#### 1. SUMMARY

1.1 This report seeks to update members on current casualty levels and trends in the Bradford District and on the Road Safety Education, Training and Publicity initiatives taking place across the Bradford Metropolitan District aimed at preventing casualties.

#### 2. BACKGROUND

- 2.1 A report on proposals for the devolution of Road Safety funding was considered by the Area Committees in 2012. Members resolved to support an evidence based approach to determine Road Safety priorities. It was also resolved to present an annual 'State of the Nation' style report detailing casualty numbers/trends and details of ongoing and proposed road safety education, training and publicity initiatives to the Area Committees.
- 2.2 The West Yorkshire Transport Strategy 2040 includes a specific aim to reduce road accidents, aspiring to 'zero tolerance' of transport-related deaths. Adoption of 'Vision Zero' has been accepted by the West Yorkshire Safer Roads Executive and the newly established Vision Zero Board (political governance) and we are in the process of developing the reality of this vision for the districts. There are also aspirations to encourage walking and cycling by improving safety. Milestones and targets are currently being considered at a West Yorkshire level.
- 2.3 A 'Road Casualties' report is published annually. Based on Police Road Traffic Collision records the report identifies casualty reduction priorities for the District. This report takes into account the most recent full year data available, i.e. currently 2021, and trends in comparison to preceding years.
- 2.4 In 2021, there was an overall increase in casualties in the Bradford District, up from 937 in 2020, to 1,457 in 2021. It should however, be noted there were unusually few road traffic collisions in 2020 due to the impact of the COVID-19 pandemic on travel. A more robust comparator is the average number of casualties over the 5year period 2015-19. The average number of casualties per year in this period was 1,414, with the 2021 casualty total representing a 3% increase on this. When taking different road user groups into consideration, comparing 2021 with the average for 2015-2019, child casualties increased from 188 to 207, pedestrian casualties increased from 268-291 and car occupant casualties increased from 903 to 942. Pedal cycle casualties reduced from 102 to 85 and powered two wheeler casualties reduced from 80 to 63. Appendix 2 shows Road Traffic Casualty graphs and charts for the Bradford district. Appendix 3 shows Road Traffic Casualty graphs and charts for the Keighley Constituency Area.
- 2.5 Casualty analysis also shows that when the number of children killed or seriously injured (KSI) on the highway in 2021 is calculated as a rate per 100,000 of child population, Bradford experienced the highest rate of child KSIs in West Yorkshire:

Bradford: 39.6 KSIs per 100,000 children Calderdale: 26.1 KSIs per 100,000 children Kirklees: 24 KSIs per 100,000 children Leeds: 33 KSIs per 100,000 children

- 2.6 There is an IDA between Public Health and Place to partially fund the Road Safety Team activity. This is because there is crossover between the Public Health outcomes (people killed and seriously injured, hospital admissions and infant mortality) and our own corporate priorities.
- 2.7 The Road Safety Team operates on a district-wide basis. Child casualty data is cross referenced against population data to identify 'priority areas' for the delivery of education and training with staff and financial resource allocated accordingly. The team also work with Area Teams, Ward Officers and other partners and stakeholders such as Youth Services, Wardens, WY Fire and Rescue and West Yorkshire Police as well as supporting other active travel and health improvement projects such as the JU:MP programme and walking and cycling initiatives promoted by organisations such as Living Streets and Sustrans. The Road Safety Team also regularly deliver road safety sessions to pupils from local Primary schools who attend multi agency Stay Safe Sessions at Keighley College and the team are also working with Keighley Town Council to support their local anti-speeding/ slow down campaign. The Road Safety Team are also part of the West Yorkshire Safe Roads Partnership, the Bradford Safe Roads Partnership and the Steerside Partnership. Appendix 1 shows the West Yorkshire Safe Roads Partnership structure.
- 2.8 Car occupants continue to account for the highest number of casualties in the district the majority of collisions resulting in serious or fatal injuries involve a motorised vehicle. West Yorkshire Collision analysists are currently investigating with a view to Delivering road safety messages to drivers and providing more detailed data. passengers is therefore critical in supporting our aims of achieving Vision Zero / eliminating death and serious injury on the roads. The team work with Communications & Marketing colleagues to deliver a communications programme which comprises of targeted messaging on social media, a digital district newsletter, radio and outdoor advertising. Messages focus primarily on the four contributory factors most likely to result in fatal or high severity injuries – speed, impairment (drink and drugs), distraction (mobile phones) and not wearing seat belts. Messages also support safety for more vulnerable road users by reminding motorists to drive considerately and look out for others. This communications and publicity work also supports wider aims and ambitions to encourage people to switch to more active and sustainable modes of travel and supports the delivery of road safety engineering and infrastructure implementation across the district. Recently the team have also supported two national awareness raising campaigns - one around the update of the Highway code; which introduced a new hierarchy of road users and new rules to improve safety for vulnerable road users; and the other around changes to legislation on the use of mobile phones whilst driving. As well as delivering a local programme of communications and publicity, the team are also part of the West Yorkshire Safe Roads Delivery Group. Work delivered through this partnership adds weight and value to work undertaken at a local district level.
- 2.9 Going forward, the team will continue to address road safety issues identified in the annual 'Road Casualties' reports and look for new and innovative ways of delivering road safety education, training and publicity to improve safety for users across our network. The work of the team will also support wider council objectives aimed at reducing health inequalities, encouraging active and sustainable travel and around air quality, pollution and climate change. As Vision Zero comes online we will be

working towards a more pro-active programme of Safe Roads delivery.

#### 3. OTHER CONSIDERATIONS

#### **Engagement with Schools**

- 3.1 All schools across the district are offered the opportunity of road safety education. In wards where child casualties are high, an extra level of encouragement is offered to persuade schools to take up the training offer. Ordinarily, the team provides a three tier district wide service. The first tier is where schools in wards with the highest child casualty rates are targeted with face to face delivery of education and training by the Road Safety Team. The second tier is the delivery of presentations to schools in the remaining 22 wards. These are booked on a first come first served basis and on a 2year rotation. The third tier is the provision of resources and information for all schools which does not need a road safety officer to deliver. Appendix 4 provides an overview of the road safety services & resources on offer. Appendix 5 shows delivery of practical training and education for schools in wards in Keighley Area for the academic year September 2021 to July 2022. Appendix 6 shows ward rankings for next academic year (September 2022- August 2023). Casualty data for 2019-2021, cross referenced with population data, has been used to identify these priority wards.
- 3.2 Legacy issues arising from The COVID-19 pandemic continued to impact the delivery of road safety education and training during this school year. With so many children and young people missing out on vital messages during lockdowns and associated school closures, an adapted service was provided to ensure the team could reach as many pupils as possible. For example, pedestrian training, ordinarily delivered over two visits, was provided as a lighter touch 'one visit' session, with supplementary resources left to enable to school to deliver follow up training themselves. For the academic year 22/23 the team plan to move back to provision of the more usual model of delivery three tier district wide service with Pedestrian training delivered over two sessions and the two-year rotation for schools in Wards 9-30 being reintroduced.

#### Safer Roads schemes

- 3.3 The Traffic & Highways Area Teams deliver a programme of Safer Roads engineering measures such as traffic calming, pedestrian and cycle facilities, speed limit reductions and parking management. These schemes are central Government funded with the Combined Authority as project managers for West Yorkshire. Schemes are evidence-based to ensure the best rate of return in terms of casualty reduction. The Safer Roads schemes programmes are the subject of separate reports to the Area Committees. Vision Zero will play a significant role in the shaping of these programmes in the future.
- 3.4 The Council has a devolved Highways budget to deal with larger scale safety priorities that are beyond the scope of an individual Area Committee. As such, programmes around School 20mph zones, city/town centre 20pmh zones and school streets have been delivered and will continue to feature on future strategic programmes.

#### 4. FINANCIAL & RESOURCE APPRAISAL

4.1 There is a Service Level Agreement with Public Health to provide grant funding for education, training and publicity staffing (£125,0000). Financial support from a devolved Integrated Transport Block fund to the Council's Executive is in place for the 22/23 Financial year (£50,000).

#### 5. RISK MANAGEMENT AND GOVERNANCE ISSUES

5.1 Budget spend on Road Safety is currently prioritised against overall district casualty prevention & road safety priorities which are, in turn, determined by analysis of statistical data relating to road casualties. This analysis, underpinned by the District Road Safety Plan priorities, is used to establish key themes and target groups / cohorts (the district's Road Safety Plan is undergoing a refresh this financial year). It is anticipated that a failure to maintain this approach would have a detrimental effect on future casualty prevention and ambitions to remove barriers to more active and sustainable travel.

#### 6. LEGAL APPRAISAL

6.1 The ongoing activities of the Road Safety team contribute to the Council's duties under the Road Traffic Act 1988.

#### 7. OTHER IMPLICATIONS

#### 7.1 EQUALITY & DIVERSITY

Casualty data is used to identify priority areas, target groups or to identify key road safety messages. Our targeted approach is designed to re address the imbalance of casualties in the more deprived parts of the district. A child in the most deprived part of the district is 20 times more likely to be killed or seriously injured than the more affluent counterparts.

#### 7.2 SUSTAINABILITY IMPLICATIONS

The provision of road safety education, training and publicity supports a shift to more sustainable and active transport modes.

#### 7.3 GREENHOUSE GAS EMISSIONS IMPACTS

Any increases in walking, cycling or public transport use encouraged by the delivery of road safety education, training and publicity would have a positive impact on reducing Greenhouse Gas emissions and improving air quality.

#### 7.4 COMMUNITY SAFETY IMPLICATIONS

The work of the Road Safety team contributes towards improving community safety in the following areas:

• Drivers and passengers – speed, seatbelt wearing, mobile phone use

- Tackling anti-social driving behaviour which often acts as a barrier to more active and sustainable travel and reduces community cohesion
- Pedestrian & cycle safety
- Vulnerable road users: children, pedestrians, cyclists and motorcyclists
- Safety around school & School Gate Parking issues
- Removing barriers to more active and sustainable travel

Our links with partner agencies, such as WY Police, are very strong in Bradford. We jointly work on programmes such as Operation Steerside and regularly link in with partner agency programmes to add value.

# 7.8 AREA COMMITTEE ACTION PLAN IMPLICATIONS (for reports to Area Committees only)

Road Safety Team activities contribute to the Safer Communities priorities within the Area Committee Ward Plans. This is done through the delivery of education, training, publicity programmes aimed at preventing casualties, tackling anti-social road user behaviour and ultimately eliminating deaths and serious injuries on the roads in line with Vision Zero aspirations. Collaborative work with other agencies as part of the Safe Roads & Steerside partnerships also contribute to the Safer Communities priorities. Through encouraging more active travel and less car reliance, the work of the team also contributes towards tackling health inequalities and encouraging healthier and more active lifestyles.
