The quantitative and qualitative information is interpreted to establish the needs of the Ward. The Assessment also includes information about community strengths and resources available to address the Ward needs.
- 2.4 The purpose of the six wards plans is to set out a clear list of priority issues (for which there is evidence of wide support) that should be addressed in 2015-2016 in order to improve the social, economic and environmental conditions within the Bradford West Area. The Ward Plans will be the subject of a refresh on an annual basis.
