

Sir / Madam

In relation to the proposed Residents Only Parking on Wrose View, Wrose, Shipley I would like to request that the scheme includes the properties located on Wrose Road, leading to Wrose View. Our properties are set above the road level therefore do not have driveways or garages on our properties to utilise for parking. There are currently only three parking spaces located in front of our homes (usually used by the occupants of numbers 8, 10 and 12 Wrose Road however these spaces are not specified as use only by residents). This limited parking, and the existing parking restrictions on Wrose Road, causes occupants of the addresses to utilise the roadside parking of Wrose View. This has been the case for many years and until the Nursery connected to Low Ash Primary opened a new entrance at the top of Wrose View, this parking arrangement has been working very well without incident. The properties on Wrose View all have driveways at the front of their properties and very few of the residents of Wrose View actually park on the roadside, therefore including our properties in the permit scheme would not have any detrimental affect on those residents.

I would also like to bring to your attention that recently a 20m high telephone mast was approved for installation on the opposite side of the road at the top of Carr Lane and infact was erected a number of weeks ago without any consultation or our prior knowledge. This lies in the middle of the amazing view that was part of the reason we bought our house. I strongly believe that this will affect us should we ever sell our property, however if our ability to park is also removed I believe that our homes would drop drastically in saleability and value.

From a personal perspective I would feel absolutely let down by Bradford Council if our homes were not included in the Residents Only Parking scheme. I understand why this scheme has been proposed, traffic is heavier on that road at school drop off and pick up times, however at all other times there is no issue and I do not feel that our homes should be negatively affected and penalised again by Bradford Council.

Kind regards

Dear sir/madam

In response to the above reference. I live at [REDACTED]. I front onto Carr Lane with it's junction at Wrose Road and Gaisby lane. There is a bus stop outside my house. I cannot park outside my house and for over 37 years I have parked in the short stretch of Wrose View off Gaisby Lane. I am 67 years of age and my wife is 68.

The people living in Wrose view and adjoining the short stretch I park on, all have a drive, with one exception.

We objected some time ago to the school gate, which I believe us the reason for this 'permit parking move' as we knew parents would cause problems in the area dropping and picking up children.

If your plan goes ahead, where am I going to park? Snowden Road is the nearest place to park, but this is an area with anti social background, and a long way to carry heavy shopping bags.

I respectfully request the proposed permit parking move is withdrawn OR, at least provide the occupants of numbers 4, 6, 8 & 10 Wrose Road with parking permits.

I look forward to your reply.

Kind regards

Sir/Madam

I am sending this e-mail, as I wish to object to the proposed parking permits for WROSE VIEW, WROSE, WEST YORKSHIRE.

I live on [REDACTED], and we have a parking bay outside of our property. However, we are a two car family and have two small children. If the permit system went ahead this would cause issues with the already extremely limited parking on WROSE ROAD at the top of CARR LANE (currently 3 parking spots to accommodate 10 houses). Some properties do have access to garages at the rear of WROSE VIEW however we do not.

If a permit system is put in place on WROSE VIEW, this will have a massive impact on our family life and may put our children at risk if we are unable to park on WROSE VIEW, as this would mean we would have to park on SNOWDON ROAD, and cross WROSE ROAD with two children and in some cases cross it with two children and shopping. WROSE ROAD is an extremely busy road which is the site of regular traffic collisions (we have witnessed 4 such collisions at the junction of WROSE ROAD, CARR LANE and GAISBY LANE this year alone.

I would also like to point out that there are very few properties on the approach to WROSE VIEW (currently used by residents of WROSE ROAD) and all of these properties have driveways and garages, unlike our properties which are set above road level therefore do not offer parking options.

We would ask that should the permit scheme be introduced (which we actually think is a good idea to prevent the issues of school parking and increased traffic at school times) that the residents of the properties on WROSE ROAD leading to WROSE VIEW who would be affected are provided with a permit also.

Kind Regards

I [REDACTED]

Of [REDACTED] Shipley Object to the above parking restrictions proposed for wrose view
shiplely

On the grounds of lack of parking for more than one car outside my home on wrose road and
no other parking available on this already busy main road ,

Also the houses on wrose view all have there own drives and garages .

and the school at the top of wrose veiw has its own car park ,

yours

[REDACTED]
