Overview & Scrutiny Area

1. Background

- 1.1 Managers of public service pension schemes are legally required to provide 'registrable information' to TPR, and to keep this information up to date. This information includes the scheme name, address and scheme type, membership data, and name and addresses of employers. TPR are required to capture this information in a register and it also uses it to inform the Pensions Tracing Service, which helps people find lost pensions.
- 1.2 In addition to registrable information, TPR collect additional information each year via the scheme return to build an accurate picture of the landscape, so it can regulate effectively and provide relevant educational materials. TPR also use this information to make sure it can contact the relevant people running the schemes.
