1. SUMMARY

- 1.1 This report sets out the Community Building Grants allocation process. Community Building Grants are for Voluntary and Community Sector organisations to support them in meeting their associated building costs.

2. BACKGROUND

- 2.1 As part of the budget decision on the 25th February 2016, Bradford Council approved plans to remove or reduce:
- Rent subsidies provided to VCS organisations
 - Community development grants
 - Discretionary business rate relief to not for profit organisations
- 2.2 The Review group concluded that the best way forward was to combine all remaining resources from Neighbourhood and Customer Services and Regeneration and establish a single process, based on an extended core costs model used with the VCS groups for 2015-17. The proposal merged the remaining support available into one Community Building Grant and to devolve the decision making to Area Committees in order to increase fairness, transparency and accountability.

Financial Allocation

- 2.3 The apportionment of the remaining budget was based upon a formula that factors in current support levels and also the needs based formula that was used and agreed by Executive to allocate the previous Voluntary and Community sector funding round.
- 2.4 The VCS Buildings Review Group, chaired by the Strategic Director of Place used this formula to recommend the allocation of funding levels to each Area. The group's recommendation was agreed by the Regeneration, Planning, and Transport Portfolio Holder on behalf of Council Executive.
- 2.5 The available budget across the District, for 2019-20 is £250k (2020-21 subject to equivalent budget being available). The new grants will commence from 1 April 2019.
- 2.6 A ring-fenced allocation will be made available to support organisations supporting District Wide activity and community of interest groups.
- 2.7 Table 1 includes the current levels of support each area received and the allocated amounts for each Area Committee for 2019-2021 for the Community Building Grants.

Table One

	Amount per annum 2017-19	Percentage calculation from 2018-19 grants	Amount per annum 2019-21
East	£99,400	22.80 %	£57,000
South	£50,700	11.63 %	£29,075
West	£122,800	28.16 %	£70,400
Keighley	£64,400	14.77 %	£36,925
Shipley	£52,700	12.09 %	£30,225
District wide provision	£46,000	10.55 %	£26,375
Total	£436,000	100%	£250,000

- 2.8 It will be the responsibility of each Area Committee to make decisions on the allocation recommendations of the 2019-20 budget (and 2020-21 subject to equivalent budget being available) of the Area Grants Advisory Groups.

3. OTHER CONSIDERATIONS

Importance of Community Buildings

- 3.1 Helping to ensure that communities are safe, clean and active is a Council priority. Whilst we can no longer fund community development workers we can facilitate this approach by supporting community buildings to stay open and become hubs of local activity and community led development. The ‘People Can’ approach to community support will contribute to building stronger sustainable communities in the following ways:
- Increase the active participation of residents in their neighbourhoods and communities
 - Meeting space for community groups
 - Local base to deliver a range of services including advice work
 - Places to deliver activities and access to practical resources

Framework to be deployed by Area Committees in the allocation of grants

- 3.2 The Area Committees will use their existing Grants Advisory Group in the same way they have for Community Chest. The Grants Advisory Group will assess applications and make recommendations to Area Committee for determination.
- 3.3 Officers from Revenues and Benefits, Estates Management and Finance will be requested to provide relevant facts and information on the applicant groups for the Grants Advisory Group to ensure relevant information can be reviewed prior to funding recommendations being submitted.
- 3.4 Information can be provided to Members, via the Area Coordinator, about the bidding process and which groups had been informed so that Members may flag up any groups they considered would benefit from the process that are not listed.
- 3.5 Grants will be available for up to two years.

- 3.6 The Area Committee may choose to develop a scoring system for allocation of funds with the support of the Neighbourhood Service central team
- 3.7 The main priority of these grants is for organisations with low levels of resources and without the funds to pay the full cost of running the centre without support.
- 3.8 Community buildings receiving a contribution to their building related costs through a grant will be expected to be well run facility in the following respects:
- To be accessible to everyone within the local community
 - Well maintained and clean facilities
 - Have a responsible charging policy
 - Have financial systems and controls in place
 - Have a strong and responsible management committee
 - To work in partnership with other agencies
- 3.9 The Neighbourhood Service Central team will support the Grants Advisory Group to enable a consistency of approach across the five Areas and will also include distributing the expressions of interest (application) packs to current recipients, and to the Area Coordinator's Offices for further distribution to new or currently unfunded relevant Community buildings.
- 3.10 Whilst administration of the grants will be undertaken centrally within the Neighbourhoods and Customer Service, the Ward Officers will be the main contact to monitor progress and they will ensure that issues raised are being addressed.
- 3.11 The Area Office staff, revenues and benefits, asset management, the Central team and the voluntary sector infrastructure organisations will work with applicants to consider alternative sources of support such as sharing of spaces, community asset transfer, small business rates relief or registering as a community amateur sports club.

4. FINANCIAL & RESOURCE APPRAISAL

- 4.1 The approved reduction identified in the Council budget 2019-2021 is presented in this report.

5. RISK MANAGEMENT AND GOVERNANCE ISSUES

- 5.1 There is a risk that some of the organisations currently receiving support will not be successful in the Community Buildings fund due to significantly reduced resources. However there are various avenues organisations could pursue which may help reduce the negative impact. These include, becoming a registered charity which will entitle organisations to 80% rate relief, or to register as a small business and rates will be off set by government initiatives. There is also additional support available to sports clubs who register as a Community Amateur Sports Club with HMRC, which would also, reduces the rates charges by 80%.

5.2 In addition Ward Officers and Voluntary Organisations Support Officers (VOSOs) will continue to provide support to areas and organisations.

6. LEGAL APPRAISAL

6.1 This work relates directly to the Local Government Act 2000 and to the Duty of Well-being placed upon the Council to promote and improve the well-being of the District.

6.2 Under the Council's Constitution at Article 12, the Executive can delegate/devolve the discharge of functions to Area Committees. In discharging these functions, all decisions made must be in accordance with policies, strategies, plans or criteria agreed by the Council or Executive and within the approved budget.
