#### 1. SUMMARY

This report and appendices provide interim feedback from the Council's Trade Unions on the Council's budget proposals for the 2016-17 and 2017-18 Council budget for consideration by Executive.

#### 2. BACKGROUND

- 2.1 On 24 November 2014 the Council issued a letter under Section 188 Trade Union and Labour Relations (Consolidation) Act 1992 ("TULRCA") notifying the Trade Unions about the potential impact on the workforce because of the need to achieve additional savings in the financial year 2015-16 from those approved by Budget Council in February 2014. This potential impact also included staffing reduction proposals for 2016-17 where they related to a 2015-16 staffing reduction proposal. This commenced a period of consultation under TULRCA. Consultation on some of these proposals is ongoing.
- 2.2 On 23 November 2015 the Council issued a further letter under the Section 188 TULRCA notifying the Trade unions about the potential impact on the workforce in 2016-17 and 2017-18 because of the need to achieve additional savings in those years. The issuing of the Section 188 letter on 23 November 2015 commenced a statutory minimum 45 day consultation period with the Council's Trade Unions which includes consultation about ways of avoiding dismissals, reducing the numbers of employees to be dismissed and mitigating the consequences of the dismissals. This includes considering feedback received from the Trade Unions and any alternative proposals they may have to try and minimise the impact of the proposed budget reductions on the workforce. Consultation with the Trade Unions will continue beyond the minimum 45 day period where necessary particularly focusing on the impact of any proposed budget reductions on the workforce with a view to seeking ways to avoid and/or reduce the potential number of job losses and minimise any adverse impact in terms of job losses.
- 2.3 Consultation has been taking place with the relevant Trade Unions since 23 November 2015 on the proposals, in order for final proposals to be prepared for Budget Council on 25 February 2016.
- 2.4 The Trade Unions were notified of the following key issues within the S188 letter on 23 November 2015:-
  - The Report of the Director of Finance to the meeting of the Executive on the 1 December 2015 provided the financial context for budget proposals for 2016-17 and 2017-18.
  - The Council estimates that the total number of employees within the Council that are
    potentially at risk of redundancy as a consequence of the proposals detailed in the
    letter dated 23 November 2015 is 335 Full Time Equivalents (FTE's) in 2016-17 and
    139 FTE's in 2017/18.
  - These proposed reductions of 335 Full Time Equivalents (FTE's) in 2016-17 and 139 FTE's in 2017/18 are in addition to those proposals currently subject to separate consultation processes under Section 188 TULRCA 1992 which commenced on 24 November 2014 relating to the proposed 167 FTE reductions for 2016-17.
  - That the Council will look at every aspect of its operation to make the savings. In relation to employees, if savings can be suggested which mean that there will be

fewer or no redundancies then the Council will carefully consider such possibilities.

 That the Council will continue to examine the current terms and conditions of employment to see if savings can be made there, but regrettably it does look likely that dismissals by reason of redundancy may have to be made. Where possible these will be considered on a voluntary basis.

#### 3. THE PROCESS

- **3.1** Following the issuing of the S188 letter on 23 November 2015 consultation has taken place with the Council's Trade Unions.
- 3.2 The following Trade Unions are being consulted on the Council's proposals through the S188 process: UNISON, GMB, UNITE, UCATT, NUT, NASUWT, ATL, NAHT, ASCL, ASPECT / PROSPECT / NAYCEO, AEP, VOICE, BECTU, COMMUNITY, RCN, RCM, BMA, Society of Radiographers and Society of Physiotherapists.
- **3.3** Consultation meetings have been held at a Corporate and Departmental level with Unison, GMB, UNITE and UCATT.
- 3.4 Consultation has also taken place with Teachers/ Education Trade Unions at Corporate and Departmental level. Other Trade Unions have been consulted on a Departmental basis where appropriate.
- 3.5 Trade Union consultation meetings on the potential workforce implications of the budget proposals have taken place at a corporate level on the following dates: 26 November, 10 December 2015 and 07 January 2016. A further Corporate Trade Union consultation meeting is scheduled to take place on 18 February 2016, prior to the Executive Meeting on 23 February 2016. Consultation will continue up to the Full Council meeting on 25 February 2016 and subsequently in relation to any impacts on the workforce following budget decisions being made.
- **3.6** Departmental Trade Union meetings have also taken place to discuss the proposals in more detail.
- 3.7 A weekly corporate overview meeting has also been held with the Regional Officers of the Trade Unions, Corporate Representatives and HR to look at "hotspot" areas and issues as they have arisen.
- 3.8 The feedback and the management responses given in this report are interim and consultation with the Trade Unions continues.

The Council is currently consulting with the Trade Unions on:

- The financial position of the Council.
- Possible strategies for making savings and the projected implications for workforce reductions if such strategies, following consultation, are implemented.
- Potential impact of proposed changes to certain local terms and conditions of employment.
- The continuation of strategies to minimise the impact of workforce reductions (voluntary expressions of interest, bumped redundancies, vacancy control, controlling agency spend and maximising non workforce savings etc).
- Potential reduction of services in some areas of the Council
- Potential opportunities for working in partnership and increasing income generation.

3.9 The Trade Unions have raised concerns regarding 'meaningful consultation' and the views of the Trade Unions are stated in Section 8.6 of this Report.

In response to the Trade Unions concerns a further corporate consultation meeting has taken place on 14 January 2016 to ensure all concerns were captured and responded to.

The main areas of concern for the Trade Unions are:

- Lack of information on detailed proposals for implementation specifically relating to 2017/18.
- Inadequate information from some Departments in relation to vacancies, number and post titles, agency workers (numbers) and what posts are been covered by agency workers.
- Equality Impact Assessments on the proposals that have workforce implications.
- Use of Agency, Consultants, Temporary Workers and Casuals and cessation of the use of these immediately.
- 3.10 All Strategic Directors were advised of the areas of concern for their Departments. HR have collated all the information and responses from the departments and these have been provided to the Trade Unions. The issues raised will be discussed at Level 2 meetings in departments and it is anticipated that this will address the trade unions' concerns about the gaps in the information provided. The Trade Unions' feedback, having received this additional information, will be incorporated in an addendum to the report on the day of the Executive meeting, in order that Executive can take it into account.

The Trade Unions have been advised to continue to raise issues and concerns should they continue directly with the Strategic Director of the Department and the Director of HR so that these can be addressed speedily.

#### **3.11** In terms of consultation:

- The size of cuts that the Council is facing, creates very considerable demands on the Council and its resources
- The Council is consulting and will continue to consult about ways of avoiding any dismissals, reducing the numbers of employees to be dismissed, and mitigating the consequences of the dismissals, and will be doing so with a view to reaching agreement.
- The Council serves the S188 letter at an early stage of a very lengthy and complex process, which undergoes a number of adjustments and changes as it goes forward through consultation and Executive approval
- The Council consults over a far longer period than the minimum required by S188.
- The Council values the contribution of the Trade Unions in this process of consultation.
- **3.12** At the Trade Union consultation meeting on 14 January 2016 the Council confirmed the following position with the Trade Unions:
  - Each year, we consult, widely, on budget proposals. This gives people a chance to have their say.
  - Some proposals are more developed than others, and the process of consulting on the detail continues through the further development and implementation stage.

This is particularly so for changes affecting staff, where well-established arrangements for discussing in detail structures, roles and assimilations, in line with agreed procedures exist

- This year the Executive will propose a 2 year financial plan to Council a firm 2016/17 budget, elements of a 2017/18 budget, but with some work still do before a firm 2017/18 budget (and an indicative 2018/19 budget) is finalised in February 2017. This is good practice in terms of financial planning, and allows TUs to participate as an effective partner in that longer term planning
- In previous years, we have made a firm differentiation between a phase of
  consultation up to the setting of the Council budget; and a subsequent phase of
  consultation at the implementation stage. This year, we have attempted to start
  earlier discussions where detail exists, in terms of the proposed thinking for
  implementation if the budget decision is agreed.
- The HR Director also confirmed at 14 January 2016 meeting that a recruitment freeze was to be commenced with immediate effect on all future external adverts. Any adverts that Strategic Directors wish to go through externally will be via a business case to the Chief Executive. If approved by the Chief Executive the Director of HR will notify the Trade Unions of any vacancies that will go to external advert.
- **3.13** Additional feedback received from the Trade Unions following this report being circulated will be tabled at Executive on the day of the meeting as an Addendum to the report.
- 3.14 The industrial relations implications will become clearer once detailed discussion about implementation of the decisions begins following any budget decision. Much will depend on the number of vacancies and voluntary redundancies agreed, together with the opportunities for redeployment which will all help to mitigate against the overall FTE reductions and the potential number of compulsory redundancies.

# 4. KEY ISSUES ARISING FROM THE TRADE UNION FEEDBACK ON THE COUNCIL'S BUDGET PROPOSALS FOR 2016-17 AND 2017-18

#### 4.1 Trade Unions Generic Comments

Generic comments made by the Trade Unions at corporate consultation are captured in Appendix 9.

#### 4.2 Feedback on the Departmental Budget Proposals

The Trade Unions' feedback received to date in relation to the Council's budget proposals for 2016-17 and 2017-18 together with management's responses to that feedback is outlined in the attached documents on a departmental basis (Appendices 1-8). Workforce implications on the budget proposals are shaded on each departmental appendix.

The feedback documents are lengthy due to the number of budget proposals being considered and to ensure all feedback received from the Trade Unions has been recorded and is considered.

#### 5. FINANCIAL & RESOURCE APPRAISAL

5.1 The Director of Finance's reports to the Executive meetings on 01 December 2015 and

09 February 2016 set out the background to the Council's financial position and the need for expenditure reductions.

#### 6. RISK MANAGEMENT AND GOVERNANCE ISSUES

6.1 All risks in relation to the budget proposals and workforce implications are being managed through the Council's Risk Management Strategy with governance through Council Management Team.

#### 7. LEGAL APPRAISAL

- 7.1 Pursuant to Section 188 Trade Union and Labour Relations (Consolidation) Act 1992 (TULRCA 1992) the Council as employer is required to consult the recognised Trade Unions where there is a potential to dismiss by reason of redundancy 20 or more employees. If 100 or more employees are at risk of dismissal by reason of redundancy the consultation period is a minimum of 45 days.
- 7.2 Under Section 195 TULRCA 1992 "dismissal as redundant" is defined as all dismissals "for a reason not related to the individual concerned". As a consequence the Council is also consulting the recognised Trade Unions pursuant to s188 in relation to proposals to change certain terms and conditions of employment.
- **7.3** Such consultation with the Trade Unions is continuing and includes consultation about ways of avoiding dismissals, reducing the numbers of employees to be dismissed and mitigating the consequences of the dismissals.

#### 8. OTHER IMPLICATIONS

#### 8.1 EQUALITY & DIVERSITY

A Corporate Staffing Equality Impact Assessment (EQIA) has been undertaken on the Council's Budget proposals, Appendix 10. Feedback from the Trade Unions on the Equality Impact Assessment is still to be received. Departmental EIA's, on proposals with all workforce implications have also been circulated to the Trade Unions and feedback will be received through departmental consultation meetings. All EQIA's will be subject to review as proposals are developed and amended as a consequence of continuing consultation.

The equality and diversity issues arising from the Council's budget proposals for 2016-17 and 2017-18 (excluding the Trade Unions feedback) will be the subject of a separate report to the Executive on 09 February 2016.

#### 8.6 TRADE UNION

Consultation with the Trade Unions on the Council's Budget proposals for 2016-17 and 2017-18 is ongoing.

At the time of writing this report the following comments have been received:

#### Statement from Unison and GMB

Both UNISON and the GMB union have grave concerns with the lack of detail received regarding proposals for cuts to services that has made it impossible to fully and properly consult or consider alternative models to protect services and our member's jobs. The problems are predominately in the larger departments such as Environment, Childrens, Regeneration and Adults.

It is vital that we receive information so Council employees our members, can have their concerns, comments, alternative structures./models etc properly taken into account. Many of the proposals do however cross over into other departments within the council which makes the overall picture much harder to gather, with a lack of information.

The Section 188 letter has been issued to inform the TU's that the expected number of proposed cuts in the budget could affect as many as 335FTE (full time equivalent) in the financial year 2016/17 and 139FTE in 2017/8. With the lack of detail forthcoming as to how savings will be achieved how can we be sure these proposals are correct?

The question has been put to Management as to why we are employing so many agency workers and consultants at what appears to be at a high cost to the authority when massive financial cuts and possible compulsory redundancies are being proposed. As yet no constructive answers have been given.

Whilst Bradford Council have advised they are trying to protect our front line services in order to protect the most vulnerable citizens in the city, It appears a lot of old deleted posts are now being recreated at high salaries whilst the process of strict vacancy control put in place by the previous CX appears to be being ignored. Previously before any advertisements were put out to external recruitment all internal options would be considered this appears to be no longer the case.

This process was primarily to help to redeploy employees our members with a view to Skills matching to reskilling the workforce where needed, we feel this is now no longer being applied.

A lot of job roles appear to be going out externally that should be kept in house so staff have the opportunity to be redeployed and avoid redundancies, this can only happen if we keep the vacancies in house in the first place.

<u>Trade Union consultation Process on Budget Proposals 2015/16</u> - The purpose of consultation is to examine ways of avoiding dismissals whilst looking at how to reduce the numbers affected and mitigate the consequences of **Compulsory redundancy dismissals** 

Consultation on the proposals must be meaningful and must be conducted with an open mind. A willingness to be persuaded and with a view to reaching an agreement on proposals whilst emphasising that this is a consultation process on proposals and that no decisions will be taken until the Full council meeting in February 2016.

Unfortunately information/ detail has not been provided to the TU's in sufficient detail to enables to have meaningful consultations. It is with deep regret we are reaching a staff side position collectively as TU's to advise the local authority that we are nearing the point of a dispute. Therefore we feel that meaningful consultation has not yet taken place. This needs to be given priority and will mean the council should not set their budget in February and extend the consultation period.

#### Statement on behalf of Unite the Union

Unite share the concerns of both Unison and the GMB surrounding the lack of detail received regarding proposals for cuts to services making it impossible to fully and properly consult or consider alternative models to protect services and our member's jobs in relation to both 2016/17 and 2017/18 proposals.

It is vital to meaningful consultation that we receive appropriate information so both employees and our members, can have their concerns, comments, alternative structures./models etc properly taken into account.

The Section 188 letter has been issued to inform the Trade Unions that the expected number of proposed cuts in the budget could affect as many as 335FTE (full time equivalent) in the financial year 2016/17 and 139FTE in 2017/8. Through the Council's excessive use of temporary, agency and casual staff have put existing staff at risk of compulsory redundancy.

The question has been put to Management by all trade unions as to why we are employing so many agency workers, temporary staff and consultants at premium cost to the authority when massive financial cuts and possible compulsory redundancies are being proposed. No rationale or workforce planning information has been provided for either year.

Whilst the Council have advised they are trying to protect our front line services in order to protect the most vulnerable citizens in the city, the Council have maintained the level of senior management and ignored both staff and the public's concern over the number of Councillors and the amount of allowances paid to them.

The whole purpose of Trade Union consultation\_is to examine ways of avoiding dismissals whilst looking at how to reduce the numbers affected and mitigate the consequences of Compulsory redundancy dismissals, Unite do not believe this has been achieved.

Consultation on the proposals must be meaningful and must be conducted with an open mind. A willingness to be persuaded and with a view to reaching an agreement on proposals whilst emphasising that this is a consultation process on proposals and that no decisions will be taken until the Full council meeting in February 2016.

Unfortunately the relevant information has not been provided to the Trade Unions in sufficient detail to enable us to have meaningful consultations. Unite support the joint

staff side position which is that we are nearing the point of a dispute. Therefore we feel that meaningful consultation has not yet taken place. This needs to be given priority and will mean the council should not set their budget in February and extend the consultation period.

Unite also raised concerns about the timing of consultations meetings and the amount of facility time allocated to S188 issues which did not get resolved. We have been faced with 3 consultation meetings all scheduled same day same time for the same Trade Union representative, that is not meaningful consultation.

Is this being taken into consideration when looking at this service? I.e. 1.5% reduction would be approx. £82,500. Potential for an area inspection early in 2016. The effect on the teams that this will have as well as the turbulence caused to staff. School placements is a big issue to place children in a high quality provision across the district. Potential for more children to be schooled out of authority at a high cost to the LA. Obviously we need a new school but management are aware of this. Need to consider the SEND reforms when looking at the reorganisation of how this service will look. | 7 January 2016 - Departmental School Forum reported that due to unexpected and welcomed additional high needs block funding, the overall reduction in DSG would be 0.42%. Management will feedback before staff break up on the 18 December.   |
|  |  |  |  |  |  | ATL felt the Hubs of Excellence presents an untried model and there is no evidence it will work or provide the quality service.  |   |
|  |  |  |  |  |  | NAHT asked if centrally employed staff would join the hubs.?   | Management confirmed this and that schools would provide leadership.  |

|  |  |  |  |  |  | NAHT asked if funding was available.?  ATL noted that if schools were maintained this would be okay but if schools change to an academy or trust, any top slice could be worrying.  Management advised the service DSG funded so that funding worschools to provide the service.   |  |

|  |  |  |  |  |  | 10 December 2015 - Departmental - UNISON noted the consultation document was incorrect as it stated 'cessation'.  NASUWT advised the concern this had raised amongst staff, especially when they had been told not to go to Future House.  | cument; it   |
|  |  |  |  |  |  | UNISON advised that the TU's had not been invited to the briefing with staff and if they had been the matter could have been resolved quickly. The document has been circulated widely. Could some communication be sent out to reassure staff? Some members of staff had been told their posts were vulnerable. |  |  |  |  |  |  | ATL noted that the majority of staff worked in mainstream settings and Management are speaking to Special School Heads.  Supporting a child in a mainstream setting is different to supporting in a special school setting so mainstream Heads need to be consulted. Special school expertise may not work in a mainstream setting. Will there be an SLA between schools and special school heads to provide this service; it's difficult to understand how the model will work. |  |  |  |  |  |  |  |   | Need to build up speed to get the detail but this needs to be right and not disadvantage children and young people. This is not about removal of service but service transformation in the context of a full SEND Strategy Review. Management advised this was a complex piece of work and more detail should be available early in the new year. The timeline may be extended.  |
|  |  |  |  |  |  |  | ATL asked where the DSG fits with this; are Schools Forum the brokers and how much say so they have.  | Management are in discussions with Schools Forum. Some modelling of High Needs Block funding and comparisons nationally, this suggests we may be approximately 500 places short. We are also looking at the National Fairer Funding Formula consultation in the new year to see what that will look like for an inner city LA. We know there is pressure but the DSG is there to support children with SEND. Data is coming through slowly so we need to get a sense of what that means. |
|  |  |  |  |  |  |  | NAHT noted that other LA's have more special school resources and Bradford is more inclusive.   | Management noted there are more children in mainstream and a funding deficit on specialist places – need to look at whether we have the balance right in terms of placements   |
|  |  |  |  |  |  |  | <u>UNISON</u> asked if there would be integration with Adults as part of the SEN Strategy.  | 0 7 pathway and up to age 25 so would bring in all partners.   |
|  |  |  |  |  |  |  | <u>UNISON</u> asked where dyslexia, etc. fit as there are struggles to diagnose.  | Management felt this would be part of communication, interaction and learning assessments.   |
|  |  |  |  |  |  |  | <u>UNISON</u> asked where academies fit as they had more flexibility.   | Management advised academies have to follow the SEND code of practice and do work closely with us so if there were any issues these would be raised with them.   |

|  |  |  |  |  |  |  | ATL asked if this had been clouded by the removal of statementing. Children have been reclassified as not SEN and having behavioural issues – are we missing this as part of the review.   | Management advised that the Behaviour Strategy is being reviewed at the same time. EHCP requests have increased. The code covers social, emotional and mental health issues and has taken out behaviour as that is normally appearing through an underlying issue. This whole area is being looked at side by side.                          |
|--|--|--|--|--|--|--|--|--|
|  |  |  |  |  |  |  | ATL asked what the timeline for the behavioural review was.  | Management advised this would go to the Behaviour Strategy Board in April.   |
|  |  |  |  |  |  |  | ATL noted members felt unsupported.  | Management advised recommendations will be built into the report. School Action and School Action Plus has gone and there is a concern that children and young people are not being put on the register; officers are looking to see what the differences are.   |
|  |  |  |  |  |  |  | ATL noted a number of schools had differen<br>approach and Management could look at<br>best practice.  | Management noted that SENCO's do look at this in their role.   |
|  |  |  |  |  |  |  | Raised 17.12.15 - Departmental - UNISON asked the following questions by email:  |  |
|  |  |  |  |  |  |  | What will be the cost savings for the local authority by the commissioning of SEND Teaching Services? If there are no cost savings why is this being considered?   | These teams are funded by DSG. There will be no savings for the LA – this is about transformation.   |
|  |  |  |  |  |  |  | Will the Commissioning of SEND Teaching<br>Services result in job losses and if so, How<br>Many? Which teams will it impact on? Wha<br>are the timescales for this?  |  |
|  |  |  |  |  |  |  | What is the definition of "Teaching<br>Services"? As the Equality and Access<br>Officers are not teachers and only work with<br>Private, Voluntary and Independent Settings  |  |
|  |  |  |  |  |  |  | Which types of organisations are being considered to deliver the SEND Teaching Service Functions?  | This will be determined through the SEND Review.   |
|  |  |  |  |  |  |  | Would these organisations have the capacity to deliver these functions to the Private, Voluntary and Independent Sector, including Private Day Nurseries, Pre Schools, Childminders and schools delivering 2 year early education? This currently involves 645 settings, of which 388 deliver early education (From Sept 15 headcount census). There are indications that this number will increase Poor choice of word (Cessation) when staff were briefed and the miscommunication that went out and caused a lot of unnecessary upset to staff. Management agreed to put out some further comms. To explain what was meant. How do you see the HI VI Arc working in centres of excellence, if they are to be run by a school, staff do believe they should have TUPE rights, need more discussion if not going to be run by the LA. | SEND Review.   |
|  |  |  |  |  |  |  | Consultation – concerns have been raised that consultation needs to take place not just with the Special School Heads, but with Mainstream Heads across all schools. PVI settings, Families. Also how do support services fit that aren't teachers, i.e. PVI settings, Portage service. Early Intervention Team, Early Years. All work to the Code of Conduct.   | This will be considered within the SEND Review.  7 January 2016 - departmental - management accept that TU colleagues are concerned about alck of detail.  Management have reported that 2 days have been set aside to review SEND (18th & 19th Jan). Details will be formulated at this review & fed back to colleagues on 21 January 2016. |

|  |  |  |  | Comment received below:  I work as a Specialist Early Years Practitioner with the SEN Early Intervention Team (EIT). Our team has many functions, being made up of a teaching support service team and myself as a specialist practitioner, the Portage Team, and the Equality and Access Officers-who have recently joined our team. The main functions of our team are:  Placement functions-the 'pathway' for children 0-7-the local SEND offer  Assessment and response to EA1 from health and TSSR-from schools (Teaching Support service referral)-These are looked at through a Triage system within learning support service.  We do reports for EHCP-Education Health Care Plan  Teaching support into schools/nurseries and private day care settings   |
|--|--|--|--|---|
|  |  |  |  | Specialist Early Years Practitioner-the role has been recently further developed when working in schools/nurseries for Range 3 and 4 children-offering practical advice and training whilst, working alongside the support staff, using assessment tools to help target the child's development, help with planning and support. This helps to keep the child concerned included within their peer group and for them to access their environment and learning materials resources within a mainstream setting.  • Early Years Inclusion Panel-funding which is accessed for children with SEN when they are in a private day care setting(PVI)  • Portage-an educational home visiting service for families with a child with SEN support needs. The Teaching Team, Specialist Early Years Practitioner, and Portage Home Visitors all have a caseload working with vulnerable families. |
|  |  |  |  | Equality and Access Officers support the private day care settings.     Children Centre+ are part of our service.  Within these broad bands are some very intricate and skilled ways of working.     We work within the Code of Practice.     We are improving outcomes for families.     We are a cost effective service, children are able to access mainstream and feel included and a part of the community.     Our team are the 'front door' for vulnerable families for the whole of the Bradford district for children with SEN needs.  |
|  |  |  |  | To 'cease' any of these services would have a catastrophic effect for Bradford, it's families, schools, nurseries, private day care settings and health colleagues who refer to us as well as us working in partnership with all involved.  |

| 3C6 | Employment and Skills | Reviewing Work with Young People Who are Not in Employment Education or Training. The proposal is made up of different elements.  Connexions. Connexions supports young people on a range of issues including accessing education, training, skills and employment choices. The proposal would reduce the Connexions contract by £450,000 (30%) reducing the Council's capacity to support this work and increasing the risk of growing numbers of young people Not in Employment Education or Training. Decommissioning the Employment and Skills element of the Community Fund to save £250,000. |  |   |  |  |  |  |  |  | this needs to be directed internally to Legal & services depts.                                     |  |
|  |   |  |  |  |  |  |  | recharged to protect internal employees within legal service.                                       |  |
|  |   |  |  |  |  |  |  |   | 16 December 2015 - Management  |
|  |   |  |  |  |  |  |  | & ACS post will become vacant a couple of options to consider:                                      | would require support at least at  |
|  |   |  |  |  |  |  |  | person at a lower level to support<br>City Solicitor, then use any                                  | Senior Lawyer level. The ACS post<br>is Spec E (£80K) if a Senior<br>Lawyer appointed then could |
|  |   |  |  |  |  |  |  |   | achieve £30K saving which could contribute to the Trainee Solicitor                              |
|  |   |  |  |  |  |  |  | B)Delete ACS & keep 3 teams – not necessarily viable due to the                                     | posts.   |
|  |   |  |  |  |  |  |  | gap between City Solicitor & 3<br>Team Leaders – this may not be                                    |  |

This was also raised at the Level 1 Consultation meeting earlier today.  Management have stated how their section is going to be for 2016/17 but not for 2017/18 and the Staff side are being asked to agree proposals without knowing what the position will be. | Management Response 17 Dec 15  Management stated there are two issues:- 2016/17  PAC's savings are from voluntary reductions in working hours and efficiencies in supplies and services budgets.  PPC has none for 2016/17  CX Office – agreed deletion of posts.  2017/18  Management stated that they wanted to know the outcome of what was raised at the Level 1 Consultation before proceeding any further as they were not in a position to provide this information. |
| 3X3     | Policy Programmes and<br>Change      | Review of Policy Programmes and Change. Savings will be made through: Staffing efficiencies and reductions – including potentially working more closely with other partners Trading services/income generation. Reducing demand through increased automation and use of open data The proposals will reduce resources at a time where Departments may need additional support relating to significant policy developments and transformational change. Unite advised that this was not acceptable and there was agreement on this view from all the recognised Trade Unions They felt it was meaningless consultation. If Executive and Council are to make a decision in April 2017 there may not be time for consultation. They could not support any proposals where they were not able to consult with their members  Management Response 07 Jan 16 Management acknowledged that proper meaningful consultation needs to be carried out.  Management advised that twe are a year ahead of where we usually are and wanted to work with Staff Side. |

| 3E1      | Waste Minimisation        | Waste Minimisation – Support and Encourage Recycling; Provide One General Waste Bin and End the Collection of Side Waste. The Council has agreed a Domestic Waste and Recycling Policy that will increase recycling and reduce domestic waste and its associated disposal costs. The current and ongoing costs of disposal of domestic waste are not affordable. Education, information and raising awareness will support increased recycling and a scheme providing community incentives to recycle will be introduced in places where households have little space for separate recycling bins. The Council will work with householders to eliminate the need to leave out side waste and wil only collect one general waste bin from each household; households above a certain size can apply for a larger bin. |            | ,900 50    | 00,000 | 200,000 | 700   | 0,000 | 4.7%     | Reference |      |         |          |           | 0 0     | Vacancies VR Requests  | 26 November 2015<br>GMB - residual waste reduction.<br>Need an impact assessment on  | Management Information/Response 26 November 2015 Th would reduce disposal costs due to lower domestic waste levels. Management stated that community consultations on the New Deal had indicated that people could cope with a 2 weekly collection. | 3E2      | Green Waste               | Introduce Charges for Green Waste Collection. The Council currently subsidises the collection of green waste in some parts of the District, mainly serving households with larger gardens through its brown bin system. The proposals will introduce a charge of £40 per household for collection of green waste for which householders will receive a specified number of collections a year in turn. Charging for green waste collection is increasingly common among local authorities and will remove the unfairness of the free service only being offered to households in certain parts of the District.  | 3,14       | 7,300 1,10 | 00,000 | 100,000 | 1,200 | 0,000 | 38.1%    |           |      | 1       | 5 1      | 15        | 0 3     | 3                      | with a consequent potential  | 26 November 2015 Th will remove the unfairness of a free collection service to around 80/85,000 households, there may be a staffing impardependent upon take up, possibly one les round may be required.   |

The service is not available across the district, and is currently used by between 80,000 and 90,000 properties. The Council is consulting on the proposal to introduce a charge of £40 per year. It was noted that approx. 40% of other authorities across the country alread make a charge for this service. It is anticipated that the take up following the introduction of a charge would be around 30% of current usage if the charge were £40. There may also be potential for increasing the frequency of collection to tweekly for those households who signed ut to the service. The savings are predicated on this figure; if the take up is higher the number of rounds required would be revise and that would impact on the staff savings required. A charged for service may also be able to offer collection to households currently not on the scheme. Potential sta |

| 3E13 | Community/Sports Club/Parish<br>Council ownership of playing<br>pitches/ hub facilities  | Transfer ownership of playing pitches and facilities to sports clubs, Parish Councils and community organisations. Some sports pitch management and maintenance including changing facilities would transfer to clubs, parishes and community groups to operate as community assets. This may require the consolidation of multiple clubs onto to a single site to reduce the current dependency on pitches used only by one team and to provide more cost effective opportunities for club or community management. Club or community management will increase the potential for access to sponsorship, fund raising activity and grant funding. |             |         | 80,000  |         |      | 76 | 99 0  | 2 0  | 26 November 2015 Transfer to club/community management will increase potential for alternative funding streams, no staffing impact.  1 December 2015 Management will consult with sports clubs along similar lines to the proposal put to bowling clubs in the current financial year with a view to clubs taking on responsibility for ground maintenance and thereby reducing staffing costs to the Council. It may be, as was the case with the bowling clubs, the clubs would prefer to pay more and the Council continue to provide the service. Noted that this will only apply to some sports clubs and not all across the District. |

Unite - The additional amount of £84k is not showing on the spread sheet that has been circulated.  Unite agreed.  Unite – When KPMG were in consultation in 2010/11 and undertook an audit, they proposed that Commissioning and Contract Management was combined and Matrix Management was required as the Departments did not have the skills to do this.   | Management advised that they have not been carried forward. This year's savings 2015/16 of £284k were made last year and the £84k is an additional amount that has been added late last year on top of the savings required for 2016/17.  Management suggested that to move forward in the meeting, that this matter is raised at the Departmental L2 meeting. |  |              | 13/01/16 - Departmental Unison – At the corporate consultation meeting held on 10 December 2015 an issue was raised in relation to the former business support staff that are now based in Commissioning and Procurement and have been told that their jobs will be cut.  | 13/01/16 - Departmental Management commented that the statement is incorrect and staff have not been told this.  The central purchasing team and accounts payable team joined Commissioning and Procurement in September 2015 from the former Business Support function. The team came with a budget saving and 2 vacant posts. These 2 vacant posts will be deleted from the structure as part of the Commissioning and Procurement savings proposals. However, these 2 posts are not enough to cover the savings required but there are no plans to cut more than the vacant posts in that team and there are no plans for any compulsory redundancies for the former transactional support staff. |
|  |              | Unison also stated that they are trying to find out when the consultation took place and where decisions were made regarding the pro-rata saving of £55k for a team of 8 people. The trade union is aware of discussions taking place in relation to phasing the return of teams to the departments however there appears to be no documentation available which relates to discussions about budgets as none of the minutes mention figures.  Unison advised that they will be picking up the issue of the staff transferring back to the Department of Finance and lack of clarity on the budget to support this at a meeting with Sue Dunkley at the Corporate meeting tomorrow (14/1/16.) | In relation to the wider consultation issue, management advised that a discussion had taken place at CMT around the whole centralised model and the fact that it wasn't working as well as it should be and a decision was taken to transfer the transactional support staff back to departments with an agreed proportional share of the budget. The same principles will apply this year; however  Management would like to present some proposals to deliver savings in the next couple of weeks, to which the Trade Unions can respond.  In the recent past, Financial Services has been restructured in response to requests for VR. To date there have been no new requests for VR and the 2 requests that have been lodged already will take the service to the end of the current financial year. If no further VR requests are forthcoming, the service could be in a compulsory redundancy position in order to make the savings required. |

There is a possibility of some departures in Wakefield which may create opportunities for Bradford Council staff. However, it is not clear as yet whether Wakefield Council will need to include these departures in order to achieve their savings. | 3R2       | Economic<br>Development | Replace City Park Maintenance Fund with a Reserve. Maintenance works for City Park are currently funded from the Council's ongoing revenue budget. The proposals will replace this funding with a reserve of over £500K which would be sufficient to cover the life time replacement costs for major works.  | 1,326,000  | 40,000  | 0        | 40,000  | 3.0%  |                     |               | (         | o c |       |    |   |   |
| 3R3       | Development             | Replace Budget for the City Centre Growth Zone Rates Rebate Team with a Reserve. The costs of managing contracts for business rate rebates in the City Centre Growth Zone are currently paid for from the Council's ongoing revenue budget. This proposal would replace that funding by using money set aside to fund the Growth Zone's Rates Rebate programme for the duration of the programme to March 2020. The proposal would reduce the money available to support City Centre businesses but because of various other business rates initiatives fewer businesses will qualify to receive a rates rebate than was originally anticipated so the impact will be minimised. |            | 90,000  | 0        | 90,000  | 20.2% | 44                  | 48            | 3 2.5     | 5 0 | 0     | C  |   |   |
| 3R4       | Economic<br>Development | Reduce European Strategic Investment Fund (ESIF) and Replace with a Reserve. The ESIF is used to provide match funding for bids for funds from the European Union, this match funding typically helps to secure an additional 50% from the EU. Reducing the fund will reduce the capacity to respond to Leeds City Region requests to deliver EU funded programmes. Leeds City Region is currently calling for an EU funded enterprise support programme under the proposal. This and other similar calls would be funded through reserves.  | 945,000    | 200,000 | 0        | 200,000 | 21.2% |                     |               |           | o c |       |    | 10/12/15 - Departmental Unison - what what will happen in 2020 to the posts funded by the reserves?  Unison - are the reserves unallocated? | 10/12/15 - Departmental  Management stated they cannot predict what will happen in 2020, however once the posts have been taken out of revenue base budgets they cannot transfer back.  Management responded that they are not unallocated reserves, they are reserves which have been built up from within the department. |

| 3R5 | & Property | Continue to reduce the Council's Administrative Estate. The Council will continue to reduce the number of buildings it operates from in the City Centre, closing Jacobs Well and moving staff to Britannia House. Some capital investment will be required to deliver the proposal.  | 3,838,300  | 0       | 150,000 | 150,000   | 3.9%   |     |     | 0 | 0  |   | Unite - new ways of working (NWOW) require 7:10 desk ratio, now it will be 5:10, staff are being forced into NWOW. The impact on staff moving to Britannia House should be considered prior to the move.  Unite - what about building investment due to the sale of existing buildings? | 26/11/15 - Corporate  Management stated that the arrangements varied in different teams, 5:10 was a possibility but was not across all areas, the management assessment suggested that all staff could transfer satisfactorily, all options are being considered.  Management stated that the savings from Future House related to the lease costs and ongoing maintenance, £60k pa on the proposals. The financial appraisal was on an invest to save basis.  Management stated that was only backlog maintenance. |

| 3R6 | & Property | Remove or Reduce Rental Subsidies Provided to Tenants of "Community Facilities". Tenants of "community facilities". Tenants of "community facilities" e.g. sports and recreational facilities are granted rental subsidies from the Council based on their ability to pay. The total value of subsidies is £300,000. The proposal would either remove all subsidies or revise the policy to reduce the overall level of subsidy by assessing the tenant's contribution to District wide priorities, their management of the property and the extent to which facilities are made available to the wider community. | -1,148,000 | 0       | 300,000 | 300,000   | -26.1% |     |     | 0 | 0  |   |   |   |

|      | & Property                | Property Programme – Continue to Rationalise the Council Estate. | 3R14 |                           | Street Lighting – Partial Night Switch Off Switching selected street lights off between midnight and 5am will reduce energy costs. Other authorities have adopted this approach. Determining the specific areas subject to the proposals will need surveying, research and consultation to be undertaken. There would be no switch off proposed in areas where; There is a record of traffic collisions during switch off times There is high crime during switch off times There are Roundabouts, complex junctions etc There is CCTV coverageThere are pedestrian crossings There is 24 hour use e.g. Hospitals There is sheltered accommodation and housing for vulnerable people Some initial investment would be required to make the technical changes necessary to deliver ongoing savings. Public consultation may also be required in some areas. Additional switch offs could potentially reduce costs by another 20%. | 5,728,000  | 0       | 100,000 | 100,000 | 0     |     |     | 0   | C  |    |   |                                       |   |

| Highways                  | Reduce Winter Gritting Routes. The Council currently affords priority status for gritting to 62% of the local road network – 712 miles. The proposals would reduce this to 42% by 2017-18 with just the main arterial routes and spinal link roads being afforded priority status.  | 3,782,000 | 70,000  | 40,000  | 110,000 | 2.9%  |        |     | 0   | 0 |     |   |   |   |

| Transportation & Highways | Restructure Development Services. Development Services deliver planning and building control services. The proposal reduces staffing levels but by restructuring in the light of changing requirements and already agreed procedures no detrimental effect on planning is anticipated. Building control is moving to a joint arrangement with Kirklees and possibly also Wakefield Councils which should see it maintain and capture market share.  | 1,380,000 | 244,000 | 0       | 244,000 | 17.7% | 111.79 | 118 | 4.6 | 0 | 5.6 |   | 30/11/15 - Departmental Unison - which sections are affected by 3R16 ie118 staff though out Planning?   | 30/11/15 - Departmental  Management responded that the areas affected are Development Control, Building Control,  Drainage and Admin Support in each area.  |

| Transportation & Highways | New Charges for Permits for Car Parking, Skips and Scaffolding; Charges for Dropped kerb applications and events on the highway coordination. The proposal introduces new charges for residents car parking permits and for skips and scaffolding on the highways. Applications for dropped kerbs will incur a charge as will staff time involved in co-ordinating events and parades. Licence fees will be introduced for cranes and cherry pickers.   | 1,380,000 | 51,000  | 67,000  | 118,000 | 8.6%  | 15.81  | 16  | 16  | 0 | 0   | 2 |   |   |
| Transportation & Highways | Re-Structure Planning Transport & Highways and Transfer Some Functions to the West Yorkshire Combined Authority. The proposal will change administrative support, merge Transport Development and Highways Asset management in to one Team and seek to centralise some functions to the West Yorkshire Combined Authority – these are Highways Design, Traffic control, Highways Structures, Transport Planning and Highways Development Control. Transfer of functions would remove the Council's ability to deliver its own strategic highway improvements without having to use consultants. We feel this has the potential to discourage people from accessing the care they need, which could lead to increased need and problems in the future.   |   |
| 3A2        |                      | Changes to Home Care Services - savings will be made by changing the way in which home care services are monitored and delivered and by fully implementing existing policy relating to care plans for people recovering from hospitalisation and accidents. Electronic Monitoring – using technology to monitor and agree care provided by contractors will enable the Council to save money by paying for care that is actually delivered rather than simply planned in advance and providing it with more control over changes to individual care packages and the length of time those changes stay in place. Reducing staff costs by Providing More Equipment in the Home - sometimes peoples' care needs can mean that they need more than one person to provide their care. Investing in equipment such as hoists can reduce the need for more than one carer and cut costs. The proposal includes accessing funding through the Health Service Capital Equipment Fund. Changes to Welfare Visits – some people receive 15 minute home calls to check on their welfare. The proposed changes mean that instead of someone calling at their home the checks would be done over the phone. | 23,059,400 | 500,000 | 1,500,000 | 2,000,000 | 8.7%        |                      |                    |          |          | C         | 0         |           |               | 26.11.15 - UNITE expressed concern on the impact on service users when a 15 minute visit would be replaced with a phone call.03.12.15 - Unison expressed concern around changes to welfare visits  10.12.15 Unions had no further issues.  07.01.16 Hopefully the changes will benefit service users with the correct contact time they are assessed to need. Unsure about changes to Welfare visits as these are not carried out were stopped a while ago. Some 15 minute calls are for medication and or emptying commode. Although new technology will help in cutting down the number of calls. Some service users will still need medication calls to ensure medication has been taken. As these medication calls are linked to health would it not be possible to look at health funding these calls | 03.12.15 Management advised no service would be changed without a review. Services would be based on need. Some 15 min visits could be replaced be telephone calls.  07.01.16 – Management confirmed all 15 minute vests were to be reviewed. |
| 3A3        |                      | Changes to Supported Living for People With Learning Disabilities: Using Technology to Promote Independence and Reduce Contact Time With Staff. Supported living covers different services that help people with learning disabilities to be enabled to live as independently as possible. The Council currently spends over £7.9m on these services and the proposal would save money by requiring contractors to reduce costs by using new technology to promote greater independence and reduce the need for one to one contact with staff. Some people will see their hours of contact time reduce but all individual needs will be reviewed.  | 7,917,800  | 500,000 | 500,000   | 1,000,000 | 12.6%       |                      |                    |          |          | C         | 0         |           |               | 03.12.15 - Unions had no concerns 10.12.15 Unions had no further issues. 07.06.15 No issues, although new technology may not be suitable for some service users  |   |
| 3A4        |                      | Review and De-Commission Financial and Welfare Advice Services. The review will be undertaken in conjunction with the Council's public health Department which also commissions advice services. The proposal would reduce the overall funding available to providers of advice, reduce face to face contact by providing digital alternatives, eliminate the least effective advice sessions and target provision where there is greatest need.   | 3,711,000  | 300,000 | 700,000   | 1,000,000 | 26.9%       |                      |                    |          |          | C         | 0         |           |               | 03.12.15 - Unison - Has any cost analysis taken place?  10.12.15 Unions had no further issues.  07.01.16 With the increase in contributions to receiving social care in 3A1 it is important that people are aware of benefits aware that services in this area are at times duplicated however once again face to face contact may still be needed for people unclear with computers and new technology.   | 03.12.15 - Management confirmed that there needs to be much more control of funding of welfare advice. A much more coordinated and comprehensive service will be in place after the procurement process.                                      |

| 3A5 |  | Restructure Adults and Community Services and Reduce Staff by 80. Savings would be made by undertaking a fundamental re-structure of the whole of Adults and Community Services including options for the delivery of Social Work and Occupational Therapy assessment and support functions. There could however be an impact on frontline services, for example in delayed transfers from hospitals to care and longer waiting times for people to have their needs assessed. | 36,429,200 | 500,000 2,0 | 2,500,000 | 6.9% | 1018.8 | 1293 80 | 0 34.88 4 | the Council stop using agency staff?  | 27.11.15 Management stated the Council position was to recruit to FTE vacancies where possible, however within social care there was temporary demand which had to be met. There were issues regarding how users entered the social care market and it was expected to integrate the process with the health service by 2020. VRs would be used to help achieve the proposed staffing cuts.  Raised concern that the figure of 69 agency workers stated in the CX's letter may not be reflective of practice. A list of all agency workers and their roles on a council wide basis was requested.  Stated that the Occupational Therapy assessment team could make care more effective, however waiting lists would become longer. |

Integration had not worked, staff in the same building did not communicate, it was a nice idea but not effective. Adults was always overspent, how did they plan to reduce costs, savings would not be made if staff were reduced because there was more demand, it was a statutory function and had to be delivered.  GMB  Asked for the spend on consultants to be identified on a Council wide basis. |  |

Stated that over the last 4 years £7m had been spent on agency workers, they requested a break down of all agency and casual staff.  03.12.15 Unison - Can VRs be taken  | 03.12.15 Management There are sufficient vacancies to absorb the £500k next year. Once the budget has been agreed in February VRs will be looked at.  Management do not anticipate large numbers of compulsory redundancies. VRs can not be granted where recruitment is being undertaken to identical posts. More detail will be worked on over the next year.  10.12.15 - Management confirmed that £2m in year two would be part of a root and branch review. There is the potential for compulsory redundancies but these will be avoided where possible. Management confirmed this would all be done in consultation with the Unions. |

|  |  |  |  |  |  | UNISON stated that it was difficult to agree year 2 (2017-2018) proposals due to a lack of detail and due to the 2% Council Tax levy and the impact of the Better Care fund.  They quoted budget line 3A5 which requires a saving of £2.5m over the two years 2016 – 2018. They stated they were consulting in good faith but couldn't do this if the information was not accurate.  UNISON said they would look at the whole proposal (3A5) and said there was no detail of the proposed structure changes.  10.12.15 Unions queried if these would be achived via vacancies and VRs. |  |

UNISON cannot consult on this proposal as there are no restructure proposals available for UNISON to consult of There are also no equality impact assessments for this proposal. Full and proper reasons cannot be given as to why a full restructure across the whole of adults is needed and how it will impact on staff and service users. |  |

The budget for Learning Disability Services is £8.8m including a £7m contract that is due to be re-tendered in 2016-17 providing the opportunity to deliver savings. | 3A7 | Changes to Housing Related Support: De-commission and Reconfigure Services. The Council commissions services to provide housing related support to a range of people including homeless people, ex offenders, people with mental health issues etc. The Council is not required to provide these services by law however a £4m saving has already been agreed for this area in 2016-17, the proposal would reduce that by a further £1m – the overall budget would reduce by 50% compared to today. Service users would have to wait longer, however this was the only way to optimise the budget and staff. The Council could only do this by working with the trade unions and staff to restructure. Working collaboratively is the only way the Council will get near to making the cuts  10.12.15 Unions requested a breakdown of vacancies andwhether these can be deleted.  107.01.16 - No details available of how the closure of Whetley Hill will affect staff or service users. How would the move to Thompson Court and Norman Lodge be implemented, no details of how service will operate. What will happen to the staff at Whetley Hill? 22 potential redundancies. | 3A10       | Changes to Contracts for Residential and Nursing Care for People With Learning Disabilities to Promote Independence and the Use of Technology. New contracts will enable the re-negotiation of high cost placements with service providers and require them to maximise the use of technology and telemedicine to support people with learning disabilities in the community which will reduce the numbers of care hours including nursing care required. The development of additional extra care housing will also reduce reliance on residential and nursing placements. |   | 8.2%    | 0 0         | 03.12.15 - Unions had no concerns 10.12.15 Unions had no further issues. 07.01.16 No Issues   |

| EQIA'S  |  |
| UNITE (26 November 2015) requested a full breakdown of agency and casual workers (cost and location).   | Management have provided this information on a departmental basis.   |
| 2. UNITE (26 November 2015) requested that EQIAs be issued and that some may need to be joint where appropriate (3C6? 3C10?)  | All departments have been asked to provide EQIAs on the workforce proposals.   |
| 3. UNISON (10 December 2015) EQIAs needed to be up to date.   | EQIAs were being tabled at departmental meetings.  |
| 4. UNITE (10 December 2015) EQIAs had been requested prior to this meeting and that the Council was withholding consultation  | Internal facing EQIAs which would detail any staffing impact to be made available at departmental consultation meetings.   |
| with the information the TUs needed.  | (10 December 2015) Management asked all TUs to notify the HR Director which departments had issued EQIAs to TUs and which departments had still to do so.  |
|   | This issue was raised again at the Corporate Consultation Meeting on 14 January 2016, all Departments have now provided EQIA's on proposals that have workforce implications.  |
| VOLUNTARY REDUNDANCY REQUESTS   |  |
| 5. UNISON, GMB, UNITE (10 December 2015) accurate figures were requested for agency workers, VR requests and vacancies on a departmental basis.                             | This information has been checked and updated and all departments are required to notify trades unions at departmental consultation meetings.  |
| <b>6.</b> UNISON, GMB, UNITE (10 December 2015) staff who had applied for VR were being told their applications were rejected and the same people were constantly applying. | Management explained that a cleansing of the VR information was being undertaken to ensure only employees with a realistic chance of VR remained on the list and employees are informed of decisions as soon as possible. Planned VR had been withdrawn. Where there was a <i>continuing</i> requirement for jobs, unless there was a suitable "bump", staff would not be able to leave on VR e.g. Social Workers. |

| CONCERNS RELATING TO 2017 / 2018 PROPOSALS  |   |
| <ul> <li>7. UNISON (10 December 2015) stated that it was difficult to agree year 2 (2017-2018) proposals due to a lack of detail and due to the 2% Council Tax levy and the impact of the Better Care fund.</li> <li>8. UNITE (10 December 2015) stated that managers ask if the trade union agree to the proposals, however as there are no details they cannot agree and also because the figures relating to FTE staff and vacancies were not accurate. They stated they were consulting in good faith but couldn't do this if the information was not accurate.</li> </ul>  | Management stated that there should be sufficient information on proposals to facilitate consultation, including how a proposal may be implemented because proposals are still subject to consultation and decisions will be taken at full Council in February. A rationale explaining the thinking for 2017/18 as a minimum needs to be tabled for ongoing consultation. Management stated that, where possible, they are consulting to seek agreement, but accept that where information is limited, until this is available, consultation continues.  The Trade Unions were advised at the corporate consultation meeting of 14 January 2016 that the Executive will proposed a 2 year financial plan to Council a firm 2016/17 budget, elements of a 2017/18 budget, but with some work still to do before a firm 2017/18 budget (and an indicative 2018/19 budget) is finalised in 2017. |
| INFORMATION AVAILABILITY  |   |
| <ul> <li>9. UNISON, GMB, UNITE (07 January 2016) consultation was not meaningful due to the lack of detailed information which meant they could not properly consult with management.</li> <li>10. UNISON, GMB (07 January 2016) Staff meetings had been held and stewards not invited. Convenors/Stewards had only accepted (management's) cancellation of meetings where management had said they had no further information to share. Management had not been prepared to alter meeting times. Generally no structures and staffing information had been issued. It was not appropriate to discuss 2017/18 proposals due to the lack of detail.</li> </ul> | This issue has been raised both in Departmental and Corporate Consultation. Following on from the Corporate Consultation Meeting on 14 January the HR Director wrote out to all Strategic Directors outlining the Trade Unions concerns per Department and information has now been provided in order to facilitate the continuing consultation process and address the Trade Unions concerns.  |

| TU COMMENT   | MANAGEMENT RESPONSE   |

| 11. UNISON, GMB, UNITE (07 January 2016) regarding Regeneration there had been two meetings, no detail had been provided nor had any structures. The proposed savings and numbers of FTE posts potentially redundant needed to be confirmed.     | The HR Director has followed up the trade union concerns with the Strategic Directors and information gaps have now been provided.  |
| VACANCY CONTROL  |   |
| <b>12.</b> UNSION, GMB (07 January 2016) stated the vacancy control process appeared to have slipped.  | The current process for Vacancy review is undertaken by the HR Director and the Chief Executive and vacancies are reviewed subject to the needs of service delivery and the ability to recruit to specific roles in certain areas of the Council. |
|  | To ensure a more robust approach to vacancy management a recruitment freeze on all external adverts has now been implemented with immediate effect.   |
| HR1 FORM   |   |
| 13. UNITE (07 January 2016) stated that the HR1 form stated 335 potential redundancies in 2016/17, however redundancies for 2017/18 was not mentioned consequently these could not be agreed in these consultations. ## Section 1: What is being assessed?

### 1.1 Name of proposal to be assessed:

Budget proposals relating to the setting of the Council Budget – potential workforce implications 2016/18.

EQIAs will be undertaken on all proposals where there are workforce implications. These will be used to influence this Council EQIA.

# 1.2 Describe the proposal under assessment and what change it would result in if implemented:

The effect of budget proposals made as a result of reductions on Council funding mean that the total number of FTE employees at risk of redundancy is 335 for 2016-17 and 139 for 2017-18 from a total of 6,940 (8,958 actual employees) excluding school based staff. These are in addition to the proposed 167 FTE reductions for 2016-17 about which the Council commenced consultation in November 2014 but these were covered by the previous EQIA.

## Section 2: What the impact of the proposal is likely to be

The Equality Act 2010 requires the Council to have due regard to the need to-

- eliminate unlawful discrimination, harassment and victimisation;
- advance equality of opportunity between different groups; and
- foster good relations between different groups
- 2.1 Will this proposal advance <u>equality of opportunity</u> for people who share a protected characteristic and/or <u>foster good relations</u> between people who share a protected characteristic and those that do not? If yes, please explain further.

The Council will continue to do all it can to make further savings through efficiency, innovation and collaboration with partner organisations, but it is no longer possible to make savings required without affecting frontline services.

The Council will continue to drive greater efficiency and productivity but 'business as usual' is not an option because the Council cannot afford all the services it currently pays for.

The Council will endeavour to keep finding ways of working together to get results with less money. Consideration will be made as to where the resources make the most impact, looking beyond Council services, departments and organisations and thinking about the best way to achieve the collective goals.

Working with local people and communities to help them take more responsibility for securing positive outcomes for themselves will be vital as will finding different ways of providing services to increase their resilience to spending cuts.

Efforts to attract inward investment will continue so that jobs can be created, in local business rates will increase and demand for public services and welfare will reduce.

2.2 Will this proposal have a positive impact and help to <u>eliminate discrimination</u> and harassment against, or the victimisation of people who share a protected characteristic? If yes, please explain further.

N/A

2.3 Will this proposal potentially have a negative or disproportionate impact on people who share a protected characteristic? If yes, please explain further.

The Council will continue to do everything it can to avoid compulsory redundancies.

The Council is again inviting expressions of interest from employees interested in taking voluntary redundancy, flexible early retirement or other voluntary options such as voluntary reduction in hours.

It is anticipated the impact of reductions in staffing will potentially have implications for staffing with regard to age. It is more likely that those employees who are 55 and over will volunteer for redundancy as at that age they are able to access their pensions. Employees can choose to leave and draw their LGPS pension benefits at any time between age 55 and 75. They do not need the agreement of the Council, they can simply resign.

The proposals may have a minimal effect on the disability profile of the organisation. The incidence of disability tends to increase with age, so the staffing profile relating to disabled staff may be marginally affected by individuals opting to access their pension.

Due to the existing staffing profile, as the Council employs more women than men, it is also likely that, in numerical terms, more women will be affected by these decisions rather than men.

There are a number of proposals that will potentially impact on lower paid workers.

The proposals may have a minimal effect on the ethnicity profile of the organisation. As the majority of the workforce identify themselves as "White British" it is likely that more employees from this ethnic category will be affected by the proposals.

The proposals are unlikely to affect those with a protected characteristic of pregnancy and maternity.

The effect with regard to religious belief and sexual orientation of employees will be difficult to identify. Although the Council has now implemented systems for self-declaration of these protected characteristics, employees tend not to record this information on their personal profiles. However, it is not anticipated that there will be any disproportionate effect within these groups of employees.

Information in regard to gender reassignment of employees is not collected by the Council. However it is not anticipated that there will be any disproportionate effect within this protected characteristic category.

The impact on low income /low wage shown as high because the Council proportionally employs more individuals from this group. As the Council can no longer guarantee that front line services, the impacted could be greater due to their greater representation in the workforce?

EQIAs undertaken on individual budget lines will provide more detail and will be used to develop this Corporate EQIA.

# 2.4 Please indicate the <u>level</u> of negative impact on each of the protected characteristics?

(Please indicate high (H), medium (M), low (L), no effect (N) for each)

| Protected Characteristics: | Impact<br>(H, M, L, N) |

### 2.5 How could the disproportionate negative impacts be mitigated or eliminated?

The Managing Workforce Change and Restructure, Redeployment and Redundancy procedure will be used to move this process forward, in consultation with Trade Unions and staff.

All employees will be supported through redeployment, retraining or redundancy processes irrespective of their protected characteristics and will be treated fairly and consistently.

The Equality Impact Assessment process will be used to carry out ongoing assessment of the impacts of the proposed changes.

Allowing those over 55 to take redundancy wherever possible reduces the effect on other groups of workers although a financial assessment will be made before these requests are approved. Employees who volunteer to take redundancy mitigate the effect of potential compulsory redundancy.

In numerical terms, more women are likely to be affected by the proposals because there are many more women in the workforce than men. However, it is unlikely that this will affect the actual workforce profile in terms of the percentage of women employed in comparison to the percentage of men.

Although more employees identifying themselves as "White British" are likely to be affected by the proposals because of the staffing profile, it is unlikely that this will affect the actual workforce profile.

In respect of certain budget proposals which relate to changes in terms and conditions which potentially may impact on low paid workers, there may be an opportunity in certain cases to mitigate against the impact through, for example, changes to working patterns. The introduction of the Living Wage may also mitigate against these proposals.

EQIAs undertaken on individual budget lines will enable more focussed mitigations to be implemented.

## Section 3: What evidence you have used?

### 3.1 What evidence do you hold to back up this assessment?

The following information gives the workforce profile at June 2015 as this is when the last equality profile information was produced. All figures are excluding school

staff. This will be used as the basis for comparison if and when proposals progress into actions:

- > Total headcount 8969
- Full Time Equivalent staff *6953*
- ➤ Males Head count 3107 = 34.64 % of the headcount
- Female Headcount 5862 = 65.36 % of the headcount
- ➤ Male Full Time Equivalent 2865 = 41.21% of FTE
- ➤ Female Full Time Equivalent 4087 = 58.79% of FTE
- ➤ Black and Ethic Minority (BME) = 23.59% of the headcount
- ➤ Non-BME staff = 76.41% of the headcount
- ➤ Black and Ethic Minority (BME) = 21.6% of FTEs
- ➤ Non-BME staff = 78.4% of FTEs
- ➤ Those under 20 years of age ~ 59 = 0.66% of the headcount
- ➤ Those between 20 and 29 years ~ 731 = 8.15 % of the headcount
- ➤ Those between 30 and 39 years of age ~ 1759 = 19.61% of the headcount
- ➤ Those between 40 and 49 years of age ~ 2597 = 28.96% of the headcount
- ➤ Those between 50 and 54 years of age ~ 1611 = 17.96% of the headcount
- ➤ Those between 55 and 59 years of age ~ 1357 = 15.13% of the headcount
- ➤ Those between 60 and 64 years of age ~ 684 = 7.63% of the headcount
- > Those between 65 and 69 years of age ~ 141 = 1.57% of the headcount
- $\triangleright$  Those 70 and over = 30 = 0.33% of the headcount
- ➤ Disabled staff = 4.21% of the headcount
- ➤ Disabled staff = 4.79% FTEs

Statistical information relating to the religious belief and sexual orientation of employees is incomplete due to the reduced incidence of self declaration as outlined above.

### 3.2 Do you need further evidence?

More detailed staffing information on the-proposals will become clearer as the process goes forward following the budget decisions being made in February 2016 at Full Council. These will be incorporated into both the corporate workforce EQIA and departmental or budget line EQIAs.

### Section 4: Consultation Feedback

### 4.1 Results from any previous consultations

The previous Corporate EQIA was consulted on at the Corporate Consultation meetings.

#### 4.2 Feedback from current consultation

The corporate workforce equality impact assessment will be shared with the Trade Unions and reviewed as part of the ongoing consultation process.

4.3 Response to this feedback – include any changes made to the proposal as a result of the feedback

### Children's 3C1 & 3C2 – Management have provided feedback to the TUs following meetings held with special school heads on the 18/19 Jan. This has resulted in a further 2 days being identified to discuss proposal with HTs in the context of a full SEND review. There is a complete re-commissioning of Core SEND services and how these will be provided in the future. 3C3 & 3C4 & 3C5 – Management have shared how they see the virtual school bringing together a number of functions under one roof which is a new strategy. Further information on how the new virtual school will look & operate is currently being worked up by Management. 3C6 – Management have tabled restructure proposals for the Employment & Skills service. This has been shared with staff at briefings with TUs invited. This information is subject to continuing discussion as part of the consultation process. 3C7 & 3C8 & 3C9 & 3C10 - As agreed Management have tabled initial restructure proposals as part of the Journey to Excellence programme. This has included indicating which likely posts are at risk of deletion. All the information has been circulated to staff within Specialist Services and briefing sessions have been held, to which the TUs have been invited & attended. This information is subject to continuing discussion as part of the consultation process. Legal Discussions have focussed on existing vacancies and consultation **Services** continues with a view to moving from 3 legal teams to 2, with a corresponding reduction of management posts. There continues to be ongoing discussion regarding the composition of the teams that will exist within legal services given the nature of the changes to the rest of the organisation. Management stated that some legal work will reduce due to the reducing nature of the some of the departments & the council's priorities facing Adults & Children's services. Between now & April 17 there will need to be an element of retraining within legal services as the balance of skills required changes. **Environment** With regard to the vacancies in Waste which had been identified (12) and Sport Management have now confirmed with the TUs that they will be moving to appoint back fill on an agency basis. This is with the aim of meeting the requirements of the service and still ensuring that the TUs felt that their current members were being protected in terms of possible job loses at a later date. The TUs are aware that work is progressing to analyse the casual usage, specifically in libraries, with regard to concerns about the excessive use of casuals. Chief TUs are still concerned that the information regarding 2017/18 budget proposals in the Chief Executive's office has had no detail provided **Executive** but the Trade Unions are aware that Management are still formulating plans and will share details as they become available. Human Consultation remains ongoing. Resources Proposed structures have been tabled. No issues outstanding

# ADDITIONAL TRADE UNION FEEDBACK ON THE EXECUTIVE'S BUDGET PROPOSALS FOR THE 2016/17 AND 2017/18 COUNCIL BUDGET

#### General Comments

- Weekly departmental consultation meetings have been held.
- Management have shared the budget line proposals and provided details of what the staffing impact is likely to be together with information on VRs and vacancies and have received some comments and feedback from the TUs and staff.
- Information on the department's secondments, temporary contracts, honoraria payments, casual workers and consultants has been provided.
- There was a final consultation meeting on the 18<sup>th</sup> February and an overview meeting on the 11<sup>th</sup> February.
- Management acknowledge the trade unions continue to have concerns about the number of agency, temporary and casual workers and consultants and has responded to these general concerns as follows:-
- The Council has already committed to, and has been actively engaged in, looking at ways to avoid compulsory redundancies, wherever possible and this will continue.
- We will continue to seek to redeploy staff at risk of redundancy to suitable posts including those covered by agency workers.
- Controls have been in place for a considerable time on the use of agency workers and the external advertisement of vacancies. All posts are advertised 'internal only' in the first instance.
- A review of the use of casual workers has commenced.
- However, TUs will appreciate that the Council cannot and will not:-
- Breach the statutory rights of temporary and fixed term employees.
- Terminate with immediate effect all the above arrangements for individuals providing essential work for the Council. Such a decision would result in the enforced closure of services such as children's centres, adult residential homes, recreation centres, Libraries, Theatres etc.
- Management will continue to consult the trade unions about ways of avoiding redundancies, including on these staffing and resourcing concerns, during the further consultations on implementation of the Council budget decisions.
