### Licensing Act 2003

**Application for Variation to extend opening hours to 09:00hrs until 03:00hrs**  
**Re: Harveys 41a Smiddles Lane Bradford BD5 9NS**

I wish to object to the proposed variation of the hours of use of the shop in order to extend use until 03.00 hrs.

The shop is closely surrounded by residential premises, with adjoining residential property. The current hours of use are until 23.00 hrs and any extension into the night time is likely to generate noise nuisance complaints to this Service from the coming and going of customers using the shop at such a late hour.

Noises such as slamming car doors, car engines, music in cars, customer's voices are all noises that are more noticeable in the night time and are also difficult to control using our Legislation.

I would recommend that this application for variation to the hours of use is refused in the interests of protecting amenity of local residents living next to the shop premises

Regards

Charlotte Caygill  
Environmental Health Officer
