<p>5. How is the success of the Policy measured?</p>	<p>The neighbourhood plan has a number of policies, the success of which is measured against individual objectives and the plan’s overall Vision Statement: “By 2030, Addingham will have retained its identity as a village, on the edge of the Yorkshire Dales National Park, with a good range of local services and community facilities for residents, businesses and visitors, relative to the size of the small settlement. The traditional lower Wharfedale character, special setting in the landscape and biodiversity of the Parish will have been protected and enhanced, and the village will have accommodated necessary new development without damaging these special features and will also have strengthened its resilience to climate change.”</p>

6. Are equality monitoring systems for the Policy in place?	The NDP includes a specific commitment to monitoring and review. Whilst not an explicit equality monitoring system, this monitoring will allow the Parish Council to identify any equalities impacts not identified in this screening and review the NDP accordingly.
