

Bradford District Plan

2016 - 2020

Consultation Draft

December 2015

This draft has been created using content pulled from existing sources, and is based on some early conversations with partners involved in each of the New Deal outcome areas.

There are some gaps in content – in particular there is a need for more input on delivery actions across the five outcomes.

As a draft, all content is open for comment and amendment.

Questions to guide feedback on draft:

- Does the District Plan represent the areas of work you know about? Does the content feel familiar and can you buy into it?
- Is there a good balance to show that is about everybody delivering and contributing? What actions that will most make a difference need to be included?
- Are there any good case studies we could include that show what we can achieve? We want to highlight the breadth of activity across the district
- Are the measures of success the right ones for a public audience?
- Do you think the document will work for the range of audiences across the District including residents, businesses, communities, public sector, City Region and Government?
- Does the plan need to more explicit about what we are offering and expecting from Government and City Region – what are the key offers/asks in the areas you work in?
- Taking into account that a final version would be glossier, with photos, images etc in – does the general look/feel to the layout work? Are the sections in the right order, should there be more or less up front before getting to the New Deal outcomes? Does the text make sense, is the language correct for the audience, is it clear and in Plain English?

We want to make Bradford a better district – a place where all our children have a great start in life, businesses are supported to create more and better jobs, people live longer and healthier lives and all our neighbourhoods are good places to live.

Good schools and a great start for all our children

Securing a successful future for all of us depends on securing a successful future for the young people of the district. We want all of our children and young people to achieve their ambitions and help make Bradford District a great place to live and work.

Talking Head: Head teacher

“Our children and young people are our greatest asset. They have high ambitions – and we have high ambitions for them.”

Bradford Today

Bradford District has a young population and our. With 29% of the population aged under the age of 20, Bradford is the youngest city in the UK.

(Key stats and description infographic)

- 124,650 children aged 0-15, 23% of population
- (Number of) schools
- HE/FE facts and figures
- Educational attainment figures
- 42,000 children living in poverty

A Better Bradford

In the past, improvement in education hasn't gone far enough, fast enough. Things have to change. Urgent and sustained action is needed to drive up educational results. We want all our schools to be good by 2018. We want to reduce the deprivation and inequality that affect too many of our children and young people.

Working alongside parents, children and businesses, we have five priority areas for action:

- Ensuring that our children start school ready to learn
- Accelerating educational attainment and achievement
- Ensuring our young people are ready for life and work
- Safeguarding vulnerable children and young people
- Reducing health and social inequalities – including tackling child poverty, reducing childhood obesity and improving children's oral health

District Measures of Success

- Every School a good school – classed as good by OFSTED
- Every child given the opportunity to achieve – educational attainment as KS2/3
- Child poverty

Delivery

Together we can:

- Continue to build childcare and early education places
- Keep investing in and commissioning school improvement
- Invest in attracting, developing and keeping the best school leaders, teachers and classroom assistants.
- Provide real opportunities for skills development and jobs when young people leave school, working closely with the business community, the University and colleges.

Parents can:

- Get your child a nursery place
- Get involved in your children's education, encouraging and celebrating their learning.
- Make learning fun at home – read, count and play every day with your young children.
- Make sure your child attends school, is there on time and isn't absent without the school's agreement.
- Support your child to get involved in out of school activity.

Children and young people can:

- Make the most of opportunities for learning at home and outside school.
- Value education and take responsibility for your own education, ask questions, build your skills, discover your talents – it's your life, your future, and your choice.

Schools can:

- Work in partnership, recognising that all types of school are part of a wider education system and need to share solutions to raise attainment.
- Share resources and expertise to invest in teaching, learning and facilities.
- Take action to deal with performance, governance, attendance and ...
- Support students to identify future careers opportunities.

Businesses and others can:

- Provide meaningful work placements to your local schools and be an active partner in educating young people about potential careers.
- Provide apprenticeships for local young people.
- Encourage your employees to volunteer for the reading in schools project and to offer mentoring for young people at school
- Encourage your staff to become school governors.
- Supporting and getting involved with an Industrial Centre of Excellence or Bradford Pathways

Partners

• Children's Services • Adult Social Care • NHS providers • Fire and Rescue Service • School governors • Regeneration and Housing • Voluntary and community sector • Culture, Sports and Leisure • Schools - primary, secondary (inc academies) and special schools • Young Lives Bradford • Children's centres • University of Bradford • Safeguarding Children Board • West Yorkshire Police • Council for Mosques • NHS Foundation Trusts • Better Start • Community Rehabilitation Co Ltd

Case Studies

Science Week Bradford University engagement with schools –

Industrial Centres of Excellence

Industrial Centres of Excellence (ICE) are an innovative way in which the Bradford District is providing education for young people aged 14-19

ICE are about working together. They involve businesses and education providers working together to develop the curriculum young people are taught, and the environment in which they are taught. This helps to ensure that the skills young people develop match those that employers need

ICEs allow employers and training providers to exchange knowledge and innovation that contributes to the district's economic competitiveness

Bradford Pathways

Bradford Pathways is about developing a new educational model that meets the challenge of delivering employment focussed skills, careers and technical education. Bradford Pathways is an innovative way of delivering skills and knowledge for young people so they can gain employment now and in the future.

Better Start Bradford

Barkerend Dads Reading Scheme

Better skills, more good jobs and a growing economy

Bradford is one of the biggest and fastest growing economies in the UK and is a key part of the Leeds City Region. Business success is essential to the future economic and social wellbeing of the city and district. Business success will generate the wealth and the jobs needed to enable people in Bradford District to enjoy a better standard of living and will help create a city to be proud of.

Bradford Today

The modern reality of Bradford - The Producer City is demonstrated by the scale and breadth of an £8.7 billion economy that is the 11th largest in the UK and the 8th largest in England. We are a centre for manufacturing with advanced engineering, chemicals, printing and digital industries prominent. We have real strengths in other key sectors such as finance, professional services, retail, construction and the creative industries. Bradford is home to major companies operating globally and a large number of major UK businesses have their headquarters here including Morrisons, Yorkshire Building Society, Pace, Yorkshire Water and Hallmark Cards.

Key stats and description - Graphic

- 17,000 businesses employing 195,000 people in Bradford District.
- 24,600 jobs in manufacturing, the 3rd highest number of any city or district in the UK.
- A powerful culture of entrepreneurship. 32,000 people in the district are self-employed.
- 46,000 people commute between Bradford and Leeds each day, the largest flow between any two cities in the UK.
- There are 44,400 working age people with no qualifications
- 31% of households in Bradford have gross income less than £15K

A Better Bradford

We need to make sure the economy keeps growing. We have one of the UK's youngest populations and the numbers of people of working age are expected to grow by another 24,000 by 2024. Those people need to be able to get good local jobs. The district needs 15,000 new jobs to match national rates of employment by 2019 alone.

This means:

- **Creating the conditions for business** – to make Bradford the best place to set up, grow and run a business.
- **Making innovation and skills central to our economy** – putting innovation, knowledge creation and higher skills at the centre of creating a strong economy
- **Trading on our culture of enterprise** – building on our strengths and assets to compete in the global economy

District Measures of Success

- Skill levels
- Number of jobs
- Employment rate
- Value of local economy

Delivery

Together we can

- Continue to regenerate our City Centre
- Implement masterplans for the two city centre rail stations and support development plans for the Keighley and Shipley stations
- Increase provision and access to super/ultra fast broadband,
- Bring forward strategic employment sites to attract new and growing businesses
- Develop an employer led education and skills system to match local people to jobs
- Strengthen links between universities and industry to support innovation, knowledge transfer and technology development
- Strengthen the capability of Bradford companies to trade in overseas markets
- Maximise the impact of public and private procurement to support business and jobs growth
- Target and attract high-value inward investment that plays to our industrial and innovation strengths
- Support small and medium sized enterprises with growth potential, targeting companies in our priority sectors
- Increase the level and quality of new business start ups
- Work with the Leeds City Region to articulate the Bradford offer to unlock our investment and growth potential

Residents can:

- Skill yourself up – go on a course at work or in your spare time to keep your skills up to speed
- Find out about opportunities to participate in local apprenticeship schemes
- Keep your city, town and local shopping centres clean and free from litter
- Shop local and realise the power of the pound in your pocket
- Big up Bradford and be a local tourist

Businesses can:

Talking Head: Brian Cantor, University of Bradford.

“With a tremendous history and culture of enterprise and innovation, manufacturing excellence and economic success, we all share a responsibility to start making great things happen in this part of the world. We have an exciting future. Let’s get going.”

Case Studies

Case Study: Apprenticeship Hub exists to help people find the right apprenticeship provider and to support businesses in setting up apprenticeships.

Apprenticeships

- Supporting apprenticeships is a key development priority for the district's business and public sector partners
- Apprenticeships enable businesses to develop the talent they need to be successful
- We want the district's businesses to employ even more apprentices so that we can support business growth and the long-term prosperity of Bradford
- Apprenticeships aren't just for young people, more and more older workers are using them as a way to re-train

Get Bradford Working

- Get [Bradford Working](#), Bradford's award winning employment and skills programme includes the Employment Opportunity Fund which has helped over 1,500 disadvantaged people into training and more than 1,600 into work

Skills House

- [SkillsHouse](#) is a unique local partnership based in Bradford city centre that is designed to boost retail, hospitality and visitor economy businesses and help people to find jobs. Broadway Bradford employers have recruited from these people ensuring that the benefits of the new development are felt across the district.

Keighley Business Improvement District

- Businesses in Keighley Town Centre have voted to create a Business Improvement District which will put them in driving seat to improve the town centre.
- **The Broadway Centre**
- **City Centre Growth Zone**
- **Curry Capital**
- **Digital Health Enterprise Zone**

Better Health and Better Lives

A district where people enjoy long and healthy lives and are supported to make healthy choices and can access the health and social care services they need.

Bradford Today

There are a lot more of us living in the Bradford District these days. By 2020 there'll be another 20,000 of us, including 4,000 more children and young people under 16.

The biggest and fastest increase will be among people aged over 65 – another 9,000 than there are now.

Key stats and description - Graphic

One in ten people provide some degree of unpaid care and 12,400 older people need assistance in maintained daily living.

By 2020:

- The numbers of people over 65 who have dementia will increase by 750 or 14%
- The numbers of people aged over 85 will increase by 2,000 or nearly 20%
- The numbers of adults with a disability or mental health issue will increase
 - nearly 3,000 more people with a physical disability
 - a rise of 3% in the number of adults with a learning disability
 - over 3,000 more people with mental health problems
- The numbers of people with severe disabilities are also predicted to rise

A Better Bradford

It's great that people are leading healthier lives and living longer and we want everyone to be able to enjoy good health and a good quality of life whatever age they are. People will be supported by different organisations, their families, neighbours or their communities to retain their independence.

Our priorities for action are:

- Improving the mental health of people in Bradford
- Improving the health and wellbeing for people with physical disabilities, learning disabilities, sensory needs and long term conditions
- Improve diagnosis, care and support for people with dementia
- Promote the independence and wellbeing of older people
- Reducing harm from preventable diseases caused by tobacco, obesity, alcohol and substance abuse
- Reducing mortality from cardiovascular disease, respiratory disease, diabetes and cancer
- Supporting independence and preventing homelessness

District Measures of Success

- Life expectancy
- Infant mortality
- Out of work benefits
- People supported to remain independent

Delivery

Together we can:

- Make positive lifestyle choices and changes
- Stay fit by taking advantage of the wide range of sport and leisure activities in the district
- Ensure health and care services work much more closely together as part of the same system, supporting people to remain independent and avoid hospital and nursing care
- Target resources where they make the most difference and at people with the most complex needs
- Ensure our workplaces are safe and support employees health and wellbeing

Case Study

Connect to Support is a marketplace to buy your own support whether this is equipment to assist you, looking for assistance in your home or even a directory of care homes should you or someone you know require this. It also has a directory of voluntary support groups and services including social clubs within the district.

Case Study

Born in Bradford is a long term study of 13,500 children, born at Bradford Royal Infirmary between March 2007 and December 2010, whose health is being tracked from pregnancy through childhood and into adult life. The information collected is being used to find the causes of common childhood illnesses and to better understand how our genes, living environment, lifestyles and services we access come together to affect our health and well-being.

Talking Head: Professor John Wright, Director, Born in Bradford programme

“Born in Bradford has the potential to promote real change at a local level and also make major contributions to global knowledge: our children may be born in Bradford, but they will change the world.”

Safe, clean and active communities

To foster safe, self-reliant and resilient communities in neighbourhoods that people are proud of and are happy to live in.

Bradford Today

Right across the Bradford District people are working with pride and passion to make it a safer and cleaner place. Mirroring national trends, crime rates have reduced significantly over the past 10 years, but 23% of residents still have high negative perceptions of anti-social behaviour. Littering is a problem on many streets and recycling rates need to increase to overcome the increasing costs associated with household waste.

Key stats and description - Graphic

It's estimated that there are over 100,000 active citizens in the Bradford District (around 20% of the total population) and that volunteers contribute over £17 million to the local economy.

XX VCS organisations

% of local people who are happy with where they live

Recycling rates

A Better Bradford

All across the district people are active in the communities, contributing their time, energy and skills to help make them better places to live.

Looking after the environment, helping to keep the places we live and work in clean and safe, reducing waste and getting involved in the community are the right things to do.

Working alongside residents, businesses and our partner organisations our priorities are:

- Minimising waste –through increasing recycling and reducing the costs of waste disposal
- Improving Community safety – tackling domestic violence, human trafficking and exploitation, anti-social behaviour and burglary
- Promoting stronger, active communities and better community relations
- A thriving cultural offer

District Measures of Success

- Crime rates
- Level of street litter
- Living harmoniously together

Delivery

Together we can:

- Work closely with partner agencies to reduce crime and make our communities safer.
- Support the work of the police both at a neighbourhood level and in specialist departments.
- Reduce waste and increase levels of recycling

Residents can:

- Help out as a Neighbourhood Watch Co-ordinator. The Online Watch Link allows residents to receive updates on crime in their area and provides details of your nearest Neighbourhood Watch scheme.
- Become a Special Constable West Yorkshire Police are actively recruiting volunteers to be Special Constables working on the frontline of policing.

- Sign up to be a Street Angel supporting the Police to help people to stay safe and enjoy their night out in the city centre.
- Get involved in more organised activity in your area such as litter picks or working with public services to look out for people with dementia or disabilities
- Take up a formal volunteering role, raise funds to support local activities and encourage young people to become active.

Case Study

'Fats to fuel' recycling project

A 'fats to fuel' recycling project in Bradford plans to expand across parts of the city to harness the bio fuel potential of waste cooking oil, whilst also protecting local sewers. The scheme involves asking local residents in the area to collect their waste cooking oil in tubs, known as 'fat vats', rather than typically pouring the greasy oils such as ghee down the kitchen sink.

Thanks to the scheme, there has been an almost total elimination of sewer blockages in the area too. The scheme began in March 2014 and could gradually expand up to 6,000 homes. In 2013, Yorkshire Water invested £2.3m on the sewer system in Bradford Moor including work on sewer blockages. But through this initiative, the firm hopes to reduce this spend to help keep customers bills as low as possible.

Case Study

Litter

The Council spends £4.2 million a year cleaning the streets, picking up litter, clearing fly tips and dealing with dog fouling. Responsible businesses play their part in keeping their area clean because it's good for business too. In particular, takeaways, pubs and bars need to be responsible for the areas outside their premises. **Green dog walkers** are working together to keep the district clear of fouling.

- In parts of the district like Addingham, Wrose, Allerton, Denholme and Idle local people are running their **community libraries**.
- Right across the district **Friends of Parks** groups are helping to manage and improve parks, bring communities together, reduce anti-social behaviour and access funding for improvements and events.

Decent Homes that people can afford to live

Everyone in Bradford District should have a place to call home which is right for their needs and is a place in which they can thrive

Bradford Today

Our population is growing rapidly, increasing the need for homes. Current forecasts predict that the district's population will grow at 8.5% over the next ten years placing significant pressures on the housing stock.

Around 2,200 new additional homes are needed each year, to meet the projected growth in households. The scale of this challenge can be demonstrated by the fact that we have seen only around 700 net additions to the housing stock in each of the last two years.

Symptoms of insufficient housing supply are evident across the district: overcrowding has increased to nearly 10% of households, and homelessness is also increasing.

Key stats and description - Graphic

Bradford has around 210,000 homes across the district.

Just under 70% of households are owner-occupiers.

Bradford has a low proportion of social housing – around 15%.

Over the last ten years the number of households renting from a private landlord has increased significantly, to 18%.

Average House prices range from xx,000 in cheapest ward to xxx,000 in most expansive ward

A Better Bradford

In order to both retain and attract residents and investment into the district, we need to provide a range of housing including affordable homes as well as higher value housing to attract and retain higher skilled workers. We want to support the development of high quality new homes in neighbourhoods where people want to live.

Increasing the rate of house building will stimulate both the construction sector and its supply chain across the district, and have a positive impact on many other sectors and services as people move into and furnish new homes.

Most housing growth delivery needs to come from private sector development. A big contribution to meeting housing demand can come from making best use of existing stock. We therefore need to tackle both under-occupation and empty homes. Our priorities are:

- More homes
- Safe and healthy homes
- Affordable homes

District Measures of Success

- An increase in net additional homes provided
- A reduction in the number of long-term empty homes
- An increase in the number of private sector homes where housing conditions have been improved through intervention measures
- An increase in the number of new affordable homes delivered

Delivery

Together we can:

- Support the development of more homes of the right type in the right location
- Deliver housing growth in the following priority areas:
 - **Canal Road Corridor** – A joint venture company has been established, with the responsibility of delivering a long-term programme of investment, including up to 1,200 of the potential new homes.
 - **Holme Wood and Tong** – a neighbourhood development plan has been agreed with the potential to deliver up to 2,700 new homes over the long term.
 - **Bradford City Centre** – The new City Plan outlines the potential to deliver around 3,500 new homes.
- Make best use of existing stock
- Support access to and development of high quality private rented sector
- Tackle obsolete and low demand housing and neighbourhoods
- Help to make homes in Bradford more energy efficient
