows that take place over the remaining life of the instruments (all Level 2) which provides an estimate of the value of payments in the future in today's terms. The calculations have been made using the following assumptions:

- For loans from the Public Works Loan Board (PWL) new borrowing rates from the PWLB have been applied to provide the fair value under PWLB debt redemption procedures. We have assessed the cost of taking a new loan at PWLB new loan rates applicable to existing loans on Balance Sheet date (which could be viewed as a proxy for transfer value).
- For Lender's Option Borrower's Option" (LOBO) loans prevailing market rates have been applied to provide the fair value under PWLB debt redemption procedures.
- For loans receivable prevailing benchmark market rates have been used to provide the fair value.
- No early repayment or impairment is recognised.
- Where an instrument has a maturity of less than 12 months or is a trade or other receivable the fair value is taken to be the carrying amount or the billed amount.

The fair value of trade and other receivables is taken to be the invoiced or billed amount.

The fair values calculated are as follows:

2016-17 Carrying amount £000	2016-17 Fair value £000	Fair value of liabilities carried at amortised cost at 31 March	2017-18 Carrying amount £000	2017-18 Fair value £000
288,888	394,528	PWLB Loans	278,887	373,641
43,121	63,369	LOBO's	43,105	62,065
400	400	Other loans	400	400
3,623	3,623	Short term borrowing	3,621	3,621
7,042	7,042	Cash overdrawn	5,586	5,586
4,256	6,201	Other local authorities re joint services	4,087	5,986
331	331	Other	335	335
186,348	186,348	PFI and finance lease liabilities	178,146	178,146
29,365	29,365	Financial liabilities at contracted amounts	40,292	40,292
<b>563,374</b>	<b>691,207</b>	<b>Total Liabilities</b>	<b>554,459</b>	<b>670,072</b>

The fair value of the liabilities is higher than the carrying amount because the Council's portfolio of loans includes a number of fixed rate loans where the interest rate payable is higher than the rates available for similar loans at the Balance Sheet date. This shows a notional future loss (based on economic conditions at 31 March 2018) arising from a commitment to pay interest to lenders above current market rates.

The Council has determined that for PFI scheme and finance lease liabilities the carrying value represents the best estimate of fair value, as the carrying value is based on the effective interest rate of the contract, which reflects the unique risks associated with the contract.

An alternative valuation technique for PWLB loans is where the value is calculated to be equivalent to the cost of the early repayment of outstanding PWLB debt. But if the Council were to seek to repay the loans to the PWLB, the PWLB would raise a penalty charge for early redemption in addition to charging an additional premium for the additional interest that will not now be paid. If this method of valuation had been used in 2017-18 the fair value would be calculated as £422.921m.

2016-17 Carrying amount £000	2016-17 Fair value £000	Fair value of assets carried at amortised cost at 31 March	2017-18 Carrying amount £000	2017-18 Fair value £000
11,011	11,011	Investments	15,003	15,003
56,253	56,253	Investments – cash and cash equivalents	51,838	51,838
1	1	Equity Investments -Integrated Bradford Local Education Partnership (LEP) Ltd	1	1
1,506	1,646	Debtors – loans and receivables	2,124	2,240
34,136	34,136	Financial assets at contracted amounts	48,769	48,769
<b>102,907</b>	<b>103,047</b>	<b>Total Financial Assets</b>	<b>117,735</b>	<b>117,851</b>

The fair values for loans and receivables have been determined by reference to similar practices, as above, which provide a reasonable approximation for the fair value of a financial instrument and include accrued interest. The comparator market rates prevailing have been taken from indicative investment rates at each balance sheet date. In practice, rates will be determined by the size of the transaction and the counterparty, but it is impractical to use these figures and the difference is likely to be immaterial.

Short term debtors and creditors are carried at cost as this is a fair approximation of their value.

#### **Gains and losses on financial instruments**

The gains and losses recognised in the Comprehensive Income and Expenditure Statement in relation to financial instruments are made up as follows.

2016-17 £000	Recognised gains and losses	2017-18 £000
	<b>Recognised in the Comprehensive Income and Expenditure Statement</b>	
	<b>Financial assets: Loans and receivables</b>	
-1,060	Interest income	-949
<b>-1,060</b>	<b>Total income in surplus or deficit on the provision of services</b>	<b>-949</b>
	<b>Financial Liabilities measured at amortised cost</b>	
19,947	Interest payable	18,193
18,431	Interest Payable on PFI and Finance leases Recognised in Other Comprehensive Income and Expenditure	18,037
<b>38,378</b>	<b>Total expense in surplus or deficit on the provision of services</b>	<b>36,230</b>

### Nature and extent of risks arising from financial instruments

The Council's activities expose it to a variety of financial risks:-

- a. Credit Risk - the possibility that other parties might fail to pay amounts due to the Council.
- b. Liquidity Risk - the possibility that the Council might not have funds available to meet its commitments to make payments.
- c. Re-financing Risk – the possibility that the Council might be requiring to renew a financial instrument on maturity at disadvantageous interest rates or terms.
- d. Market Risk – the possibility that financial loss might arise for the Council as a result of changes in such measures as interest rate movement.

### Overall procedures for managing risks

The Council's management of treasury risks actively works to minimise the Council's exposure to the unpredictability of financial markets and to protect the financial resources available to fund services. In July 2003 the Council fully adopted the CIPFA Code of Treasury Management Practices. Each year the Assistant Director of Finance and Procurement presents to the Governance and Audit Committee an Annual Treasury Management Report which covers the Council's current treasury position, borrowing and investment strategies and performance and debt rescheduling.

The annual Treasury Management Strategy which incorporates prudential indicators was approved by Council on 18 July 2017 and is available on the Council's website. Actual performance is also reported after each year.

#### a. Credit Risk

Credit risk arises from deposits with banks and financial institutions, as well as credit exposures to the Council's customers.

It is the policy of the Council set out in the Annual Investment Strategy to place deposits only with a limited number of banks and building societies whose credit rating is independently assessed as sufficiently secure by the Council's treasury advisers and to restrict lending to a prudent maximum amount for each institution. The Council also has a policy of limiting deposits and maturities with banks and building societies depending on an institution's (such as Moody's or Fitch's) credit rating.

The credit criteria in respect of financial assets held by the Council are as detailed below.

#### Investment limits

The financial investment limits with the Government, Banks or Building Societies are linked to Moody's, Fitch and Standard and Poors (S&P) ratings, as follows:-

1. The Government through debt management office including deposits, treasury bills and bank government guarantee certificate of deposits – Maximum Investment with any one counter party – no limit.
2. Local Authorities: Maximum Investment with any one counter party – £20 million.
3. Money Market funds including government funds with a Moody's, S&P or Fitch rating of AAA: Maximum Investment with any one counter party – £20 million.
4. Any other Bank or Building Society with credit criteria of Moody's rating Aa3 or better, Fitch short term rating of at least F1 and a S&P short term rating of A1 or better: Maximum Investment with any one counter party – £30million.
5. Any Bank or Building Society with credit criteria of Moody's rating A1 or better, Fitch short term of at least F1 and a S & P short term rating of A-1 or better: Maximum Investment with any one counter party – £20million.
6. Lower limit with any bank or building society with at least one of the following; Moody rating of A3 or better, Fitch rating of at least F1, S&P rating of A-1 or better: Maximum Investment with any one counter party – £7million.
7. National Westminster Bank - maximum limit of £20m.

The full Investment Strategy for 2017-18 was approved by Full Council on 18 July 2017 and is available on the Council's website.

Customers for goods and services are assessed, dependent on materiality, taking into account their financial position, past experience and other factors as appropriate. A bad debt provision has been included in the accounts, to take account of the risk of non-payment (see note 18). As at 31 March 2018, the Council had a balance owing from its customers (mainly service and rent) of £48.769m (£34.136m 31 March 2017). The exposure to default has been assessed and is reflected in a bad debt (or impairment) provision of £3.057m.

At the year end the Council held investments of £66.841m, made up of £15.003m Investments and £51.838m Cash and Cash Equivalents. The Council's maximum exposure to credit risk in relation to the above balances cannot be assessed generally as the risk of any institution failing to make interest payments or repay the principal sum will be specific to each individual institution. A risk of irrecoverability applies to all of the Council's deposits, but there was no evidence at 31 March 2018 that any losses were likely to crystallise. The Council has not suffered any historical experience of default on any deposits with financial institutions, and does not expect to suffer any defaults on any of its existing deposits and therefore there is no requirement for any impairment of financial assets to be made.

No credit limits were exceeded during the reporting period and the Council does not expect any losses from non performance by any of its counterparties in relation to deposits and bonds.

**b. Liquidity Risk**

The Council manages its liquidity position through the risk management procedures above and through a comprehensive cash flow management system. This seeks to ensure cash is available when needed.

If unexpected movements occur, the Council has ready access to a facility to borrow from the Public Works Loans Board to cover any day to day cash flow need. The Council is also required to provide a balanced budget through the Local Government Finance Act 1992, which ensures sufficient monies are raised to cover annual expenditure. There is therefore no significant risk that the Council will be unable to raise finance to meet its commitments under financial instruments.

All trade and other payables are due to be paid in less than one year.

**c. Refinancing and Maturity Risk**

The Council maintains a significant debt and investment portfolio. Whilst the cash flow procedures above are considered against the refinancing risk procedures, longer term risk to the Council relates to managing the exposure to replacing financial instruments as they mature.

The Council has safeguards in place to ensure that a significant proportion of its borrowing does not mature for repayment at any one time in the future to reduce the financial impact of re-borrowing at a time of unfavourable interest rates. The Council's policy is to ensure that not more than 20% of loans are due to mature within any financial year and 40% within any rolling five-year period through a combination of prudent planning of new loans taken out and, where it is economic to do so, making early repayments.

The following is an analysis of amounts owed to lenders at the year-end.

<b>31 March 2017</b>	<b>Total Borrowing</b>	<b>31 March 2018</b>
<b>£000</b>		<b>£000</b>
	<b>Source of loan and interest rate range :</b>	
288,888	Public Works Loan Board (3.7% to 10%)	278,887
43,121	Commercial Banks (3.2% to 4.5%)	43,105
400	Other - WYCA	400
<b>332,409</b>		<b>322,392</b>
	<b>Analysis of loans:</b>	
	<b>Short Term Borrowing</b>	
<b>10,000</b>	Maturing in less than 1year	<b>9,484</b>
	<b>Long Term Borrowing</b>	
33,942	Maturing in 2 - 5 years	39,970
55,088	Maturing in 5 - 10 years	56,060
52,857	Maturing in 10 - 15 years	54,373
180,522	Maturing in more than 15 years	162,505
<b>322,409</b>	<b>Total Long Term Borrowing</b>	<b>312,908</b>
<b>332,409</b>	<b>Total Borrowing</b>	<b>322,392</b>

The total borrowing shown on the Balance Sheet, page 24, of £326.013m, calculated by adding together short term (£13.105m) and long term borrowing (£312.908m), includes accrued interest of £3.621m, per accounting regulations. Accrued interest is not included in the above table.

**d. Market Risk****Interest rate risk**

The Council is exposed to interest rate movements on its borrowings and investments.

The current interest rate risk for the Council is summarised below:

- Borrowings at variable rates – the interest expense charged to the Surplus or Deficit on the Provision of Services will rise.
- Borrowings at fixed rates – the fair value of the borrowing will fall (no impact on the revenue balances);
- Investments at variable rates – the interest income credited to the Surplus or Deficit on the Provision of Services will rise.
- Investments at fixed rates – the fair value of the assets will fall (no impact on revenue balances).

Borrowings are not carried at fair value on the Balance Sheet, so nominal gains and losses on fixed rate borrowings would not impact on the Surplus or Deficit on the Provision of Services or Other Comprehensive Income and Expenditure. However changes in interest payable and receivable on variable rate borrowings and investments will be posted to the Surplus or Deficit on the Provision of Services and affect the General Fund Balance.

The Council has a number of strategies for managing interest rate risk. During periods of falling interest rates, and where economic circumstances make it favourable, fixed rate loans will be repaid early to limit exposure to losses. The risk of loss is

ameliorated by the fact that a proportion of government grant payable on financing costs will normally move with prevailing interest rates or the Council's cost of borrowing and provide compensation for a proportion of any higher costs.

According to this investment strategy, if interest rates had been 1% higher at 31 March 2018 with all other variables held constant, the financial effect would be:

<b>31 March 2017</b>	<b>Effect of 1% increase in interest rates</b>	<b>31 March 2018</b>
<b>£000</b>		<b>£000</b>
	0 Increase in interest payable on variable rate borrowings	0
-597	Increase in interest receivable on variable rate investments	-501
	0 Increase in government grant receivable for financing costs	0
<b>-597</b>	<b>Impact on Surplus or Deficit on the Provision of Services</b>	<b>-501</b>

The impact of a 1% fall in interest rates would be as above but with the movements being reversed. The Council does not have any borrowings at a variable rate.

The treasury management team has an active strategy for assessing interest rate exposure that feeds into the setting of the annual budget and which is used to update the budget quarterly during the year. This allows any adverse changes to be accommodated. The analysis will also advise whether new borrowing taken out is fixed or variable.

**Price Risk**

The Council does not generally invest in equity shares and does not have any material shareholdings in joint ventures or local companies, and it is not therefore subject to price risk.

**Foreign Exchange Risk**

The Council has financial assets denominated in foreign currencies. In September 2017 the Council bought £8,322,671 of Euros to manage the risk that exchange rates would fluctuate on a contract that includes part payment in Euros. This money is being held in the Council's bank account and as at 31 March 2018 was worth £8,264,680.

**Note 48. Trust Funds and Custodial Money**

The Assistant Director of Finance and Procurement acts as treasurer to 19 funds (inclusive of 11 sole trustee charities), held in trust for such purposes as maintenance grants, travel scholarships and book prizes, or for the benefit and care of particular client groups. The fund balances are invested in managed funds, local authority bonds and gilt edged securities and deposit accounts.

£20,313 (£32,600 at 31 March 2018) is also held on behalf of clients who are in residential care. The assets shown below are not owned by the Council and are not included in the Balance Sheet.

Balance 31 March 2017 £	Analysis of Trust Funds and Custodial Money Balances	Expenditure 2017-18	Income 2017-18	Balance 31 March 2018 £
	Education charities:

The Peel Park (523509)	2,719	224,023
Little Moor Park (otherwise Foster Park) Queensbury (519426)	1,490	63,030

## Collection Fund Statement

There is a statutory requirement for billing authorities to maintain a separate Collection Fund showing the transactions in respect of Council Tax and Business Rates and the way in which these have been distributed to preceptors, central government and the General Fund. Although a separate Income and Expenditure Account is required, the Collection Fund balances are consolidated into the Council's Balance Sheet. Any deficit or surplus at year end that is due to or from the Council is included in the Comprehensive Income and Expenditure Statement. Any amounts due to or from precepting bodies at year-end will not be included in the Collection Fund, but will be included in debtors and/or creditors as appropriate.

**Note 1. Council Tax**

Council Tax income is generated from charges raised on residential properties. Each domestic property is assigned to one of eight bands A-H depending on its capital value. (Band A\* properties are properties in Band A entitled to disabled relief reduction). Properties in higher bands are charged more, although the charges may be reduced by Council Tax reduction and/or single occupier discount.

Properties in the middle band, D, were charged at £1,469.71 in 2017-18 (£1,403.74 in 2016-17) to cover the precepts of the three authorities. This figure does not include any precepts for Parish/Town Councils.

The Council Tax base for 2017-18 was 136,252 (133,505 in 2016-17). The tax base for 2017-18 was approved at the Executive meeting on 10 January 2017 and was calculated as follows:

2016-17 Band D Equivalent	Band	2017-18 Number of chargeable dwellings	Multiplier	2017-18 Band D Equivalent
49	A*	93	5/9	52
37,866	A	58,501	6/9	39,001
27,199	B	35,683	7/9	27,754
28,817	C	33,035	8/9	29,365
15,385	D	15,583	9/9	15,583
13,567	E	11,247	11/9	13,746
7,683	F	5,398	13/9	7,797
5,639	G	3,406	15/9	5,677
475	H	243	18/9	486
136,680	Total Band D equivalent			139,461
-3,175	Adjustment for estimated losses on collection			-3,209
<b>133,505</b>	<b>Council Tax Base</b>			<b>136,252</b>

**Note 2. Business Rates (National Non-Domestic Rates)**

The Council collects business rates on behalf of central government for its area. The rate in the pound of rateable value is set by central government. There are two multipliers: the small business non-domestic rating multiplier of 46.6p (48.4p in 2016-17) is applicable to those that qualify for the small business relief; and the non-domestic rating multiplier of 47.9p (49.7p in 2016-17) includes the supplement to pay for small business relief.

In 2013-14, the local government finance regime was revised with the introduction of the retained business rates scheme. The main aim of the scheme is to give Councils a greater incentive to grow businesses in the District. It does, however, also increase the financial risk due to non-collection and the volatility of the Business Rates tax base. The scheme allows the Council to retain 49% of the total Business Rates received. Of the remainder, 50% is paid to Central Government and 1% is paid to West Yorkshire Fire and Rescue Authority (WYFRA).

The business rates shares payable for 2017-18 were estimated before the start of the financial year as £58.791m to Central Government, £1.176m to WYFRA and £58.352m to Bradford Council. These sums have been paid in 2017-18 and charged to the Collection Fund in year.

The total income from business rate payers collected in 2017-18 was £145.181m (£148.579m in 2016-17). This sum includes £3.861m of transitional protection payments from ratepayers, which under Government regulation should have a neutral impact on the business rate retention scheme. This sum has to be repaid to Central Government.

The business rates income, after reliefs and provisions, was based on a total rateable value for the Council's area of £391,126,870 for 2017-18 (£386,685,649 for 2016-17).

**Note 3. Provision for Council Tax and Business Bad Debts**

In 2017-18, the total provision for Council Tax bad debts was decreased by £0.813m, from £13.236m to £14.049m. Of the final balance, 86% is to cover Council Tax owed to the Council. The remaining 14% is to cover amounts owed to major preceptors.

In 2017-18, the total provision for Business Rates bad debts was decreased by £1.044m, from £3.905m to £4.949m. Of the final balance, 49% is to cover Business Rates owed to the Council. The remaining 51% is to cover amounts owed to Central Government (50%) and West Yorkshire Fire and Rescue Authority (1%).

**Note 4. Provision for Losses on Appeals**

From 1 April 2013, the Council shares 49% of the risks and rewards of the income from Business Rates. The Council could potentially receive a shortfall in income from changes in the valuations of commercial premises, following appeals to the Valuation Agency. In 2017-18, the provision for losses on outstanding appeals was increased by £3.465m, from £11.800m at 31 March 2017 to £15.265m at 31 March 2018. The Council's 49% share of the £15.265m provision was £7.480m.

**Note 5. Collection Fund Balance**

An accumulated surplus on the Collection Fund is attributable to amounts that are deemed to be collectable, but which have not yet been collected. In line with proper accounting practice for Council Tax, Business Rates and the Collection Fund, any surplus or deficit in year must be allocated in year to the Council and the preceptors in the required proportions. However, in order to reflect the fact that the Council is not allowed by statutory legislation to either fund deficits or use surpluses in year, the distribution is offset by an entry to the Collection Fund Adjustment Account in the Council's Balance Sheet. This change does not therefore affect the statutory position, which is that any surplus or deficit on the Collection Fund must be used as an adjustment to the Council Tax and Business Rates in future years.

An overall surplus of £4.969m arose in 2017-18 (£10.934m surplus in 2016-17), of which the Council's share was a surplus of £1.254m (£4.986m surplus in 2016-17); Central Government's share was a surplus of £3.767m (£5.975m surplus in 2016-17); and the preceptors share a deficit of £0.052m (£0.026m deficit in 2016-17).

**Note 6. Leeds City Region Pooling Arrangement**

The Council is a Member of the Leeds City Region Pool along with the other four West Yorkshire Authorities, Harrogate and York. Under the terms of the pooling arrangement, during the year, each authority will receive exactly the same funding as they would have if treated individually. The distribution of any levy income is retained in the region as opposed to being paid over to the Government.

The financial statements for West Yorkshire Pension Fund do not take account of liabilities to pay pensions and other benefits after 31 March 2018. This financial statement shows the net value of assets owned by the Fund, the actuarial calculation of the present value of promised retirement benefits is provided in note 12.

**Note 1. Operations and Membership**

The West Yorkshire Pension Fund (WYPF) provides for the payment of defined pension benefits to members or their dependants, from participating employers. It publishes its own detailed report and accounts document, which is available on the WYPF website address [www.wypf.org.uk](http://www.wypf.org.uk).

**Administering Authority** – City of Bradford Metropolitan District Council is the administering authority for the Fund, and as such has statutory responsibility for the management and administration of the Fund. The Fund’s entire investment portfolio is managed on a day to day basis in-house supported by the Fund’s external advisers.

**Legal Status** – It is a statutory scheme and the benefits are paid out under the provisions of the Local Government Pension Scheme Regulations as amended. It has been classified as a registered public service pension scheme under Chapter 2 of Part 4 of the Finance Act 2004.

The scheme is governed by the Public Service Pensions Act 2013.

The Fund is administered in accordance with the following secondary legislation:

- **The Local Government Pension Scheme Regulations 2013 (as amended)**
- **The Local Government Pension Scheme (Transitional Provisions, Savings and Amendment) Regulations 2014 (as amended)**
- **The Local Government Pension Scheme (Management and Investment of Funds) Regulations 2016**

**Management** – The West Yorkshire Pension Fund Joint Advisory Group is responsible for advising on the administration of the Fund. The group is made up of three elected members from each of the five West Yorkshire Metropolitan District Councils (MDCs), three Trade Union representatives and two Scheme members. The Investment Advisory Panel is responsible for advising on the investment of the Fund and comprises two elected members from each of the five West Yorkshire Metropolitan District Councils, three trade union representatives, two external investment advisors, two scheme members, the Director – West Yorkshire Pension Fund and a Chief Financial Officer from the West Yorkshire District Councils on a two year rotational basis.

**Participating employers** – There were 443 participating employers at 31<sup>st</sup> March 2018 (422 employers as at 31<sup>st</sup> March 2017) whose employees were entitled to be contributors to the Fund.

**Membership** – Total membership as at 31<sup>st</sup> March 2018 is 286,471 (31<sup>st</sup> March 2017 is 284,820).

<b>2016-17 Profile of membership</b>	<b>2017-18</b>
101,881 Active members	102,017
86,334 Pensioner members	86,867
96,605 Members with preserved pensions	97,587
<b>284,820 Total members</b>	<b>286,471</b>

**Benefits payable** – On 1<sup>st</sup> April 2014, LGPS pensions became a career average scheme, whereby members accrue benefits based on their pensionable pay in that year at an accrual rate of 1/49<sup>th</sup>. Accrued pension is increased annually in line with Consumer Prices Index. Prior to April 2014 pension benefits under the LGPS were based on final pensionable pay and length of pensionable service as summarised below:-

	Service pre 1 April 2008	Service post 31 March 2008
Pension	Each year worked is worth 1/80 x final pensionable salary	Each year worked is worth 1/60 x final pensionable salary
Lump sum	Automatic lump sum of 3 x pension. In addition, part of the annual pension can be exchanged for a one off tax free cash payment. A Lump sum of £12 is paid for each £1 of pension given up.	No automatic lump sum. Part of the annual pension can be exchanged for a one off tax free cash payment. A lump sum of £12 is paid for each £1 of pension given up.

## Note 2. Actuary's Report

### Introduction

The Scheme Regulations require that a full actuarial valuation is carried out every third year. The purpose of this is to establish that the West Yorkshire Pension Fund (the Fund) is able to meet its liabilities to past and present contributors and to review employer contribution rates. The last full actuarial investigation into the financial position of the Fund was completed as at 31 March 2016 by Aon, in accordance with Regulation 62 of the Local Government Pension Scheme Regulations 2013. The next valuation will be undertaken as at 31 March 2019.

### Actuarial Position

1. The valuation as at 31 March 2016 showed that the funding ratio of the Fund had fallen slightly since the previous valuation with the market value of the Fund's assets as at 31 March 2016 (of £11,211.5M) covering 94% of the liabilities allowing, in the case of pre- 1 April 2014 membership for current contributors to the Fund, for future increases in pensionable pay.
2. The valuation also showed that the aggregate level of contributions required to be paid by participating employers with effect from 1 April 2017 is:
  - 16.2% of pensionable pay. This is the rate calculated as being sufficient, together with contributions paid by members, to meet the liabilities arising in respect of service after the valuation date, (the primary rate)

### Plus

- Monetary amounts to restore the assets to 100% of the liabilities in respect of service prior to the valuation date over a recovery period of 22 years from 1 April 2017 (the secondary rate), equivalent to 2.4% of pensionable pay (or £42.5M in 2017/18, and increasing by 3.25% p.a. thereafter).
3. In practice, each individual employer's position is assessed separately and contributions are set out in Aon's report dated 31 March 2017 (the "actuarial valuation report"). In addition to the contributions certified, payments to cover additional liabilities arising from early retirements (other than ill-health retirements) will be made to the Fund by the employers.
  4. The funding plan adopted in assessing the contributions for each employer is in accordance with the Funding Strategy Statement. Different approaches were adopted in the stepping of contribution increases, individual employers' recovery periods and allowance for post-valuation date market conditions as agreed with the administering authority and reflected in the Funding Strategy Statement, reflecting the employers' circumstances.
  5. The valuation was carried out using the projected unit actuarial method for most employers and the main actuarial assumptions used for assessing the funding target and the contribution rates were as follows.

Discount rate for periods in service	
Scheduled body employers *	4.7% p.a.
Ongoing Orphan employers	4.1% p.a.
Discount rate for periods after leaving service	
Scheduled body employers *	4.7% p.a.
Ongoing Orphan employers	2.5% p.a.
Rate of pay increases	3.25% p.a.
Rate of increase to pension accounts	2.0% p.a.
Rate of increases in pensions in payment (in excess of Guaranteed Minimum Pension)	2.0% p.a.

\* The scheduled body discount rate was also used for employers whose liabilities will be subsumed after exit by a scheduled body.

In addition the discount rate for orphan liabilities (i.e. where there is no scheme employer responsible for funding those liabilities) was 2.1% p.a. in service and left service.

The assets were valued at market value.

Further details of the assumptions adopted for the valuation are set out in the actuarial valuation report.

6. The key demographic assumption was the allowance made for longevity. The post retirement mortality assumption adopted for the actuarial valuation was in line with standard self-administered pension scheme (SAPS) S2P mortality tables with appropriate scaling factors applied based on the mortality experience of members within the Fund and included an allowance for improvements based on the Continuous Mortality Investigation (CMI) Core Projections Model released with Working Paper 91 with Core assumptions

(CMI\_2016\_Proposed2015), with a long term annual rate of improvement in mortality rates of 1.5% p.a. The resulting average future life expectancies at age 65 were:

	Men	Women
Current pensioners aged 65 at the valuation date	22.0	25.1
Future pensioners aged 45 at the valuation date	22.9	26.9

7. The valuation results summarised in paragraphs 1 and 2 above are based on the financial position and market levels at the valuation date, 31 March 2016. As such the results do not make allowance for changes which have occurred subsequent to the valuation date.
8. The formal actuarial valuation report and the Rates and Adjustments Certificate setting out the employer contribution rates for the period from 1 April 2017 to 31 March 2020 were signed on 31 March 2017. Other than as agreed or otherwise permitted or required by the Regulations, employer contribution rates will be reviewed at the next actuarial valuation of the Fund as at 31 March 2019 in accordance with Regulation 62 of the Local Government Pension Scheme Regulations 2013.
9. Since the date the valuation report was signed, HM Treasury, in its response to the consultation on indexation and equalisation of GMPs in public sector schemes, has made an announcement to extend the indexation of GMPs to those reaching State Pension Age on or before 5 April 2021 (previously 5 December 2018). This extension period was not allowed for in the valuation results as the actuarial valuation report was signed off before the announcement, but the increase in liability is not expected to be material. In addition, amendment Regulations have been laid which provide for exit credits to be repaid to employers on exit, effective from 14 May 2018. It is anticipated that the Administering Authority will consider whether its Funding Strategy Statement should be revised on account of these changes.
10. This Statement has been prepared by the current Actuary to the Fund, Aon, for inclusion in the accounts of the Fund. It provides a summary of the results of their actuarial valuation which was carried out as at 31 March 2016. The valuation provides a snapshot of the funding position at the valuation date and is used to assess the future level of contributions required.

This Statement must not be considered without reference to the formal actuarial valuation report which details fully the context and limitations of the actuarial valuation.

Aon does not accept any responsibility or liability to any party other than our client, City of Bradford Metropolitan District Council, the Administering Authority of the Fund, in respect of this Statement.

11. The report on the actuarial valuation as at 31 March 2016 is available on the Fund's website at the following address:

[http://www.wyph.org.uk/Member/Publications/Valuation/WYPF/Valuation\\_WYPF\\_Index.aspx](http://www.wyph.org.uk/Member/Publications/Valuation/WYPF/Valuation_WYPF_Index.aspx)

Aon Hewitt Limited

April 2018

### Note 3. Accounting policies

#### Basis of preparation

The statement of accounts summarises the Fund's transactions for the 2017/18 financial year and its financial position at year-end as at 31 March 2018. The accounts have been prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2017/18 which is based upon International Financial Reporting Standards (IFRS), as amended for the UK public sector.

The financial statements summarise the transactions of the Fund and report on the net assets available to pay pension benefits. They do not take account of obligations to pay pensions and benefits which fall due after the end of the financial year. The valuation of the present value of future benefits payable is provided by our actuary in note 12.

#### Contributions

Normal contributions from employers are accounted for on an accruals basis at the percentage rate recommended by the Fund actuary in the payroll period to which they relate. Normal contributions from members are accounted for on an accruals basis at a percentage rate outlined in the Local Government Pension Scheme Regulations

Employer deficit funding contributions are accounted for on the due dates on which they are payable.

Employers have met the indirect costs of early retirement. These costs are accounted for in the period in which the liability arises. Any amount due but unpaid will be classed as a current assets debtors.

#### Transfers in and out of the Fund

Transfer values represent amounts received and paid during the period for individual and bulk transfers that came into, or out of the Fund. These are calculated in accordance with the Local Government Pension Scheme Regulations 2013.

Transfers in or out, including bulk transfers, are accounted for when received or paid, which is normally when the member liability is accepted or discharged.

#### Benefits payable

Pensions and lump-sum benefits payable include all amounts known to be due as at the end of the financial year. Any amounts due but unpaid are disclosed in the net assets statement as current liabilities.

#### Management expenses

The Code does not require any breakdown of pension fund administrative expenses. However, in the interests of greater transparency, the Fund discloses its pension fund management expenses in accordance with CIPFA's Accounting for Local Government Pension Scheme Management Expenses (2016).

##### Administrative expenses

All administrative expenses are accounted for on an accruals basis. All WYPF staff are charged directly to the Fund. Associated indirect management costs and other overheads are apportioned to administrative expenses using relevant factors and charged as expenses to the Fund.

##### Oversight and governance costs

All oversight and governance expenses are accounted for on an accruals basis. Associated indirect management costs and other overheads are apportioned to oversight and governance activities using relevant factors and charged as expenses to the Fund.

##### Investment management expenses

All investment management expenses are accounted for on an accruals basis. Fees charged by external advisors and custodian are agreed in the respective mandates governing their appointment. The custodian fees are based on the market value of the investments under their management and therefore increase or reduce as the value of the investments change. The fees of the external advisors increase by RPI on an annual basis.

The cost of the Fund's in-house investment fund management team are charged direct to investment management expense and a proportion of the Fund's management costs which represents management time spent by officers on investment management is also charged to investment management expenses.

#### Actuarial present value of promised retirement benefits

The actuarial present value of promised retirement benefits is assessed on an annual basis by the Actuary in accordance with the requirements of IAS19 and relevant actuarial standards. As permitted under IAS26, WYPF has opted to disclose the actuarial present value of promised retirement benefits as a note to the net assets statement (note 12).

#### Cash and cash equivalents

Cash comprises of cash in hand and on demand deposits. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and that are subject to minimal risk of changes in values.

#### Financial liabilities

The Fund recognises financial liabilities at fair value as at the reporting date. A financial liability is recognised in the net assets statement on the date the fund becomes party to the liability. From this date any gains or losses arising from changes in the fair value of the liability are recognised by the fund.

#### Investment income

##### Interest income

Interest due on fixed-interest securities, index-linked securities and short-term investments is accounted for on an accruals basis.

**Property related income**

Property related income is primarily rental income which is recognised on a straight line basis over the term of the lease. Lease incentives have been recognised as part of the total rental income over the term of the lease.

**Dividend income**

Dividend income is recognised on the date the shares are quoted ex dividend. Any amount not received by the end of the reporting period is disclosed in the net assets statement as a current financial asset.

**Distribution from pooled funds**

Distributions from pooled funds are recognised at the date of issue. Any amount not received by the end of the reporting period is disclosed in the net assets statement as a current financial asset.

**Movement in the net market value of investments**

Changes in the net market value of investments (including investment properties) are recognised as income and comprise all realised and unrealised profits/losses during the accounting period.

**Taxation**

The Fund is a registered public service scheme under section 1(1) of Schedule 36 of the Finance Act 2004 and as such is exempt from UK income tax on interest received and from capital gains tax on the proceeds of investments sold. Income from overseas investments suffers withholding tax in the country of origin, unless exemption is permitted. Irrecoverable tax is accounted for as expense as it arises.

**Financial assets**

Financial assets are included in the net assets statement on a fair value basis as at the reporting date with the exception of any assets classified as loans and receivables, which are stated at nominal value.

A financial asset is recognised in the net asset statement on the date the Fund becomes party to the contractual acquisition of the asset. From this date any gains or losses arising from changes in the fair value of the asset are recognised in the fund account.

The values of investments as shown in the net assets statement have been determined at fair value in accordance with the requirements of the Code and IFRS13 (see note 18). For the purpose of disclosing levels of fair value hierarchy, the Fund has adopted the classification guidelines recommended in Practical Guidance on Investment Disclosures (PRAG/Investment Association, 2016).

**Additional voluntary contributions (AVCs)**

West Yorkshire Pension Fund provides an additional voluntary contribution (AVC) scheme for its members, the assets of which are invested separately from those of the pension fund.

The Fund has appointed Scottish Widows, Prudential and Equitable Life as its AVC providers. AVCs are paid to the AVC provider by employers and are specifically for providing additional benefits for individual contributors. Each AVC contributor receives an annual statement showing the amount held in their account and the movements in the year.

AVCs are not included in the accounts in accordance with section 4(1)(b) of the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2016 but are disclosed as a note only (Note 11).

**Currency translation**

At the year end all foreign currency balances are translated into sterling at exchange rates ruling at the financial year-end and any gains or losses arising are treated as part of the change in market value of investments. During the year foreign currencies are transacted as follows:

- a) Foreign currency purchases are translated into sterling at the actual purchase rate, all commissions are charged as expense to management costs.
- b) Proceeds of sales of foreign assets are translated into sterling
  - If there have been transactions in the same currency in the last 30 days, then the latest recorded transaction rate is used.
  - Else the mid-market rate on the date of receipt is used.
- c) Purchase of foreign investments are translated into sterling using the rate at which the foreign currency was purchased or translated to sterling.
- d) Balance of foreign currency income accounts are moved to capital account using the mid-market rate on the date of movement.
- e) Dividends from foreign investments are translated into sterling using the mid-market rate on the date of receipt.
- f) When currency is sold the actual sale rate is used and commissions are charged to management expense.

**Acquisition costs of investments**

Acquisition costs of investments are included in the purchase price.

### Netting

A financial asset and a financial liability shall be offset and the net amount presented in the Net Assets Statement when and only when, the Fund:

- a) Currently has a legally enforceable right to set off the recognised amounts,

And

- b) Intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

### Contingent liabilities and contractual commitments

A contingent liability arises when an event has taken place that gives the Fund a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Fund. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources would be required or the amount of the obligation cannot be measured reliably. Contingent liabilities are not recognised in the Net Assets Statement but disclosed in a note 24 to the accounts.

Undrawn commitments relate to outstanding call payments due on unquoted limited partnership funds held in private equity, property and infrastructure parts of the portfolio. The amounts "called" by these funds are irregular in both size and timing over a period of between four and six years from the date of each original commitment.

### Investment transactions

Investment transactions occurring up to 31 March 2018 but not settled until later are accrued in the accounts.

### Note 4. Critical accounting estimates, judgements and assumptions made about the future and other major sources of estimation uncertainty

The preparation of the Fund's financial statements in accordance with IFRS requires management to make judgements, estimates and assumptions in applying accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Due to the inherent uncertainty in making estimates, actual results reported in future periods may be based upon amounts which differ from those estimates. Estimates, judgements and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The significant judgements made by management in applying the Fund's accounting policies and key sources of estimation uncertainty in these financial statements, which together are deemed critical to the Fund's results and financial position, are explained below.

#### a) Fair value of financial instruments

**In accordance with the Code and IFRS13, the Fund categorises financial instruments carried on the net asset statement** at fair value using a three-level hierarchy as disclosed in note 18. Financial instruments categorised as level 1 are valued using quoted market prices and therefore there is minimal judgement applied in determining fair value. However, the fair value of financial instruments categorised as level 2 and, in particular, level 3 is determined using valuation techniques including discounted cashflow analysis and valuation models. These require management judgement and contain significant estimation uncertainty. Reliance is placed on our third parties to perform these valuations and further due diligence is performed by the Fund to maintain confidence in the data provided.

#### b) Retirement benefit obligations

Under IFRS the Fund is required to disclose the actuarial present value of promised retirement benefits. This is disclosed as a note in note 12 and does not comprise part of the financial statements. Significant judgement and estimates are used in formulating this information, all of which are disclosed in note 12.

### Note 5. Events after the Balance sheet date

These are events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the financial statements are authorised for issue.

Two types of events can be identified:

- a) Those that provide evidence of conditions that existed at the end of the reporting period (adjusting events after the reporting period)
- b) Those that are indicative of conditions that arose after the reporting period (non-adjusting events after the reporting period)

There have been no such events since 31 March 2018, and up to the date when these accounts were authorised that require any adjustments to these accounts.

**Note 6. Contributions received by category:**

Contributions from employers and employees:

<b>2016-17 Analysis of contributions received</b>	<b>2017-18</b>
<b>£000</b>	<b>£000</b>
271,661 Employers	296,198
110,949 Members	111,147
<b>382,610 Total contributions received</b>	<b>407,345</b>

Contributions received by type of employer:

<b>2016-17 Analysis by type of employer</b>	<b>2017-18</b>
<b>£000</b>	<b>£000</b>
46,699 <b>Administering Authority</b>	51,165
291,872 <b>Scheduled bodies</b>	315,020
44,039 <b>Admitted bodies</b>	41,160
<b>382,610 Total contributions received</b>	<b>407,345</b>

Contributions are further analysed by type of contribution:

<b>2016-17 Contributions received by type</b>	<b>2017-18</b>
<b>£000</b>	<b>£000</b>
247,600 Employers normal contributions	281,126
106,470 Employees normal contributions	106,901
4,479 Employees additional contributions	4,246
24,061 Employers deficit contributions	15,072
<b>382,610 Total contributions received</b>	<b>407,345</b>

**Employers' contribution rates and deficit contributions**

At the triennial valuation (31 March 2016) the Actuary calculated an employer rate for each employer. In addition to this some employers are also required to pay an additional monetary amount to cover any past service deficit, which is recoverable over an appropriate period.

**Employees' contribution rates**

Employees' contributions are as set out in the LGPS regulations from 1st April 2014, and there are several tiered employee contribution rates. For 2017/18 the rates start at 5.5% payable by employees with salaries up to £13,700 a year, and the highest rate is 12.5% to be paid on salaries over £153,300 a year.

**Note 7. Transfers in**

<b>2016-17 Transfers in from other pension funds</b>	<b>2017-18</b>
<b>£000</b>	<b>£000</b>
22,632 Individual transfers in from other schemes	38,267
0 Bulk transfer in from other schemes	3,503
<b>22,632 Total transfers in</b>	<b>41,770</b>

**Note 8. Non-statutory pensions and pensions increase recharged**

<b>2016-17 Non-statutory pensions and pensions increase recharged</b>	<b>2017-18</b>
<b>£000</b>	<b>£000</b>
<b>22,667 Pensions</b>	<b>22,129</b>

The costs of added years granted by participating employers for early retirement together with associated inflation proofing costs are reimbursed to the Fund, by the employer, out of current revenues.

Costs of annual inflation proofing for non-participating employers are also recharged.

**Note 9. Benefits payable**

<b>2016-17 Analysis of benefits payable</b>	<b>2017-18</b>
<b>£000</b>	<b>£000</b>
Funded pensions	
-341,575 Retired employees	-351,375
-28,573 Dependants	-29,487
Funded lump sums	
-90,006 On retirement	-90,418
-12,371 On death	-14,528
<b>-472,524 Total Benefits Payable</b>	<b>-485,808</b>

The total benefits payable are further analysed by type of member body.

<b>2016-17 Analysis of benefits payable by member body</b>	<b>2017-18</b>
<b>£000</b>	<b>£000</b>
-71,405 Administering Authority	-72,823
-337,029 Scheduled bodies	-356,168
-58,630 Admitted bodies	-54,530
-5,460 Other interested bodies with no pensionable employees	-2,287
<b>-472,524 Total benefits payable</b>	<b>-485,808</b>

For participating employers, all basic pensions plus the costs of annual inflation proofing are met from the assets of the fund.

**Note 10. Payments to and on account of leavers**

<b>2016-17 Payments to and on account of leavers</b>	<b>2017-18</b>
<b>£000</b>	<b>£000</b>
-1,469 Refund of contributions	-1,852
-17,990 Individual transfers out to other schemes	-28,116
-670 Bulk transfers out to other schemes	-150,769
<b>20,129 Total transfers out</b>	<b>-180,737</b>

In 2017/18 a partial bulk transfer of £100m was made in respect of Firstbus, to Greater Manchester Pension Fund ; the remaining assets will be transferred in 2018/19.

**Note 11. AVC scheme with Equitable Life, Scottish Widows and Prudential**

The Fund provides an AVC Scheme for its contributors, the assets of which are invested separately from the main Fund. The scheme providers are Equitable Life Assurance, Scottish Widows and Prudential, whereby additional benefits are secured on a money purchase basis for those contributors electing to pay additional voluntary contributions.

As advised by the three companies the amounts administered under AVC arrangements are as follows:

<b>Restated</b>		<b>2017-18</b>
<b>2016-17 Additional voluntary contributions</b>		<b>£000</b>
<b>£000</b>		<b>£000</b>
24,212 Value of funds at 1 <sup>st</sup> April		28,280
5,544 Contributions received		5,847
245 Transfers and withdrawals		0
67 Internal transfers		218
3,212 Interest and bonuses / change in market value of assets		2,229

The aggregate amounts of AVC investments are:-

<b>2016-17 AVC investments</b>	<b>2017-18</b>
<b>£000</b>	<b>£000</b>
2,547 Equitable Life	2,324
13,266 Prudential	16,148
12,465 Scottish Widows	13,425
<b>28,278 Total</b>	<b>31,897</b>

The closing value of the total AVC's 2016/17 has been restated due to a change in the closing value of the Prudential funds as at 31<sup>st</sup> March 2017.

**Note 12. Actuarial present value of promised retirement benefits**

**Introduction**

The Fund is part of the Local Government Pension Scheme and under IAS 26 it is required to disclose the actuarial present value of promised retirement benefits across the Fund as a whole.

The Fund provides defined benefits, which for membership to 31<sup>st</sup> March 2017, are based on members' Final Pensionable Pay. The required valuation is carried out by the Fund Actuary, Aon Hewitt using assumptions derived in the same way as those recommended for individual participating employers reporting pension liabilities under IAS 19. This approach results in a different valuation of liabilities than at triennial funding valuation. The information set out below relates to actuarial present value of the promised retirement benefits in the Fund.

**Actuarial present value of promised retirement benefits**

Paragraph 6.5.2.7 of CIPFA's Code of Practice on local authority accounting for 2017/18 sets out that the actuarial present value of promised retirement benefits based on projected salaries should be disclosed.

The results as at 31 March 2017, together with the results as at 31 March 2013 are shown in the table below. The corresponding fair value of Fund assets is also shown in order to show the level of surplus or deficit within the Fund when the liabilities are valued using IAS 19 assumptions.

	Value as at 31 <sup>st</sup> March 2016 £M	Value as at 31 <sup>st</sup> March 2013 £M
Fair value of net assets	<b>11,211.0</b>	<b>9,940.3</b>
Actuarial present value of the promised retirement benefits	<b>14,085.4</b>	<b>12,259.3</b>
Surplus / (deficit) in the Fund as measured for IAS26 purposes	<b>(2,874.4)</b>	<b>(2,319.0)</b>

**Assumptions**

The latest full triennial actuarial valuation of the Fund's liabilities was carried out as at 31<sup>st</sup> March 2016. The principal assumptions used for the purpose of IAS 26 by the Fund's independent qualified actuaries were:

	31 <sup>st</sup> March 2016 (% p.a.)	31 <sup>st</sup> March 2013 (% p.a.)
Discount rate	3.40	4.50
RPI Inflation	2.90	3.40
CPI Inflation	1.80	2.40
Rate of general increase in salaries **	3.05	3.90

\* *In excess of Guaranteed Minimum Pension increases in payment where appropriate*

\*\* *In addition, we have allowed for the same age-related promotional salary scales as used at the actuarial valuation of the Fund as at the appropriate date*

The assumptions to which the actuarial present value of promised retirement benefits are most sensitive are the discount rate, net of pay and pension increases, and the longevity improvement assumption.

**Principal demographic assumptions**

Post retirement mortality	31 March 2017	31 March 2013
<b>Males</b>		
Base table	Standard SAPS S2 All Pensioners (S2PMA)	Standard SAPS Normal Health All Amounts (S1NMA)
Rating to above base table *	0	0
Scaling to above base table rates **	105% for current male pensioners 115% for future male pensioners	105%
Allowance for future improvements	Proposed CMI Mortality Projections Model released with Working Paper 91 with Core assumptions ("CMI_2016_Proposed2015") together with a long term rate of improvement of 1.5% p.a.	CMI 2012 with a long-term rate of improvement of 1.5% p.a.
Future lifetime from age 65 (currently aged 65)	22.0	22.5
Future lifetime from age 65 (currently aged 45)	22.9	24.7
<b>Females</b>		
Base table	Standard SAPS S2 All Pensioners (S2PFA)	Standard SAPS Normal Health All Amounts tables (S1NFA)
Rating to above base table *	0	0
Scaling to above base table rates **	90% for current female pensioners 90% for future female pensioners	100%
Allowance for future improvements	Proposed CMI Mortality Projections	CMI 2012 with a long-term rate of

	Model released with Working Paper 91 with Core assumptions ("CMI_2016_Proposed2015") together with a long term rate of improvement of 1.5% p.a.	improvement of 1.5% p.a.
Future lifetime from age 65 (currently aged 65)	25.1	25.4
Future lifetime from age 65 (currently aged 45)	26.9	27.7

A rating of x years means that members of the Fund are assumed to follow the mortality pattern of the base table for an individual x years older than them. The ratings shown apply to normal health retirements.

\*\* The scaling factors shown apply to normal health retirements.

	31 <sup>st</sup> March 2016	31 <sup>st</sup> March 2013
<b>Commutation</b>	Each member was assumed to surrender pension on retirement, such that the total cash received (including any accrued lump sum from pre 2008 service) is 75% of the permitted maximum.	Each member was assumed to surrender pension on retirement, such that the total cash received (including any accrued lump sum from pre 2008 service) is 75% of the permitted maximum.

## b. Stock Lending

2016-17 Analysis of stock lending		2017-18
£000		£000
91	Income	- Bonds 121
950		- UK equities 1,136
2,451		- International equities 2,352
-88	Expenditure	-106
<b>3,404</b>	<b>Total</b>	<b>3,503</b>

As at 31 March 2018, £1,653 million of stock was on loan to market makers, and this was covered by collateral totalling £1,758 million (which includes an appropriate margin). The collateral was comprised of UK & International Government Bonds (£994.3 million), International Equities (£530.7 million), and UK Equities (£233.1 million). All our securities out on loan are fully indemnified by HSBC our custodian.

**Note 18 .Fair Value – Basis of valuation**

The basis of the valuation of each class of investment asset is set out below. There has been no change in the valuation techniques used during the year. All assets have been valued using fair value techniques which represent the highest and best price available at the reporting date

Description of asset	Valuation Hierarchy	Basis of valuation	Observable and unobservable	Key sensitivities affecting the valuations provided
Market quoted investments	Level 1	Listed investments are shown at bid prices. The bid value of the investments is based on the bid market quotation of the relevant stock exchange.	Not required	Not required
Quoted bonds	Level 1	Fixed interest securities are valued at a market value based on current yields	Not required	Not required
Unquoted bonds	Level 2	Average of broker prices	Evaluated price feeds	Not required
Pooled investment-overseas unit trusts	Level 2	Closing bid price where bid and offer prices are	NAV - based pricing set on a forward pricing basis	Not required

Description of asset	Valuation Hierarchy	Basis of valuation	Observable and unobservable	Key sensitivities affecting the valuations provided
and property funds		published - closing single price where single price is published. Valuations for Property Funds are provided by Fund managers and where available closing bid price is used.		
Pooled investments - hedge funds	Level 3	Closing bid price where bid and offer prices are published - closing single price where single price is published	These are based on the net asset values provided by the fund managers. Values are normally received by West Yorkshire Pension Fund 30 days after the month end to which they relate. The values reported in the financial statements are therefore based on February month end values, adjusted according to estimates of investment fund performance in March, as informed by fund managers. We gain assurance over valuations provided by fund managers by comparing valuations to funds' audited accounts' Net Asset Values.	Valuations could be affected by material events occurring between the date of the financial statements provided and the pension funds own reporting date by changes to expected cashflows and by any differences between audited and unaudited accounts
Freehold and leasehold properties	Level 3	Valued at fair value at the year end by CBRE independent valuers-in accordance with the RICS Valuation – Professional Standards global January 2014 including the International Valuation Standards and the RICS Valuation – Professional Standards UK January 2014 (revised April 2015) (“the Red Book”).	Existing lease terms - Independent market research - Nature of tenancies - Estimated growth - assumed vacancy levels - discount rate	Changes in rental growth, vacancy levels or discount rates could affect valuations as could changes to market prices
Unquoted equity	Level 3	Comparable valuation of similar companies in accordance with International Private Equity and Venture Capital Valuation Guidelines (2012)	These are based on valuations provided by the general partners to the private equity funds in which West Yorkshire Pension Fund has invested. They are prepared in accordance with the International Private Equity and Venture Capital Valuation Guidelines, which follow the valuation principles of IFRS and US GAAP. Valuations are performed annually and mainly as at the end of December. Cashflow adjustments are used to roll forward the valuations to 31 March as appropriate	Valuations could be affected by material events occurring between the date of the financial statements provided and the pension funds own reporting date by changes to expected cashflows and by any differences between audited and unaudited accounts

**Sensitivity of assets valued at level 3**

The Fund has determined that the valuation methods described in the table above are likely to be accurate within the following ranges and has set out below the potential impact on the closing value of investments held at 31st March 2018.

	Assessed valuation range (+/-)	Value at 31 March 2018	Value on increase	Value on decrease
		£m	£m	£m
Pooled investments - hedge funds	10%	127.6	140.3	114.8
Freehold and leasehold properties	10%	7.3	8.0	6.5
Private equity	15%	1,141.9	1,313.2	970.7

	Assessed valuation range (+/-)	Value at 31 March 2017	Value on increase	Value on decrease
		£m	£m	£m
Pooled investments - hedge funds	10%	254.3	279.7	228.9
Freehold and leasehold properties	10%	7.0	7.7	6.3
Private equity	15%	993.8	1,142.8	844.7

### Financial instruments – valuation

#### Valuation of financial assets carried at fair value.

The valuations of financial assets have been classified into three levels according to the quality and reliability of information used to determine the fair values. Transfers between levels are recognised in the year in which they occur.

#### Level 1

Level 1 fair value measurements are those derived from unadjusted quoted prices in active markets for identical assets or liabilities. Financial assets classified as level 1 comprise quoted equities, quoted bonds (fixed interest securities), quoted index linked securities and unit trusts.

#### Level 2

Level 2 valuations are those where quoted market prices are not available, for example where the financial asset is traded in a market that is not considered to be active or valuation techniques are used to determine fair value and where these techniques use inputs that are based significantly on observable market data. Financial asset classified as level 2 are property funds.

#### Level 3

Level 3 portfolios are those where at least one input which could have a significant effect on the instrument's valuation is not based on observable market data. Such instruments would include unquoted equity investments and hedge funds, which are valued using various valuation techniques that require significant judgement in determining appropriate assumptions.

The table below provides an analysis of the financial assets and liabilities of the Fund that are carried at fair value in the Fund's Net Asset Statement, grouped into levels 1 to 3 based on the degree to which the fair value is observable.

	31 <sup>st</sup> March 2018			Total

**Note 22. Related party transactions**

In accordance with IAS24 Related Party Disclosures, material transactions with related parties not disclosed elsewhere are detailed below.

**Administering body**

Bradford Metropolitan District Council is a related party in its role as the Administering Authority for West Yorkshire Pension Fund.

In 2017/18, City of Bradford Metropolitan District Council charged West Yorkshire Pension Fund £421,866 in respect of support services provided (£347,130 in 2016/17). The support costs for 2017/18 included a full year support for financial, legal and information technology services.

**Employers**

Employers are related parties in so far as they pay contributions to the Fund in accordance with the appropriate Local Government Pension Scheme (LGPS) Regulations. A list of employers who have contributed to the fund during the reporting period can be found in note 27 of the Annual report. Contributions in respect of March 2018 payroll are included within the debtors figure in note 20.

**UK Central government bodies**

The UK Government is a related party as it provides the statutory framework within which the Pension Fund operates. Balances outstanding with the Central government bodies are included within notes 20 and 21.

**Members**

The metropolitan councils of Bradford, Leeds, Kirklees, Wakefield and Calderdale appoint a number of members to the Investment Advisory Panel and the Joint Advisory Group. Six of these members are in receipt of pension benefits from the Fund. There have been no material transactions between any member or their families and the Pension Fund.

**Key management personnel**

No senior officers responsible for the administration of the Fund have entered into any contract, other than their contract of employment with City of Bradford Metropolitan District Council, for the supply of goods or services to the Fund.

IAS 24 requires entities to disclose key management personnel compensation. The Fund has identified key management personnel as the Director West Yorkshire Pension Fund and the Chief Executive of Bradford Council. The combined compensation for these officers, attributable to West Yorkshire Pension Fund, is £123,420 (2016/17 £119,064). Details of the remuneration for these two posts are included in Note 33 of the City of Bradford Metropolitan District Council's statement of accounts.

The Fund has an investment in Montanaro European Smaller Companies Fund plc, which at 31st March 2018 was valued at £13.14m (£24.67m 31<sup>st</sup> March 2017), and has an original cost of £4.9m. Investment activity during the reporting period 2017/18 resulted in a sale of stock to the value of £13.55m. Rodney Barton, the Director, West Yorkshire Pension Fund, is a non-executive director of Montanaro European Smaller Companies Fund plc, for which he is paid a fee.

## **Note 23. Nature and extent of risks arising from financial instruments**

### **Risk and risk management**

The Fund's primary long-term risk is that the Fund's assets will fall short of its liabilities (i.e. promised benefits payable to members). Therefore the aim of investment risk management is to minimise the risk of an overall reduction in the value of the Fund and to maximise the opportunity for gains across the whole Fund portfolio. The Fund achieves this through asset diversification to reduce exposure to market risk (price risk, currency risk and interest rate risk) and credit risk to an acceptable level. In addition, the Fund manages its liquidity risk to ensure there is sufficient liquidity to meet the Fund's forecast cash flows. The Fund manages these investment risks as part of its overall pension Fund risk management programme.

The management of risk is set out in the Fund's Statement of Investment Principles, which in turn is driven by the Funding Strategy Statement. The full text of these statements can be found at the end of this document and also at [www.wyppf.org.uk](http://www.wyppf.org.uk)

The Investment Principles are managed by the Investment Advisory Panel, whose responsibility it is to ensure that the Fund's investment portfolio, which is managed in-house, agrees with policy and strategy with regard to asset allocation.

The Fund routinely monitors all risks in accordance with the Fund's risk management strategy.

#### **a) Market risk**

Market risk is the risk of loss from fluctuations in equity and commodity prices, interest and foreign exchange rates and credit spreads. The Fund is exposed to market risk from its investment activities, particularly through its equity holdings. The level of risk exposure depends on market conditions, expectations of future price and yield movements and the asset mix.

The objective of the Fund's risk management strategy is to identify, manage and control market risk exposure within acceptable parameters, whilst optimising the return on risk.

In general, excessive volatility in market risk is managed through the diversification of the portfolio in terms of geographical and industry sectors and individual securities. To mitigate market risk, the Fund and its investment advisors undertake appropriate monitoring of market conditions and benchmark analysis.

The Fund's equity holdings are spread across more than 900 UK companies, and almost 800 overseas companies, and a range of unit trusts and managed Funds.

Risk is controlled by reviewing on a continuous basis the risk attached to the Fund's asset allocation relative to the fund-specific benchmark, to ensure that any major divergence from the benchmark is acceptable. Mercer Investment Consulting completed an Investment Strategy Review for WYPPF in 2008, and this has provided details of the risks associated with adopting the fund-specific benchmark and variations to it.

Custodian risk is controlled through continuous monitoring and periodic review of the custodial arrangements.

Risk is also monitored in relation to the funding position of the Fund and the investment requirements that flow from it, in conjunction with the Fund's actuary.

Counter-party and cash management risk is controlled by the in-house investment management team through the setting of appropriate limits for exposure with any individual organisation.

#### **b) Price risk**

Price risk represents the risk that the value of a financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or foreign exchange risk), whether those changes are caused by factors specific to the individual instrument or its issuer or factors affecting all such instruments in the market.

The Fund is exposed to share price risk. This arises from investments held by the Fund for which the future price is uncertain. All securities investments present a risk of loss of capital. Except for shares sold short, the maximum risk resulting from financial instruments is determined by the fair value of the financial instruments. Possible losses from shares sold short is unlimited.

The Fund's investment managers mitigate this price risk through diversification. The selection of securities and other financial instruments is monitored by the Fund to ensure it is within limits specified in the Fund's investment strategy.

#### **Price risk – sensitivity analysis**

Potential price changes are determined based on the observed historical volatility of asset class returns. Riskier assets such as equities will display greater potential volatility than bonds for example, so the overall outcome will depend largely on asset allocation. The Fund has determined that the following movements in market price risk are reasonably possible for the 2017/18 reporting period.

Asset type	2017-18	2016-17
	Potential market movement +/- (%pa)	Potential market movement +/- (%pa)
UK equities	8.0	9.2
Overseas equities	7.0	8.3
UK gilts	6.4	6.3
UK corporate bonds	4.6	4.7
UK index-linked	7.8	7.5
Overseas bonds	8.9	9.0
Alternatives (universe)	1.9	3.1
Property	-0.4	0.7
Cash	0.3	0.3

The potential volatilities are consistent with a one standard deviation movement in the change in value of the assets over the latest three years.

This can then be applied to the period end asset mix as follows:

Asset type	Value as at 31 <sup>st</sup> March 2018	Percentage change	Value on increase	Value on decrease
	£000	%	£000	£000
UK Equities	4,781,727	8.0	5,164,265	4,399,188
Overseas Equities	5,217,823	7.0	5,583,070	4,852,575
UK Gilts	682,383	6.4	726,056	638,711
UK Corporate bonds	451,327	4.6	472,088	430,566
UK Index-Linked	592,061	7.8	638,242	545,881
Overseas bonds	308,862	8.9	336,351	281,374
Alternatives (universe)	860,329	1.9	876,675	843,982

<b>Total Investment Assets</b>	<b>13,572,264</b>		<b>14,601,671</b>	<b>12,542,857</b>

#### Interest rate risk

The Fund invests in financial assets for the primary purpose of obtaining a return on investments. These investments are subject to interest rate risks, which represent the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The fund's interest rate risk is routinely monitored by the council and its investment advisors in accordance with the fund's risk management strategy, including monitoring the exposure to interest rates and assessment of actual interest rates against the relevant benchmarks.

The fund's direct exposure to interest rate movements as at 31 March 2018 and 31 March 2017 is set out below. These disclosures present interest rate risk based on the underlying financial assets at fair value.

<b>31<sup>st</sup> March 2017</b>	<b>Asset type</b>	<b>31<sup>st</sup> March 2018</b>
<b>£000</b>		<b>£000</b>
1,212,644	Bonds	1,374,768
136,580	Cash deposits	263,630
32,549	Cash balances	33,482
<b>1,381,773</b>	<b>Total</b>	<b>1,671,880</b>

**Interest rate risk - sensitivity analysis**

The Fund recognises that interest rates can vary and can affect both income to the Fund and the value of the net assets available to pay benefits. The assumed interest rate volatility is 100 basis point (BPS) per annum.

The analysis that follows assumes that all other variables, in particular exchange rates, remain constant and shows the effect in the year on the net assets available to pay benefits of a +/- 100 BPS change in interest rates.

<b>Asset type</b>	<b>Carrying amount as at 31 March 2018</b>	<b>Change in year in the net assets available to pay benefits</b>	
		<b>+100BPS</b>	<b>-100BPS</b>
	<b>£000</b>	<b>£000</b>	<b>£000</b>
Bonds	1,374,768	13,748	-13,748
Cash deposits	263,630	2,636	-2,636
Cash balances	33,482	335	-335
<b>Total change in assets available</b>	<b>1,671,880</b>	<b>16,719</b>	<b>-16,719</b>

<b>Asset type</b>	<b>Carrying amount as at 31 March 2017</b>	<b>Change in year in the net assets available to pay benefits</b>	
		<b>+100BPS</b>	<b>-100BPS</b>
	<b>£000</b>	<b>£000</b>	<b>£000</b>
Bonds	1,212,644	12,126	-12,126
Cash deposits	136,580	1,366	-1,366
Cash balances	32,549	325	-325
<b>Total change in assets available</b>	<b>1,381,773</b>	<b>13,817</b>	<b>-13,817</b>

**Currency risk**

Currency risk represents the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Fund is exposed to currency risk on financial instruments that are denominated in any currency other than the functional currency of the Fund (GBP). The Fund holds both monetary and non-monetary assets denominated in currencies other than GBP.

The following tables summarise the Fund's currency exposure as at 31 March 2018 and 31 March 2017:

<b>Currency exposure - asset type</b>	<b>Value as at 31<sup>st</sup> March 2018</b>	<b>Value as at 31<sup>st</sup> March 2017</b>
	<b>£000</b>	<b>£000</b>
Overseas quoted bonds	241,058	265,141
Overseas unquoted bonds	0	0
Overseas quoted equities	4,571,785	4,531,286
Overseas unquoted equities	6,681	655,001
Overseas quoted index linked securities	67,805	64,389
Overseas unit trusts	554,943	596,484
Overseas Property funds	85,790	78,592
<b>Total overseas assets</b>	<b>5,528,062</b>	<b>6,190,893</b>

**Currency risk – sensitivity analysis**

Following analysis of historical data the Fund considers the likely volatility associated with foreign exchange rate movements to be 6.0%, (2016/17 6.0%).

A 6.0% strengthening / weakening of the pound against the various currencies in which the Fund holds investments would decrease/increase the net assets available to pay benefits as follows.

Asset type	Value as at 31 <sup>st</sup> March 2018 £000	Value on increase £000	Value on decrease £000
Overseas quoted bonds	241,058	255,521	226,594
Overseas unquoted bonds	0	0	0
Overseas quoted equities	4,571,785	4,846,092	4,297,477
Overseas unquoted equities	6,681	7,082	6,280
Overseas quoted index linked securities	67,805	71,873	63,736
Overseas unit trusts	554,943	588,239	521,646
Overseas Property funds	85,790	90,938	80,643
<b>Total overseas assets</b>	<b>5,528,062</b>	<b>5,859,745</b>	<b>5,196,376</b>

Asset type	Value as at 31 <sup>st</sup> March 2017 £000	Value on increase £000	Value on decrease £000
Overseas quoted bonds	265,141	281,049	249,233
Overseas unquoted bonds	0	0	0
Overseas quoted equities	4,531,286	4,803,163	4,259,409
Overseas unquoted equities	655,001	694,301	615,701
Overseas quoted index linked securities	64,389	68,252	60,526
Overseas unit trusts	596,484	632,273	560,695
Overseas Property funds	78,592	83,308	73,876
<b>Total overseas assets</b>	<b>6,190,893</b>	<b>6,562,346</b>	<b>5,819,440</b>

#### Credit risk

Credit risk represents the risk that the counterparty to a transaction or a financial instrument will fail to discharge an obligation and cause the Fund to incur a financial loss. The market values of investments generally reflect an assessment of credit in their pricing and consequently the risk of loss is implicitly provided for in the carrying value of the Fund's financial assets and liabilities.

In essence the Fund's entire investment portfolio is exposed to some form of credit risk. However, the selection of high quality counterparties, brokers and financial institutions minimises credit risk that may occur through the failure to settle a transaction in a timely manner.

The credit risk connected with stock lending is managed by holding collateral with a greater value than the amount of stock lent out at any one time. In addition the Fund is fully indemnified by HSBC Securities on stock lending activities. Stock lending and the associated collateral at the year-end are detailed in note 17.

#### Liquidity risk

Liquidity risk represents the risk that the Fund will not be able to meet its financial obligations as they fall due. The Fund therefore takes steps to ensure there are adequate cash resources available to meet its commitments. This will particularly be the case for cash, from the cashflow matching mandates from the main investment strategy to meet pensioner payroll costs, and also cash to meet investment commitments

#### Note 24. Contingent liabilities and contractual commitments

At 31 March 2018 the West Yorkshire Pension Fund had the following un-drawn commitments

	Investment value at 31 <sup>st</sup> March 2018 £m	Un-drawn commitments £m
Private equity	1,119.1	778.7
Property funds	606.5	53.4
<b>Total</b>	<b>1,725.6</b>	<b>832.1</b>

At 31<sup>st</sup> March 2017 the West Yorkshire Pension Fund had the following un-drawn commitments:

	Investment value at 31 <sup>st</sup> March 2017 £m	Un-drawn commitments £m
Private equity	993.8	756.5
Property funds	582.3	100.3
<b>Total</b>	<b>1576.1</b>	<b>856.8</b>

**Note 25. Accounting Developments**

The following accounting standards have been issued but are not applicable for the year ending 31 March 2018.

**IFRS 9 Financial Instruments (replacement of IAS 39)**

The International Accounting Standards Board completed the final element of its comprehensive response to the financial crisis with the publication of IFRS 9 Financial Instruments in July 2014.

IFRS 9 is effective for annual periods beginning on or after 1 January 2018.

**Recognition and Measurement.** IFRS 9 requires financial assets to be classified into one of three measurement categories:

- amortised cost;
- fair value through other comprehensive income (FVTOCI); or
- fair value through profit or loss (FVTPL).

These changes are not expected to have a significant impact on the Fund.

**Note 26. Investment Strategy Statement**

The West Yorkshire Pension Fund has prepared an Investment Strategy Statement (ISS) published under Regulation 7 of the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2016. The Fund has also prepared a Funding Strategy Statement (FSS) in accordance with Regulation 58 of the Local Government Pension Scheme Regulations 2013. Full details of the ISS and the FSS are included in the West Yorkshire Pension Fund Annual Report and Accounts. A copy is also available on the Fund's website [www.wywf.org.uk](http://www.wywf.org.uk).

**West Yorkshire Pension Fund**

**Note 27. List of Participating Employers Contributing to the Fund**

In 2017/18 477 employers paid contributions into the Fund, at the end of the year there were 443 employers with active members.

*This glossary is provided to assist the reader. It offers an explanation of terms in common use in relation to local authority finance, many of which are used within this document.*

### **Accruals**

Income and expenditure are recognised as they are earned or incurred. When income is due to the Council but has not been received an accrual is made for the debtor. When the Council owes money but the payment has not been made an accrual is made for the creditor.

### **Assets Held for Sale**

These are assets previously used in the provision of services by the Council which are now available for immediate sale. The assets are being actively marketed and a sale is probable.

### **Associated Company**

A company over which the Council is able to exercise significant influence (see also Group Accounts).

### **Capital Adjustment Account**

The Capital Adjustment Account (CAA) was set up in 2008-9 following UK GAAP accountancy changes and replaces the Capital Financing Account. It is required to ensure that both sides of the Balance Sheet remain in balance, and increases and decreases in asset valuations are credited and debited to this account as appropriate following asset revaluations.

### **Capital Charges**

Charges to services for the use of assets. They comprise depreciation, based on the current value of the assets used in the provision of services.

### **Capital Expenditure**

Expenditure on the acquisition of fixed assets, or which adds to, and not merely maintains, the value to the Council of existing fixed assets. Fixed assets provide economic benefits to the Council for a period in excess of one year.

### **Capital Financing Requirement**

A measure defined by the Prudential Code of the Council's level of borrowing for capital purposes. It is based on the Balance Sheet of the Council. It is the basis for calculating the charge to be made to revenue for debt repayment each year (see Minimum Revenue Provision).

### **Capital Receipts**

Income from the disposal of land and other assets and from the repayment of grants and loans made to others for capital purposes. The income can only be used either to finance new capital spending or to reduce the capital financing requirement through the repayment of debt.

### **Code of Practice on Local Authority Accounting in the United Kingdom (the Code)**

This document is produced by the Chartered Institute of Public Finance and Accountancy (CIPFA). It defines proper accounting practices for local authorities in the United Kingdom, and is generally abbreviated to 'the Code' in the text. The Code is based on International Financial Reporting Standards.

### **Collection Fund**

The fund deals with the collection and distribution of Council Tax and non-domestic rates. Surpluses may arise from time to time if the amounts collected from Council Tax (and its predecessor, community charge) exceed estimates. Such surpluses cannot be used directly to fund expenditure, but can be taken into account through the budget process and used to reduce Council Tax.

### **Community Assets**

Assets such as parks and historic buildings that the Council intends to hold in perpetuity and that may have restrictions on their disposal.

### **Consistency**

The concept that the accounting treatment of any given item will remain consistent between accounting years and that any necessary change will be made clear to the reader of the statement of accounts.

### **Contingent Liabilities**

These are material liabilities where the contingent loss cannot be accurately estimated or is not considered sufficiently certain to include in the accounts. They are therefore brought to the attention of readers of the accounts as a note to the Balance Sheet.

### **Creditors**

Amounts owed by the Council for work done, goods received or services rendered, but for which payment has not been made at the end of the year.

### **Debtors**

Sums of money owed to the Council but not received at the end of the year.

### **Depreciation**

A capital charge made to services for the use of fixed assets in the provision of services. It represents the depletion of the useful life of an asset and the consequent reduction in its value.

### **Finance Lease**

A lease that transfers substantially all of the risks and rewards of ownership of a fixed asset to the lessee. Consequently, the leased assets are recognised on the Balance Sheet of the lessee.

**Financial Instruments**

A financial instrument is defined as any contract that gives rise to a financial asset of one entity and a financial liability of another. The term covers both financial liabilities and financial assets and, includes the borrowing, lending, soft loans, financial guarantees and bank deposits of the Council.

**Financial Reporting Standards (FRS)**

Accounting practice to be followed in the preparation of accounting statements in the years prior to 2010-11. For example FRS17 governs the way in which pension liabilities must be presented in the accounts. From 2010-11 onwards FRS will be fully replaced by IFRS (International Financial Reporting Standards), see below.

**General Fund**

All services other than those which authorities are required to account for separately in a Housing Revenue Account or Collection Fund.

**General Reserves and Balances**

Monies held by the Council to deal with unforeseen events that might arise. The Council must maintain a prudent level of such balances.

**Group Accounts**

Where authorities have material interests in subsidiaries, associated companies or joint ventures they are required to prepare additional group account statements. The group accounts consolidate those interests in subsidiaries, associates and joint ventures with the Council's own accounts to present a complete picture of the Council's activities.

**Heritage Assets**

These are assets, previously classified as community assets, which are intended to be preserved in trust for future generations because of their cultural, environmental or historical associations.

**International Financial Reporting Standards (IFRS)**

These are accounting standards issued by the International Accounting Standards Board.

**Impairment**

A diminution in value of fixed assets resulting from obsolescence, physical damage or general market conditions. The Council undertakes annual reviews of its assets to identify impairment.

**Comprehensive Income and Expenditure Statement**

This statement is compiled in accordance with IFRS and reports the net cost for the year of the services provided by the Council. It brings together expenditure and income relating to all of the local authority's operations and demonstrates how the net cost has been financed from general government grants and income from local taxpayers.

**Infrastructure Assets**

These are assets such as highways and footpaths.

**Investments**

These may be long-term investments whose purpose is to produce capital gain and rental income, or the short-term investment of cash balances that may arise from day to day management of the Council's cash flow.

**Investment Properties**

Land and buildings that are held for capital gain and rental income and not for the provision of services.

**Joint Venture**

A company or body in which decisions require the consent of all participants (see also Group Accounts).

**Liabilities**

Amounts due to individuals or organisations and to be paid at some time in the future. Current liabilities are payable within one year of the Balance Sheet date.

**Local Area Agreement (LAA)**

The LAA is a partnership between the Council and other public bodies whose aim is to work together towards jointly agreed objectives to improve local public services. The Council's LAA partners comprise local health bodies, learning bodies, community groups, housing associations and voluntary associations.

**Materiality**

An item is material if its omission, non-disclosure or mis-statement in financial statements could be expected to lead to a distortion of the view given by the financial statements.

**Minimum Revenue Provision (MRP)**

This is the minimum amount of external borrowing that authorities must repay and charge to their revenue accounts each year. It is calculated as a percentage of the Council's capital financing requirement at the start of the year.

**Non Current Assets**

Assets that yield economic benefits to the Council for a period of more than one year. Examples include land, buildings, vehicles and investment property.

**Non-Domestic Rates (NNDR)**

These are rates levied on business properties. The level of NNDR charges is set by the Government. The Council receives 49% of the rates levied in the district, central government 50% and West Yorkshire Fire and Rescue Authority 1%.

**Net Book Value**

The amount at which fixed assets are included in the Balance Sheet, i.e. their historical cost or current value less the cumulative amounts provided for depreciation.

**Operating Leases**

Leases other than finance leases. Under operating leases the risks and rewards of ownership remain substantially with the lessor. Consequently, the assets concerned are not included on the Balance Sheet of the lessee.

**Property, Plant and Equipment (PPE)**

These are non-current assets used directly to deliver the Council's services. The assets comprise land, buildings and plant with a carrying value in the Balance Sheet based on current value in use. PPE also includes equipment like vehicles, which are valued at historic cost.

**Precept**

The amount levied by the various joint authorities (e.g. police and fire authorities) which is collected by the Council on their behalf through the Council Tax.

**Prior Year Adjustments**

Material adjustments applicable to prior period, arising from changes in accounting policies or from other corrections.

**Private Finance Initiative (PFI)**

A central government initiative that enables authorities to carry out capital projects through partnership with the private sector.

**Provisions**

Contributions to provisions are amounts charged to the revenue account during the year for costs with uncertain timing where a reliable estimate of the cost involved can be made.

**Prudence**

This accounting concept requires that revenue is not anticipated until realisation can be assessed with reasonable certainty. Provision is made for all known liabilities whether the amount is certain or can only be estimated in the light of the information available.

**Prudential Code**

The Code ensures that authorities borrow only for capital purposes and that they borrow responsibly and at affordable levels. Authorities demonstrate compliance with the code by setting and observing a range of prudential indicators covering the level of capital expenditure, the cost of borrowing and level and structure of its debt.

**Related Parties**

Individuals, or bodies, who have the potential to influence or control the Council or to be influenced or controlled by the Council.

**Revenue Expenditure**

Expenditure on the day-to-day running costs of services, such as the costs of employees, premises, supplies and services.

**Revenue Expenditure Funded from Capital under Statute (REFCUS)**

Amounts properly incurred as capital expenditure, but where no Council asset is created. They are mainly grants or loans made to individuals or organisations for capital purposes, such as improvement grants.

**Revenue Reserve**

Any sum set aside for a specific revenue purpose.

**Revenue Support Grant (RSG)**

A general government grant towards the cost of providing services.

**Subsidiary**

A company or body over which the Council has control or has the right to exercise dominant influence (see also Group Accounts).

**UKGAAP**

UK Generally Accepted Accounting Principles. This is a framework of accounting standards for financial reporting standards, which have been replaced by International Financial Reporting Standards from 2010-11 onwards.

## ANNUAL GOVERNANCE STATEMENT 2017-18

(This will be replaced with the 2018-19 Annual Governance Statement in the audited 2017-18 Statement of Accounts)

## 1. Scope and Purpose

### 1.1 Scope of Responsibility

The City of Bradford Metropolitan District Council is responsible for ensuring that its business is conducted in accordance with the law and proper standards, and that public money is safeguarded, properly accounted for, and used economically, efficiently and effectively. It also has a duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way in which its functions are exercised.

In discharging its overall responsibility, the Council is responsible for putting in place proper arrangements for the governance of its affairs, facilitating the effective exercise of its functions, as well as arrangements for the management of risk.

### 1.2 The purpose of the governance framework

The governance framework comprises the systems and processes, culture and values by which the Council and its partners are directed and controlled and those activities through which it accounts to, engages with and leads the community. It enables the Council to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate, cost-effective services.

The framework has continued in place at the Council for the year ended 31 March 2018 and up to the date of approval of the Statement of Accounts. Whilst supporting the Council's arrangements for risk management, it cannot eliminate all risk to the achievement of policies, aims and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness.

## 2. The Governance Framework.

The systems and processes that comprise the Council's governance comprise the following key elements:

### 2.1 Code of Corporate Governance.

The Council's governance structure will be based on the seven core principles of the new CIPFA/SOLACE framework "Delivering Good Governance in Local Government" –

- Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of law
- Ensuring openness and comprehensive stakeholder engagement
- Defining outcomes in terms of sustainable economic, social, and environmental benefits
- Determining the interventions necessary to optimise the achievement of the intended outcomes
- Developing the entity's capacity, including the capability of its leadership and the individuals within it
- Managing risks and performance through robust internal control and strong public financial management
- Implementing good practices in transparency, reporting, and audit to deliver effective accountability

### 2.2 The Constitution of the Council

The Constitution, reviewed at Annual Council, provides the framework within which the Executive takes decisions in discharge of the Council's functions, subject to the examination of a number of Overview and Scrutiny Committees. The Executive is collectively responsible for the decisions it makes and its decision making arrangements are designed to be open, transparent and accountable to local people.

### 2.3 Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of law.

#### Behaving with integrity

- The Council fosters a culture of behaviour based on shared values, ethical principles and good conduct.
- The Council is committed to maintaining its values and integrity. It has a whistle blowing policy embodied in the Confidential Reporting Code for Employees which can be accessed on the Council's web site.

#### Demonstrating strong commitment to ethical values

- The Council has approved a Code of Conduct for Elected Members and a procedure for dealing with complaints.
- The Standards Committee's role was retained to have responsibility for overseeing the operation of the Code and for promoting high standards of conduct.

In addition, the Council's Constitution establishes:-

- A protocol on member-officer relations providing rules and guidance for members, co-opted members and officers in their working relations.
- Protocols for members on gifts and hospitality and members' use of Council resources including the use of email and the internet.
- Members and officers have been provided with guidance on the framework within which they are required to undertake their different roles
- Employees are expected to comply with the Council's Code of Conduct for Employees.

**Respecting the rule of law**

- The Council's Monitoring Officer is required to maintain an up to date version of the Constitution and to make amendments and/or improvements as necessary to take account of changes in legislation, guidance, Council policy, decisions of the Council and the Executive.
- The Monitoring Officer, following consultation with the Chief Executive and the Section 151 Officer, is required to report to the Executive if she considers that any proposal, decision or omission would give rise to unlawfulness or maladministration. To assist the Monitoring Officer in this role, Legal Services monitor new legislation and disseminate this information to service departments.
- The Section 151 Officer is similarly required to report to the Executive and the Council's External Auditor if he considers that any proposal, decision or course of action will involve incurring unlawful expenditure, or is likely to cause a loss or deficit.
- Each Strategic Director and the Chief Executive are required to confirm in an annual letter to the Section 151 officer that they have taken reasonable steps to ensure compliance with established policies, procedures, laws and regulations, including how risk management is embedded in the Departments. This is underpinned by performing the key control and fraud risk self assessments and levels of non compliance are duly considered.
- The Council has a Counter Fraud Policy and Strategy to protect public funds by actively seeking to deter and prevent fraud, corruption and theft and ensure that all possible risks are minimised.
- The reports of Internal and External auditors consider and inform compliance with regulations, policies and procedures.
- The Council has established internal control procedures designed to support compliance with established policies, practices, laws and regulations and to safeguard the Council's assets and interests from loss
- All reports to Executive must be cleared by a member of the Council's Management Team, the Monitoring Officer and the s151 Officer.

**2.4 Ensuring openness and comprehensive stakeholder engagement.**

**Openness**

- The Council has five Area committees to encourage community engagement and participation.
- A principal form of securing dialogue with communities is by establishing and operating neighbourhood and ward forums.
- The Council supports a process of engagement with the District's communities of interests that complements our place based structures.
- Overview and scrutiny arrangements provide for meetings to be open to the public, except where confidential information or exempt information is likely to be disclosed.
- The Annual Statement of Accounts provides a report on the Council's financial activities for the year.
- Financial information, including details of efficiency savings, is reported regularly during the year.
- The Council has published a contracts register (which will be updated quarterly) and a grants register (which will be updated annually) in accordance with the Local Government Transparency Code.

**Engaging comprehensively with institutional stakeholders**

- The role of the Governance and Audit Committee includes maintaining an overview of the Council's partnership arrangements and overseeing any action plans for improvement arising, for example, from inspection reports.
- The Council has an agreed approach to collective bargaining with the recognised Trade Unions. This is undertaken through consultation and negotiation and is enshrined within the Council's Industrial Relations Framework. The Council takes a partnership approach to Industrial Relations, using the Industrial Relations Framework. This includes regular informal discussions between trade unions and management & formal OJC meetings at all levels across the Council - L1 (Corporate), L2 (Departmental) & L3 (Service).
- Bradford District Partnership (BDP), as the Local Strategic Partner for the area, ensures that the governance arrangements of the family of partnerships function well, in order to support the delivery of the Bradford District Strategy. The BDP reports to the Governance & Audit Committee on governance and functional business matters and to Overview and Scrutiny Committees on topic based performance and delivery.
- The Schools Forum is effective as the place where resource allocation decisions are made between the Council and the District's schools
- To support the Health and Wellbeing Board, governance arrangements for senior leaders and managers in the health and social care economy have been established to oversee the development of integrated health and social care models, and to ensure oversight of the whole system of public and personal health and social care

**Engaging with individual citizens and service users effectively**

- An extensive programme of consultation on the annual budget generated considerable engagement and input into the establishment of the Council's budget priorities. The consultation raised awareness of the financial and demand challenges facing the district, confirming what matters most to local people and exploring public expectations and aspirations for involvement in future delivery.
- Bradford Council's Citizen Panel was launched in November 2016. The panel consists of approximately 1800 Bradford citizens who fit the demographic profile of the district. Panel members have agreed to complete up to 10 surveys a year that will be electronically distributed through the Council's Snap survey system. The surveys will be designed to capture information on a whole range of different issues that the Council wishes to engage on and the outcome will help to shape local services. The panel has been set up to give people the chance to tell us about the area that they live in, what they think of the services we provide and whether they think we are doing a good job. It will also help us to find out what people think of lots of different projects, strategies and other things that we have planned.
- Publications, media, including social media, the Council's website, App and other publicity arrangements provide communication channels with the district's citizens.
- The Council's website and App provide a communication and wide ranging information link.
- Centres provide easy access to Council services and information.

## 2.5 Defining outcomes in terms of sustainable economic, social, and environmental benefits

### Defining outcomes

- The District Plan has been developed with key partners and partnerships, and builds on the BDP governance review, giving a clear responsibility for each outcome to a specific strategic partnership. The development of the plan also involved overview and scrutiny committee and area committee input.
- The final District Plan was agreed by Bradford District Partnership Board on 22 April 2016. Building on the outcomes and principles established via the Council's New Deal approach it sets out a clear vision and agreed actions over the next four years to 2020.
- A plan for communicating and engaging around the key messages of the plan, and promoting its delivery has been developed after Executive and Full Council sign off in June and July 2016.
- A Council Plan was approved in October 2016 which identifies how the Council will deliver the commitments established in the District Plan.
- A review of Bradford District Partnership arrangements established a clear lead partnership for each of the agreed outcomes that form the Council and District's vision. Each partnership is responsible for a "chapter" of the District Plan.

### Sustainable economic, social, and environmental benefits

- The Council is committed to considering the combined economic, social and environmental implications of its decisions through robust data analysis and consultation with affected parties so that its decisions promote the achievement of its vision for the district.
- Reports requiring decisions from Council, Executive and other committees must include a resources appraisal and reference, where applicable, to equality, sustainability and community safety implications.

## 2.6 Determining the interventions necessary to optimise the achievement of the intended outcomes

### Determining interventions

- Decision makers receive accurate, relevant and timely intelligence and performance information to support them with objective and rigorous analysis of options covering intended outcomes, financial impact and associated risks.
- The Council is committed to seeking continuous feedback from citizens and service users in planning changes to service delivery.

### Planning interventions

- The Council plans its activity at a strategic level through its budget and business planning cycle. It does so in consultation with internal and external stakeholders.

### Optimising achievement of intended outcomes

- The Medium Term Financial Strategy forms part of the Council's planning and performance framework, and provides the context for the more detailed budgeting process.
- The MTFS is refreshed each year, to give a rolling three-year assessment of the fiscal environment, after the close of the previous year, and before the budgeting round commences.
- It sets out key messages for efficient and effective management of the available resources. It aims to provide citizens and stakeholders with an insight into the financial environment the Council operates in.

## 2.7 Developing the entity's capacity, including the capability of its leadership and the individuals within it.

### Developing the entity's capacity

- The Council monitors its governance and staffing structures to support the delivery of planned services.
- Through its budget process the Council ensures that services are prioritised to ensure that resources are directed to those activities that will make the greatest contribution to its vision for the district.
- The Council explores alternative delivery methods such as the establishment of partnerships or other types of collaborative working where it would lead to improved value for money.

### Developing the capability of the entity's leadership and other individuals.

- A clear statement of the respective roles and responsibilities of the Executive, the members and senior officers including delegation arrangements and protocols for effective communication of committee decisions, can be found in the Council's constitution.
- Role Profiles for all senior officers detail their key responsibilities
- The Council is committed to supporting members in undertaking their varied and evolving roles and responsibilities. A Member Learning and Development Strategy is in place supported by a Member Development Programme which is run on a quarterly basis by the Human Resources Department.
- The Strategy introduces the key learning and development aims and objectives. It also identifies actions that will be taken to ensure all councillors have access to learning and development opportunities appropriate to their needs. The aim of this is to help councillors carry out their roles efficiently and effectively.
- The Council recognises that alongside members, employees are an important resource - the development of the two goes hand in hand. The Council's workforce development programme provides a focus on effective workforce planning and development, embracing leadership and skills training for all staff.
- During the year a series of management conferences ensured that the Council's senior and middle leadership cadres considered the key challenges ahead.

## 2.8 Managing risks and performance through robust internal control and strong public financial management

### Managing risk

- The Council has adopted a Risk Management Strategy and maintains both corporate and service risk registers which identify actions required to mitigate any risks identified. The registers should be regularly maintained, reviewed and updated. In 2017-18 further work on risk management was required to establish the appropriate reporting structure.
- Risk management training is standard within project management and at particular key stages of project implementation.
- Each Strategic Director and the Chief Executive are required to confirm in an annual letter to the Section 151 officer that they have taken reasonable steps to ensure compliance with established policies, procedures, laws and regulations, including how risk management is embedded in the Departments. This is underpinned by performing the key control and fraud risk self assessments and levels of non compliance are duly considered.
- The Council has a Counter Fraud Policy and Strategy to protect public funds by actively seeking to deter and prevent fraud, corruption and theft and ensure that all possible risks are minimised.
- The Council is committed to providing for business continuity, as detailed in the Civil Contingencies Act 2004, to ensure it can provide all its key functions in the event of an emergency or disruption, so far as is practicable. Assistant Directors lead on business continuity planning within their service areas. The Emergency Management Team has put in place processes that set out the Council's approach to business continuity management.

### Managing performance

- The Council uses corporate and departmental service level performance measures to report and manage service delivery.
- The Annual and Mid-year Finance and Outturn Performance Reports, and Quarterly Financial Monitoring Reports, present to the Executive and Corporate Overview & Scrutiny the current and forecast position on performance and finance in relation to the Council's activities. The report sets out the key areas of progress, the key issues, areas for continued attention in relation to the Council's corporate priorities and actions to address any areas of underperformance.
- The Council now has a well established way of measuring productivity and financial activity data to ensure that it is using its resources efficiently and providing value for money.
- A set of Corporate Indicators is in place that focuses on key Council priorities. The Corporate Performance Framework is revised in line with the changes to our performance arrangements. Performance will continue to be monitored through Departmental Management Teams, CMT, Council's Policy Programmes and Change Service within the Chief Executive's department, Executive and Overview & Scrutiny Committees.
- There are service specific customer feedback and user engagement mechanisms in place, and user-specific engagement methodologies such as Learning Disabilities Partnership and Easier Access events that allow the Council systematically to gather customer insight.

### Robust internal control

- Under the Articles of the Constitution, the Governance and Audit Committee has a function to consider the effectiveness of the control environment and associated anti-fraud and anti-corruption arrangements.
- The Section 151 Officer has dedicated resources to undertake independent investigations and report on allegations of impropriety.
- The Council has a formal 'Comments, Complaints and Compliments' procedure on the "Contact us" section of the Council's website. All members of the public have the right to complain to the Council in writing, by telephone or by speaking to a member of staff.

### Managing data

- A separate and independent information security team supports the Senior Information Risk Owner (SIRO) to discharge his responsibilities in championing an information security culture, establishing policy, practice, process, training, knowledge and technology, and assessing the effectiveness of those arrangements.
- The SIRO is supported by a distributed network of Information Asset Owners (at Assistant Director level) who in turn are supported by department and or system-specific information security managers
- The Bradford team liaises closely with peer function in other public bodies in West Yorkshire and beyond, and with the Information Commissioner's Office (ICO)
- The Council underwent a voluntary audit by the ICO on the procedures supporting subject access requests, training and development and data sharing agreements

### Strong public financial management

- The Council's financial management arrangements conform with the governance requirements of the CIPFA "Statement on the Role of the Chief Financial Officer in Local Government 2010"
- The Council has effective, robust, financial control governance in place which ensures that budget holders have clear financial accountability, are supported by professional finance advisors, and provided with financial information to plan and control spending, all underpinned to effective financial systems. These arrangements include well-established financial regulations and standing orders. Elected members are appropriately involved in financial governance. In addition, project management disciplines are applied to the planning, monitoring and implementation of each individual budget saving approved by the annual Budget Council. This provides a mechanism by which risks of failure to implement changes and/or deliver savings can be identified and mitigated early in the financial year. These arrangements have ensured that the Council has delivered its annual budget target in the very challenging financial climate of austerity.

**2.9 Implementing good practices in transparency, reporting, and audit to deliver effective accountability**

**Implementing good practices in transparency**

- The Council is committed to publishing information, including reports, in a manner which is accessible to citizens and other stakeholders.
- Information is produced in an open and understandable style appropriate to the intended users and method of communication, including web-based and social media.

**Implementing good practices in reporting**

- The Council seeks to demonstrate to its stakeholders that it has delivered on its commitments and goals and has used public resources effectively in doing so.
- The Finance and Performance Outturn report provides a detailed commentary on the financial and service performance of all Council services.
- The Council has a legal responsibility to conduct, at least annually, a review of the effectiveness of its governance framework including its system of internal control and report the findings in an Annual Governance Report.

**Assurance and effective accountability**

- Council standing orders for contracts and financial regulations are contained in the Constitution of the Council. They are subject to annual review by officers before approval at the Governance and Audit Committee and adoption by full Council at the annual meeting.
- Key control booklets are maintained by Internal Audit, updated as required and placed on the Council's intranet.
- The Council has 5 Overview and Scrutiny Committees which are required to contribute to the better decision making of the Council, and secure continuous improvement in service delivery.
- Area Committees enable local communities to participate in Council activities.
- Bradford District Partnership board are currently considering how they ensure greater accountability from the partnerships to the Board, via regular reporting on progress at future Board meetings.

**3. Review of Effectiveness**

The Council has responsibility for conducting, at least annually, a review of the effectiveness of its governance framework including the system of internal control. The review of effectiveness is informed by the work of the executive managers within the Council who have responsibility for the development and maintenance of the governance environment. Confirmations have been obtained from Strategic Directors and the Chief Executive that reasonable steps have been taken to ensure compliance with established policies, procedures, laws and regulations. They have been asked to confirm that risk management is embedded in their departments, provide a fraud risk assessment and to report, on a three year rolling programme, the level of compliance with key controls that are set out in the Key Control Booklets.

The Council has in place a Governance and Audit Committee, independent of the Executive, to strengthen and consolidate its governance arrangements and provide the core functions as identified in CIPFA's "Audit Committees – Practical Guidance for Local Authorities".

The review is informed also by the work of the Internal Audit section which covers both the Council and the West Yorkshire Pension Fund. The key areas of assurance relate to the work detailed in their monitoring reports on the Council's control environment which are reported at regular intervals to Governance and Audit Committee. The Head of Internal Audit is required to deliver an annual Internal Audit Opinion and report regularly to the Governance and Audit Committee as prescribed by Public Sector Internal Audit standards. A number of operational control issues have been identified from this and action is being taken to put improvements in place.

Action plans for improvement are devised and implemented in response to recommendations from External Audit and other statutory agencies and inspectors.

The Council liaises fully and promptly with the Local Government Ombudsman's enquiries into complaints against the Council.

The Council liaises closely with the Information Commissioner's Office in reporting and closing information security risks and incidents, and to ensure it discharges fully its duties under Data Protection legislation and policies.

**4. Significant governance issues**

The annual review has established that the Council has arrangements in place which provide a sound governance framework and system of internal control.

However the Council is not complacent and seeks to continually improve the arrangements it has in place. Whilst recognising improvements to date, the emphasis going forward is to address identified issues and put in place an improvement plan to address known areas of concern. The Governance and Audit Committee will be kept informed of progress.

In the 2016/17 Annual Governance Statement a number of specific risks were identified that have been monitored through the year. Progress on these was reported to the Governance and Audit Committee in a detailed public report on the 24th January 2017. The following sections give a brief update on these risks. Whilst some of these risks have been mitigated during the 2017/18 financial year a number of risks are continuing to be monitored and remain high profile in 2017/18.

**5. Governance challenges previously recognised which require continuing review in 2017/18**

**5.1 Safeguarding Vulnerable Children**

A permanent manager has now been recruited to the Safeguarding Children Board and a new board sub group structure put in place that is more fit for purpose moving forward. Robust arrangements at the front door have been reviewed through Joint Area Inspection and found to be good. Progress on CSE has been subject to extensive public and political scrutiny. However a large and growing youth population and rising numbers of vulnerable young people coming into the system, including from outside of the area, mean that safeguarding children remains a challenge

**5.2 Establishing sound governance structures pertaining to the West Yorkshire Combined Authority ensuring democratic accountability at the local level.**

WYCA continues to develop through its Corporate Plan, governance, investments and core activities. Further governance and organisational changes are expected to be brought forward and adopted at the WYCA AGM 29<sup>th</sup> June 2017. These include those instructed by Government and legislation and additional matters including strengthening the working arrangements of the Local Enterprise Partnership, business involvement and Combined Authority governance and business management. Member involvement is through key nomination and appointment processes, confirmed at the Council's AGM. Members are also kept informed through WYCA and Council core communications and business activities. O&S & Governance and Audit updates are being put in place for 2017-18.

**5.3 Impact on governance structures arising from developing policies for the delivery of regional devolution.**

Mayoral Combined Authorities came into being following the Mayoral Elections on 4<sup>th</sup> May 2017. These will bring changes to local government and sub-national governance in the six areas (Greater Manchester, Liverpool City Region, West Midlands, Tees Valley, West of England and Cambridgeshire and Peterborough) alongside existing London arrangements. Bradford Council in cooperation with WY and Leeds City region remain in negotiation with Government on devolution and further powers and resources for place-based prosperity. DCLG have signalled they wish to see agreement reached by the end of 2017. Ensuring the effective voice and profile for Bradford Council, District and the City Region remains a priority, with specific ambitions and concerns to progress. This will also be shaped by the General election, the nature of the new Government and their policy/resource choices in urban and sub-national matters.

**5.4 Ensuring an effective, integrated system of health and social care**

Accountable Care Boards have been established to govern the development of the two Accountable Care Systems across Bradford District. The Health and Wellbeing Board will oversee the implementation of the Bradford Sustainability and Transformation Plan.

In Bradford it has been agreed that the Council will lead a feasibility study into the legal options for the legal entity to form the Accountable Care System.

Discussions are still ongoing regarding the form in the Airedale, Wharfedale and Craven area.

Providers of services, which include the Council are working together within an agreed memorandum of understanding in Bradford.

**5.5 Implications of the European Union referendum**

Although Article 50 has now been triggered, the likely terms of the UK's exit deal with the EU are not known. Therefore there is still uncertainty and lack of clarity on future arrangements in respect of trade, migration/movement of citizens, and replacement funding streams. Clarity on the UK's negotiating position is further complicated by the snap General Election held in June 2017. We have ensured that Bradford's Brexit concerns have been heard through different channels in order to support effective lobbying, including at a City Region level, via the LGA and also through the Key Cities network. Officers across the organisation are continuing to monitor risks and opportunities as things develop and we have a continuing dialogue with external partners to understand wider impacts. A report will be taken to Corporate Overview and Scrutiny at such a time when detail on Bradford impacts and opportunities are more developed, as negotiations progress.

**6. 2017/18 Governance Challenges**

The risks detailed below will be reviewed through the 2017/18 financial year and progress against them will be reported to the Governance and Audit Committee.

6.1 A number of procurement issues occurred through the year which had to be investigated and the impact of them assessed. In 2017/18 further work will be required to assess levels of compliance across the Council and where necessary to implement improvements.

6.2 Over the past 12 months the Council has found it increasingly difficult to resource and update some of the Council's management systems such as risk, procurement, income and health and safety. This has resulted in information becoming out of date and weakening management controls. It is also the case that other systems may be vulnerable due to capacity pressures. This needs to be reviewed to ensure that the Council's management systems continue to be effective and able to support an organisation as large and as complex as Bradford Council.

6.3 Objections, resistance and disagreement to the implementation of decisions that have already been taken, typically through the budget process, have had to be handled properly. There have been examples of individuals and/or their representatives, and firms or organisations, on occasion acting in concert, raising objections, both informally and formally, to the implementation of decisions, which causes delay and uncertainty.

**7. West Yorkshire Pension Fund**

The Council is the administering authority for the West Yorkshire Pension Fund (WYPF). The WYPF produces its own Governance Compliance statement which has been prepared in accordance with the requirements of the provisions of the Local Government Pension Scheme (Amendment No. 3) Regulations 2007.

The Council has established two bodies to assist and support the Governance & Audit Committee oversee the WYPF:

- the WYPF Investment Advisory Panel and
- the WYPF Joint Advisory Group

The WYPF Investment Advisory Panel has overall responsibility for overseeing and monitoring the management of WYPF's investment portfolio and investment activity. In this capacity, the Panel is responsible for formulating the broad future policy for investment. A Director of Finance from one of the member Authorities sits on the Panel, this position is currently held by the Director of Resources for Kirklees MDC.

The WYPF Joint Advisory Group has overall responsibility for overseeing and monitoring the WYPF's pensions administration function, and for reviewing and responding to proposed changes to the Local Government Pension Scheme. In addition the Group approves the budget estimates for the pensions administration and investment management functions of WYPF, and also receives WYPF's Annual Report and Accounts.

The Council is also responsible for the financial and management arrangements of the West Yorkshire Pension Fund and a separate assessment of the adequacy of these arrangements is also required. The following internal arrangements are in place to provide the Council with the necessary assurance.

- The West Yorkshire Pension Fund has adopted the Council approved approach to risk management
- Risk registers are maintained and management action plans (MAPs) are in place for risks assessed as requiring active management
- Risks are monitored and MAPs reassessed regularly
- A risk management report is submitted annually to the WYPF Joint Advisory Group.

There are not expected to be any issues arising from the annual report and review to be submitted to the Joint Advisory Group meeting in July 2017

**8. Statement**

Over the coming year we propose to take steps to address the challenges identified above to further enhance our governance arrangements. We are satisfied that these steps will address the need for improvements that were identified in our review of effectiveness and will monitor their implementation and operation as part of our next annual review.

Signed: .....

**Councillor Susan Hinchcliffe, Leader of Council**

Signed: .....

**Kersten England, Chief Executive**
