**Overview & Scrutiny Area:**  
**Corporate**

## **1. SUMMARY**

This report presents a draft plan to guide the work of the Bradford South Area Office and Hub in shaping, and where appropriate coordinating, responses to Covid 19 within the Bradford South Area.

## **2. BACKGROUND**

- 2.1 During the Coronavirus national lockdown, the Area Office reformed into an Area Hub for the duration of the lockdown. This hub mobilised Council support and worked closely with local voluntary, community and faith organisations to ensure particularly people who were shielded and vulnerable received necessary practical support and volunteers were mobilised and engaged in the effort.
- 2.2 Also during the Coronavirus the Area Hub coordinated Council Wardens and Youth Workers to engage with the local community to increase awareness of the importance of keeping safe.
- 2.3 A key function of the Bradford South Area Office, working alongside Councillors and the Area Committee, is to coordinate the drafting and actioning of Area and Ward plans to meet local needs. In response to the Coronavirus the Area Committee has asked that the Area Office presents a Covid 19 Recovery Plan. This plan will be the central plan that determines the work of the Area Office during at least the rest of the financial year 2020-21.
- 2.4 The information collated through this process has identified areas where priorities in the Bradford South COVID -19 Recovery Action Plan continue to be addressed by mainstream provision. This will be of particular importance to the Area Committee where it involves Services which have been devolved to it. It also enables Bradford South Area Committee to more effectively identify where it may wish to allocate those resources.

## **3. OTHER CONSIDERATIONS**

- 3.1 The purpose of the Bradford South COVID -19 Recovery Action Plan 2020 – 21 is to establish the priorities of the Area Committee and provide a framework for officers to deliver against agreed actions to mitigate against the impact of the Coronavirus on communities across Bradford South. It sets out priorities for action and provides a framework for the Area Committee to monitor progress.
- 3.2 Bradford South Area Committee will implement the Bradford South COVID -19 Recovery Action Plan 2020 -21 directly by use of its executive powers and delegated budgets as well being a co-ordinatory body and catalyst for action working in partnership.
- 3.3 For a number of the priority issues within the COVID Recovery Plan, it is likely that the main role of the Area Committee will be to continue to act as a co-ordinatory body and catalyst for action; with the Area Committee taking an investigative, supportive, developmental, championing, and monitoring role.
- 3.4 It is suggested that this role will largely be conducted through requesting Council Service Departments and partner agencies to note and respond to the priorities, to

present reports to the Area Committee on the work they are undertaking and the progress that is being made against the priorities within the Ward Plans.

- 3.5 Bradford South COVID -19 Recovery Action Plan 2020 - 21 can contribute to the District-wide approaches to dealing with Covid and its secondary impacts.

#### **4. FINANCIAL & RESOURCE APPRAISAL**

- 4.1 The production and dissemination of the Bradford South COVID-19 Recovery Action Plan 2020 - 21 is undertaken from within existing resources.
- 4.2 The Bradford South COVID-19 Recovery Action Plan 2020 – 21 will inform the budget-setting processes and service-planning throughout the Authority.
- 4.3 The Bradford South COVID-19 Recovery Action Plan 2020 – 21 will be forwarded to other key service-providers such as the Police and Clinical Commissioning Groups and community organisations to request that the Plan be used to inform their own priority-setting processes.

#### **5. RISK MANAGEMENT AND GOVERNANCE ISSUES**

Covid has occurred at a time of increasing concern about the environmental impact at a global level. Wherever possible the concerns related to the environment will be incorporated.

##### **7.3 GREENHOUSE GAS EMISSIONS IMPACTS**

Actions to assist in identifying the greenhouse gas impacts of actions to address priorities within the Bradford South COVID-19 Recovery Action Plan 2020 – 21 will be undertaken. These will include a consideration of for example energy efficiency

opportunities in purchasing new equipment or refurbishing or modifying buildings.
